MERCHANTS AID BOY SCOUT FUND

Directors Take Lead in Rotary Effort and Pledge Sum to Movement — Protest Bill; Talk Sugar.

Great Falls merchants took the lead in financing the Boy Scout movement in this city at the monthly meeting of the directors of the Merchants association held at the palm room of the Hotel Rainbow Monday noon. A substantial fund, the amount of which the directors were not prepared to make public, was voted to the scout subscription campaign to be conducted by the local Rotary club. Allen McLean brought the matter to the attention of the directors and he was named chairman of a committee including Fred Perra and C. Terrel to aid in the scout campaign.

The directors went on record as opposed to the Siegel "cost price" measure now before congress which would require the most price to be marked on all articles for sale. It applies to manufacturers, retailers and jobbers. Messages protesting against this measure were sent to the Montana senators and congressmen. Following the discussion as to the local sugar situation it was decided to have a committee headed by Clarence Conrad, devise additional protection measures locally. This committee planned to meet Monday afternoon but was unable to get together. Local merchants declare there is sufficient sugar in Great Falls to supply the local trade until more is received but a number of residents are writing to local friends asking them to send them sugar purchased here. Unnecessary hoarding is what the merchants aim to prevent and it is possible that the present limit of 10 pounds to a customer may be reduced or measure taken to prevent persons from buying a number of small quantities from different dealers.

Eastern Investors Are Very Willing to Buy Montana Lands

Helena, Oct. 13.—Sensational stories of drought conditions in Montana have failed to injure the state's reputation with prospective buyers of farm lands, according to the number of inquiries received at the office of Chas. Recently Wisconsin has taken the lead and a large number of farmers there have written to Mr. Greenfield saying they want additional information and that they have the money to pay for lands which suit them.
