Mrs. Frances Hewitt Bowne.

After seven years of life together in obscurity, Jordan Lawrence Mott III, who now announces that he has "reformed," and Mrs. Frances Hewitt Bowne have been located on Catalina Island, in the Pacific about 30 miles from Los Angeles harbor. In May, 1912, Mott and Mrs. Bowne, who were both married, eloped and went to Hong Kong. They spurned all entreaties to return. Mott is a grandson of the late millionaire founder of the Mott Iron Works of New York. Mrs. Bowne was a society leader of Flushing, N. Y., when she ran away with young Mott.

HUNGER STRIKE OF RADICALS IS THING OF PAST

All But Five Succumb to Appetites When Gong Sounds.

New York, Nov. 29.—The hunger strike of the "Ellis Island soviet" is broken. All but five of the 68 radicals who had refused to eat since last Monday evening eagerly answered the call to the dining room for breakfast. After a five-day fast they were ravenous and were first in the immigrants dining hall. They devoured prunes, music, bread, substitute butter and coffee, and asked for more. Second helpings were refused, however, not only because one was considered adequate, but the radicals might have made themselves ill by eating too much. Those who continued the hunger strike included Ethel Bernstein and Dora Lipkin. They were the only women on hunger strike. The silence strike of the 68 also had collapsed. Word that the department of justice was providing the island with eight husky guards to force them to attend deportation hearings before immigration inspectors was brought to the radicals by their counsel. The guards had not arrived but the inspectors found no difficulty in getting radicals to go from the detention room to the hearing room.

BOLSHEVIKI WIN ESTHONIA INTO PEACE MEETING

Probable Lithuania and Letvia Will Also Join in Confab.

London, Nov. 29.—The Estonian government has announced that peace negotiations with soviet Russia will be begun at Dorpat on Tuesday next, December 2, according to a wireless dispatch from Moscow. Although Estonia only is mentioned by the bolsheviks regarding the impending negotiations at Dorpat, it seems not improbable that both Lithuania and Letvia will join in the first peace negotiations of moment to be held by the bolsheviks since their historic conference of 1917, with delegates of the central powers, which led to the peace of Brest-Litovsk. DEMAND RELEASE OF RUSSIANS IN ITALIAN PRISONS

Socialists Declare They Will Provide Work for War Veterans.

Rome, Friday, Nov. 28.—(By the Associated Press.)—The directorate of the socialist party has written Premier Nitti demanding that Russian prisoners taken over by Italy from Austria-Hungary be released unconditionally. The socialists say they will undertake to provide work by which the Russians may support themselves if they desire to remain in Italy. They also demand that the government negotiate with the existing Russian governments for the repatriation of the prisoners. The Russians are interned on the island of Asinara, off the coast of Sardinia. The socialists claim that the Russians are being unjustly treated, Italy not being at war with Russia. It is pointed out besides, that these Russians fought with the entente against the central powers. The letter accuses the government of co-operating with the "czarist dictators,"

Kolechak and Denikine, by permitting the Russian military mission in Italy to conduct propaganda among the prisoners for the object of inducing them to enlist in the Kolechak and Denikine armies. The propagandists are charged with using inhuman means to coerce the prisoners.

Mr. Sollid invested heavily in Alaskan property, and has great faith in the future of that territory, but states that Montana is the only place he cares to make his home.

Cold Weather Stops Work on New Dam

Special to The Daily Tribune. Conrad, Nov. 29.—Work has been suspended on the big irrigation dam being built by Graham and MacLean, on Spring creek, west of Conrad, on account of cold weather. This is one of the largest private irrigation projects attempted in this section of the state, and when completed will irrigate more than a thousand acres of fine lands on the big ranch belonging to these progressive farmers. It was hoped to get the dam completed this fall, but the early winter stopped operations.

FORTUNE TELLERS PLANT GREEN DEMON IN BREST OF WIFE

Tell Her of Husband's Infidelity Whereupon She Haunts His Steps.

Watches Him While at Work and Causes Him to Lose Employment.

Chicago Tribune Special Dispatch to Great Falls Daily Tribune. Chicago, Nov. 29.—For 20 years Frank Engels, aged 58 and Mary, his wife, had been living together in relative harmony. Then as suddenly as a rise in street car fares, disaster came. "I'm going down town with you today," said Mrs. Engels, one morning, a year ago. "Why?" "Don't ask me why, you wretch. I know about your other woman." She went. She followed Engels to work and hung about outside his office all day. Every time Engels looked up he saw his wife peeping around the post, across the street. After a few days Engels' employer noticed the watching wife, Engels was fired that afternoon. At the next place

it was the same. And the next. And the next.

Finally Engels left his wife and retired rooms. But he didn't shake off his watcher. Wherever he went Mrs. Engels followed. She lurked behind posts and around corners—always watching. Engels told Judge Sheridan E. Fry about it in court of Domestic Relations today. "I've never done anything wrong," he said, "and she's never caught me at anything. But I can't convince her." "Certainly he can't," said Mrs. Engels. "I know."

"How do you know?" the judge asked. "Fortune tellers told me."

"Wh-a-at?" "Fortune tellers exposed him. I went to lots of them. They all told me my husband was running around with other women. One said he had bought a hat for a blond woman."

"Right there another seance started. Mrs. Engels got a free reading. And the substance of it was that a strange dark man, in blue clothes, and a star, would come into her life if she didn't return to her husband and stop consulting fortune tellers. The Engelses went home together.

Community Meet of Lohman People

Special to The Daily Tribune. Chinook, Nov. 29.—The people of Lohman celebrated Thanksgiving day with a community dinner given at 6 o'clock at the hotel by Mr. and Mrs. James Evey. Each family helped contribute something for the dinner, which was attended by about 50 and a fine time was reported. After the dinner the guests indulged in singing until about 9:30 when they went to the hall to spend the remainder of the evening in dancing.

GREAT FALLS TIES SPOKANE

Gets as Many Navy Recruits as City Several Times Larger.

Local Office Secures Only Two Less Enlistments Than Salt Lake City.

In the intensive recruiting campaign recently made by the United States navy Great Falls signed up as many recruits for this branch of the service as Spokane, a city twice its size and population, and only recruited two less than the main station at Salt Lake. The last is a very favorable comparison for the work done by Chief Gunner's Mate W. F. Wolf, officer in charge of the local recruiting station, since there were at least 25 men in Salt Lake working that field for recruits. Great Falls also led all other substations in this district in newspaper publicity.

Great Falls recruited 15 men out of 45 applicants which was also a good percentage. Spokane enlisted 15 recruits tying with Great Falls for first place in recruits received by all substations of this district. Oakland, California, won second honors with 14 recruits while third place fell to Bisbee, Arizona, with nine recruits.

Navy Needs Officers.

Men enlisting in the navy will be given unusual opportunities for rapid advancement owing to the great need of officers in this branch of the service. The navy now has 3,000 chief petty officers of the 7,435 needed, and only 19,000 petty officers of the 53,000 allowed for the present authorized personnel. A recent report compiled by the secretary of the navy found 98 per cent of the petty officers, mostly men who had been promoted from the ranks, who were given commissions, had proved their worth.

From January 1, 1919 to November 1, 1919, there have been 58,000 first enlistments; 12,000 re-enlistments; 17,018 men extended their original enlistment; 2,000 reserves transferred to the regular navy. At present there are 113,257 men in the regular navy and 3,200 reserves on active duty. The law allows 131,000 men at the present time, so the shortage is about 74,500 men.

Electricians Scarce.

In a letter to the navy department, the commanding officer of the New Mexico states that there are vacancies for three times as many electricians as are now aboard that vessel. These electricians have charge of the propelling machinery, and they are experts in a new and novel branch of marine engineering. They will be away in the lead of operating specialists in this calling when electric propulsion becomes more general.
