HOMESTEAD LAND GROWING SCARCE

Areas Remaining Vacant in This District for Most Part Undesirable.

In closing the books of the local United States land office for 1919, Register Joseph A. Barker reports the business for the year somewhat less than in 1918 and that owing to the settled condition of this land district, land office business will never again be as good for the local office as it has been in years past. The sales of isolated tracts of land conducted recently has greatly diminished the desirable land holdings until now there remains in this district only about 75,000 acres of unsettled land, the greater part of which is undesirable even for stock grazing. Mr. Barker further reports that there is scarcely any vacant land left in this district desirable for homesteading.

Because of the drought situation 250 homesteaders have been granted leave of absence from their claims until spring. The entries for 1918 numbered 7,184 while only 2,488 were made in 1919. Land office receipts for 1919 were \$56,974.23. In December, 1919, there were 121 land entries filed compared with 185 the same month in 1918.

FOOLING WITH HEALTH SERIOUS

I have frequently asked druggists "What do you push in a blood medicine?" The answer usually came, "The kind I can make the most money on." My answer has always been "Not me." I have succeeded pretty well and I have always recommended the one that I had found by experience to be the best and the one I would be willing to take myself or give to members of my own family. I have never offered the public a medicine that we do not use at home. This is why I can offer "Number 40 for the Blood" with a clear conscience; we have not only tried it on thousands of others, but on ourselves. We take it in all cases where a blood medicine is needed, no matter in what form it shows itself and we get splendid results in constipation, kidney, stomach and liver troubles. I firmly believe if everyone would begin in the spring and take "Number 40" they would escape malaria and fevers in all forms. J. C. The Ulm irrigation plan is to pump water from the Missouri river in the vicinity of Ulm, to water 10,000 acres of land. At the Theaters This Week

"THE MIRACLE MAN" COMING TO THE SEXTON.

Hailed by critics as one of the greatest motion pictures ever produced, the Paramount-Artcraft feature, "The Miracle Man," will be displayed at the Sexton theater Thursday, Friday, Saturday and Sunday, next. It is the screen version of George M. Cohan's play that scored so emphatically on Broadway some months ago, and which in turn was based on Frank L. Packard's famous novel. No picture in recent months has had so much praise lavished upon it for the dramatic quality of its story, its keen characterization, and beautiful photography. The story of "The Miracle Man" centers around an old patriarch of the hills. To him come a band of unscrupulous crooks from the slums of New York who have conceived the scheme of rapplating the healer's gift and taking the money for themselves. What follows is one of the most absorbing stories ever unfolded on the screen.

For this Sunday and tomorrow the Sexton is showing "The Imperial" production "Behind the Door," featuring Hobart Bosworth, Jane Novak and other leading performers, all of whom are well cast in this great picture story. With this will be shown the comedy, "The Seal of Secession," which is being taken from the famous David Belasco stage success. It will be on at the Imperial Tuesday, Wednesday, and Thursday.

THEBA BARA AGAIN IN "LA BELLE RUSSE."

Answering the general question "Is Theba Bara Dead?" the Imperial theater management will this week seek to put on the William Fox production "La Belle Russe," said to be the latest play in which the popular star, who has not been heard from in productions for some time, has taken part. This picture is taken from the famous David Belasco stage success. It will be on at the Imperial Tuesday, Wednesday, and Thursday.

Constance Talmadge is to be on at the Imperial today and Monday in her delightful comedy "Happiness is a Mode," which made its first showings yesterday and which has been provided with a most unusual plot and a little dash of drama. It is a brand new and wholesome version of the story of youth and its inevitable conflict with the realities of life.

ATTACH HOTEL AT G. F. PARK

Byron DeForest Takes Action in Effort to Collect From Tex Hunter.

Taking another angle of attack to get some money on the judgment obtained against Tex Hunter by John O. Green and others of the vicinity of Power, Byron DeForest, present owner of the judgment by assignment has now attached the Great Falls park hotel and refreshment parlor and proposes to determine who owns that. He believes that it is Tex Hunter and goods found there will be sold under the order of attachment on next Thursday, January 8. DeForest wants to collect something more than \$2,200 and the attendant costs.

Acting under the attachment writ, DeForest, accompanied by Deputy Sheriff W. E. Splan went to the Great Falls park on Friday and made an inventory of all goods found there. Hunter was not there at the time but Mr. DeForest was informed that both Mr. and Mrs. Hunter had been there only a short time before.

"Moonshine" on List.

In making the inventory, there were sundry articles found. In the list appeared the item "seven cases of beer." Mr. DeForest says he did not sample the beer, but assumes that it is of the "non-alcoholic" type. He did find one thing that had a kick to it, however, and that was listed in the inventory as "moonshine whiskey." DeForest says when they reached the cask containing it, the man in possession of the place said to him: "There's no use of lying about it; this is moonshine whiskey."

DeForest says that after the attachment had been laid against the goods it became necessary for him to return to the city to arrange for a keeper to be put in charge and that when he went back to the place he was told that during his absence Tex Hunter had again been a visitor at the park. The man who was there when the deputy and DeForest arrived was made the keeper. According to his report to the officer Saturday, there wasn't a cent in trade on Friday evening, though he declared to DeForest, the latter says, that business there had been running from \$50 to \$150 every night.

An Old Judgment.

This is the same judgment which resulted several months ago in several gallons of whisky alleged to belong to Hunter but ownership in which he denied, being grabbed by the sheriff. It was later made the object of attachment by DeForest and is still in the custody of the sheriff. A bond for the whisky has been filed by DeForest and now proposes to fight the matter of ownership in court as a third party claimant in the person of Ralph Bachant has entered the contest.
