Ask your druggist for "Compound Spirits of Juniper."

He can get it if he wants; it's a good thing—

So be careful and don't let too many in on it.

If It Pleases the Court

You say you can't be pleased in ready-to-wear clothes. Who told you?

You've never had to have a Pullman seat rebuilt to fit you, have you?

Your tooth paste wasn't compounded especially for your teeth, was it?

You've never turned down a piece of home-made pie—kicked at running to a fire—yawned at a "Douglas Fairbanks"—or stormed at seeing your name in the society column—have you?

You are just a regular good fellow, aren't you? No better or worse than the average—aren't that right?

Your friends wear Ready Clothes, and look well—don't they? You would too—if you tried the right kind—will you?

That last question is so important that we are going to ask it again, may we?

Will you drop in the next time you are passing?

If so, we'll show you suits at \$65.00 and \$75.00 that to equal you'd have to pay \$100 to \$115 for.

No harm in trying on a few coats, is there?

All right then, when can we expect you?

MURPHY IS WINNER OF FIRST EVENT ON LOS ANGELES TRACK

Made 250 Miles on Speedway at Average of 103.2 Miles Per Hour; Gets Big Purse.

Los Angeles, Calif., Feb. 28.—Jimmie Murphy, long known to automobile racing men as a mechanic, made his initial western appearance as a driver today at the Los Angeles speedway and captured the 250 mile opening event there, thereby annexing \$10,000 first prize money. Murphy came from behind when Joe Boyer, who had been out in front for 44 laps, was forced to the pits by a broken connecting rod that put him out of the race.

Murphy's time for the 250 miles was 2 hours, 26 minutes, 17.69 seconds, or an average speed for the distance of 103.2 miles an hour.

Ira Vail came in second, capturing \$6,000 prize money, and Joe Thomas was third, winning \$3,000.

The race was not marred by any serious accidents. A thrill was sent through the stands when Art Klein and his mechanic did a skidding act on the end turn of the big oval, after a front wheel had dished. The car rocked and bounced along, throwing both of them clear, and finally subsided. Neither man was hurt.

THE PESSIMIST

No doubt you've seen a pessimist. (They've got some everywhere.) He is a black sheep of the race, For him there's nothing fair. He is a specimen of that breed That's sad, and never gay— He is the one who hates the night, And doesn't like the day.

They've got all kinds of pessimists, Some mild, and others bad; They come in queer, assorted groups To make this old world sad. If they would come into my store They'd find it worth their while, They'd see the bargains that I have And they would have to smile.

It would take a whole newspaper to tell you all the good points of our clothes. The boiled down facts are that we sell only reliable, dependable, satisfactory clothing at the lowest possible prices. Our styles are correct and the patterns and cloth are selected with great care. You can depend on us to give you full value—always.
