A Bonafide Contribution to the Cause of Economy

\$25.00 Dresses

That will evoke the praises of all women who conscientiously seek to combine smart styles with a sensible price.

Out of the scores of shipments this week each one has contributed a few dresses to this already big assortment—thus bringing the total up to near one hundred of the most adorable models of the season.

Every dress a work of art all its own, many of them are copies of very expensive models, designed by French couturiers.

If you paid \$400.00 for your spring dress it would only be "Just Stylish" and so with these enchanting little Easter frocks, they possess all the style elements known to be in vogue.

The actual raw materials could hardly be gotten together with as little cost as \$25.00 yet we hand you the whole finished beautiful garment at \$25.00.

—Taffeta Dresses worthy of thoughtful contemplation, for the price quotations are the amazing attractions, considered together with the cleverness of each model. There are panniers and distended hips—bouffant or overdrape styles fashioned of splendid chiffon taffeta.

—Vestees of some bright color are often seen, while ruffles and frills treat them charmingly. Majority of them navy blue.

—Wool Jersey Dresses so exquisitely embroidered about front and on overdrape makes an ideal garment for afternoons.

—Then the trim little serge dresses ever ready to don and skip to pleasure or business.

—Tricotine, the aristocrat of the woolen fabrics, grace this group of dresses with their panels and two-piece effects touched with bright trimming.
