New York Market

FINANCIAL. New York, May 7.—Conditions comparable to midsummer dullness prevailed today in the stock market.

Rails were relatively more active than usual at irregular gains. Tentative buying of that division again proceeded on the theory that the federal authorities, as represented by the Interstate Commerce commission, can no longer ignore the claims of the operators for higher rates.

Monetary conditions played no part in the day's business, demand loans opening and renewing over the week at 7 per cent, odd lots advancing half per cent later, while time funds relaxed slightly as to offerings.

Reports that the war finance corporation would soon discontinue making loans to aid foreign commerce and the recommendation of the federal reserve board to aid foreign commerce and favoring further credit restrictions were not helpful to the market.

In the main, the bond market was steady, rails strengthening and liberty issues scoring further recoveries, especially the 3 1/2's. Total sales (par value) were \$13,375,000. Old United States bonds unchanged on call.

Final prices today were: 3 1/2's, \$90.90; first 4 1/2's, \$85.10; second 4 1/2's, \$85.22; third 4 1/2's, \$86.68; fourth 4 1/2's, \$85.70; victory 3 1/2's, \$86.06; fourth 4 1/2's, \$86.04.

Stock Market

as seen by Bulls & Bears

Reported by H. B. Lake & Co. New York, May 7.—The dealings were on a much reduced scale and outside participation in the market meager.

The character of the trading was in keeping with this meager total, half a score of the usual favorites in the steel, equipment, motor and oil groups making up considerably more than 50 per cent of the whole.
