NEW TOYS AT THE PARIS

Our toy buyer visited the big toy fair at New York in February where many new toys that were exhibited were sold up without giving those who were not present a chance to buy them. Fortunately our buyer being on the spot secured toys that will not be on the market for another season at least.

Space is too brief to give a full account of all the wonderful action toys, walking toys, airplanes, steam engines, fort guns, dolls, and dollies' furniture and one thousand or more other fine toys for girls and boys. Come down today and see Santa Claus.
