Four Women Arrested; Forfeit \$250 to City

Martha Gerard, landlady at the Electric hotel, and three women found in her place early Saturday morning were picked up in a raid by Sergeant D. T. McElliott and Officer Herman Rydell and taken to the police station on charges of keeping a disorderly house

and vagrancy. The three guests gave the names of Mattie Smith, Myrtle Ward and Vivian Burns and were each released under \$50 bonds to appear at the afternoon session of police court. Mrs. Gerard placed a \$100 forfeit against her appearance, but with the others failed to respond.

The Salic law which bars females from succession to a throne does not operate in Spain.

2 MADE MEMBERS OF TECHNICAL CLUB

Lyle Cleveland and Bruce Cruickshank Explain Inventions.

Lyle Cleveland as his initiation feat explained to the members of the high school technical club by speech and a diagram the workings of a letter sealer and stamper he is striving to perfect. Bruce Cruickshank explained how photographs could be sent by wireless. Both boys were taken into the club. The regular weekly meeting took place Friday evening at the high school.

Students are taken into the society by proving their interest in scientific subjects, in showing some mechanical device they have made or by presenting an original paper on some scientific subject.

Model Airplane
Already one of the members, Carlos Livers, has produced a model airplane that has, A. B. Tootell, faculty advisor of the club says, possibilities. At the meeting Friday night Livers explained the workings of the airplane.

Llewellyn Wright told some interesting facts about liquid air, and Kenneth Bailey explained the workings of the Joby aero system of undamped oscillations.

Wireless Aerial Aim
A wireless aerial is now the ambition of the club. Four hundred feet of copper wire has been donated by the officials at the R. and M. smelter. Insulators have already been sent for, and members of the club are donating other parts of the apparatus. It is proposed to place the aerial on the flag staffs where, because of its elevation, it will be possible to receive messages from either coast.

The club has a membership of 15. Its purpose is to encourage the knowledge of technical subjects among club members and the students of the school. The officers are: Elton Merwin, president; Kenneth Bailey, vice president; Llewellyn Wright, secretary; and A. B. Tootell, treasurer.

\$5 Filing Fee Paid by Appointive Officers Not Legal, Says Ford

Helena, Nov. 20.—Attorney General S. C. Ford, in an opinion rendered to C. T. Stewart, secretary of state, ruled Saturday that state officers, whether appointive or elective are not required to pay a \$5 fee to the secretary of state for filing of commissions. It is understood the fee has been charged appointive officers in the past, but has not been charged to elective officers.

Shrine Patrol Drills for Helena Ceremony

Company D, Shrine patrol, will begin a course of drills tomorrow (Monday) night in anticipation of the opening of the new mosque at Helena, at which the patrol will have an important part. F. W. Stratton, captain of the patrol, has asked all members to attend the drills and has issued an invitation to all Shriners to join. Company D will give a series of dances at the Masonic temple during the winter.
