### GEORGE RUNS POPULARITY CONTEST FOR A NEWSPAPER AND THEN FALLS FOR THE WINNER; HE'S IN JAIL NOW

George Wilcox managed a popularity voting contest for a newspaper in Billings, a few weeks ago. One of the winners was the 18-months' bride of a young druggist at Powell, Wyo., who immediately became popular, also, with George.

Mr. Wilcox is now in the Cascade county jail, after being arrested Friday night in a Great Falls hotel with the winner of his newspaper popularity contest. The popular favorite of Billings and its vicinity left last night on an east bound train from Great Falls with her druggist husband.

No charge under the Mann act can be laid against Wilcox, for the woman in the case admitted that she left her husband to visit relatives in eastern Washington and returned to her own expense to Great Falls to meet Wilcox. The husband of the woman in the case verified her statement by additional detail, among which is the fact that he discovered her whereabouts through a traveler's check cashed in Spokane.

Disposit on on the part of the authorities is to let the case drop. Mr. Wilcox did the proposing but his paramour took only acquiesced but paid her way on the railroad trains. Also, the young woman declared before she left her unwillingness to return as a witness against Wilcox if only a minor charge of immoral conduct was to be placed against him.

### VALUABLE JEWELRY IN BURGLAR'S LOOT

Home of J. E. Campbell, 1315 First Avenue North, Entered Friday Night.

Without leaving a trace by which they could be identified, burglars forced an entrance to the home of J. E. Campbell, 1315 First avenue north, Friday night by removing a window screen, and stole jewelry valued at several hundred dollars. None of the missing jewelry was located Saturday, but the police believe it eventually will be traced because of the ease with which it can be recognized.

Included in the loot was a ladies' gold watch with the words "Corra from Mother, January 6, 1904," on the back and the initials "C. B. D." on the front. A small diamond was set in the front case. There was also taken a pearl ring, an opal ring, a brooch, star-shaped and with ten pearls and a diamond in the center; two silk shirts, a number of pairs of stockings and 14 quarts of canned cherries.

The burglars who entered the Campbell home are believed to be the same who attempted the same night to force their way into the Pfister bakery, 708 Eighth street north. Marks were left by their tools on several windows and a rock was hurled through a kitchen window. The burglars would have entered through the hole had it not been for a cabinet sitting in front of the opening.

### Blaine County Board Elects James Claridge Chairman for Term

Special to The Daily Tribune.

Chinook, Jan. 8.—James Claridge was elected chairman of the board of county commissioners at their first meeting of the new year, Monday, J. Lee Sedgwick is the new member of the board, succeeding John W. Archer, who was not a candidate for re-election.

Only two other changes in county offices took place. W. R. Schofield, the successor to C. R. Noyes, entered upon his duties as assessor, and Harry Becker appeared in the sheriff's office as the successor to J. L. Lawwell. G. W. Fleming, deputy sheriff under Lawwell, has been made under sheriff by Mr. Becker, while Ike Duncan, who served under Lawwell's regime also has been made deputy sheriff. All other county officials were in their offices last year.

Charles A. Rose, the new district judge, who succeeds Judge Carleton, is expected in Chinook January 10, the regular law and motion day.

### Roundup Will Form Improvement District for Fire Protection

Special to The Daily Tribune.

Roundup, Jan. 8.—At a meeting of the city council Wednesday night it was shown that fire fighting equipment costing about \$2,000 was necessary to protect the efficiency of the fire department, and also that the revenues of the city were insufficient to pay this amount. Accordingly the formation of an improvement district was suggested in the same meeting.

Lighting and other improvements are made, and this plan will be adopted.

Under the constitutional limit of levy, and the reduced amount of the valuation subject to tax, the revenues of the city have been decreased to such a point that the city will be seriously embarrassed in carrying on their regular activities.

Ordinances covering the sale of liquor, giving fire apparatus right of way during a fire, and for enforcing fire hazard regulations, were also introduced. The first is expected to bring a considerable revenue to the city treasury.

### STERLING SYNDICATE BUILDS DYKE TO STORE WATER

Special to The Daily Tribune.

Lewistown, Jan. 8.—Edward Sutter, treasurer of the Sterling Syndicate, left for the Cat Creek field Saturday and while there will get out the material to the company's location for a camp and superintendent of the construction of a dike to hold water in a coulee for drilling purposes.

### Tree Expert Ends Auto Stumping Trip in Southern Alberta

Edmonton.—(Correspondence of the Associated Press).—On a thousand-mile tour through southern Alberta in an automobile equipped with a planing and tree exhibit, Archibald Mitchell has preached the gospel of tree planting on the prairies to 10,463 people this fall. He conducted his education campaign under the auspices of the Canadian Forestry association.

He is the first tree missionary ever to make an automobile stumping trip through the Canadian west, but his success has been so great that the forestry association has decided to make such a tour an annual event. The purpose is to give prairie farmers and townspeople instruction in the planting and culture of trees to embower their homes in shade, beautify the landscape and furnish wind-shelters for livestock.

Five million tree seedlings are distributed each year from the Dominion government's nursery at Indian Head, Sask. It costs the government one or two cents each to grow the seedlings and farmers get them for the asking. They are planted under direction of government experts who supervise their culture for two years. Ninety per cent of trees planted in the last 10 years have lived, according to the forestry association.

### OIL BRINGING MONTANA 18 MILLION YEAR

Value of Cat Creek Sector's Monthly Flow Is Set at \$1,500,000.

Lewistown, Jan. 8.—According to Sam W. Teagarden of the Lewistown Oil Fields News service in a statement made Saturday, the total production of oil from the Cat Creek sector which reached 92,000 barrels in November, as shown by the United States geological survey, was increased in December by 75 per cent. This production, however, does not represent the capacity of the 10 flowing wells that had been brought in up to the close of 1920.

\$1,500,000 Monthly Production.

Mr. Teagarden says that at the present price of oil, \$3.10 a barrel, the value of the combined present production capacity of the 10 wells is \$1,500,000 a month, or \$18,000,000 a year.

Lack of pipe line facilities from the field to Winnett, the nearest railway station, has kept the production way below the capacity of the wells. It is believed that it will soon be necessary to lay an eight inch pipe line in addition to the two inch and four inch lines now being used. The new line would increase the amount of oil delivered to the railroad tank cars by 25,000 barrels daily.

Daily Production 16,700 Barrels.

In his statement, Mr. Teagarden enumerates the producing wells, giving depth and reputed production, as follows:

Frantz No. 2, depth 1197 feet, production 2,000 barrels daily; 56 Teagarden, depth 1296 feet, production 1,200 barrels daily; West Dome, depth 1351 feet, production 500 barrels daily; Mid-Northern No. 2, depth 1310 feet, production 1,000 barrels daily; Frantz No. 3, depth 1180 feet, production 2,000 barrels daily; Montcalm, depth 1276 feet, production 2,500 barrels daily; Frantz No. 4, depth 1180 feet, production 3,000 barrels daily; Great Western, depth 1356 feet, production 500 barrels daily; Frantz No. 5, depth 1135 feet, production 1000 barrels daily. This is a total daily production of 16,700 barrels.

### UNCLAIMED GOODS BRING HIGH PRICES

Roughly Dressed Crowd Bids Recklessly at Storage Company's Auction.

Judging by the reckless manner a roughly dressed crowd of about 500 people bid on apparently worthless articles, especially unclaimed trunks and boxes, offered for sale by L. E. Stiles, auctioneer, at the Wilbur Transfer company's auction of unclaimed and unclaimed storage goods Saturday, there is plenty of money in Great Falls.

The bidders seemed to think they might find diamond brooches or moonshine liquor, and the trunks and boxes which were brought to the stand sold for a good price. Several pieces of furniture were offered and the crowd took particular interest in them. One large oak roll top desk sold for \$35, and an ungaraged filing cabinet brought \$65. Other articles of furniture were chairs, a china cabinet, beds, book cases, show cases, a sewing machine, baby carriages, two victrolas and one piano. The piano was an Estey and sold for \$81 and the larger victrola was auctioned for \$13. Household goods were received with much interest and high bidding. Four 50-pound drums of coffee went for 20 to 24 cents a pound. Other miscellaneous articles such as books, musical instruments and cooking utensils, were on the list.

Prominent in the bidding was Colonel Ferris from Collins, Mont., who was purchaser of many articles of household furniture and three boxes of books.

### To Discuss Oil Tax at Proposed Meeting in Lewistown, Jan. 15

Lewistown, Jan. 8.—It is expected that a meeting of all persons in the state who are interested financially in the development of Montana's oil resources will be called for this city January 15 to effect a permanent organization to function in matters of legislation and for the general welfare of the industry.

In view of Governor J. M. Dixon's recent recommendations to the legislature that a tax of three per cent be levied upon oil production within the state, it is believed by oil men here that legislation should be based upon the fullest and frankest interchange of opinions of those financially interested in the industry.

### RAVINE NEAR DEATH Cabin Gives Up More Moonshine Whisky

Butte, Jan. 8.—The only new development in the investigation into the deaths of Joseph Knopf and Jack Cook at a cabin on Gold creek last week was the finding Saturday of more moonshine liquor in a ravine about a quarter of a mile from the cabin. Frank Briggeman who was held by a coroner's jury for the death of Knopf, will be called to testify in the coroner's inquest into the death of Jack Cook Monday.

### VACCINATION RUSH SWAMPS DOCTORS

Health Office Does Big Business Because of Possible Smallpox Epidemic.

Mothers in Great Falls evidently became frightened Saturday, after reading the account in The Tribune of the possibility of a smallpox epidemic sweeping the city, lest their children become afflicted with this disease and so from early morning until closing time Saturday afternoon the public health office was besieged with children for vaccination.

Dr. A. Dolan was also called out during the afternoon to vaccinate children in homes where it was impossible for them to come to the offices in the Stanton bank building.

No more smallpox cases were reported to the health department Saturday. One other patient was brought in and placed in the detention hospital from the county.

During the last week 56 cases of measles were reported in Great Falls; 17 cases of chicken pox, 46 cases of mumps, 12 cases of whooping cough, 2 cases of tuberculosis, 2 of scarlet fever, 1 case of pneumonia and 4 cases of smallpox.

Jamaica has two rainy and two dry seasons a year.
