Eureka High Defeats Flathead County High at Basket Ball, 16-13

Special to The Daily Tribune. Kalispell, Jan. 9.—The Eureka high school basket ball team defeated the Flathead high in a fast game here Friday night, 16 to 13. The local hoop artists recently defeated the Libby team and they expected an easy victory over the Eureka team, which had been defeated by Libby. The Eureka team developed unexpected strength, however, and outplayed the local team.

LIBBY HIGH BASKETBALL TEAM PLANS WESTERN TRIP. Special to The Daily Tribune. Libby, Jan. 9.—The Libby high school basketball team will leave next Tuesday for its annual western trip, under the management of Coach A. H. Baker. Four games will be played on the trip, as follows: Sand Point, Rathdrum and Bonners Ferry, Idaho, and Newport, Washington.

CUNNINGHAM'S MEN VICTORIOUS In a volley ball set at the Y. M. C. A. Saturday night, the team captained by Cunningham defeated Pennie's team in two out of three games. The scores were 15 to 11, 15 to 5 and 11 to 15.

Miners Ask Million to Carry on Strike in South and East Indianapolis, Ind., Jan. 9.—To carry to a finish the strike of the union coal miners in Alabama and the fight against what is termed "the lockout" in Mine county, West Virginia, the United Mine Workers of America has sent letters to the 4,000 local unions in the country, leaving an assessment of one dollar a month for two months on the entire membership, numbering 553,000, according to an announcement made at international headquarters here.

PEACE IN BASEBALL SEEMS PERMANENT AS MAGNATES MEET

Majors and Minors Ready to Sign Agreement, Accept Landis as Commissioner.

Chicago, Jan. 9.—Possibility of a further disagreement in professional baseball, either between the two major leagues or between the majors and the minors, apparently was swept away Sunday through statements of policy made by representatives of the two groups which indicated that the joint meeting to be held Wednesday would find them in agreement upon all points in the reorganization of the game.

President Johnson of the American league permanently set aside rumors that another fight might break out between the National and the American leagues over the proposed new national agreement by officially announcing the agreement drawn up in New York which makes Judge Kinsaw Mountain Landis commissioner of baseball with supreme powers.

Concessions To Minors. President Johnson and other major league representatives also signified their willingness to concede points demanded by the minor leagues so the smaller organizations could join in the reorganization.

The National league, which was instrumental in furthering the reorganization movement, already had signified its approval of the New York agreement and President Johnson's statement thus assured its acceptance.

The chief demand of the minors concerned representation in the government of the game with assurance that a baseball commissioner who would meet their approval would be selected to succeed Judge Landis when his term expires, seven years hence.

Give Minors Voice. President Johnson said that all of the baseball club owners he had talked to were willing to give the minors a voice in the selection of any future baseball commissioner and that national league club owners had expressed the same opinion.

George Maines, M. H. Sexton, and other minor league representatives who have been leaders in the movement not to sign any agreement unless it gave the minors what they considered a "fair deal," said statements which had been made by President Johnson and major league club owners "apparently cleared the way and assured a peaceful settlement of all differences at the joint meeting Wednesday."

Great Falls Players May Enter Tourney of N. W. Handballers The Great Falls Y. M. C. A. may be represented in a Northwest Y. M. C. A. handball tournament if the handball committee of the association here acts favorably on an invitation received from D. Orville Ferrell, physical director of the Spokane Y. M. C. A.

Mr. Ferrell is negotiating among the associations of the Northwest to get a handball tournament at the Spokane courts early in the spring. It is not yet known how many teams would enter the contest.

There are several good handball men at the Y. M. C. A. here, several of whom played on last year's team in the state tournament and should the association decide to send a team to Spokane meet it could probably put forth a strong team.

The association handball committee, to which Mr. Ferrell's invitation has been referred, consists of R. P. Jackson, Alex. Remmes, Julius C. Peters, Dr. J. N. Hardin, Bob Gordon and Roy Jardine.

Babe Ruth Memorial in School for Boys Is Cardinals' Wish

New York, Jan. 9.—Cardinal Gibbons has proposed a memorial to "Babe" Ruth champion home run hitter, instead of accepting a similar honor himself. In a letter read Sunday at a meeting of the supreme board of directors of the Knights of Columbus, the cardinal urged that St. Mary's industrial school of Baltimore, which Ruth once attended, and which was recently destroyed by fire, be replaced by the Ruth School for Dependent and Wayward Boys.

Brother Paul, head of the institution, informed the directors that the citizens of Baltimore had proposed to erect a new cathedral in honor of the cardinal, but that he suggested their efforts be diverted to rebuilding the school.

Kicks to the King, Gets Morning Tea Changed to Coffee Coblenz.—(Correspondence of The Associated Press.)—Sergeant Guyton of "B" troop, American forces in Germany, has the distinction of having his ration changed by direct orders from King George. When the American army's cook team from Coblenz was in England recently, Guyton had charge of the ponies at Aldershot. The king visited the field and was attracted by ponies' blankets bearing the letters "A. F. G." He approached to inspect them and addressed Guyton.

"Well, how are you getting along in England?" The British Tommies nearby standing rigidly at attention, replied: "Oh, pretty well, king, but say, this tea we have for breakfast is fierce—can't you fix it up so we can have coffee?"

The king laughed and addressing one of his aides said: "See to it that these men have coffee hereafter." And the Americans had coffee.

After 72 Years Spent in Suffrage Labors She Continues Fight Berlin.—(Correspondence of The Associated Press.)—Although women now vote in Germany, Minna Cauer, who since 1848 has been a worker for woman suffrage here, still is active and intensely interested in politics notwithstanding that she has just passed her 80th birthday.

Mr. Cauer believes that there still is much work to be done to bring about "the complete democracy" in which women must share equally with men. Frau Cauer was one of the signers calling the first convention of the Democratic party in Germany in 1844. She was a member of that party and organized a campaign to obtain suffrage for women. When seven years old she carried a flag at the head of a demonstration demanding the vote for women.

Jap Ship Combine Now at Standstill, Merger Impossible Tokyo.—(Correspondence of The Associated Press.)—Negotiations for the formation of a great shipping combine to control all the ocean going tonnage of Japan has apparently come to a standstill.

Mr. Hori, president of the Osaka Shosen Kaisha, declares that the difference of the various companies in standing and resources make a merger almost impossible. If the combine included the big companies it would require, in his opinion, to be capitalized at \$400,000,000 and the new arrangement would be cumbersome.

Possibly the end in view may be partly effected by the larger companies buying up some of the smaller and so averting the financial strain which the latter fear if they face the coming competition on their own resources.

RETIRE IF BEATEN BY JACK DEMPSEY, SAYS CARPENTIER

Optimistic Over Result of Encounter but Admits He Expects Hard Fight. Amsterdam, Jan. 9.—Georges Carpentier, champion heavyweight pugilist of Europe, in an interview in the Telegram, regarding his coming fight with the world's champion, Jack Dempsey, expressed optimism over the outcome. He said it would be a hard fight, but that the result was not for him to predict.

He had nothing to offer regarding definite arrangements as to where the fight is to be held. "Whether I retire from the boxing game depends upon the result of the match with Dempsey," Carpentier said. "If I am beaten, I will retire, if not I probably shall go on fighting for some time."

Carpentier said he might meet Frank Moran, of Pittsburgh, before this fight with Dempsey.

To Examine Convicts With X-Ray Is Plan Jackson, Mich.—(Correspondence of The Associated Press.)—The Michigan state penitentiary here has set what is said to be an innovation in prison management by the purchase of an X-ray machine with which to photograph the skulls of inmates and determine if surgical operations might cure the patients of criminal tendencies. This work has just been undertaken at the prison.

When it is found that a portion of the skull is pressing on the brain an operation is to be performed in the prison hospital by Detroit surgeons who have volunteered to co-operate.

If the operation is believed to have cured the prisoner the judge who sentenced him will be asked by Warden Harry L. Hulbert of the prison to bring about his release. A number of judges in the state have agreed to accede to any such request made by the warden, he announces.

WIRELESS MAKING NAVIGATION SIMPLE SAYS NAVY OFFICER Ships Without Chronometers Will Soon Be Able to Cross Atlantic, Claim. (The Associated Press.) Philadelphia.—Admiral W. H. Bullard, director of naval communication service, in a paper read before the Franklin Institute here, said wireless telegraphy is making navigation simple and safe.

"There will be a time when ships will be without chronometers and will be in constant wireless touch with New York until they reach the British channel," said Admiral Bullard. "This is not a dream; it is near at hand."

"By means of the radio compass a ship can get her bearings when she calls for 'H. U.' where along the coast of the United States. This instrument has already saved ships which were headed straight for the shore."

"The depth of water under the ship can now be accurately determined by the hydro-phone, which works on the reflection from the ocean bottom of the sound of the ship's propeller. By this device shallow water can be avoided and even the proximity of icebergs detected. Ships also can communicate with each other by underwater waves, sent out by oscillators."

"By means of a cable laid along the bottom of New York channel and energized with current, a pilot, blindfolded, guided a destroyer to port never getting more than 50 yards from the cable. The waves sent out by the cable were detected in telephone receivers, one on each ear, telling him whether he was to right or left of the guiding cable."

"Hurricanes can be detected by sensitive radio telephones, and even the general direction of storms are felt on wireless receiving apparatus. The 'line' is now sent broadcast by coastal stations and by the time given for certain longitudes, the ship can tell its location. Weather warnings and location of wrecks, derelicts and icebergs are given out."

GAME COMMISSION OPPOSES GIVING UP \$50,000 OF FUNDS

Disapproves of State Auditor's Request That Sum Be Transferred to General Fund.

Special to The Daily Tribune. Helena, Jan. 9.—Disapproval of the recommendation of the state auditor that \$50,000 of the state game and fish fund be diverted to the general fund of the state is expressed in resolutions adopted Saturday afternoon by the state game and fish commission. Members who signed the protest were J. L. Kelly, Thomas M. Storer, Nelson Street Jr., and J. L. DeLart, state game warden. The resolutions follow: "Whereas, it has been brought to the attention of the state fish and game commission of the state of Montana that the state auditor has recommended and asked that \$50,000 of the state fish and game fund be diverted and turned over to the general fund of the state of Montana and

"Whereas, said commission being of the opinion that the funds of the fish and game department have been collected for the purpose of protecting propagating and conserving fish and game of the state and should be held and used solely for these purposes, and no other, and that there is no legal or moral right or justification for diverting the funds of the fish and game department into the general fund of the state of Montana,

"Now therefore, be it resolved by said fish and game commission, that it is unalterably opposed to the transfer of said funds as requested and asked for by said state auditor."

Quakers Will Feed 600,000 Children Daily in Berlin Berlin, Jan. 9.—The relief work of the American Quakers now contemplates the feeding of 600,000 children daily in all parts of Germany. A total of 70,000,000 meals have been served since the work started in March, 1920. The Quakers have extended their field of activity to the occupied zone on the American sector of the Rhineland.

The new plans of the Quakers include the extension of the feeding to the big industrial plants and beginning will be made at the General Electric Co.'s establishment. The Ruhr coal fields are also included in the new areas to be added this year.

Venizelist Officers in Greek Army Are Retired; Others Named Athens, Jan. 9.—Eighteen generals and more than 200 colonels have been appointed to the Greek army to replace adherents of former Premier Venizelos. In view of the movements in Thrace and Constantinople, doubts were entertained of the loyalty of the Venizelist officers and it was decided to retire them en masse. Prince Andrew, brother of Constantine, was among the new generals named, while Prince Christopher, also a brother of the king, was made a colonel.
