

The Copper Queen Store.

Shirt Waists 50c.

A few dozen all told left over from last year. The only thing wrong with them is that they've been handled so much that they are not as spick and span as they should be.

Materials are white lawn, black lawn and black lawn with white figures. The styles are all good.

Former prices were 85c, \$1.00 and \$1.25. All sizes in one kind or the other.

Shirt Waists For Girls

It's surprising that up to now, shirt waist manufacturers haven't thought to make waists for girls. What few were to be had weren't satisfactory—just cheap ordinary waists, without a fit of style.

We found a firm who is making real stylish, pretty waists for girls—the kind of waists we are proud to show.

Colored percale 65c
White lawn with embroidery insertion \$1.00
Mercerized goods, with white lawn collars and cuffs \$1.75
White flannel, deep sailor collar \$1.75
Sizes—12, 14 and 16.

Silk Spot Gingham

Twenty seven inches wide with stripes running the length of the goods—some with cross stripes giving a plaid effect; scattered about are small woven dots and blocks of mercerized threads, from which the goods get its name—"Silk Spot."

Its extremely pretty for shirt waists and there's not enough of it to become common.

In colors reds, ox blood, light blue, tan and a black. Stripes on white 25c a yard.

A LA CARTE

A French Restaurant phrase which, reduced to the queen's English, means:

"Pay for what you order."

THE NEW ENGLAND KITCHEN BILL OF FARE

IS A LA CARTE!

If you only wish to eat a small amount you pay accordingly; your doesn't cost you \$1 when you only eat 20 cents worth.

Remember our prices are no higher than other places, but there is a vast difference in quantity, quality and good service.

TOVREA & MOSSMAN

Choice Beef, Pork, Mutton, Sausage and Dressed Poultry.

UNION COAL MINERS

One Hundred and Forty Four Thousand Will Strike

COAL BARONS MUST ENTER INTO CONFERENCE

Situation Very Critical Last Night--Convention Adjourns In the Wildest Disorder.

Shamokin, Pa., March 20.—Belief is almost universal among the anthracite coal miners' delegates to the convention which convened here on the 18th, that the final result of the convention will be the ordering of a strike of 144,000 union men which will include every union man in the anthracite region.

The convention is composed of nearly 800 delegates representing the three largest anthracite districts. District Presidents Fahey, Duffy and Nicholls are in attendance, as is also President John Mitchell of the United Mine Workers of America. The wage agreement secured after the big strike of 1900 expires April 1 and it is for the purpose of discussing a new agreement to become effective on that date that the convention was convened.

W. C. GREENE

Millionaire Mine Owner Talks for the Review

Improvements About All Completed--Ore to Last Fifty Years In Sight--An Interesting Interview.

"The company has plans made to take out of its mines fully 3,500,000 tons of copper in the next fifty years. We have enough eight per cent ore in sight to do this."

W. C. Greene, president of the Cananea Consolidated Copper Company, made the above statement at Cananea, Mex., Wednesday afternoon. Continuing, he said:

"During the past year the company has spent about \$7,400,000 in making extensive improvements in the way of smelters and equipment. The coming year will not see more than \$500,000 spent above what it will take to meet the necessary running expenses. All of our improvements are practically completed.

"Last month our ore ran 11 1/2 per cent copper, which is exclusive of everything else in the way of mineral. In all of our deductions we figure on an 8 per cent basis, though the ore will average above this from 1 to 2 per cent.

"At present we are smelting about 1400 tons of ore a day, and by the first of May the capacity will be increased to 2500 tons every twenty-four hours. Our two smelters are the largest in the world.

"From the first of May the company will be more prosperous than it has ever been in the past. We have mapped out a plan for operating this immense property that will certainly result in great profit to all interested in any way in the company. Expert mining men will have authority in the different branches of the plant and mines."

Mr. Green was next asked if he

thought the independent copper companies would unite for the purpose of making a stand against the Amalgamated people. He replied:

"As far as I know, the independent companies will not attempt to do anything more than to convince the Amalgamated company that copper should be quoted at a good price and kept there without serious fluctuations.

"The demand for copper at this time is greater than it ever has been before, and the drop is not caused by the supply being greater than the demand. This has no stronger foundation than the imagination of some people. The present price of copper is not caused by any law of trade, but by shrewd manipulation.

"I think a fair price for copper, that will be as just to the buyer as to the producer is 15 cents per pound. At this figure the producer can reap a profit, and the buyer not be forced to suffer any hardship.

"I expect to see the copper people get together before long and come to some kind of an agreement that will result in the price per pound going up not less than 2 cents, and possibly more. The present condition of things is by no means permanent."

When asked if he thought there was a probability of the Cananea railroad being extended to Guaymas, the copper king said:

"That is something a long way in the future. I am sure it will be done some day, though nobody is working at the matter very hard just now. The road when built will run to the coal fields near Guaymas, and then on to that place. It would mean another line to the Orient."

One of the most emphatic things Mr. Green said was as follows:

"I will not be a candidate for the senate in case Arizona is made a state. This is certain, and I mean it. I have too much business on my hands to give any time to politics. I would lose money by it."

Mr. and Mrs. Greene are at Cananea for a month. They are stopping in their private car and not in their recently completed residence as many thought they would. From early morning until late at night Mr. Greene is busy inspecting some part of the workings of the big copper property.

WESTERN CANADA DOG SHOW.

Winnipeg, Man., March 20.—The seventh annual exhibition of the Western Canada Kennel Club opened today under auspicious circumstances. The show, from present indications, will be the most successful ever held in this part of Canada. The total number of thoroughbred canines on exhibition exceed 500, and every breed known to fanciers is included in the list. The entries come from every section of the Dominion and the United States, and universal interest has been aroused in them. Of particular note are the displays of King Charles, Blenheim and tans. Judging was commenced soon after the opening today under the directions of James Cole of Kansas City.

NOTABLE ART SALE.

New York, March 20.—One of the most notable art sales that has taken place in New York in a long time commenced today at the Waldorf-Astoria. The pictures are those belonging to Samuel P. Avery, Jr., one of the best known art dealers in America, and who recently decided to retire from business. The list of artists represented in the lot includes Gainsborough, Rousseau, Decamps, Minkacy, Millet, Constant, Lawrence, Meissonier, Corot, Inness and Michel.

DEMOCRATS FOR BOERS.

Will Make a Gallant Fight, Although Destined to Defeat.

Washington, March 20.—The Fight which the Democrats in the house have undertaken in behalf of the Boer cause, is destined to defeat, according to statements by Republican leaders. At a Democratic house caucus held today, Linn-Randall resolution, pledging the Democrats to use their own force to report to the house one of the pending pro-Boer resolutions, was unanimously adopted. The fight now will be carried before the committee on foreign affairs. It is quite likely that the committee will vote against any action, as the Republican leaders are determined nothing shall be done by congress regarding the South African conflict.

BROAD AND ATTELL TO FIGHT.

St. Louis, Mo., March 20.—The West End Athletic Club has completed arrangements for a 15-round contest to-night between "Kid" Broad and Abe Attell of California. The result means much to Atell, as upon his showing will depend the chance of his securing a meeting with the top-notchers of his class, which ambition he has failed to realize so far.

DOWNING IS DOOMED.

The Superior Court of the Territory Affirms Decision

Phoenix, March 20.—The Supreme Court of the Territory today affirmed the decision of the lower court in the case of W. F. Downing who was sentenced to ten years in the Territorial penitentiary at Yuma for an attempt at train robbery near Cochise in the year 1900. The case was tried before Judge Davis at Tucson and came up to the Supreme Court on appeal. Downing was represented by Judge Blinn and by Thomas D. Bisset here. The Supreme Court was asked to release Downing from custody on the grounds that the facts stated in the indictment did not constitute a public offense.

Before the case was heard, Downing's chances for release were considered good, as the case was a closely contested one. It was submitted to the court on briefs. United States Attorney Nave and his assistant Mr. Campbell represented the government.

The counsel for Downing have not yet decided whether they will carry the case up, but it is extremely unlikely that this step will be taken.

BRIBERY EMPLOYED.

So Says Agent of the Danish Government.

Washington, March 20.—Neil Greene, claiming to be the unofficial agent of the Danish government, is here seeking to prevent the passage of the appropriation bill by congress of five million dollars for the purchase of the Danish West Indies on the ground that bribery was employed in the United States in furthering the project. Greene is the representative of the anti-sale party in Denmark.

HUGE BARGE STRANDED.

It is Believed that All on Board Perished.

New York, March 20.—A huge barge stranded near the bridge at Hampton, off Long Island, last night. While the great storm was raging and before morning the barge went completely to pieces. A life saving crew went to the scene of disaster today, but could find no signs of life, and it is believed all perished.

LOCATOR OF CRIPPLE CREEK.

Makes Another Bonanza Discovery in Colorado.

Denver, March 20.—It was learned today that James Doyle, locator of Cripple Creek, has discovered a vast district bearing rich gold and copper in the Montezuma Valley in the southern part of the state. Assays average \$50 and there is enough ore to make many millionaires. A company has been organized to begin operations.

K. OF P. JUBILEE.

Chicago, Ill., March 20.—This is a red letter day for the Knights of Pythias of the middle states, the occasion being a big round-up in the Coliseum in celebration of the order's jubilee. When the exercises commenced this afternoon it is estimated that the big hall contained fully 10,000 Knights from all parts of Indiana, Illinois, Wisconsin, Michigan and Iowa. A feature of the evening's program will be the conferring of ranks upon Governor LaFollette of Wisconsin, Senator Beveridge of Indiana and other men of national prominence.

PENNSYLVANIA BALL LEAGUE.

Hazleton, Pa., March 20.—Managers of the Pennsylvania State Baseball League are in session here today to make up the schedule and complete other arrangements for the coming season. It is possible that before adjourning the meeting may decide to increase the circuit to eight clubs by taking in Mt. Carmel and Williamsport. The other cities in the league are Lancaster, Reading, Scranton, Wilkesbarre, Lebanon and Hazleton.

BIG SHIP'S TRIAL TRIP.

Newport News, Va., March 20.—This is the date set for the trial trip of the mammoth steamship Korea, recently completed by the Newport News ship-building company. The Korea was built for the Pacific Mail Line, and with the single exception of the American line's steamship Kronland, launched a few weeks ago at Crampton, it is the largest vessel ever built in America.

SOUTH DAKOTA REPUBLICANS.

Sioux Falls, S. D., March 20.—Members of the Republican state committee are gathered here for the meeting tonight, when a time and place for holding the state convention will be chosen. Sentiment among the members seem to favor an early date, some suggesting that the convention be held as early as the first week of June. Sioux Falls, Mitchell and Watertown are applicants for the convention, with the chances favoring the first-named city.

CANANEA TO GUAYMAS.

S. P. Officials Are In the Field.

A Rich Mineral District—Supt. W. G. Choate Says He Knows Nothing.

The visit of several prominent traffic officials to Cananea last Wednesday gives more force to the rumor that a railroad is to be built from that place to Guaymas.

Among those who spent the day in Cananea was J. C. Stubbs, traffic manager of the Harriman lines. This is the company that is supposed to be backing the proposition. While in Cananea Mr. Stubbs had a long talk with W. C. Greene about this matter.

Those in a position to talk care to say but little about what is going on. They are willing to admit that a road to Guaymas is a possibility, but that is as far as they appear to know.

The country to be tapped by a road to Guaymas is rich in undeveloped mineral resources that would be opened up to a great extent by means of transportation. Manager Mitchell, of the Cananea Consolidated Copper company says the richest mineral district on the continent lies in the country through which the road would pass.

In some circles it is reported that the line to Guaymas is but a part of a trans-continental route from the east with its terminus the starting point of an oceanic line of steamers to China. The Rock Island and the Bisbee rail roads would be a general system.

W. G. Choate, general superintendent of the Bisbee road, was seen at the Copper Queen hotel last night. He said: "I have heard the rumor that a road may be built to Guaymas, though I am not in a position to say whether or not it will be done. The visit of several railroad men to Cananea at this time may be in connection with the extension. I cannot say."

Those who were in the party at Cananea are as follows: J. C. Stubbs, traffic manager Harriman lines; W. G. Choate, general manager Bisbee road; Wm. Sprout, freight traffic manager Southern Pacific; E. O. McCormick, general passenger agent Southern Pacific; Mr. Jones, traffic manager G. H. & S. A. The most of them will see E. H. Harriman in El Paso this week.

THE BISBEE ROAD

WORK BEGUN OUT OF EL PASO TWO MILES OUT \$200,000.

Thirty Carloads of Horses and Scrapers Arrived From Deming Yesterday—Additional Two Hundred From Denver.

El Paso, March 20.—William Crook, of the firm of Orman & Crook, contractors of Pueblo Col., has arrived in El Paso and is stopping at the Sheldon.

Contractors Orman & Crook are about to commence work on the new El Paso & Southwestern railroad across the river and will have thirteen miles of road to build. The contract will be to Strauss station from which place Caples, Powers & Connors are working.

Mr. Crook was accompanied by Mr. Hoskins, one of the oldest and largest contracting firms in the west. Mr. Hoskins will sub-contract from Messrs. Orman & Crook and began work early Monday morning. About 1,400 men are at work.

"Two dollars a day will be paid and no time checks or scrip will be issued."

"Cash" is the way Mr. Hoskins put it.

"We offer big inducements for white men. If a man works a day or ten days and wants to quit he can get his money, and there won't be any red tape about it either," said Mr. Hoskins.

The work from here to Strauss station, a distance of thirteen miles, is considered by Mr. Crook and Hoskins to be the heaviest they have undertaken for years. The first two miles will cost over \$200,000. A steam shovel and electric plant will be installed so that they can work night and day.

Mr. Hoskins left for Denver Sunday to purchase 200 head of horses from the Goulding Stock Yards company, and will ship them to El Paso at once. Two trains of fifteen cars each arrived Saturday afternoon from Deming, loaded with horses and scrapers for the work which started Monday.

ANGLO-SWISS MILK CO. SOLD.

Zurich, March 20.—Stockholders of the Anglo-Swiss Condensed Milk Company met today and ratified the sale of the company's business in America to the Gell Borden Milk Company. The purchase price was \$3,000,000.

THE RAILROAD PARTY

Pass Through Naco En Route to Cananea—Local News of Naco.

Naco, March 19.—The party of capitalists and leading officials of the Southern Pacific railway, who arrived in their car yesterday, went on today to the Cananea. Among the visitors were Mr. Harriman, the well-known financier and railroad promoter, and Mr. Stubbs. The party carefully inquired into the prospects and probabilities of Naco, and expressed themselves as highly gratified at the outlook. They did not attempt to disguise the fact that the building of the S. P. line through this town was but a question of preliminaries and preparation.

The C. Q. Company's well just below Naco is overflowing. An immense volume of water is pouring down the arroyo to the San Pedro, fifteen miles away. Ranchmen are preparing to take advantage of the free water thus sent them, while it will be a boon to the stockmen.

Born, March 12, to Mr. and Mrs. Hood Porter of Naco, a boy.

Several mining men returned today from the lower country, where for several months they had been prospecting and have staked out a number of claims. The party included two Colorado miners, who are men of years' experience in the great Colorado mining districts. They were decided in their opinion as to the quality of the country inspected, from a miner's point of view. The ground gone over was south and east of the Cananea, and it was unanimously pronounced one of the richest mineral districts they had ever seen. On their way back the miners inspected the Napoleon mines near Naco and were surprised at the great values of the ore bodies exposed by the workings. Among the party were James Fletcher of Telluride, and A. D. Marsden of Cripple Creek.

The building of more substantial buildings on Main street is now in progress.

W. A. White has let a contract for adobe for a large two-story building next to the Big Adobe saloon.

A number of lots have exchanged hands the last few days, at advancing prices.

The water company is preparing to enlarge its facilities for supplying the town with good, pure water.

WITH HIS FAMILY.

Prince Henry is Joined at Kiel by His Wife and Sons.

Berlin, March 20.—Prince Henry landed at Kiel at dusk and was joined by Princess Henry and his sons.

What took place between the royal brothers is of course not a matter concerning which those surrounding Emperor William and Prince Henry have been taken into the royal confidence, further than to know that the brothers had a talk today lasting several hours, and that Prince Henry told Emperor William his experiences from the beginning to the end of his trip.

The members of the prince's party were much amused while on their travels at the calls of "Speech!" "Speech!" from the crowds which had collected at the wayside places and also at the cries of "How's your brother William?"

The only occasion when the least alarm for the prince's safety was felt was when a member of the party saw a man enter the prince's car at one end while Prince Henry was on the platform at the other end, bowing to a crowd. This man was ordered out of the car. He hesitated and then withdrew. A few minutes later he was seen working his way through the crowd in order to get nearer to the prince. This man wore a long coat, under which anything might have been concealed. A member of the prince's staff pointed this person out to John E. Wilkie, chief of the secret service, who accompanied the prince on his trip, who at once said: "Why, that is one of my men."

BURNS-RYAN.

New York, March 20.—The postponed bout between Johnny Burns of this city and "Billy" Ryan of Syracuse is slated to come off tonight before the National Athletic club at New London Conn. The two have signed to go twenty rounds at 125 pounds.

VIRGINIA DEMOCRATS TO BANQUET.

Washington, D. C., March 20.—Elaborate arrangements have been made for the biennial banquet of the Virginia Association of the District of Columbia, which is to be given at the Metropolitan Hotel tonight. The invited guests include Governor Montague and other state officials.

JEALOUSY CAUSES KILLING.

Chicago, March 20.—Dan Kipley, a nephew of former Chief of Police Joseph Kipley, this morning shot and fatally wounded Joseph Hopkins, a noted crook, in the apartments of a woman known as "Diamond Lil." Jealousy was the cause.
