## STANFORD UNIVERSITY

MRS. JAMES STANFORD MAKES ADDRESS TO TRUSTEES.

University Must be Maintained on a Strictly Non-Partisan, Non-Sectarian Basis.

San Francisco, Cal., Oct. 3.—At a meeting of the trustees of Leland Stanford University, Jr., today, Mrs. Jane Stanford read an address to the board, setting forth her direction on the management of the university.

The address was significant for the reason that it bore on the recent troubles at Stanford resulting in the resignation of certain professors, after delivery of opinions, which the university authorities thought in conflict with the interests of the institution.

Mrs. Stanford said: "During my administration the President of the university shall continue to have exclusive control of the appointments and the dismissal of the professors and teachers, as he has had heretofore. The university must be forthwith maintained on a strictly non-partisan, non-sectarian basis. I must never become the instrument in hands of any political party or any religious sect or organization."

Mrs. Stanford announced the letting of a contract for a gymnasium, costing half million.

Interior Department Consider this a Subterfuge to Drive Indians From Their Reserves.

Washington, Oct. 4.—The interior department officers are not worried over the reported apprehensions of settlers, near Fort McDowell reservation in Arizona; that the Apaches may cause the serious trouble. No complications are anticipated here by authorities.

## VETS ARRIVING IN WASHINGTON

G. A. R. VETERANS ASSEMBLE AT THE NATIONAL CAPITAL

The Attendance This Year Falls Short Ranks are Thinning Out.—Arrangements are Perfect.

Washington, Oct. 4.—The boys who wore the blue in the '60's, now grizzled veterans, who are nearing the last milestone of life's journey, are mobilizing in the national capital in anticipation of the thirty-sixth annual encampment of the Grand Army of the Republic. Every arriving train today is bringing its quota of visitors and by tomorrow morning the rush will be on in earnest. No city in the country is better able to care for a large gathering than Washington, and this fact is demonstrated by the admirable manner in which the veterans are being cared for on their arrival and assigned to quarters.

The great organization has passed the zenith of its glory and is now on the wane. The attendance this year will fall short of last year, which fell short of the attendance at the Chicago encampment of two years ago. Nevertheless, the encampment will be a grand and glorious success for the old soldiers, who marched and fought and endured the hardships of war forty years ago. The ranks are noticeably growing thinner and the "boys" are not able to stand the strain of the long parades which have been the crowning feature of previous encampments. But their enthusiasm has not been dimmed and the few surviving great war generals, who are to be present, will be received with the same round of hearty cheers as in days of yore, when the veterans were more vigorous, as well as more numerous.

The arrangements for the entertainment of the great crowd of visitors are as nearly perfect as can be attained. The programs will be formally inaugurated tomorrow, when patriotic services will be held in the various churches. At the camp fire in convention hall Monday evening addresses will be delivered by speakers of national reputation. Tuesday there will be a parade of special veterans associations, detachments of regular troops and District of Columbia militia. There will also be an excursion to Mount Vernon for the encampment delegates and in the evening General Torrance, commander-in-chief of the G. A. R. and his associates will be extended the freedom of the city at a public meeting. Wednesday is the day set aside for the grand review of the veterans by the commander-in-chief and the President of the United States, with an elaborate reception in the evening at convention hall. Thursday and Friday will be devoted to the business sessions of the encampment.

Besides the encampment of the Grand Army, there will be national convention of the Woman's Relief Corps, of which Mrs. Callista Robinson Jones, of Vermont, is national president. The Ladies of the Grand Army of the Republic, of which Mrs. Wall, of Kansas, is national president, will also meet in convention.

From the view point of the Grand Army veterans the selection of a commander-in-chief to succeed General Torrance, of Minnesota, is of prime importance. The candidates most prominently mentioned are, John McElroy, of Washington, the present senior vice-commander; Gen. Thomas J. Stewart, of Pennsylvania, and Gen. John C. Black, of Illinois. Former Governor Robie, of Maine, is also named as a possible candidate.

### NATIONAL IRRIGATION CONGRESS

Colorado Springs, Colo., Oct. 4.—The tenth national irrigation congress, which will open here Monday, promises to be the largest and most influential body of the kind which has yet assembled in the west. Delegates began to arrive today and Chairman

Wantland and members of the executive committee are busy with the preliminary arrangements. Tomorrow large delegations are expected from Utah, Colorado, Kansas, Nebraska, Texas, California, Arizona, Washington and Oregon.

Monday there will be addresses by congressmen and governors, and a reception will be given for President Walsh and the delegates by the Chamber of Commerce in the Antlers Hotel in the evening. Tuesday will be devoted to a discussion of forestry and colonization. Wednesday will be devoted entirely to a discussion of the National Irrigation act, its operations, and possibilities. The leading irrigation experts in the country will be on hand to take part in the discussion and all the senators and representatives of the states and territories in the arid region have been especially invited to be present and join in the debate. Thursday the congress will act upon the resolutions and closing exercises will be held. The following day there will be an excursion to Rocky Ford, and to the Salvation Army colony at Amity, in the Arkansas valley.

### PRESIDENT'S CONDITION

Washington, Oct. 4.—Secretary Cortelyou this evening, upon being asked as to the condition of the President said the conference held yesterday was a severe strain on the President. While in the judgement of his physician, his progress toward recovery has been satisfactory, they consider that to avoid the risk of a set back he should be relieved of any undue tax upon his strength. Therefore, for the next week or ten days, only such matters should be brought to his attention as it may be imperatively necessary for him to consider.

### SOUTH DAKOTA VETERANS.

Mitchell, S. D., Oct. 4.—The Department of the South Dakota, G. A. ## THE STRIKE SITUATION

MEETING OF THE CABINET CALLED FOR THIS MORNING.

Petitions Being Circulated Asking for Extra Session of Congress—Mitchell Returns to Headquarters—Boxes Being Burned in New York City.

Washington, Oct. 4.—Post tomorrow will say: The importance of reaching as soon as possible a solution of coal strike problem, has led the President to arrange for a conference at the White House this (Sunday) morning, at 10 o'clock. The conference will be attended by secretaries Root, Moody, Attorney General Knox, and Commissioner Wright. The conferees include three lawyers in the cabinet and the commissioner of labor, whose acquaintance with the details of the situation is of value to the President. It cannot be definitely stated that the conference has been called to consider any particular plan, but it is intimated that developments have arisen which require serious consideration.

Wilkesbarre, Pa., Oct. 4.—President John Mitchell of the Miner union, accompanied by district President Nichols, of Scranton, arrived at strike headquarters from Washington today. There was a large number of persons at headquarters waiting to see the miner's chief. President Mitchell had nothing to say regarding the situation beyond what he said in his formal statement to the President and his interview at Washington. He reiterated however, that the strike would go on just as it has heretofore, and that he felt just as confident of carrying it to a satisfactory conclusion, as he did previous to attending the meeting of the presidents. He does not, at this time, contemplate any new move, and if any is to be taken he will first consult with the district president.

Washington, Oct. 4.—Six thousand Illinois citizens, during the last twenty-four hours, have signed petitions, asking that President Roosevelt call an extra session of congress to enact some measure for the prevention of a coal famine. One method suggested in the petition is the provision for the appointment of a temporary receiver to operate the Pennsylvania mines, which are closed on account of the strike. The petition is being circulated all over the city of Chicago, and throughout the state of Illinois under the directions of the United States Senator William Mason.
