BISBEE, ARIZONA, SATURDAY MAY 30, 1903.

NUMBER 200

DEVASTATION AND DEATH IN KANSAS FLOODS

Topoka, Kas., May 29.—Railroad traf- fic in this city is practically at a stand- still on account of the heavy floods. The Rock Island and Union Pacific are not running any trains, while the Santa Fe runs only to Emporia and the Missouri Pacific to Fort Scott.

river bridge at Maple hill, Rossville, Silverlake, Bellevue and St. George were washed out. The new steel bridge at Willard is damaged beyond repair and the Topeka street railway bridge is rendered useless. Several hundred head of cattle were drowned.

railroad bridge around there is washed out. Last night's rain extended all over Central and Northern Kansas. All of which section is drained by the Kansas river. Rain fell during the morning at many of the flooded points and at 4 o'clock this afternoon another heavy rain, almost a cloudburst, fell. This will make the situation much worse.

homeless. The Union Pacific depot is flooded. For six hours today the flood flowed like a river through Abilene, filling two hundred cellars and driving 109 families to places of refuge.

up nearly three feet. The water stands thirteen feet deep on the dam there and has caused the water works, electric light plant and the brick factory to close down. At Marysville the water is at the highest point ever known there and getting higher.

rate of an inch an hour and heavy and almost continual rains today and to- night have added to the gravity of the local situation. Superintendent Conner, of the Kansas City weather bureau, predicts that the volume of water in the river during the next three days will be unpre- cedented. He says the volume of water from the Kansas river and other streams for which the Missouri is the outlet, added to the usual June rise, will carry the Missouri to a higher stage than it reached in 1881, when it broke all previous records.

VERY PROSPEROUS

THE SALT RIVER VALLEY IN BET- TER CONDITION THAN FOR MANY YEARS

WATER IS PLENTIFUL

Thousands Feeding Cattle Are Being Driven to the Valley.—Profits Sheep

Phoenix, Ariz., May 29.—The present season is the most prosperous that has been known to the farmers of the Salt River valley for many years. The last flood in the river came at the very time when it was most needed for the irrigation of the grain and alfalfa fields, and many of the driest parts of the valley have even more water than could be used.

All over Central Arizona the spring roundup is in progress. Grass is good and the crop of calves is reported the best known for a decade.

Sheepmen are casting up their profits for the past season and are well satisfied. One man tells of 3,600 lambs from a herd of 3,200 ewes, a percentage of gain of 110. Practically no lambs were lost by the sheepmen who pastured in central and southern Arizona, as the spring weather was propitious throughout.

A cold wave broke over Arizona two days ago. The maximum temperature in Phoenix dropped from about 103 to 78. In Northern Arizona a snow storm was experienced at points along the Santa Fe road, and the mercury dropped below freezing point around Prescott. Violent winds were known, considerable damage being done to window and shade trees in the northern towns.

June 16 about 1,200 acres of land will become available for settlement on the old Fort Mohave reservation, thirty miles east of Phoenix. About an equal amount of land is held for the benefit of the Apache Indians, who have come from San Carlos to settle upon it.

Governor Brodie and the Reform School board are obeying the behest of the last legislature, and are preparing for the fitting up and opening of the territorial reform school at Benson.

A girls' dormitory, to cost \$32,000 is being erected on the Normal school ground at Tempe. The building will be 160 feet long and is designed to accommodate seventy pupils. The present small dormitory is to be turned over to the boys.

Presbyterian Assembly Finishes up at Los Angeles

Los Angeles, May 29.—The 115th general assembly of the Presbyterian church of the United States came to a close this afternoon. It has been one of the most important assemblies in the history of the church in that it disposed of many subjects of denominational interest, and as a commissioner has expressed it "cleared away all knotty points of disagreement and put the church in the van of the great forward movement."

Strong resolutions against Mormonism were passed this morning. Dr. Vanduyke, from the committee on bills and overtures, reported that a resolution was submitted by the committee on home missions, regarding the alleged pitiable condition of the Indians on the Maricopa and Pima reservations in Arizona.

It was urged that some action be taken by the secretary of the interior looking into the construction of a reservoir for their relief. This resolution was adopted. The routine of the closing of the numerous committee reports of the present assembly, occupied the attention of the commissioners during the afternoon session.

MORMONS GREET TEDDY

Salt Lake, Utah, May 29.—An interesting feature of the visit of the president to this city today was the presence of Emory H. Allen, and Wilson Farr, brothers, who live near Ogden and who are heads of the largest family in the world. They came here to meet President Roosevelt and they are accompanied by the members of their family, which consists of 604 children, grandchildren and great grandchildren. Of this number 304 are voters.

Alan Farr said today: "I want to congratulate Teddy on his efforts to increase the birth rate. We have 604 persons in our family and I want the President to see them as evidence that we are doing our duty as patriotic citizens out here in Utah. The average size of the three Farr brothers is 81 years. Every class of trade and every profession is represented in the family."

The Farr brothers were greeted cordially by President Roosevelt.

Woman Cannot Live as a Result of Wound in the Breast (Special to Review.)

Douglas, Ariz., May 29.—A woman of the tenderloin, known by the name of Beatrice, attempted to kill herself by shooting with a 45 Colt's gun. The bullet struck her in the left breast, just above the heart. It is not expected that she will live till morning. At 10 p. m., three hours after the shooting, the woman was reported in great pain and not at all likely to survive. At a late hour last night, nothing could be learned of the woman's name or affairs other than that she has always been known as "Beatrice." What motive she may have had for taking her own life is not known.

PRESIDENT AT EVANSTON

Delivers Short Address to 5,000 Citizens of the Railroad Town

STILL THEY COME

The Review is in receipt of a letter from the Mineral Financing company, of New York City, which announces that a stamp mill is to be placed on the Golden Era property. This property is in the Warren district and adjoins the Eastern Sunday. The Golden Era Gold Mining company has been reorganized and the new shares of stock will be on sale in a few days. If reports are to be relied on the Golden Era gives promise of becoming an important mine. Mr. E. J. Arthur, who was the first superintendent of the Greene mines at Cananea, will be the consulting engineer on the Golden Era and is expected in Bisbee in a few days. Thus it will be seen that the Warren district is not alone sought for the copper it contains, but is also attractive as a gold district.

ANOTHER BIG MINING DEAL

One of the heaviest deals consummated in the Warren district this season has just been consummated. The property is known to residents of Bisbee as "Dutch Bakers" and the cabin on the ground has been a landmark for some time. The property adjoins the group sold not long since by Jacob Pirrung, the heaviest owner of this property, to the Calumet and Arizona people. The group of which the ownership recently passed to the owners of the Calumet and Arizona, and the Calumet and Pittsburg, consists of eight claims, seven of which belong to Jacob Pirrung, and one to George Hanniger. The consideration is \$25,000 per claim, or \$200,000 in all, \$25,000 to be paid to Hanniger and balance to Pirrung.

Mr. Pirrung recently returned from the east and north, where the foundation was laid for the deal. Louis Brown acted for the investors and this end of the transaction was handled by the interested parties themselves. The terms of the sale are ten per cent on July 2d, the balance to be paid within a year in three equal payments. The papers have all been signed and were yesterday forwarded to Duluth, Minnesota, for the final arrangements. A sum of \$29,000 has been deposited in a Duluth bank to meet the first payment.

The northern people are showing their faith in every possible way in this district, and are accumulating all the promising ground possible. However, it is not probable that they would buy this property unless they were sure the ore lay beneath the surface of this ground.

The first party to examine the property was M. H. Holland, of Duluth, who came here about six weeks or two months ago. His report was favorable and a representative came to Bisbee two weeks ago and arranged all preliminaries.

The parties will form a "closed" corporation separate and apart, as far as working the property is concerned, from their other interests here. No stock will be placed on the market and all money for the payment and development of the ground will be personally subscribed by the holders of stock in the Calumet and Arizona and Calumet and Pittsburg.

EXERCISES ARE POSTPONED

The greater part of the exercises connected with Memorial day have been postponed. A combination of circumstances influenced these in charge of the program to defer the exercises until Sunday.

To begin with, many of the miners who were to take part in the affairs of the day did not feel as if they could afford to lose the time; secondly, the fact that there were two funerals set for Saturday had a great deal of weight with the management.

SHOULD COME

It is to be hoped that if the Tombstone hose team have come to any determination not to compete in the Bisbee hose race under any conditions, a reconsideration of the matter will result in a change of mind and that the Tombstone boys will be in Bisbee. The Tombstone boys would be especially welcome in Bisbee, and would be treated royally, because of the misunderstanding, which created some ill feeling over the race in Tombstone on the occasion of the railroad celebration. There is no cause for other than the friendliest relation between Bisbee and Tombstone and the Review hopes that the Tombstone hose team will let the past be forgotten and come to Bisbee and give us an exhibition of its work. Come over, boys, and assist in making the Bisbee hose race a memorable event.

ARIZONA PHYSICIANS HOLDING ANNUAL MEETING THIS WEEK

Resolutions of Respect Concerning Death of Dr. F. A. Sweet—Visit to the Territorial Asylum.

The eleventh annual meeting of the Arizona Medical association began its session at Phoenix Wednesday morning in the Hotel Adams. There was a larger attendance than at any previous meeting of the association.

The meeting was called to order by the president, Dr. William Duffield, the secretary, Dr. Charles H. Jones, of Tempe, being also in his chair. Prayer was offered by Rev. C. V. Cowan, of this city after which Judge Webster Street delivered an address of welcome which was a masterly effort and was listened to with great pleasure.

Dr. W. H. Fenner, of Tucson, responded in an address no less entertaining. The only business transacted during the morning session was the reading of the reports of officers and committees. The secretary's report showed the membership of the association to be 136, which is 85 per cent of all the regular practitioners in the territory. The association has reason to be proud of that showing, for it is the largest per centage of membership held by any state association in the country.

The committee on necrology reported appropriate resolutions on the death of the late Harlow C. Phelps, of this city and the late Dr. F. A. Sweet, of Bisbee, both having been members of the association and both having died since its last meeting. The resolutions were unanimously adopted.

The disappointment of the session came in a telegram received from Dr. Nichols Senn, of Chicago, a notable surgeon who was expected to be present and address the association. He failed to arrive on the morning train and the telegram announced that much as he wished to be here, he could not, for the reason that he had just returned from the meeting of the International Medical association at Madrid, Spain, and he could not leave home so soon again for so extended a stay as would be necessitated by a trip to Arizona.

The noon hour having arrived, Dr. Stroud entertained at luncheon all the visiting members of the association and their wives, their names being Dr. H. W. Fenner, Dr. and Mrs. W. F. Burton, Dr. and Mrs. W. B. Parcell and Dr. W. V. Whitmore, of Tucson; Dr. E. O. Ketcherside and son, of Yuma, Dr. R. N. Looney, of McCabe, Dr. Charles H. Jones, of Tempe, Dr. T. B. Davis, of Prescott, Dr. W. L. Brown, of El Paso, and Dr. H. V. Clymer, of Picocho, California. The last two named probably traveled further to attend the meeting than any other members of the association. Both are former residents of Phoenix, though Dr. Brown lived here but a short time.

When the meeting convened in the afternoon Dr. Foss, of this city, read a paper entitled, "A Successful Scientific Treatment of Secondary Infection in Pulmonary Tuberculosis." The paper was a very interesting one, the burden of it being that in most cases of tuberculosis there are complications of other diseases, and that if they may be cured, leaving the patient to fight his most dreaded enemy alone, he will have a much better chance for recovery. He then cited cases that had been treated in this matter and very successfully, claiming that if the attendant ill was first cured 90 per cent of the cases of consumption in its

order of parade will be as follows: Lieutenant George B. Wilcox, grand marshal, and aide; Copper Queen band, Spanish-American war veterans, A. O. U. W., Odd Fellows, Knights of Pythias, Redmen, Eagles and school children. Rev. Harvey M. Shields will be the orator of the day and Rev. J. G. Pritchard will offer up prayer at the graves of the dead soldiers and sailors. The postponement has met with the approval of all the organizations concerned, with the exception of the Grand Army veterans, who, it is said, will decorate the graves of their departed comrades today.

MEDICAL SOCIETY

ARIZONA PHYSICIANS HOLDING ANNUAL MEETING THIS WEEK

INTERESTING SESSION

Resolutions of Respect Concerning Death of Dr. F. A. Sweet—Visit to the Territorial Asylum.

The eleventh annual meeting of the Arizona Medical association began its session at Phoenix Wednesday morning in the Hotel Adams. There was a larger attendance than at any previous meeting of the association.

The meeting was called to order by the president, Dr. William Duffield, the secretary, Dr. Charles H. Jones, of Tempe, being also in his chair. Prayer was offered by Rev. C. V. Cowan, of this city after which Judge Webster Street delivered an address of welcome which was a masterly effort and was listened to with great pleasure.

Dr. W. H. Fenner, of Tucson, responded in an address no less entertaining. The only business transacted during the morning session was the reading of the reports of officers and committees. The secretary's report showed the membership of the association to be 136, which is 85 per cent of all the regular practitioners in the territory. The association has reason to be proud of that showing, for it is the largest per centage of membership held by any state association in the country.

The committee on necrology reported appropriate resolutions on the death of the late Harlow C. Phelps, of this city and the late Dr. F. A. Sweet, of Bisbee, both having been members of the association and both having died since its last meeting. The resolutions were unanimously adopted.

The disappointment of the session came in a telegram received from Dr. Nichols Senn, of Chicago, a notable surgeon who was expected to be present and address the association. He failed to arrive on the morning train and the telegram announced that much as he wished to be here, he could not, for the reason that he had just returned from the meeting of the International Medical association at Madrid, Spain, and he could not leave home so soon again for so extended a stay as would be necessitated by a trip to Arizona.

The noon hour having arrived, Dr. Stroud entertained at luncheon all the visiting members of the association and their wives, their names being Dr. H. W. Fenner, Dr. and Mrs. W. F. Burton, Dr. and Mrs. W. B. Parcell and Dr. W. V. Whitmore, of Tucson; Dr. E. O. Ketcherside and son, of Yuma, Dr. R. N. Looney, of McCabe, Dr. Charles H. Jones, of Tempe, Dr. T. B. Davis, of Prescott, Dr. W. L. Brown, of El Paso, and Dr. H. V. Clymer, of Picocho, California. The last two named probably traveled further to attend the meeting than any other members of the association. Both are former residents of Phoenix, though Dr. Brown lived here but a short time.

When the meeting convened in the afternoon Dr. Foss, of this city, read a paper entitled, "A Successful Scientific Treatment of Secondary Infection in Pulmonary Tuberculosis." The paper was a very interesting one, the burden of it being that in most cases of tuberculosis there are complications of other diseases, and that if they may be cured, leaving the patient to fight his most dreaded enemy alone, he will have a much better chance for recovery. He then cited cases that had been treated in this matter and very successfully, claiming that if the attendant ill was first cured 90 per cent of the cases of consumption in its

FREIGHT STRIKE SETTLED

Lake Shore Makes Proposition to Its Handlers

Chicago, May 29.—The trouble between the freight handlers and the railroads entering Chicago was virtually settled tonight. The Lake Shore road took the initiative and made a proposition which the men accepted. The freight handlers demanded a wage increase of twenty-five per cent; the road offered to compromise on an increase which averages but little more than four per cent. The men held a meeting and agreed to the proposition, each side signing a contract. The other twenty-three roads involved in the difficulty will endeavor to reach a settlement on the same basis as the Lake Shore agreement.

JOE GANS—WILLIE FITZGERALD

Easy Money for the Coon Who Hung it Onto Fitzgerald in the Tenth

San Francisco, May 29.—The Gans-Fitzgerald fight tonight proved an easy victory for Baltimore. The fight ended suddenly in the tenth round, when the negro put a terrific left to the jaw dazing Fitzgerald. The Yorker tried to fight back, but was too far gone, and a right cross to the jaw put him out for good. It was Gans' fight throughout.

WANT PINOS ALTOS MINE

Colorado Mining Men After Famous Chihuahua Property

Denver, Colo., May 29.—A special to the Herald from Chihuahua says that Colorado mining men are negotiating for the purchase of the famous Pinos Altos mine, the largest low grade silver and gold properties in the state. They have already produced \$14,000,000.

INAUGURATION OF TERRAZAS

Ends Gambling of All Kinds in State of Chihuahua

El Paso, Tex., May 29.—The inauguration of General Luis Terrazas as governor of the state of Chihuahua makes a new era in the history of Mexico in that he has stopped all forms of gambling in his commonwealth.

SONS OF ELI DEFEATED

New York, May 29.—Harvard led Yale in the trial events of the inter-collegiate games here today by exacting one point, the cornison's total score being 21, while Yale's was 20. Cornell, Pennsylvania, Syracuse and Princeton and Williams showed up well.
