

BISBEE DAILY REVIEW

REGULAR MEMBER OF THE ASSOCIATED PRESS.

BISBEE, ARIZONA, SUNDAY MORNING, FEBRUARY 7, 1904.

NO. 230

"The Argument of Common Sense is in Advertising your business."

The Review Carries your Argument to just those you want to reach.

SEN. COCKRELL OF MISSOURI A PRESIDENTIAL POSSIBILITY

Senator Francis Marion Cockrell continues to be mentioned by politicians in the Middle West as an eligible candidate for the democratic nomination for president, and inasmuch as he is naturally very strong in his own state of Missouri, the selection of St. Louis as the place of holding the democratic convention is likely to give him a decided impetus. Senator Cockrell was born in 1834, and took his seat in the senate in 1875. His term expires next year.

Mrs. Maybrick at Truro, Cornwall

SERVING OUT THE LAST FEW MONTHS OF HER SENTENCE WITH SISTERS OF EPIPHANY UNKNOWN TO EVEN THEM.

London, Feb. 6.—Mrs. Maybrick is serving out the last few months of her life sentence for the killing of her husband in the quiet country home of the Sisters of Epiphany, at Truro, Cornwall, under an assumed name, and with her identity completely hidden. Even the sisters with whom she associates, and the servants have no idea that she really is Mrs. Maybrick. She wears an ordinary blue dress with white frills.

She occupies simply a room in the home, and rises at 6 o'clock each morning. Though free again in many ways, she is obliged to conform to the strict discipline of the convent. She takes her meals in silence, and is not allowed to converse, except upon religious topics, during the day.

Mrs. Maybrick's somewhat anomalous status was explained as follows to the Associated Press, by one of the chief officials of the Epiphany Order: "Mrs. Maybrick is still a prisoner, and has not even been released on a ticket of leave. Those in charge of her are practically her jailers, and all communication with her is forbidden, except through the home secretary."

GEN. REYES PRESIDENT.

Elected Chief Executive of Colombia February 2.

Washington, Feb. 6.—A private dispatch received here from Buena Ventura, announces that Gen. Reyes was elected president of Colombia on February 2. Gonzalez Valencia is elected vice-president.

CONSIDERED FAVORABLE.

Although Hanna's Crisis is Still in the Future.

Washington, Feb. 6.—It is officially announced tonight that the condition of Senator Hanna is regarded as favorable.

Dr. Rivie regards the crisis as still in the future.

Has a Fool For His Client

ATTORNEY JOHN GLOVER, ON TRIAL FOR MURDEROUS ASSAULT ON MEMBER OF MILITARY CONDUCTING HIS OWN CASE.

Denver, Feb. 6.—A special to the Republican from Cripple Creek says that a jury was secured this afternoon to try Attorney John Glover on a charge of having murderously assaulted Sergeant Louis Dietmore, of the Colorado National Guard, December 28 last, when Glover resisted arrest by the militia and was wounded. Glover is conducting his own case. The jury was locked up and the case continued till Monday.

A MURDER AT AGUA PRIETA

MEXICAN KILLS ANOTHER AND ESCAPES TO THE UNITED STATES—KILLING RESULT OF DRUNKEN ROW.

(Special to the Review.)

Douglas, Ariz., Feb. 6.—Francisco Lopez shot and killed another Mexican on the other side of the international line, near Agua Prieta, this afternoon at 3 o'clock. The Mexicans were both drunk, and the killing was the result of a drunken row. Lopez shot his victim in the back.

After the shooting Lopez fled to the American side, and was afterwards seen going north not far from the Copper Queen smelters.

The officers from Agua Prieta came to Douglas, and Constable Date Graham started with them in pursuit of the murderer, but he has not yet been apprehended.

THE METAL MARKET.

New York, Feb. 6.—Closing quotations today were: Silver, 55 1/2c; Mexican dollars, 45 3/4c. Copper, quiet and unchanged.

A man's table manners are a part of his morality.

GOD OF WAR ASSUMES CHARGE

THE DIPLOMATIC RELATIONS BETWEEN JAPAN AND RUSSIA HAVE BEEN BROKEN.

REPORTED 'HOSTILITIES'

Russian Minister Will Leave Tokio in Few Days—Final Interview Between Jap Minister of Foreign Affairs and Russian Ambassador—Story of Sinking Warships Unconfirmed.

Diplomatic Relations Broken. . . Tokio, Feb. 7.—It is clear that the diplomatic relations between Japan and Russia have been broken. Baron De Rosen, the Russian minister, is expected to depart in a few days. His preparations for departure are now progressing. The Russian legation expected its government to break silence today, but no communication has been received except one announcing that troops have been dispatched to Seoul. The populace is not aware of the diplomatic proceedings, and although it is generally known that the country is on the eve of war, the people await the clash with the same calmness that marked the preliminary stage of the controversy.

Final Interview Occurs. . . Tokio, Feb. 7.—It is believed that the final interview between Foreign Minister Komura and Baron De Rosen, the Russian minister, took place yesterday (Saturday) afternoon. The Baron drove to Minister Komura's official residence and remained twenty minutes. The nature of their conference is secret, as are all important acts of the Japanese. It is probable that Baron De Rosen delivered the belated Russian note today.

Japs to Leave Vladivostok. . . St. Petersburg, Feb. 6.—A dispatch received here from Vladivostok says, "The Japanese commercial agent there, acting under orders from Tokio, has issued a circular informing the Japanese residents of the country that those who wish to do so can proceed to Japan on board the British steamer 'Afrity,' which has arrived there."

Reported Fighting Begins. . . London, Feb. 6.—The British government no longer attempts to conceal the fact that England is giving all possible encouragement to Japan. That war is now on can no longer be questioned, and it is expected that it will be one of the bloodiest conflicts of modern times.

An unconfirmed story reached here today of a naval battle in which three Russian and two Japanese vessels were sunk.

Another dispatch received last night confirms reports that Japan has commenced hostilities by sinking a Russian cruiser.

The feeling here is very strong and outspoken in favor of Japan.

Jap Minister Leaving. . . St. Petersburg, Feb. 6.—War is now considered as having begun. The Japanese minister, who has represented that government here, is preparing to leave the city tonight.

The Scene Changes. . . St. Petersburg, Feb. 7.—The scene of the Russo-Japanese negotiations has shifted, and now Russia awaits with suspense on Japan, to see how the latest word is to be received. As each communication has passed between the capitals of the contending powers the situation has been brought to a more tense state.

It is now feared that diplomacy is making its last exchange, and that the questions at issue may go to the arbitration of St. Bartholomew.

Russia is keenly awaiting the possible change in the situation, and is waiting the first intimation which may give a clue to the temper of Japan.

Tokio, Feb. 6.—Russia's delay, coupled with the announcement of continued movement of re-inforcements to Manchuria, increase the strain of the tension, while it diminishes the already slight prospects for peace.

The government has been urged to dispatch a peremptory note to St. Petersburg, threatening to declare war if refused immediate satisfaction in the way of a reply to its note; still the government is waiting.

(Continued on Page Two.)

THE WAR BETWEEN JAPAN AND RUSSIA PROBABLY ON

ACCORDING to the dispatches received on Saturday, all indications point to active hostilities between the two great nations—Russia and Japan. In fact, an unconfirmed dispatch conveys the information that a sea battle had already taken place, and that two Japanese and three Russian ships had been sunk. The further fact, officially promulgated, that diplomatic relations had been broken between the two powers would indicate that one of the bloodiest and fiercest wars of modern times is about to be waged.

The feeling in this country is intense, and admiration for the plucky "little brownies" by the American people indicate their interest in the international controversy between these two powers.

The Bisbee Daily Review is the ONLY PAPER receiving and publishing the Associated Press Dispatches, and these are obtained at heavy expense, but during this conflict the fullest Associated and Special Dispatches will be promptly furnished to Review readers. Special arrangements have been made to take the day report of the war news, as well as the night report, so that every period of the twenty-four hours may be covered completely. Should the dispatches of Sunday night warrant, and the information they contain indicate actual warfare, the Review will issue an "Extra" on Monday morning.

MUST PAY SPANISH CLAIMS FOR SMACKS

Jacksonville, Fla., Feb. 6.—Judge Locke yesterday handed down final decrees in the cases of the Spanish fishing smacks seized near Key West about the beginning of the Spanish war. The vessels were seized by the United States navy and sold as prizes. The owners appealed and the supreme court decided the seizures were illegal, and on a second trial the district court awarded damages.

From this action of the district court the government appealed, and the supreme court sustained the action of the lower court. The claimants will be paid at Key West.

There are twelve of them and their claims aggregate \$55,855.12.

THREE GUN TOTERS IN DOUGLAS PINCHED

Douglas, Feb. 6.—The officers have begun a crusade against the gun packers in this city. They made a good start last night and gathered in three shooting irons of various calibers; they also gathered in the men who were packing the guns.

The three armed men are employed in the Copper Queen Store, and were down in the "red light" district having a "time." The officers noticed that their coats did not set right over their hip pockets, and proceeded to investigate. In each case a six-shooter was found and confiscated. The gun packers will have to answer to the charge of carrying concealed weapons in the justice court Monday.

Latest Dispatches Give Nothing New

DAY OF TENSION HAS BEEN PASSED—ASSOCIATED PRESS DISPATCHES THE ONLY INFORMATION—LON-AWAITS NEWS FROM THE EAST.

London, Feb. 7.—A day of tension and apprehension has been passed here, and London is still without information regarding developments in the Far Eastern situation, other than news received from Associated Press sources.

Up to a late hour tonight, no further dispatches had been received at the Japanese legation, the officials there insisting that, except for news contained in the press, dispatches they were still without even an intimation that the Russian reply to the Japanese demands had been received.

Lieut. Gen. Sir Ian Hamilton, quartermaster general to the British forces, will, it is announced, in the event of war between Japan and Russia, be appointed British military attaché with the Russian force.

TO PROTECT TRADE.

Representative Hearst Introduces Bill to Above Effect.

Washington, Feb. 6.—Representative Hearst, of New York, introduced a bill today "To empower United States attorneys, without direction of the Attorney General, to enforce an act to protect trade and commerce against unlawful restraints and monopolies."

Hon. B. A. Packard, who has been ill for a long time, and confined to his room in Tempe, is able to be about again, and was in Bisbee for a short time Saturday on business. Mr. Packard has many friends who will be glad to know that he has recovered.

He's the sort that looks as if God Almighty had put the finish touches and forgot to make the man.

Trouble may be born of a woman, but it generally manages to take the shape of a man.

THE K. P. HALL IS NEARLY DONE

ONE OF THE HANDSOMEST STRUCTURES DEVOTED TO FRATERNITY USES IN THE TERRITORY.

IT COST OVER \$30,000

Front and Stone Trimmings—Sur-Front and Stone Rimmings—Sur-mounted by a Clock Tower—And Magnificently Furnished—Complete in Every Detail for Lodge Purposes.

What the determination of three or four men can accomplish is evidenced today in Bisbee, with the near approach of the completion of the handsome Pythian hall, which stands on O. A. street, marking another step in the progress of greater Bisbee.

In the early winter of '02 Charles Strong mentioned the fact that Bisbee, which is peculiarly a fraternity city, should have a fine fraternity hall, where the men who were here without a place to spend the evening might meet in social intercourse, and suggested that it should be as fine as the place for years would warrant. The matter was mentioned to two or three of Bisbee's progressive spirits, and the idea did not meet with much favor until E. G. Ord, the contractor, spoke up and said: "Well, it can be done; let us do it."

No sooner was this said than Mr. Baretto, Mr. Ord and Mr. Muhem, all well known in this city as men who "do things," formulated the plans, the fruition of which is the handsome building, which, it may be said, is now almost ready for occupancy.

These gentlemen immediately arranged among themselves for the necessary funds wherewith to prosecute the enterprise, which, of course was quickly done, the matter was placed in the hands of an architect, with instructions to prepare the plans, and when these were submitted bids were called for, the contract let, and on the third day of February the first grading work was started. This of itself was a herculean task, as the foundation was blasted out of solid rock, and required a great deal more time than ordinarily. With a promptness such as is not seen customarily around here the materials were delivered just as they were needed and the building was commenced and began to show the imposing structure which stands in place today. Upon the completion of the foundations the Knights of Pythias made the day of laying of the cornerstone a red letter day in the history of the order, the same being laid with imposing ceremonies.

From this date the work progressed rapidly, every detail being arranged for. The work was under the charge of Architect F. E. Johnson, since deceased, and where he left off, the work of supervision was turned over to Architect Herst of the Copper Queen company.

The building is one of the handsomest in the territory. Graceful in proportions, imposing in appearance, it attracts the attention of all from the vantage point of view it occupies. It is situated on high ground, and on one of the coming and principal streets of the city. The completion of the new depot within five hundred feet of the Pythian castle, within a block of the post-office, easy of access, will add greatly to its desirability.

It is two stories in height, and some idea of its proportions may be gained from the following figures: From the base of the first floor to the top of the building is 37 feet, ornamented by dressed stone coping and cornice work. The structure is surmounted with a handsome and well proportioned clock tower 42 feet in height, this being capped again with a flag pole 20 feet in height. The tower is 16 feet square, and contains three clock dials, four feet square, the fourth side being unnecessary owing to the rising mountain behind the building. In this tower will be placed the clock of the E. Howard manufacture, and from a bronze bell, weighing 450 pounds will be announced the half hours by one stroke thereon, and the full strokes indicating the hours. All will appreciate this luxury in Bisbee, being the "first public timepiece erected in the city, and will add those who have been careful enough to deposit for interest."
