Points of Interest in and About Cananea. Cobre Grande.

The most southerly of the series of ore bodies so far opened in the Cananea Mountains. This mine is, at present, producing quantities of profitable ore, though for a long period after the commencement of active operations by the C. C. C. Co., it was developed solely for the main water supply of the reduction works, etc.

Various rumors are in circulation as to who were the proprietors of these old works. By some they are ascribed to the industry of the Spaniards, who, under the rule of the Spaniards, once played a conspicuous role in this country.

On the line of the Narrow Gauge Railway and also reached by wagon road. The results of the development of this mine has been the production of vast quantities of native copper.

Capote Mine. The most extensively developed of all the Cananea Company's mines. The main tunnel (known as No. 9), enters the mountain a few feet above Chivatera Creek, and, with a continuation known as Veta No. 9, has a total of 6215 feet.

Oversight. Opened as a separate mine, though in reality a continuation of the Capote, to the south.

Elisa. Next further up on the line of the Narrow Gauge Railway, about kilometers beyond the smelter.

Puertocitos, Etenita, Aifrenia, Chase. At the terminus and short distances beyond, on the Narrow Gauge Railway.

Power house and shops in Ronquillo.

Terrific Bombardment From Land and Sea

Japanese Are Working A Night Shift

JAPANESE ARE MAKING DEMONSTRATIONS WITH TORPEDO FLOTILLA. HEAVY FIRING HEARD YESTERDAY ALL DAY.—FIELD GUNS, SIEGE GUNS AND SMALL ARMS FIRE ALMOST MOST INCASSANT. DECISIVE BATTLE OF BIG ARMIES EXPECTED AT ANY MINUTE.

Chicago, Friday.—A special to the Daily News from Che Foo, says: Another demonstration took place off Port Arthur yesterday. Firing began from the forts about 10 a. m. and continued until 1 p. m.

The destroyers and torpedo boats pursued the same tactics, and an auxiliary cruiser lay off the islands until the firing had ceased, when it proceeded eastward at full speed.

At 8:30 p. m. the same evening firing began heavily from the bluff, with much activity of searchlights, indicating the approach of torpedo boat craft. A little later the sound of more distant firing was heard, evidently from the land side of Port Arthur, continuing until 2:30 this morning, with a brief renewal at 5 a. m.

During that period there was an almost uninterrupted thunder of field guns and volley firing, punctuated with crashes as of siege guns.

It is probable that what took place was a general shore action with a naval demonstration. It seems as though the Japanese intend to wear out the

defenders by continued night attacks before making the final simultaneous sea and land attack.

A Naval Battle. Tokio, Friday.—It is reported that the Port Arthur fleet came out of the harbor Thursday and engaged the Japanese fleet.

It's Coming. Liao Yang, Friday.—It is reported that Generals Oku and Kuroki have joined forces and are attacking from the direction of Vafangow. There is talk of a serious engagement shortly. It is also rumored that the Japanese forces which were recently advancing in this direction have fallen back on Feng Wang Cheng.

Togo Wins Victory. Tokio, Saturday.—Admiral Togo reports an engagement at Port Arthur last Thursday, in which the battleship Peresvelt type was sunk, and the battleship Sevastopol and first-class cruiser Diana were damaged. The Japanese fleet was practically uninjured.

Paradise May Have Railroad Into Camp

THE CAMP IS LIVELY, AND SATISFACTORY RESULTS AT THE SEVERAL PROPERTIES. IT IS PROPOSED TO BUILD RAILROAD.

(Special to Review.) Douglas, Friday.—R. L. Gibson returned from town Thursday evening from a business trip to Paradise mining camp.

Things are brisk down that way, he states, and the outlook considered good for lively times in the course of a few months more. Development work is going on steadily and with satisfactory results at the several properties being opened up in the camp.

Railroad talk continues and continued satisfactory results in development work will undoubtedly bring the much desired rail connection. At present Paradise camp is fifteen miles from the E. P. & S. W. track. A route that has been picked out for rail entrance would put the road over a comparatively level grade to within six miles of the mines, and Mr. Gibson states would, so far as most Paradise people have expressed themselves, be most satisfactory.

Shot to Kill Girl Then Suicided

LIFE INSURANCE MAN PUTS BULLET INTO GIRL'S NECK, AND KILLS HIMSELF—LOST HIS JOB.

Detroit, Friday.—Chas. Swayze, employed by a life insurance company, and formerly assistant superintendent of the Detroit House of Correction, today shot Miss Effie Alvord twice while the couple were in the private office in the company's suite on the eleventh floor of the Chamber of Commerce building, and then jumped from the window himself. He was picked up and died as he was carried into the lobby of the building. Miss Alvord was shot in the neck and wrist, but is not seriously hurt, it is reported.

A letter written by Swayze was found which, it is said, explains the tragedy. It is alleged that the letter says Miss Alvord was responsible for Swayze's losing his position at the House of Correction.

Insurgents Defeated Completely Routed

PRESIDENT'S PARTY OF URUGUAY WINS DECISIVE VICTORY OVER REBEL FORCES.

Hard Fight Between Government Troops and Rebels for Day and a half—Rebels Lost Six Hundred, and Have Retreated, Pursued by Cavalry.

Montevideo, Uruguay, Friday.—The government has received information that a victory over the insurgents had been won by Col. Calarza, in command of the government troops at Cerro Largo, 205 miles from Montevideo. The fighting continued for a day and a half. Six hundreds of the insurgents were killed or wounded, and the government cavalry is pursuing the defeated army.

Returned From Tombstone—Mr. Scollard.

of the Review, returned last evening from Tombstone, where he has been on business in the interests of the paper.

GERONIMO AT THE FAIR.

The St. Louis Globe-Democrat tells of the famous Arizona war chief, who is now on exhibition at St. Louis, as follows: "Geronimo appears to be thoroughly pacified. As he waves his rattle about his head in the inclosure—you might say corral—in the Indian industrial school and disposes of his autograph already printed in blue lead pencil at 10 cent the copy, it is readily seen that his old animosity toward the white race is entirely gone. It hastens its departure that so many autographs are asked for. So thick and fast come the demands for them that Geronimo is doing a thriving business. Long residence in prison has improved his manners. He is not the caged eagle, drooping in melancholy dejection, nor is he like the chieftains of romance who "never smiled again." Geronimo smiles all the time; he is moved to such high spirits that he groins; and the more dimes he gets the more he grins. In one hand he rattles a gourd filled with pebbles, while another savage strikes a rude drum and keeps accompaniment in a vocal monotone."
