HUNT SAFELY LANDED FOR SHERIFF

OVERWHELMING SENTIMENT EXPRESSED BY DEMOCRATS TO THAT EFFECT IN THE COUNTY.

RESULT OF PRIMARIES

Yesterday Makes Plain: Sailing for Several Candidates—Great Vote Gotten Out By Enthusiastic Workers. Hot Time at Several Points—Delegates Who Will Attend Douglas Convention From Various Points.

The Democratic primary election throughout the county held the center of attraction yesterday. From Paradise on the east to Benson on the west the contest was waged, and from the returns that are in it is reasonably certain to predict that Stewart Hunt will be the Democratic nominee for Sheriff.

The contest in Bisbee was a friendly one. Both tickets were pledged for Stewart Hunt for Sheriff, and the ticket bearing his name at the top was elected by almost seven to one.

Returns from Naco, Douglas, Benson and Tombstone indicate these delegations will be solid for him, and this morning his nomination is practically assured.

In the Democratic convention at Douglas, Bisbee will cast forty-one votes for Stewart Hunt for Sheriff. With this advantage the votes he will receive from Naco, Douglas and Tombstone will insure his nomination.

In each precinct the full Democratic vote came out. At Douglas 892 votes were cast. Tombstone voted 437, and Bisbee polled no less than 1200 votes.

In the absence of any primary election law, several methods for casting the vote were in vogue. In some precincts an official ballot was used, while in others the allotted number of delegates were printed on a ticket, and this was the ticket used. This was the method used in Bisbee. There were two tickets in the field, each bearing forty-one names, besides a blank form of ticket that was prepared, but was seldom used.

It was reported last evening that several contests would be presented to the convention at Douglas. One is to come from Naco, where the method used was by mass meeting, and another is reported from Douglas, where objection was made to the ballot used in the election.

A poll of the delegates elected on yesterday made last night by the Review shows a majority favors the following candidates for county offices: Sheriff—Stewart Hunt. Recorder—Chas. Wallace. Treasurer—J. N. Gaines. Probate Judge—Frank Goodbody.

Further than this the Review was unable to get the sentiment of the delegates elected on yesterday.

The delegates elected from the precincts heard from yesterday were as follows:

BOTH ARMIES RESTING

Russia Admits Hope Gone for Termination of War During This Year. Japanese Will Push on to Mukden--Rain in Torrents and Terrible Roads Hamper Forces--Most Desperate Attempt of the War Is About to Be Made by the Japanese to Take the Port Arthur Fortifications

The troops on both sides are resting. This information from an Associated Press correspondent at Mukden came in a dispatch filed at 10:35 o'clock Saturday night, and coupled with reports received at St. Petersburg Saturday from Gen. Kuropatkin and Lieut. Gen. Sakarcff reporting inactivity in the fighting zone Thursday and Friday, indicates that since Thursday, because of the torrential rains and heavy roads hostilities have been reduced to a minimum. The rear guard of the Russians has succeeded in taking most of its transports and guns through Mukden. The Japanese, however, are reported going there by railroad. The force under Gen. Kuroki is in the hills east of Mukden.

A St. Petersburg dispatch says the war office is reluctantly disposed to admit that with the defeat of the Russians at Liao Yang practically all hope of turning the tide of war this year has departed. Thus Kuropatkin must retire, await reinforcements, and prepare for a new campaign next year. No word is dropped in St. Petersburg looking in the direction of peace, however.

Chinese reports received at Mukden estimate Japanese forces in the battle of Liao Yang at 300,000 men, of whom 70,000 were Chinese and Koreans. Gen. Kuroki reports that after the battle of September 5th the Russians took 10,000 wounded to Mukden, leaving 3,000 in the vicinity of Liao Yang.

No official figures of the losses at the battle of Liao Yang have been given out.

PLAN A GREAT ASSAULT

St. Petersburg, Sept. 11.—The war office is reluctantly disposed to admit that with the defeat of the Russians at Liao Yang all hope has practically departed of turning the tide of war this year. In spite of successive reverses by land and sea, the nation had pinned its faith to Gen. Kuropatkin's assurances that when he accepted battle victory would crown the Russian arms. But as he has failed in his attempt to turn the scale, they now face another indefinite period of waiting. But disappointed as they are and discouraging as the situation is, no word is heard in favor of making peace. The

people say: "Russia will be victorious in the end. The war must continue until Russia is victorious. If not this year, then the next. If not next, then the year after." This is the universal Russian sentiment. Military officers who are familiar with the positions held on both sides of the Taiste river was prepared at Liao Yang consider that this historic battle will consecrate the flanking movement in military annals.

According to the best information from the front, both armies are now tired and reeling after the exhausting days of fighting and marching.

BENSON PRECINCT.

The primaries at Benson passed off quietly here today, and the following delegates were nominated and elected:

- H. W. ETZ H. B. HALL JOHN A. DUNBAR W. S. MEYERS

The delegation will ask that Hon. Steve Roemer be nominated for the Council.

ST. DAVID.

- WALTER FIFE JIM BUSY JIM CHRISTESON

FAIRBANK.

- HENRY FRY

CARR'S CANYON.

- JOHN KELLY

HEREFORD.

- W. G. FRANCIS.

The returns from Bisbee at a late hour last night showed that 1136 votes had been cast. Of this number the successful ticket received an even 1000, and the opposition ticket 136. Besides this vote there were 92 scratched tickets voted at the Fire House, which were being counted as we go to press.

Justice Killed Near Prescott

POSSE SURROUNDS MURDERER, AND WILL CLOSE IN THIS MORNING.

Judge Reynolds, Dead Man, Was Widely Known in Territory—Was Shot Through Heart by Mexican Because of Woman—Republican Politics.

(Special to Review.)

Prescott, Ariz., Sept. 10.—Justice of the Peace Reynolds, of Crown King, was shot through the heart and killed last night by Andrew Bustamente. The two men quarreled over a handsome Mexican woman.

Sheriff Roberts and a posse of twenty have Bustamente surrounded in the brush. They will close in on him in the morning. Reynolds was sixty years old, and an old timer.

The Republican primaries of Yavapai county were held today. Indications are that Joe Roberts was renominated for sheriff. The race is a close one, and hard fought.

Japanese Officers Mapping Plans for Assault

WILL FIGHT TO THE END

Chee Foo, Sept. 11.—General Nogi's next assault upon Port Arthur will be directed chiefly against the Riehling-shan and Kewanshan forts, which are the strongest forts on the northeast flank. This information is derived from an unquestionable authority who has just finished a visit over the Japanese line around the forts, and is conversant with Japanese officers, who allowed him to make personal observations.

The elevation of Riehling-shan is 350 feet. Three hundred yards away, on the same range is another hill so much lower that Riehling-shan protects it from all bombardment except from Tishan and Kewanshan. This hill is part of a sector which the Chinese call Palichuang and in the capture of which the Japanese lost many lives. This position is the foundation for Japanese preparation; for the next assault. There seems little doubt that the proposed assault on Riehling-shan and Kewanshan will be the most trying one that the Russians have yet been called upon to resist. Everything which ingenuity can suggest is being done by the Japanese to render the attack successful, particular attention being paid to measures which will enable the Japanese to gain the forts in the event that they

capture them. Two full divisions are available in this vicinity under Gens. Oshima and Tushay. The entire Japanese force now surrounding Port Arthur is estimated at 80,000 fighting men. Information of the Associated Press quotes an Argentine colonel who is with the Japanese as saying that the Russian defenses facing the Japanese have been made with perfection undreamed of.

With Riehling-shan and Kewanshan captured, the Japanese will practically control an entrance along the railway, and they contemplate assaulting other forts from their weaker sides. The Japanese say they are prepared to lose heavily taking Riehling-shan and Kewanshan.

These forts, like the majority of the forts surrounding Fort Arthur, have six-inch steel shielded loopholes, with rapid fire guns at intervals. These guns, according to the information of the Associated Press, and not land mines, have proved the most disastrous to the Japanese. The shields are impervious to field artillery. Nothing but siege guns will make an impression upon them. The Russians also send strong electric currents through the wire entangling the surrounding forts.

PORT ARTHUR FIGHTING

Reported Continuous—Japanese Now Say It May Take Them Two Months to Win.

Chee Foo, Sept. 10.—A Chinaman whom a correspondent sent as a messenger into Port Arthur has returned via Dalny. He says he was put to work at Port Arthur carrying the Russian dead to burial and the wounded to the hospitals. He escaped on Thursday and boarded a junk, which Japanese torpedo boat destroyers soon overhauled.

The Chinaman had copies of the Port Arthur Novkrant hidden in his clothes. Finding these, the Japanese took him to Dalny. He says they hung him up by the queue and beat him to make him confess he was a spy. He was recognized finally by a Chinese official interpreter, who secured his release.

Another Chinaman, who left Port Arthur Friday, says a fierce assault was made on the Russian left flank at 3 o'clock in the morning of that day. The assault lasted until 6 a. m., when the Japanese retired. The bombardment then recommenced, the Japanese firing chiefly from Sishihyang and Palichuang, the Russians from Antzshun.

The Russians estimate the Japanese losses as 8,000 during the four days, August 27 to 31.

The Russian losses in the same time were 3,000.

During the assault shells from the field guns and rifle bullets fell in the city. The Russian ships in the harbor participated occasionally in the firing.

It is said that the Japanese now do not expect to capture the fortress in less than two months or possibly longer. They give the garrison no rest. When an assault ends the bombardment redoubles. The garrison is greatly worn and weary, but determined to continue resistance, always hoping the General Kuropatkin will soon be strong enough to come to their relief.

COMPANY PAY DAYS.

Yesterday was C. & A. pay day. The amount of money disbursed was large. It enlivened business conditions in town considerably. Monday the Copper Queen pay roll will get in evidence.

LOOKING TO S.P. HAND IN R. R. DEAL

OUTLET FOR THAT ROAD'S EXTENSION INTO MEXICO BY WAY OF CANANEA.

COL. GREENE TO BUILD

Extension of Cananea Railroad Into Agua Prieta—Combination There With Southern Pacific Extension Would Make Important Line Into the Vast Timber Country of the Sierra Madres—A Great Project.

Douglas, Sept. 9.—The International-American has come into possession of a railroad story of interest. It will be remembered that some two weeks or more ago it was published in the Chihuahua Enterprise that W. C. Greene and his associates had secured a concession for a line of railroad which would extend practically north and south, reaching the northern part of Sonora, tapping the Sonora road and also go into the Sierra Madre mountains.

Mr. Greene left for New York two weeks ago, but before going he talked to a gentleman well known in Douglas about his new railroad enterprise into Mexico. This gentleman's name is withheld by request; if it was here given it would be a full guarantee for the truth of what Mr. Greene said about the proposed new railroad. Mr. Greene told the gentleman that he (Greene) had secured the concession for the railroad and that he and Mr. F. M. Murphy were interested together in the enterprise.

The proposed line is to start at San Jose, a station on the line between Naco and Cananea, run thence to Agua Prieta, across the line from Douglas, and thence to the San Bernardino ranch and from there to the timber belts in the Sierra Madre mountains.

Mr. Murphy is the owner of large timber tracts of land in the Sierra Madre mountains which are worthless until a railroad reaches that section and provides a means of getting the timber to market. That a railroad will go into the Sierra Madres to get this timber at sometime in the near future there is no doubt, but railroad men do not always tell the whole story when talking about the promotion of new lines.

It has been suggested that the very best possible route over which the Southern Pacific railroad can reach Cananea from its present terminus at Pearce would be to run from Pearce south to Douglas and from here to Cananea. It is well known that the Southern Pacific has been refused a request to be allowed to cross the International line six miles this side of Naco. The Southern Pacific must cross the international line at a port of entry and therefore must cross at either Naco or Douglas.

It is not improbable that the Southern Pacific may be interested in the road now proposed by Mr. Greene to run from San Jose to Agua Prieta. To build the Southern Pacific from Pearce to Douglas to connect at Agua Prieta for Cananea would be to come down an easy grade through the Sulphur Springs valley all the way. The line from Agua Prieta would be a few miles longer than the line from Naco, but it would cut out the expensive grading necessary to reach Naco from Pearce.

The Southern Pacific must connect with the Cananea line; no doubt it would be cheaper to build from Pearce to San Jose station on the Cananea line by way of Douglas than it would be to build the line to Naco and then build a branch line to Douglas. It is a certainty that the Southern Pacific will come to Douglas; it is quite likely that it will connect with the Cananea road through this city.

Afterwards the line would be constructed from here via San Bernardino to the timber belt in the Sierra Madre mountains.

WILL ASK INTERVENTION.

Powers of the World to Be Called Upon to Take Action in Struggle Between Japan and Russia.

St. Louis, Sept. 10.—The powers of the world signatory to the Hague convention will be asked by the Interparliamentary Union at its twelfth conference to intervene in the Russo-Japanese war. President Roosevelt will be requested to call a second session of the Hague convention. Compulsory arbitration will be advocated, use of submarine mines in time of war will be deplored, and many kindred resolutions will be presented during the deliberations of next week. This action was decided upon today by the executive council of the union.
