NO. 352

WENSEL DIES AT DOUGLAS

Former Bisbee Man Succumbs to Wound From Stray Bullet

HIS SLAYER UNKNOWN

Coroner's Jury Will Endeavor to Fix the Grime on One of the Negro Gun Users

(Special to Review.) Douglas, June 30.—Frank Wensel, struck by a stray bullet at the Eagle Cafe Thursday night, died this afternoon about one o'clock as the result of the wound he received.

The coroner summoned a jury which assembled following the death of Wensel, and was in session until this evening, when adjournment was taken until tomorrow morning.

The point of most importance to be fixed is as to which of the negroes who were engaged in the gun encounter which resulted in the death of Wensel fired the fatal shot. Both the negroes are confined in jail. They will probably be brought before the coroner tomorrow morning, at which time it is hoped that the death of Wensel will be fixed upon one of them. Neither has yet had arraignment. They are held temporarily under the charge of discharging firearms within the city limits.

The affair has created a decided stir here, and calls for the public for action against the men that will break up the habit of shooting on the streets regardless of the public welfare. This case is the third that has been had in the city within a short time. The most notorious of the previous offenses was that wherein William Woods endangered the lives of a large number of people at the E. P. & S. W. depot by opening fire on James Veitrees. That no one was killed at the time was marvelous.

Frank Wensel, the victim of the latest outrage, died without giving information of any sort as to relatives he might have. To the moment of his death, though informed by the attending physicians early in the day that he could not live, Wensel stoutly refused to tell anything of his past. His effects are in the possession of the coroner, but have so far failed to reveal anything that gives the knowledge that is desired as to his relatives.

So far as is known, he was unmarried. He came here about four months ago from Bisbee, where it is known he was popular with a large circle of friends he had made in the course of a several years residence there, during which he was employed as a cook at the English Kitchen and at the Auditorium restaurant. Word has been sent to Bisbee by the coroner which it is hoped will bring from acquaintances of Wensel there some information as to relatives. The latter are believed to reside in St. Louis.

Mr. and Mrs. W. G. Hubbard were visitors at Naco last evening.

MAY WIDEN THE STRIKE

Govt Action at Chicago Is Expected to So Result

Chicago, June 30.—Action taken today by Judge Holden of the Superior court is likely to cause a spread of the teamsters' strike to drivers employed by local express companies who do business throughout the city and suburbs.

The Employers' Association filed two days ago an application for an injunction preventing these companies from refusing to make deliveries to and from boycotted homes, as they have been refusing to do since the commencement of the strike.

Judge Holden issued a temporary injunction against three of the express companies which have refused to deliver merchandise.

MILLION IS LOST BY EXECUTOR. Portland, Maine, Estate Wrecked by Bad Investment of Attorney.

Portland, Me., June 30.—An auction sale today of securities of a face value of \$900,000 for less than \$500 revealed that an estate of more than \$1,000,000 has dwindled to almost nothing through the wild-cat investments of S. Philip J. Larrabee, executor of Robert Trickey, of South Portland. It was not discovered until recently that

WALLACE IS GENEROUS

In Reply Made to Harsh Criticisms Extended By Taft

New York, June 30.—John F. Wallace, who resigned as chief engineer of the Panama Canal commission, and who Secretary Taft charged with leaving the canal work at a critical moment, gave a statement to the Associated Press tonight in reply to Secretary Taft. After making the statement public Mr. Wallace left the city.

He said he was going to take a much needed rest, and did not expect to return during the summer.

Mr. Wallace said: "The primary causes which led me to tender my resignation as chief engineer of the commission were underlying and fundamental, and I must emphatically resent the charge that my motive in leaving the work was a financial one. A careful consideration of the entire subject had brought me to the decision that I should disconnect myself with the work at the earliest possible date, and that it could be done without embarrassment to the administration or injury to the work. It is unnecessary to state the reasons for this decision, except, in fairness, I should say that they involve no criticism of any act of the president or the secretary of war."

Washington, June 30.—It is understood that John F. Stevens of Chicago, formerly vice president of the Chicago, Rock Island & Pacific railway, has been selected as chief engineer of the Panama Canal commission, to succeed John F. Wallace. Stevens' salary will be \$30,000 per year, and he is not to be a member of the commission.

A MILLION IMMIGRANTS. Washington, D. C., June 30.—Figures compiled for the fiscal year ending tomorrow will show that the past twelve months broke all records of foreign immigration in this country. The total reaches the enormous figure of over 1,000,000. The highest reached in any year previous was in 1903, when the number was 857,000.

FIREMEN TO PRESENT CLAIM TODAY

TO GROUND OCCUPIED BY THE FIRE HOUSE ON MAIN STREET.

Neale & Ross, Attorneys for the Firemen, Will Present Application for Deed—If Refused, Will Go to District Court.

Neale & Ross, attorneys for the Bisbee Fire Department, will today make application for several individuals who have signed an application for a deed to the lots claimed by the fire department on Main street and School Hill.

Attorney Ross stated yesterday that the Bisbee Fire Department would not be mentioned in the application, but that that the entry would be made by several individuals claiming to represent the actual occupants of the lots in question at the time the application for a patent was filed in the Tucson land office.

The action by the Fire Department was the result of a special meeting held at the Fire House about three weeks ago when it became known that J. S. Douglas had made a proposition to the City Council looking to a change in the present location of the Fire Department, offering a new site on Railroad Avenue and \$7,500 in cash.

The proposition of Mr. Douglas was accepted by the Council, but at this stage of the proceedings the Fire Department woke up and entered protest. At the same time it was announced that the particular parcel of ground on Main street was claimed by the Copper Queen, and that this company had already filed an application for a deed before the Mayor.

At the regular meeting of the Fire Department Friday night it was announced that the attorneys were preparing the papers, and that they would be presented to the Mayor this afternoon.

REWARD TO GIRL TRAIN-SAVER.

Railroad to Pay for Education of Eleven-Year-Old Heroine.

Asheville, N. C., June 30.—The bravery of Nannie Gibson, an 11-year-old mountain girl, who by waving a red petticoat saved a train from plunging into a heavy landslide and falling hundreds of feet down a mountain side, has been substantially rewarded by the Southern Railway. When Nannie was asked what she desired, she said she wished to go to school. The railway has sent her a check and a letter, agreeing to provide for her education and afterward to see that she is well provided for.

Larrabee had lost most of the Trickey estate, and he was disbarred as the only punishment possible. At the auction \$8,000 shares of one mining company brought 67 cents.

OYAMA BEGINS BIG BATTLE

Tokio So Reports—Efforts to bring Armistice In Advance of Engagement Thus Come to Naught—Mutineers at Odessa Surrender Without Firing a Shot—Situation Better

Tokio, June 30.—Official reports received here today from Field Marshal Oyama announces that he has begun battle. The report is brief, and does not give further details of the movement that has commenced further than that action was begun today against Hailungchen, and that the conflict has thus been commenced all along the line.

It is believed here that tomorrow's dispatches will bring the news of the most sanguinary action of the war on land, and that it will carry information of successes at all points for the Japanese. It is not believed that Oyama would at this time have begun a general engagement unless he had every ground for confidence that he could administer overwhelming defeat to the foe.

That the general engagement has begun is received here with general approbation on the part of the public, and the fact that they have been led to look upon the proposed armistice as a Russian snare to gain time.

Odessa, June 30.—Without firing a gun or making the slightest show of resistance, the mutineers on the Kniaz Potemkin hauled down their red flag and surrendered the battleship to Vice Admiral Kruger's squadron, which arrived here at noon today.

It was an anxious moment for Odessa, as the squadron of five battleships and seven torpedo boats, with their crews at quarters and their decks cleared for action, steamed within range of the Kniaz Potemkin, the flagship flying the signals which read, "Yield or be sunk."

The Kniaz Potemkin, which had weighed anchor, started in the direction of Langhorn point, near Odessa. Everyone expected immediate opening of an engagement, but instead long interchanges of signals were begun, the mutineers apparently plying to obtain favorable terms. Finally the battleship stood closer to the squadron, the vessels of which formed a circle around her, and later the squadron resumed formation and headed out to sea, the Kniaz Potemkin returning to her anchorage accompanied by Ekaterina II, which placed a prison crew on board.

The terms of surrender can not be learned, as boats from the shore were not allowed to approach, but it is thought the mutineers received promises that punishment prescribed by naval rules would be mitigated to some extent.

Ekaterina II remains in the harbor. The city is still in a state of feverish excitement. All hotels are guarded by troops, and further reinforcements has arrived. All reservations on outgoing trains have been taken for days ahead.

During the demonstration after the funeral of Sailor Omilitchuk yesterday four persons were killed and several wounded.

More Martial Law. St. Petersburg, June 30.—Martial law has been proclaimed in the governments of Sebastopol, Nicholairiff and Erivan.

As to an Armistice. Washington, June 30.—In view of the president's earnest wish for an armistice diplomats here believe he has followed up his initial representations with further suggestions in an effort to bring about a truce before the Washington conference convenes. Beginning of the rainy season in

Manchuria, it is pointed out, will enable both belligerents to sign an armistice for a month or more without weakening the positions of either. This fact, it is believed, furnishes the strongest argument for an immediate armistice.

London, June 30.—A dispatch from Odessa to Lloyd's, dated today, says the city is quiet.

Three steamers of Russian transport company have been burned and all thoroughfares leading to the ports are closed.

A telegram sent from Odessa at 10:09 this morning to a ship owner here says that the bombardment which commenced yesterday was not serious.

A renewal was threatened this morning.

St. Petersburg, June 30.—A sensational report is current that 8,000 imperial sailors together with the workmen in the yards and docks of the naval port at Cronstadt, have suddenly refused to work and that practically a state of mutiny exists there.

The News Confirmed. St. Petersburg, June 30.—4:55 p. m.—The mutiny of the sailors at Cronstadt is confirmed. It is known that one officer was killed.

The situation was reflected here by an all round stamp of the bourse today.

Situation Worse at Odessa. St. Petersburg, June 30.—A dispatch filed at Odessa at 7:40 last evening and received here this morning, says that the battleship Kniaz Potemkin was then opening fire upon the shore.

Six officers have been murdered by the mutineers, eight have been liberated and the remainder are prisoners on board.

Five hundred rioters have been killed, up to last night.

Mutineers Are Surrounded. Libau, June 30.—Four thousand mutinous sailors are surrounded in the small wood near the fort by infantry, which have been reinforced by machine guns.

One thousand mutineers have surrendered and given up their arms.

News Received in London. Nine Ships Were Burned. Odessa, June 30.—Up to the present time nine ships have been burned here.

Draymen Fight—Draymen named Schultz and Connolly mixed it up at the E. P. & S. W. depot last evening. They were taken before Judge Murphy, who put them under bond of \$25 each to appear in court this morning to answer charges of disturbing the peace. Both men furnished required bond.

Joe Holtzman leaves today for Glasgow, where he goes to look after mining claims in which he is interested.

MILWAUKEE'S GRAFTERS

Indicted By Grand Jury—Additions to Previous List

Milwaukee, June 30.—The grand jury of Milwaukee county tonight handed down 25 to 30 indictments. The jury has been hearing evidence in alleged deals in which some of the present and former supervisors are supposed to be concerned. The names of those indicted and the charges will not be known until the accused are brought into court.

Arrests were made tonight of Fred G. Schultz, a newspaper man, and G. Alowski, ex-supervisor of the 18th ward. The charge in both instances is bribery.

These indictments are supposed to be the outcome of the graft scandal started over two years ago.

SECRETARY OF STATE HAY IS DEAD.

Newbury, N. H., June 30.—Secretary of State John Hay died at his summer home here tonight.

The end came suddenly, the secretary having during the day shown improvement, and his condition until evening not being considered alarming.

The news of his death came as a shock to all here, and will fall likewise upon the nation whose people as late as this afternoon were advised by press bulletins that the secretary's condition was improved.

THREE BURN TO DEATH.

Mother and Babe Perish in a Hotel Fire.

Licking, Mo., June 30.—Three persons perished in the burning of the Collier hotel, a frame building, here today. The dead:

Mrs. V. L. Shelp, of Rolla, Mo., and infant.

Emmett Sticker, of Willow Springs, Mo.

PROGRAM FOR THE GLORIOUS FOURTH

FORMAL OPENING OF BIG BISBEE CELEBRATION ON MONDAY AFTERNOON.

All is Now Practically in Readiness for the Occasion—Sports to Suit All Tastes Will Be Had in Much Abundance.

Today finds preparations practically completed for the Fourth of July celebration in Bisbee, which according to the official program will begin Monday afternoon at 3:30 o'clock.

Information from Cananea, Tombstone, Douglas and other places report that large crowds are coming, and the committee on arrangements are making preparations for entertaining the largest holiday crowd in the history of the city.

While the celebration does not begin until Monday, Athletic Park will be the scene of the hottest baseball contest of the season on Sunday afternoon. The game will be played between Bisbee and Douglas, and as honors are about even, baseball fans are assured of their money's worth.

The baseball attraction on the Fourth will be between Cananea and Bisbee.

The hose team races and the tug of war contest now promise to be the big events. Six teams have already entered in the hose races, as follows:

C. & A. Mine team, Bisbee Hose team, Chivatera & Ronquillo team, Cananea team, Tombstone team, Douglas team.

The course between the Bank of Bisbee building and the General Offices was also made.

PROGRAM, Monday, July 3.

2:30 p. m.—Band concert.

4 p. m.—Foot race, 100 yard dash. First prize, \$35; second prize, \$15.

4:30 p. m.—Tug of war.

8:30 p. m.—Grand ball at Opera House.

Tuesday, July 4.

9 a. m.—Grand street parade.

10 a. m.—Literary exercises and oration.

11 a. m.—Horse races. First prize, \$250; second prize, \$100.

11 a. m.—Parade of Horribles. First prize, \$25; second prize, \$10; third prize, \$5.

1 p. m.—Miners' drilling contest. Double handed, first prize, \$400; second prize, \$200.

Miners' drilling contest, single handed, first prize, \$150; second prize, \$75.

Boys' drilling contest, first prize, \$25; second prize, \$15.

2 p. m.—Baseball, Don Luis, Cananea vs. Bisbee.

5 p. m.—Sack races for boys and for boys and girls.

7:30 p. m.—Band concert.

8 p. m.—Grand display of fireworks.

THREE FIRES YESTERDAY

Threatened the Destruction of Important Districts of the City

A GOOD FIRE PRESSURE

Available From Water Mains and Good Work Prevented Disastrous Fires

Three fires occurred in the city yesterday. The first two were of comparatively small importance. The third for a time threatened to wipe out a big portion of Chihuahua Hill. When the splendid fire pressure that is now available was turned on the rapidly gaining, seething mass of flames that had grown in the course of ten minutes, the prospects for a big conflagration were immediately knocked some several hundred percent below par. The fire stopped with almost as much suddenness as it started.

In the ten minutes that it raged without interference the fire destroyed three houses and damaged two others to the extent of probably a couple of hundred dollars. The loss on the houses that were burned was probably \$1,000. When the water was turned on the flames they were lighting the whole town, and aided by a wind that sprang up were beating down Chihuahua Hill in a manner that threatened to reduce that section of town to ashes. The manner in which things were going induced many people to set to work removing household effects.

The fire started in a house on the third terrace above the Cuban store as the result of the overturning of a lamp. The house was occupied by Slavoniana. They tried to combat the flames, but in less than a minute the burning oil had spread on the floor and the house was a mass of flames. Immediate alarm was given by pistol shots, and the fire department got to a point below the fire in less than three minutes. The fire, however, was a hundred feet above the road, and it took some time to find a way to approach it to best advantage with the hose available. The steep hillside offered numerous obstacles, and it was some minutes after the arrival of the department in the road before it was able to get a stream on the blaze, which had in the meantime extended to three more houses. The work done then was effective.

The first fire of the day was in a bulkhead back of the Overlock Lumber Yard in Brewery, occurring about 4 p. m. Live coals thrown with ashes from a house above the bulkhead is supposed to have started this fire. It was put out by a bucket brigade before the arrival of the fire department, which came promptly in response to an alarm turned in.

At about 8 o'clock flames burst from a time and tool house in the E. P. & S. W. yard below the freight house. An alarm was turned in at once, and in a few moments the fire department was putting water inside the corrugated iron structure, where there was a seething mass of flames. The latter were quickly gotten under control. The prompt work saved a couple of cars on the siding next to the lime house from destruction. Loss resultant from the fire will probably be a couple of hundred dollars. This does not include loss to Engineer Joe Huber in items of personal comfort and overalls, who used the house for change room purposes. The fire is supposed to have been started by water seeping into lime stored in the building.

THREE MEN WAYLAID.

In Upper Brewery—One Seriously Hurt—Affair a Mystery.

Three Italians were badly beaten with clubs in Upper Brewery about 3 o'clock this morning. One of them is seriously hurt. The men are supposed to have been waylaid. In the vicinity where the crime was committed nothing could be learned this morning concerning the affair, there apparently being united purpose to throw as much mystery about the affair as possible. The men have as yet been unable to give any clue.

Cherbourg, June 30.—Premier Admiral Sigabee's squadron, which is to convey the body of John Paul Jones back to America, anchored in the roadstead at 9 o'clock this morning.
