## WITTE MAY BE TOO LATE

### Russian Government is Conceded to be Tottering

### CZAR DEFERS ACTION Promulgation of New Organization Held Up—Witte the Only Hope

St. Petersburg, Oct. 28.—Upon return to St. Petersburg tonight, Count Witte announced that the cabinet project, which has been lying signed for three days on the Emperor's table, would not be promulgated tomorrow, intimating thereby that his program, which is known to include a species of constitution involving granting of the "four liberties," freedom of speech, freedom of assembly, freedom of the press and freedom of the person, has not been accepted.

It is felt here that the delay can not be long protracted, and that it is only a question of hours when the Emperor confides the fortunes of his dynasty and government to Count Witte's hands.

Meanwhile the situation is passing from bad to worse. Count Witte's ally in the stupendous task he is about to undertake will be Gen. Trepoft, and should they fall the best opinion is that nothing will save the present government from complete ruin. Many shrewd observers believe that Witte comes too late.

The condition in St. Petersburg is that of a city under siege with an uprising threatened from within, almost completely isolated, and its scanty store of provisions being rapidly exhausted. The garrison, however, is overwhelmingly large.

Gen. Trepoft has 90,000 troops under his command, which are distributed in every section of the city. 20,000 men are idle. Workmen's meetings held throughout the city today unanimously favored continuing the strike.

The situation at Moscow parallels that in St. Petersburg. The same paralysis has seized Russia's second city. The strike is general. People are defying all prohibitions, and are swarming to meeting places. The populations of other towns are growing more violent, and reports of disorders are arriving in increasing numbers.

### GAMBLERS OUT ON BAIL

### Effort to Have Denver District Attorney Removed From Office.

Denver, Oct. 28.—The several saloon keepers and owners of poker rooms who were arrested by order of Judge E. T. Johnson were released on bail this afternoon by order of the Supreme Court.

### Judge Johnson announces intention to file charges against District Attorney Stidger in effort to have him removed from office because of refusal to prosecute the prisoners.

### A GIGANTIC TASK MOVING POSTOFFICE.

Chicago, Oct. 28.—The gigantic, although delicate task, of moving the postoffice into its new quarters in the recently completed \$6,000,000 federal building, without delaying or disturbing approximately 2,000,000 articles of mail matter, which the office handles daily, began today.

Washington, Oct. 28.—The wireless telegraph station at the Washington navy yard was in communication with the armored cruiser West Virginia, on which President Roosevelt is a passenger, from 2:07 to 5:15 this morning.

As soon as the noise of the machinery and engines began before 7 this morning, it became impossible to communicate further, but it is expected that communication will be resumed when it quiets down at nightfall.

The feat of communication from Washington with a vessel on the Gulf of Mexico, about 1100 miles distant, and mostly over land, is regarded as remarkable.

### MRS. CUNLIFFE HAD \$5,000 PACKAGE.

Pittsburg, Oct. 28.—Persistent report that Mrs. Cunliffe, widow of the Adams Express robber, had in her possession \$5,000 of the \$101,000 stolen on Oct. 9th, was confirmed today, when Supt. Ridgman, of the Pinkerton Detective Agency, went to the Cunliffe home, and in the lining of a baby carriage, found a package containing the \$5,000.

## ANDREWS CHARGED WITH CONSPIRACY

Pittsburg, Pa., Oct. 28.—There were several sensational developments to day in investigation of the affairs of the Enterprise National Bank, of Allegheny City, and more startling disclosures are expected to follow.

National Bank Examiner John B. Cunningham, who is receiver of the Enterprise bank, entered suit this afternoon against W. H. Andrews, Territorial Delegate from New Mexico, for over \$50,000. Andrews is charged with fraudulently conspiring with W. F. Nichols, his private secretary, and T. Lee Clark, the dead cashier of the Enterprise Bank, to unlawfully procure funds by the proceeds of negotiable papers. The information caused quite a sensation, and it is intimated that other suits involving prominent persons are to be entered in connection with the failure of the Enterprise Bank.

It was reported late this afternoon that a shortage of \$300,000 in cash has been discovered in the accounts of Cashier Clark by a special government examiner. The money is supposed to have been loaned out without security or any record being made of the transactions. It was further discovered, it is said, that loans were made without proper security to other prominent persons in this section, and that the evidence is so complete that it almost affords sufficient grounds for prosecution of the persons involved.

## IMMEDIATE SITUATION DESPERATE IN RUSSIA

### Uprisings on all sides Indicate Firm Purpose of Socialists and Terrorists to Bring on Conflict of Arms

St. Petersburg, Oct. 28.—A condition bordering on panic prevailed here today, and business has been completely suspended. Soldiers are everywhere in the streets and bloodshed on a large scale is feared.

The government is trying to appease the inflamed populace, but the revolutionists seem determined to force an armed conflict.

### RIOTING AT REVAL.

St. Petersburg, Oct. 28.—Word has been received here of serious rioting which occurred at Reval last night. This morning the city is in a blaze, and the theater and spirit shops are all burning.

### THREW BOMB AT CHIEF.

Gomel, Russia, Oct. 28.—One of the strikers today threw a bomb at the chief of police, while he was driving through the principal thoroughfare. His carriage was wrecked and the chief and two Cossacks escorting him were badly injured.

### MOSCOW WANTS INDEPENDENCE.

Moscow, Oct. 28.—At a meeting of the delegates representing the different political parties it has been decided to unite in the establishment of a government which shall act independently of the emperor or his authority.

### IMPRIAL HOPE RESTS ON WITTE.

St. Petersburg, Oct. 28.—The city is again in darkness tonight save for kerosine and candles. Count Witte again spent the day with the emperor at Peterhoff. Upon him rests the imperial hopes. It is only a question of hours when he will be premier again, with practically dictatorial powers.

### THIRTY PERSONS WERE KILLED.

Thirty persons were killed and forty wounded at Reval during the encounters between rioters and police and troops last night. Crowds armed with rifles and revolvers prevented the department from distinguishing flames at the theater.

## ATTY GEN. CLARK PREPARING PAPERS

### Says He will be Ready in Time with Mandamus Proceedings

Phoenix, Oct. 27.—Attorney General E. S. Clark, who is here from Prescott today for a conference with Governor Kibbey, states that at the present time he is busy preparing the papers in the mandamus cases against the counties that refuse to make the raise in assessments as ordered by the territorial board of equalization last August.

"I have until ten days previous to November 17," said Attorney General Clark, "and it is probable that I will not file my papers in the Supreme Court of the Territory before that time. There is no reason why it should be done sooner."

"I have nothing to say about the legal phase of the matter. We believe that the law firmly upholds the action taken by the territorial board of equalization, and believe that the courts will sustain us."

Attorney General Clark did not care to give out anything regarding the purpose of his visit here, stating that it is simply for the purpose of talking over certain matters with Governor Kibbey.

It is probable that matters connected with recent investigations made by Territorial Examiner Foster in some of the counties of Arizona have brought the Attorney General to this city. In some of the counties there has been a slight opposition to the carrying out of the orders of the examiner.

## KNIGHTS TEMPLAR BUSY NIGHT.

### Four Candidates for Degree Honors Came From Out of Town Yesterday.

Knights Templar of the city last evening conducted degree work for the benefit of four applicants for honors. The gentlemen were all from outside the city. They came here yesterday and were Dr. H. H. Koon, of Tombstone, Charles McKean and Thomas Gracey, of Pearce, and Dr. Tarbell, of Naco.

The work of the commandery last night closed its first year under dispensation. About the middle of next month it will probably be passed on by the Grand Lodge in session at Flagstaff and given its charter.

## GREAT POWER LINE GALLUP TO CLIFTON

### President Bowie of Caledonia Co. Says the Survey is Now Complete

Albuquerque, Oct. 28.—Hon. Alex. Bowie, of Gallup, president of the Caledonian Coal company, the plaintiff in the big action for \$400,000 damages against the Santa Fe railroad for alleged secret rebates granted to the Colorado Fuel & Iron company, with his counsel, Mr. Bowie declined to talk about the big damage suit.

"We haven't much to say about it just now," said Mr. Bowie last night. "It will be time enough to talk when the case comes up for trial."

But while the Gallup man had little to say of the damage action he had things to say about Gallup and Gallup's prospects.

"The survey has just been completed," he said, "for the proposed electric power line from Gallup to Clifton, Arizona, by which it is intended to make Gallup coal at the mine furnish power to operate mining machinery in the Clifton district. I have heard nothing at all reliable of the rumor of an electric railroad to follow this power line, but I have heard that the power line is considered feasible and an economical project which will probably be carried through. The rumor that it is a Phelps-Dodge project is probably not well founded, for the Phelps-Dodge interests have no need for power at Clifton, at which I understand, this line is aimed."

"Should there be a Phelps-Dodge enterprise of any kind in our section of the territory, it will be the railroad from Globe, for which preliminary surveys have been completed. Surveying parties are still at work, both north and south of Gallup, and no man not on the inside knows what it means. We hear rumors now of a line north of Durango which will go direct to Denver, south through Farmington and western New Mexico to the Southern Pacific, and thence to the west coast of Mexico. How much there may be in this I do not know, but the surveyors are at work north and south of Durango."

Mr. and Mrs. Louis Hunt were passengers out for Tombstone last evening. They return home this evening. A. Wentworth is a visitor in the city from Tombstone.

## DEMOCRATS WILL OBJECT.

### To Placing of Jerome's Name on Official Republican Ballot.

New York, Oct. 28.—That there will be opposition by the Democratic party to placing of the name of Wm. Travers Jerome on the official Republican ballot is practically assured.

The certificate of action of the reconvened Republican county convention in submitting the name of Mr. Jerome for that of Former Judge Flammer, was filed with the board of election today.

## FOOTBALL RESULTS.

Cambridge, Oct. 28.—By straight, plunging football, with few variations and sturdy defense, Harvard scored a touchdown in each half against the Browns' today. The final score was, Harvard, 10; Browns, 0.

At West Point—Yale's football team defeated West Point today by a score of 20 to 0, making three touchdowns and one safety.

Other games Wesleyan, 6; Milliken, 30.

## SCHOOL CHILDREN BUSY.

### Petitions to Be Sent to Other Schools in Territory Next Week.

The High School pupils of Bisbee are at work in earnest circulating the school children's petition which is to be sent across the United States and placed in the hands of the President about the time Congress assembles.

The petition to the President will read as follows: "Honorable Theodore Roosevelt, President of the United States: We the undersigned school children of the Territory of Arizona, do respectfully request that you use your influence for the defeat of the bill now before Congress admitting the Territories of Arizona and New Mexico into the Union as one State. The people of Arizona are nearly unanimous in their opposition to the proposed jointure, and we, the girls and boys, the future men and women of Arizona, would prefer to continue under territorial government for another generation, rather than have joint statehood forced upon us."

## APPOINTMENT OF OTERO'S SUCCESSOR

### New Mexico Much Interested In Warm Fight Now Being Waged

Albuquerque, N. M., Oct. 28.—Just now there is a lot of interest being manifested in the coming appointment of a governor for New Mexico. The second term of Governor Otero will expire next January, and in addition to the governor, who has been a candidate for appointment to a third term, there have been quite a number of prominent politicians of the territory who are quite willing to have the gubernatorial lightning strike them.

Since the visit of Governor Otero, Delegate Andrews and Editor Max Frost, of the New Mexican, to Washington, it has been given out that Governor Otero would be re-appointed. This information came from no less a personage than the governor himself, but it is not taken very seriously.

The Hubbell brothers, one of whom was formerly sheriff and the other county treasurer, are both influential politicians, and are trying to prevent Otero's appointment because he removed them from office for alleged graft.

Chicago, 31; Northwestern, 0. George Washington, 0; University of Maryland, 0. Michigan, 48; Drake, 0. Cornell, 55; Havreford, 0.

## CRUISER FOUNDERS.

London, Oct. 28.—A dispatch to a news agency from Colruna, Spain, says the Spanish armored cruiser Cardinal Cisneros foundered off Villanueva today after striking a rock. All on board were saved.

## SENSATIONAL GOLD FIND AT CANAÑA

### Report Made of Rich Strike Near Town—George Ellis Released

Canaña, Oct. 27.—Articles of incorporation of the San Bernardino Mining Company were acknowledged today before Acting American Consul Clark. The incorporators are A. S. Judd, John L. Strojick and J. M. Gibbs, all well known men of this place. The company is capitalized at \$500,000, divided into 100,000 shares of the par value of \$5.00 each. The property which it is proposed to develop is located about 16 miles southeast of Canaña, in the District of Arizpe, and is a copper-silver proposition.

Quite a sensation has been created by the finding of gold ore on the hill about five hundred yards immediately south of town. One company reports having encountered gold ore running 6 ounces, but until the permanency of the vein is fully established, declines to give out the particulars for publication. A report reached here this morning, and bears the marks of genuineness, that placer gold has been found in the same vicinity. Should these reports prove true, it will be a revelation to mining men generally, who have always looked upon this section as being productive only of copper.

A large number of mining men are preparing to attend the meeting of the American Mining Congress in El Paso next month.

A big delegation of capitalists from Michigan arrived here last Tuesday in a private car, and visited the Sonora-Bonanza mine. This mine is now working about 45 men regularly, and expects to increase the force to over 100 within a short time.

George Ellis, the American who has been in jail here for about two months as a result of an assault upon H. B. Hitt, was released yesterday upon giving bond in the sum of \$500. It was principally through Mr. Hitt's efforts that Ellis was released, the former declining to file a formal complaint against Ellis and the wound inflicted proving to be little more than a scratch. The liberated man is being congratulated by his friends upon his good luck.

P. J. Tehaney has gone to Los Angeles and San Francisco on important business in connection with the Ronquillo Copper Co.

N. J. Naney, editor of the Val Verde (Tex.) County Herald, was here from Del Rio this week visiting his brother, A. D. Naney.

R. C. Wynkoop has returned from a hunting trip in the lower part of the state, and reports that he had great success.

Col. W. C. Greene is expected to arrive here within the next few days. Anthony Kennedy and Henry Burns, two well known young men, have purchased the Maze saloon.

G. H. McLean, superintendent of the Cuban Consolidated Copper Co., was here from Arizpe the latter part of last week.

Dr. H. A. Schell and wife are in the city from Tucson.

J. W. Hardy was a passenger on today's train for Bisbee.

A. W. Reeves, traveling freight and passenger agent of the Southern Pacific, with headquarters at El Paso, was in the city Wednesday looking after his company's interests.

### Good Looking Company

The George Samuels Theatrical company, which shows here this week, came from Benson to Tombstone yesterday. The company had 75 pieces of baggage for transfer to the Southwestern, and was said to number a good looking party of people.

### Defeated El Paso

Two games played at Pearce on the 23rd between the Pearce nine and the El Paso nine resulted as follows: first game—El Paso, 9; Pearce 5. Batteries: El Paso, Loring and Edmunds; Pearce, Buckley and Eisenhart. Second game—Pearce, 4; El Paso, 0. Same batteries both games.

### Drug Store Front

Transformation of the Rinehart drug store corner into one of the handsomest in the city will be completed in a few days, when workmen will have finished putting in the plate glass front.

## MURDERER IN A VAULT

### Kills One and Drags Body of Another With Him

### HOLDS OFF ANGRY MOB High Voltage Electric Wires Strung to Bank to Overpower Him

Bloomington, Ill., Oct. 28.—Mayor Chas. Nickel, of Chenoa, was shot and killed this afternoon in the Bank of Chenoa; Hugh Jones, a brick mason, was shot and probably killed, and two passersby were shot and slightly wounded by Wm. Leduc, a farmer who lives near Chenoa. The fate of Jones is in doubt because Leduc after shooting dragged the body into the bank vault, closed the door and defied arrest.

Nickel, who was Leduc's brother-in-law, was cashier of the bank, as well as Mayor of Chenoa. Leduc came in from his farm this afternoon, walked into the bank, and without warning shot Nickel dead. Jones attempted to grapple with the murderer but was himself shot by Leduc. Two men passing along the street who Leduc feared might attempt to capture him, were shot by him, but their wounds are not serious. An immense armed crowd gathered at the bank in an attempt to capture the slayer. He drew the door of the vault almost shut, after dragging Jones' body inside, and would allow no one to come within range.

Ammonia and chloroform were used plentifully in an attempt to overcome the murderer, but he succeeded in getting enough air to thwart the effect of the drugs.

Nickel married Leduc's sister. It is alleged he had domestic troubles which Nickel adjusted, but he always imagined he had not been fairly treated in the matter.

Sheriff Edwards and posse arrived at Chenoa this evening, but they were unable to capture Leduc, who is well supplied with ammunition.

High voltage electric wires have been strung from the electric light plant to the bank, and unless Leduc surrenders within a few hours it is planned to render him helpless by connecting the wires with the bank vault and turning on the current.

## MONTEREY CATHEDRAL CRUSHED BY DOME

### Latter Fell in on Tuesday Night—Was Historic Structure

El Paso, Oct. 28.—The large and noted cathedral at Monterey, Mexico, was crushed to pieces by the falling of the immense dome Tuesday night. The loss is total.

The news of the accident was brought to El Paso today by a citizen returning from Monterey. He said that on Tuesday night about 9 o'clock the dome of the cathedral suddenly collapsed and fell in with terrific force. The noise was heard all over the city, and citizens feared that an earthquake had occurred. Hundreds of tourists had been in the cathedral during the day, but at the time of the accident there was not a soul in the building.

Thousands of tons of stone fell on the beautiful and costly altar rendering it a total loss. What caused the dome to fall is not known, but it is thought it was the result of the loosening of some soft rock.

The Monterey cathedral is a massive structure after the style of the average church of Mexico. It was commenced in 1792, finished in 1837, and consecrated on the 4th of July of that year. It was used as a powder magazine during the American war, and its walls and towers give evidence in their scars of the vicissitudes of war.

Vienna, Oct. 28.—It is announced that the powers have decided to make a demonstration against Turkey's Asiatic, but not her European ports, in order to avoid the appearance of giving encouragement to Macedonian insurgents, and that simultaneously a collective note will be presented to Turkey.
