# Holiday Gifts

The season of the NEW YEAR offers an opportunity to those who have not made gifts or who wish to reciprocate for those received. Many rich and beautiful articles remain from the Christmas rush.

Come in and see Them

## The Copper Queen Store

### AMUSEMENTS.

Of all the characters in modern stage life none has the genuine charm of novelty so strongly marked as that of the leading character in the delicious comedy "The Marriage of Kitty" which will be seen at Manahan's Opera House tonight, under the management of Jules Murray. Imagine, if you will, a girl so free from the fetters of conventionalities that she innocently asks her guardian and Godfather to get her a husband to support her, for, of all the various kinds of employment open to young and good-looking women that of matrimony appeals to her with greater force than any other. She even consents to marry a friend of his to help him (the friend) out of a scrape, for, by so do-

ing, she enables him to evade the wishes of his uncle's will and (after divorcing her) marry the girl of his choice. Once married, however, mildy is loath to give up the man she has learned to love, and, the two scaptraces elope! The husband with his own wife, Mrs. Florence Gear, the young and handsome comedienne who plays the part of the charming but capricious Kitty, brings to the part just enough roguery and coquetry to make it seem to be a perfectly proper proceeding for any one to take upon herself responsibilities like that of which were never before contemplated by a sane young woman. She compels admiration and unstinted

praise for the act itself as well as the manner of the doing of it. "The Marriage of Kitty," the two scenes of the sparkling comedy, "The Marriage of Kitty," to be produced at the Opera House tonight by Mr. Jules Murray of New York, are laid in the chambers of a London barrister and in the villa of the heroine on the lake of Geneva. There is nothing startling in either the stage setting or in the "atmosphere" which surrounds the play. In the first scene the plan is hatched, and, in the second, carried out to its delightful conclusion. John Travers, a solicitor and Godfather to Kitty, is beset by the woes of both his ward and his friend Sir Reginald Belsize.

### WEST BIG MINSTRELS.

The reputation as the best of all singing and dancing organizations on earth is being sustained by the William H. West Big Jubilee Minstrels with a vengeance this season as can be inferred from the really extraordinary press notices regarding the aggregation of vocalists, instrumentalists and terpsichorean artists who furnish this important part of the entertainment. It is also allowed that seldom, if ever, have so many absolute novelty features been provided as Manager Rickey secured for this famous troupe, among which is a startling act of fun and frolic presented by Van and Mitchell.

### NO RESULTS ANNOUNCED.

Conductors Will Not Say Whether They Will Go on Strike or Not.

EL PASO, Dec. 27.—The result of the referendum vote of the conductors of the Mexican Central and its branches in Mexico, upon the proposition to strike on the first day of January unless their demands for increase in wages, which has been pending for some months be granted, has not been announced. Conductors running into El Paso and Juarez will not discuss the matter. The result may be announced tomorrow.

Perhaps to show the actually unparalleled prosperity of Kansas in a particularly striking way, the papers are gravely discussing the proposition as to whether or not there is actually any such place as Hades.

It seems from a reading of Roosevelt's Panama message, that the Chagres River "got excessively full" in honor of the President's visit.

## TRIED SWINDLING GAME WHILE SOBER

### Nicholson Tried to Cash Check On Monday While Perfectly Sober—Makes Good His Escape.

After swindling the men whose clothes he was wearing at the time he secured their endorsements to checks on an imaginary bank account, James H. Nicholson made good his escape from the city, and unless the news precedes him, will probably work his scheme on others who will be deceived by his story.

Although several of the men who Nicholson had duped made a thorough search yesterday, they could get no trace of the erstwhile newspaperman, and the evidence of those who saw him last is to the effect that he was heading for other parts.

An investigation yesterday failed to reveal any more transactions of the character that made the man famous during his short stay in the city, but did bring to light the fact that he had tried to cash checks at almost every business house in the city, which was open on Christmas day, and that even on the day before Christmas, while he was perfectly sober, had endeavored to cash checks on his imaginary bank account.

On Monday afternoon Nicholson walked into the Maze saloon in a businesslike manner, and asked for a ten dollar bill, and asked for the proper dollars, and asked for the proprietor, but was informed by the bartender that the proprietor was not in the house just at that minute, and then the check artist requested that the bartender cash the check as it was only for the small sum of ten dollars, and he had forgotten to get to the bank before closing hours.

The man's appearance was against him as he had not borrowed any clean linen at that time, and the bartender informed him that it was a standing rule of the house that the proprietor was the only one who could cash checks. The bartender stated that the man was perfectly sober at the time, so it seems that his drink on Christmas day was not the cause of his downfall.

### IRIS OPENS JAN. 12.

Mr. Tupper Has Returned From Los Angeles, After Securing Associates.

W. T. Tupper returned from Los Angeles Wednesday morning, where he has been making arrangements for the opening of the new Iris theater.

He placed an order with the Edison factory for an Edison Exhibition Kinetoscope, which is the finest model of a moving picture machine manufactured. He also engaged Edward P. Keith, a popular baritone of Los Angeles, who has just closed a twenty-one weeks engagement at the Broadway Theater.

The management has also secured the services of an expert moving picture machine operator in the person of Alf E. MacKenzie, who has been operating the moving picture machine at the Cinematograph Theater of Los Angeles. Mr. Tupper also closed a contract with the Broadway Theater for moving picture films, so Bisbee will be furnished with the very latest and finest moving pictures that money can purchase. It is the intention of the management of the new Iris Theater to spare neither time nor money in providing the people of Bisbee with a clean, moral and up-to-date place of amusement.

The management expects to open for business Saturday, Jan. 12.

## MUST ANSWER CHARGES OF SLANDER

### Stock Claims He Was Arrested and Placed in Jail at Globe Because of Slanderous and False Reports About Him.

(Special to Review.) TOMBSTONE, Dec. 27.—Harry D. Stock, through his attorneys, Messrs. English and Gilmore, has brought an action for damages in the sum of \$5,000 against W. W. Guttridge, formerly of Douglas, but who is at present resident at Santa Ynez, but who has considerable property in Douglas. The damages are asked for on the grounds of slander.

The complaint alleges that on the 28th day of July the defendant, in conversation with Ethen Campbell, and Ethen Campbell, spoke the following words: "He sold my furniture to you. He is a thief, he is a criminal, and should be sent to Yuma. You should have him arrested," thereby leading her to believe the plaintiff was guilty of a felony, and that he should be convicted and sent to Yuma; that Ethen Campbell subsequently had him arrested at Globe and brought back to Douglas; that he was held at the jail in Globe for four days before being taken to Douglas; that when he arrived at Douglas the defendant had circulated the report around that he was to arrive on the train with the officers, so that there were a number of persons at the depot to see him when he arrived, all of which went to humiliate him and to his degradation and damage; that August 4, defendant, in conversation with E. F. Fisher, another person, stated that he was a felon, and that he was guilty of numerous offenses.

The defendant at a number of other times up to the first of December, the petition recites, was guilty of the same conduct. That on account of the remarks being made by the defendant the plaintiff was stung by his fellow lodge members of the Woodmen of the World, of which he was a member, as well as a number of acquaintances; that on account of the defendant continually making false statements, causing the plaintiff to be a felon and guilty of crimes, he has been injured in his good name, reputation and feelings to his damage in the sum of \$5,000. The property of the defendant, consisting of three lots in block 65 in Douglas, and lot 10 on block 54, have been attached pending the settlement of the case. The defendant has filed a security bond in the sum of \$5000.

The Bonanza Belt Copper company has filed an action against H. J. Clifford to quiet title to a number of claims in the Golden Rule district in the Bonanza mountains known as the Peabody group. These claims have been the subject of much litigation during the past few years, and at the present time there are three different cases on the docket in the District Court in which the claims are involved.

Andrew Hartman has filed an action for debt against W. M. Plaster in the sum of \$1420. The complaint alleges that the plaintiff and defendant entered into an agreement whereby they were to erect a house on the ground of the plaintiff in Dubach canyon, in Bisbee, and the parties to each take a part of the proceeds from the rent. That defendant has received most of the profits, and has failed to pay over the share of the plaintiffs. The property in question has been attached pending a settlement of the suit.

The Copper Queen company has filed an action for debt against H. B. McDaniel in the sum of \$819, alleged to be due for goods, wares and merchandise furnished the defendant during the past two years. A garnishment attachment was issued against the defendant.

O. Gibson has filed an action in the District Court against the Leadville Mining Company, George Maas and the Michizona Development company for recovery of stock, and an injunction to prevent a transfer of the stock being made. The complaint alleges that he has become the owner of a number of shares of the Leadville company were transferred to him by Mrs. P. C. Lemon, J. H. Sayre, H. B. Morgan, Commercial Kield, Norton Morgan Commercial Co. and S. N. Kepp; that in May, 1904, Maas obtained an option on the capital stock and treasury stock of the Leadville company and was to purchase it, taking over the stock of the Leadville company by giving one share of the new company for each share of the Michizona Development company, for four of the Leadville stock; that in view of the representations made to him by Maas and his agents the plaintiff's assignors were induced to accept stock in the new company in exchange for their stock in the Leadville; that thereafter Maas, or the Michizona Development company, failed to make the payments on the property as had been agreed upon, and the property reverted back to the original owners. The plaintiff further alleges that as soon as the plaintiff assignors discovered that the defendants had failed to take up the option they made a demand on Maas and the Michizona company for a return of their respective shares of stock in the Leadville company, offering at the same time to return the shares that they had received in the Michizona company, but that Maas or the officers of that company have failed and refused to return the stock. The plaintiff further alleges that the stock has never been transferred on the books of the Leadville company, and asks that he be granted an injunction against the Leadville company and its officers to prevent them from making any transfer of the stock on the books of the company or the certificates. A bond of \$2000 was filed in the case and a temporary writ of injunction issued to prevent any sale of the stock or transfer pending the trial of the case.

If the President uses his big stick on the Lumber Trust, he may make it abandon its "say nothing but saw wood" policy.

## TWO MORE CASES OF SCARLET FEVER

### Seventeen Months Old Baby and 12-Year-Old Boy Develop Symptoms—Four in Same Family Have Disease.

One more case of scarlet fever and a case which looks suspicious, developed among the other children of the Dameco family on Chihuahua Hill, where two of the children have had the disease for several weeks past, and are about recovering.

A couple of weeks ago Dr. L. L. Miner, of the Copper Queen staff, was called to the Dameco home and found two of the children suffering from the disease. He immediately ordered the house quarantined, and made a thorough examination of all the children in the family—five in number—but outside of the two none exhibited any symptoms of the disease. On last Monday night the younger child that had the disease was saved from death by the insertion of a tube in its throat, which afforded a means for the child to get air. From that time on everything was progressing nicely, and both children were well on the way to recovery, until yesterday morning, when Dr. Miner was again called to the house, and found that the 17-month-old baby had contracted the disease in a slight form.

He examined a two-year-old boy in the same family, but could not make a definite diagnosis. There is no danger of the disease spreading from this house, as a strict quarantine has been maintained ever since the first case was discovered. Outside of the four cases above mentioned, there have been no new cases of scarlet fever reported for more than six weeks, and the physician feels that it has been brought under control.

## RESUME HOISTING AT COPPER QUEEN

### Supply of Coal Sufficient To Operate Mines for Two Days Arrives in City—Fuel Situation Is Improved.

After several days of fuel famine conditions were bettered on the E. P. & S. W. system and a supply of coal arrived in the city early yesterday morning, sufficient to keep all of the shafts operating for at least a day and a half, and a constant supply is expected to arrive daily from this time on.

Yesterday morning for the first time since last Saturday evening, hoisting was resumed at all of the Copper Queen shafts, and continued throughout the day.

On Saturday of last week the management of the Copper Queen company found that there was not enough fuel on hand to warrant a resumption of hoisting any ore, and from that time until yesterday morning only the repair gangs were kept at work. The pumps also were operated steadily to keep the water from flooding the lower levels.

When seen last evening and asked concerning the situation, Assistant Superintendent Sherman, of the Copper Queen Company, said:

"At the present time the fuel situation is a great deal better than it was several days ago, and from all of the advice which I have received from the coal fields, we will not have any more trouble from this source. Last evening an early this morning a day and a half's supply of coal arrived in the city, and we hoisted all day today, and expect to operate tomorrow the same supply, and by that time there will probably be enough fuel on hand to warrant a resumption of case shipments again become irregular."

"Reports from the Dawson coal fields are to the effect that the car situation has been very much relieved at that point, and this is certainly encouraging, as there is plenty of fuel at that point, the only thing lacking being the cars to ship it in."

"In regard to obtaining oil, there is no relief in sight at the present time, but at any time the tank cars are available we will get a supply."

"On the whole, the fuel situation is a great deal better than it was several days ago, and I do not think we will be forced to close down again, unless something unforeseen happens."

## EIGHTEEN JAPS CAUGHT.

### Are Crowding into El Paso at Unprecedented Rate.

EL PASO, Dec. 27.—Immigration officers today caught eighteen Japanese at Palair, eight miles from here on the Rio Grande river. These were part of a gang of fifty-three which were refused admittance at the port and had succeeded in crossing the river at Palair. They were at once deported. This city's Japanese population has increased recently at an unprecedented rate, notwithstanding the rigid enforcement of the immigration laws.

The charge against Senator Bailey seems to be that he used Standard Oil axle grease to make his halo shine.

So far as presidential messages are concerned, these days, if you don't see what you want, ask for it.

From a contemporary it appears that Senators LaFollette and Spooner are "not speaking to each other." And from the files of the Congressional Record, it appears that they are not speaking to the Senate, either.
