Outing Suits for Men and Young Men

Copyright, 1907 by LADLER BROS. & CO

Perfect Fit, Reliable Fabrics

Reasonable Prices

These Outing Suits we feature special this week are perfect in style, neat, light and comfortable. The materials are light weight serges, worsteds and flannels, fashioned with excellent taste and made to keep their good looks permanently.

You may choose from plain greys, fancy mixtures in stripes, checks, plaids and overplaids in gray and other popular effects. Also from the newest models in the Blue Serges.

The coats are the three-button style with or without vent, and have the long, wide lapels. Some have quarter lining of Mohair. The trousers are cut full and have turn-up bottoms, belt loops and side buckles at the waist bands, which makes the fit so perfect that no suspenders are necessary, although a belt may be worn for neat appearance.

To fully appreciate this splendid showing, demands a personal inspection, for it will command immediate approval from even the most critical buyer. The prices are very reasonable, and there's several styles, fabrics and effects at each price. You'll find it easy choosing here. Prices range:

\$9.00, \$12.50, \$15.00, \$20.00, \$25.00 and Up to \$35.00

Straw Hats

for comfort. Not only comfort, but style, too. Of course most men want both combined and still not pay the exorbitant prices the exclusive clothier asks. Our stock is large and the styles are the newest and smartest made. The prices are very reasonable.

Sailors, \$1.00 to \$5.00. French Palms, \$4 to \$5. Real Panamas, \$6.50 to \$22.50. Don't fail to see our line before purchasing.

Cool Underwear

All the well known makes are shown in our exhibit, including the athletic shirt and knee length drawers—cool, comfortable and economical.

Union and two-piece suits of balbriggan, crepe, net, silk and lisle and other hot weather fabrics, 50c to \$6.00.

One new number is a union suit with Athletic Shirt of Porous Lisle and knee length drawers of Nainsook. A very practical garment. Per suit \$2.50.

Low Shoes

This week will be a good time for you to "pass judgment" on our exceptional stylish lines of low shoes, which are so practical for this time of the year.

All the newest shapes and leathers are shown in a variety of styles in both blucher and lace effects.

Tans are proving very popular just as we expected. Prices range \$3.50 to \$6.00. Canvas Oxfords \$2.00 and \$2.50.

FOREST PERMITS GIVEN TO ARIZONA

List of Various Users Who Will Have Favors From Government.

WASHINGTON, July 6.—The trustees of the Gisela school were granted a permit to occupy two acres of ground in the Tonto National Forest Reserve for the purpose of maintaining a school, the building being already constructed.

Manuela Larranga, of Palmerlee, Arizona, was on June 17, 1907, granted a permit to burn limestone in a kiln already constructed on his placer mining claim within the Huachuca National Forest Reserve, Arizona.

The Gibson Lumber Company was granted a permit to build a four foot tramway in Mount Graham National Forest Reserve, Arizona. The tramway will be one mile in length located on unsurveyed lands in Scott and Charlson Canyon, a tributary of Marjilla Canyon beginning at the Trojanovich saw mill and extending to a westerly direction. It is for the purpose of hauling logs.

G. W. McDougall, of Williams, Arizona, was granted a permit to enclose 18 acres of land in San Francisco Mountains National Forest, Arizona. He will cultivate the enclosed land.

George McDougall of Williams, Arizona was granted a permit to enclose two acres of land in San Francisco Mountains National Forest, for the purpose of holding and salting cattle.

H. V. Snell, of Globe, Arizona, was granted a permit to occupy a two-room house and enclosure and cultivate a garden for domestic use at the old Pascoe mill site in Six Shooter Canyon, Pinal Mountains, Arizona, National Forest. He will use the place as a summer residence.

R. B. Neward, of Globe, Arizona, was granted a permit to occupy a five room house and enclosure and cultivate a garden for domestic use, at the old Pascoe mill site in Six Shooter Canyon, in Pinal Mountains National Forest.

John Langdon of Globe, Arizona, was granted a permit to occupy a two-room house and enclosure and cultivate a garden for domestic use, at the old Pascoe mill site in Six Shooter Canyon.

D. Powell, of Flagstaff, Arizona, was granted a permit to occupy and enclose 200 acres of land for the purpose of pasturing saddle horses, in San Francisco Mountains National Forest.

San Francisco Mountains National Forest—To George W. Black, Jr., of Flagstaff, Arizona, 100 acres of land for pasturing purposes.

Black Mesa National Forest—To J. H. Slaughter, of Mesa, Arizona, 29 acres of unsurveyed land for pasturing purposes.

DEAD MAN IDENTIFIED. EL PASO, Texas, July 6.—G. H. trainmen, who have been investigating the death of the young man at Sanderson on Tuesday, believed that they have identified the remains as those of John D. Shea, of San Antonio.

The trainmen have located a young man in El Paso, who came as far as Sanderson with Shea, and he says that Shea decided to turn back there and go back to San Antonio. He describes Shea's dress in such a manner as to correspond minutely with the dressing of the young man who was killed, and as he also says that Shea was subject to epileptic fits and evidently met death as a result of a fit, which threw him under the wheels of the train.

According to the information gained by the trainmen, Shea has a brother, D. Shea, in San Antonio, and a widowed mother in Dallas.

FREE AUTOS IN PARAGUAY.

RIO JANERIO, July 6.—The Paraguayan congress has passed a measure permitting automobiles to enter the country free of duty.

MINISTER OF WAR QUILTS. BUENOS AYRES, July 6.—Minister of War Fraga has resigned. He may be succeeded by General Aguirre. The resignation of Miguel Tejada, minister of public works is expected.

Squaw as Housekeeper. Put a squaw in a tepee and she is the neatest of housekeepers. The blankets are neatly rolled and stowed away under the edge of the tepee, leaving the center clear. Bright colored blankets and fine fur robes are spread about, and a wonderfully beaded dance drum hangs from one of the poles. But put a squaw in a house and she is anything but a success. Go into one of these frame houses and you will find the mattresses laid along the floor, with the whole family sprawling thereon. The cracked cook stove will be in the middle of the floor, with anything but agreeable odors coming therefrom. Outside the beds and springs will be used as chicken roosts. But the squaw doesn't let her housekeeping shortcomings worry her. When she puts on an elk tooth robe, valued at anywhere from \$1,500 to \$3,000, and rides to the fair or to the agency on a Sunday astride a beaded saddle she is a picture of contentment.—Denver Republican.

Old Grog. The inventor of grog, the long time beverage of the sea and of salt water literature, was Admiral Vernon, of whose courageous deeds at Porto Bello a lively poet has sung: Which when they came to understand he was so brave a fellow, They did surrender, out of hand, the town of Porto Bello.

"Old Grog" was Vernon's pet name in the navy of his day, and it was thus bestowed: "Out on the Spanish main Vernon found that the result of giving each man in the ship's company half a pint of rum a day to drink neat was disastrous. His captains and surgeons suggested to him the revolutionary experiment of mixing the spirit with water. In a station order Vernon required this to be done. The new liquor was not favorably received, and the seamen cast about for an opprobrious name for it and its author. Now, Vernon used to wear a program beart stank; hence "Old Grog."

Bisbee Private Sanitarium. Chas. C. Fuller—Dear Sir—Since taking your treatment I have had no desire to take a drink of anything stronger than Coffee or Water, after being a hard drinker for twenty years or more, feel like a new man. Yours, D. T. REES, Benson, Arizona.

NOTICE TO PUBLIC. W. T. TUPPER, Manager.

D. D. NEMETH, Attorney and Counsellor at Law. Allen Block, Rooms 15 and 16, BISBEE, ARIZONA.

War Department Closes Deal with C. M. Carr for 25 Million Feet at \$3.25 per Thousand in New Mexico.

(Special to Review.) WASHINGTON, July 6.—A contract for the sale of dead and mature western yellow pine timber on the Fort Wingate Military Reservation, has been approved by the Secretary of War. The purchaser is Clark M. Carr, of Albuquerque, N. M., who will pay for the timber at the rate of \$3.25 per thousand feet on the basis of the actual scale. The amount is estimated to be 25 million feet B. M. The war department has placed the superintendence of the sale in the hands of the Forest Service, which, through its administration of the National Forests is in good position to supervise the cutting. What is sought in this case is just what the government is trying to do on the National Forests, to move the timber which has made its growth and at the same time provide for a forest of thrifty, growing trees to replace those cut. Trained foresters from the service are now on the ground and have completed the necessary preliminary work. The lands within the reservation owned by the Santa Fe railroad Company have been carefully surveyed in order that no cutting may be done on them. The trees which may be cut are picked out and marked by the foresters. Sufficient timber to keep the loggers busy for several months has already been marked.

Only mature trees sixteen inches or more in diameter at breast height are being marked for cutting, and when it is necessary in order to provide plenty for seed, trees larger than six inches are being left. Thus the smaller trees are left to grow and the means is provided for removal of the forest through the natural sowing of seed, which will cover the openings with a new supply of little trees in a few years.

The contract contains a number of clauses looking to the prevention of forest fires. It is to run five years and during that time all of Mr. Carr's

DEAD AND MATURE TIMBER IS SOLD

War Department Closes Deal with C. M. Carr for 25 Million Feet at \$3.25 per Thousand in New Mexico.

(Special to Review.) WASHINGTON, July 6.—A contract for the sale of dead and mature western yellow pine timber on the Fort Wingate Military Reservation, has been approved by the Secretary of War. The purchaser is Clark M. Carr, of Albuquerque, N. M., who will pay for the timber at the rate of \$3.25 per thousand feet on the basis of the actual scale. The amount is estimated to be 25 million feet B. M. The war department has placed the superintendence of the sale in the hands of the Forest Service, which, through its administration of the National Forests is in good position to supervise the cutting. What is sought in this case is just what the government is trying to do on the National Forests, to move the timber which has made its growth and at the same time provide for a forest of thrifty, growing trees to replace those cut. Trained foresters from the service are now on the ground and have completed the necessary preliminary work. The lands within the reservation owned by the Santa Fe railroad Company have been carefully surveyed in order that no cutting may be done on them. The trees which may be cut are picked out and marked by the foresters. Sufficient timber to keep the loggers busy for several months has already been marked.

Only mature trees sixteen inches or more in diameter at breast height are being marked for cutting, and when it is necessary in order to provide plenty for seed, trees larger than six inches are being left. Thus the smaller trees are left to grow and the means is provided for removal of the forest through the natural sowing of seed, which will cover the openings with a new supply of little trees in a few years.

The contract contains a number of clauses looking to the prevention of forest fires. It is to run five years and during that time all of Mr. Carr's

employees are required to fight any forest fires on the reservation. To lessen the danger of future fires the brush from all trees cut is to be lopped and piled ready for burning at safe seasons. This will effectively clear the ground so that it will be comparatively easy to extinguish any fires which may start in the future. These clauses are considered of especial importance, since it is a well known fact that it is impossible to keep a forest growing without protection from fire. Fires have been frequently kept down on the National Forests, and it is hoped to secure equally good results on the Fort Wingate military reservation. The success of forestry, which aims to keep the timber land always busy growing trees, depends on preventing forest fires more than any other single thing.

Turkish, hot and cold baths at Mrs. Jones' old location opposite Waldorf and Kinsey Houses. 264

WILL NOT TOLERATE WESTERN FEDERATION

RESOLUTIONS ADOPTED BY DOUGLAS BUSINESS MEN. Whereas it has come to the knowledge of the general public of the city of Douglas that the Western Federation of Miners is about to establish a local organization, and Whereas the Western Federation of Miners is an organization which has disrupted business conditions wherever organized, strikes, and lockouts following its establishment, disturbing and impeding all kinds of business, and Whereas it has been given out that in the event of the establishment of a local organization of the Western Federation of Miners at Douglas the smelters of both companies will close down, or supplant the American labor now employed therein at high wages with Mexican labor at a lesser scale, and Whereas the methods employed by the Western Federation of Miners in exacting their demands are totally at variance with other legitimate bodies of organized labor, are contrary to the latter, and endorse and employ measures of violence, destruction and bloodshed, bringing the general business of the communities where organized to a stand still. Now, therefore, we the undersigned citizens and business men of the city of Douglas, resolve that while we are not opposed to organized labor, we deplore the encouragement on the part of any of our citizens of the establishment of a local organization of the Western Federation of Miners in the city of Douglas; That the establishment of the Western Federation of Miners in Douglas will disturb and check the present prosperity of the city, and reduce if not stop the present pay rolls; That we are unalterably opposed to the Western Federation of Miners, and to the establishment of a local thereof at Douglas, and That we pledge our efforts at all times in opposition to the establishment of the Western Federation of Miners in this city.
