

COCHISE COUNTY

PLAYED WITH MATCHES; IS BADLY BURNED

Three-Year-Old Daughter Of Joseph Bahor Not Expected To Recover From Injuries—Clothing Burned From Body.

Lowell, January 24, 1908.

Surrounded by a sorrowing family, little Agnes, the three-year-old daughter of Mr. and Mrs. Joseph Bahor, lies at death's door, the result of burns received this afternoon. The little child had been playing with her brother, aged 7, and her sister, aged 5, near their home on J. E. St. street, in the Johnson addition, and according to the story of the little boy, little Agnes' clothes became ignited from matches with which they were playing. In a moment the little one was enveloped in a mass of flames, and her cries brought assistance from several places in the neighborhood. The flames were soon extinguished, but not until the child had been horribly burned from head to foot and her clothes burned from her body. She was taken to the home and a physician was summoned. Dr. M. D. Johnson responding to the call. An examination of the little sufferer showed that she had but small chances of ever recovering from the effects of her frightful burns, as at least three-quarters of her body had been burned more or less. Although the burns are not deep, being mostly skin burns, it is probable that the child has inhaled some of the flames and has suffered internal injuries. Her lower and upper limbs, chest, head and face have all been badly burned, and there is scarcely any hope of the little one's recovering. The child seemed to be resting easy this evening.

Purchase Building.
The old Arizona Journal building has been purchased by John and George Hart of Lowell, and is being improved at present. What the gentlemen intend to use the building for has not yet been decided.

Water for Winwood.
This morning work was begun on the water piping for the Winwood addition across the creek from Lowell. The main was tapped near the E. B. Mason Company's warehouse.

Switch Board Finished.
The big switch board at the Oliver, the largest in the district, has been completed, and is now in use. The switch board to be built at the new powerhouse of the Copper Queen at the Sacramento shaft will be larger than that of the Oliver.

Give Social.
The Y. P. S. C. E. of the Lowell chapel, gave a largely attended social at the chapel building this evening. After a business meeting refreshments were served and the evening was spent in playing various games.

Laying Pipes.
A force of men are at present employed in the laying of pipes between the water tanks near the Gardner mine and the new powerhouse of the Copper Queen. The pipes will be connected with both the Naco water tank and the mine water tank, in order to prevent a water famine at any time.

Poles Are Planted.
Poles have been planted between all of the Copper Queen properties and the new powerhouse which will hold the power transmission cables when the latter place is in operation.

Club Dance.
The Upper Lowell Improvement Club gave its regular weekly dance at its club house this evening. It was attended by the usual large number of young people.

Two Peace Disturbers.
Alford and Edward Mylroie were gathered in by the local officers last evening and this morning were up before Judge Grier to answer to the charge of disturbing the peace. Both pleaded guilty and were assessed \$6 apiece, which they paid.

Mexican Fight.
Quite a fight occurred at the Mexican settlement across the creek from Lowell last evening, and this morning Rafael Flores, Epifano Robles and Micaela Queros were given a chance to state their different views of the matter. All pleaded not guilty and after the evidence was all in, the honor decided that Flores and the Queros woman be fined \$10 each, and

that Robles be discharged, as nothing had been proven against him.

Took Wrong Medicine.
A physician was hastily summoned to the home of Joseph Burke in the Johnson addition, this evening, where Mrs. Burke had taken an external preparation instead of an internal prescription of the same color. The medicine she took by mistake contained iodine and caused intense suffering. However, she is in no danger.

Lowell Personals.
Jack Hallahan left for Globe last evening where he will probably make his future home.

C. C. Murphy has gone to El Paso, where he will remain for a week.

Paymaster E. P. Brewster of the Calumet & Arizona was numbered among the sick today.

Dan Sullivan left for Globe last evening to spend a few weeks.

Clint Carnell of Douglas is a Lowell visitor.

H. B. Paul, auditor of the Calumet & Arizona and Superior & Pittsburg companies, was in Lowell today.

Mrs. Mark P. John and daughter, Genevieve, will go to Tucson tomorrow, where they will visit for a week of ten days.

CHAMPION DANCER OF SCOTLAND IN LOWELL.
Martin Howard, who holds the champion medal of Scotland for dancing, will be seen at the Iris Theatre, Lowell, Saturday and Sunday evenings in the Highland Fling sword dance, Irish jig and sally hornpipe. And in addition, the Kellys will be seen in a comedy sketch, and Paul Denson heard in illustrated songs. The best program we have put on. No advance in prices.

DOUGLAS NEWS NOTES
(Douglas Dispatch.)

Jay Parks, foreman of the water service, is expected to arrive today in Douglas with his bride. Mr. Parks got a thirty days' leave before Christmas to visit his old home in San Antonio, Texas. Since that time his friends here have gotten news of his wedding to a pretty Texas girl in that city and all are anxious to welcome him.

Jack Hinton, painter foreman on the western division, has secured a sixty days' leave of absence. He says he is arranging now to spend some of it over in the Chiricahuas hunting. He says he has been told that bear and mountain lion have killed over a thousand dollars' worth of stock during the past year. He is now trying to locate that particular district and when he does he will hike out for a hunt.

Another old railroad man of Douglas, who is said to be threatened with matrimony is brakeman Brass. It is known that he has just been granted a 90-day layoff, and there are those who say they actually know that part of it will be a honeymoon and that they know the young lady.

Yardman C. O. Menzies is laying off for a few days.

L. E. Lasser, stenographer in Superintendent King's office, has just secured a 90 days' leave of absence and left yesterday for Denver. He may also visit his home in Wilmington, N. C.

Foreman Brady of Engine No. 406 at the D. R. W. yards, is laying off for a few days on account of illness.

Sam Morris, the Douglas carpenter and former employe of the E. P. & S. W. car repair shops who became insane a few days ago and was taken in custody by the police, will be sent to Tombstone for medical treatment at the county infirmary. Morris was addicted to the use of dope and has been for some time. He was laid off a few weeks ago from his work in the shops and since that time has been despondent and using considerable of the drug. The authorities say his insanity has been brought on by over use and that the medical attention he will receive in Tombstone will restore his faculties.

D. W. Pollard, field secretary of the Y. M. C. A., is in Nacoziari looking over the field with the view to opening a branch association there.

E. N. Sorsby, formerly salesman in the R. J. Torsey grocery market, will leave today for Bisbee, where he has secured a good position in one of the mines.

Earl Cothorn, who has been quite ill with pneumonia at his home on Eighteenth street, is now getting along very nicely.

It will probably be a week before President James Douglas and his special train come to Douglas. Railroad men say it is the intention to take a number of side trips in New Mexico before coming west and that they do not expect the special in for some time. Mr. and Mrs. James S. Douglas of Nacoziari joined the party yesterday.

The many friends of R. L. BeCorkle, who has had such a siege with pneumonia, will be glad to learn that he has almost completely recovered and will soon be out again.

Herbert Hall is ill with pneumonia at his home on Third street.

C. A. Brown, superintendent of the Nacoziari railroad, is a visitor in Douglas.

Mrs. A. B. Lyon of Bisbee is visiting friends in Douglas.

Mrs. Smith of New London, Conn., is the guest of Mrs. George B. Lee, at the Copper Queen smelter.

Mrs. Fred Shitter passed through last night to Lincoln, Neb., for a short visit to friends at her old home.

Jack Sparks returned last night from

San Diego, where he has been for some time past. He visited Guaymas and other points on the coast during his absence.

Mr. and Mrs. C. D. Parsons returned from Naco last night, where they have been visiting Mr. and Mrs. Bennett.

Chas. T. Connell returned from the west last evening.

Geo. H. Kelly returned from Bisbee last night.

NEW SINGER IN LOWELL.
Mr. Paul Denson, of Santa Barbara, California, arrived in Lowell yesterday to take up his duties as piano player and singer at the Iris Theatre, Lowell. Mr. Denson will be heard at the Iris Saturday and Sunday evenings. Manager Mackenzie is to congratulate upon securing the services of such a finished musician, as Mr. Denson comes from California with the highest of recommendations.

"OPEN HOUSE" FANS CHANGED.
The plans of the Y. M. C. A. for their open house next Saturday evening have undergone a change. It was proposed to have a card of four wrestling bouts for the leading feature but this has been abandoned. Instead there are to be two basketball matches. Physical Director Ballizoy has been forming four teams to compete against one another for the championship of the association and the first of this series of games are those scheduled for Saturday evening.

There will also be the three men bowling matches between the O'Donovan team and the association three. The former team consists of O'Donovan, Morrison and McDonald and the association team of Demarest (captain), Kemp and Domancich.

Interest in bowling is on the increase and the alleys are occupied all of each evening by a goodly number of bowlers.

The idea seems to have gone forth that the Douglas team lost the trophy in their match with Bisbee last Saturday night. This is in no wise the case for the result rests on the largest total number of pins in three matches, last week's being only the first of the series of three. The Douglas team still has an excellent chance of winning the Walter Douglas trophy, for Bisbee is but sixty-six pins ahead and the boys feel certain they can reverse this disadvantage on their return match on Saturday, February 1, on their home alleys.—Douglas Dispatch.

DOUGLAS WILL HAVE CHEAPER INSURANCE

DOUGLAS, Jan. 24.—(Special).—Property owners of Douglas are assured of a reduction in the rates of fire insurance although to what extent that reduction will be made still not known until the Pacific Board of Fire Insurance Underwriters consider the report of their representative, C. R. Edwards, who is now in the city gathering data and information for the report.

Before the city undertook the improvements recently made in securing better fire protection they secured from the company which Mr. Edwards represents, a plan or outline of the requirements necessary to place the city in the class of protected cities and thus secure for the property owners cheaper insurance. All of the items in the requirements have been complied with in the minutest detail and the city has even gone farther than was said to be necessary in bringing its equipment up to the standard of protected cities. A letter from Mayor

Adams a few weeks ago announcing the fact brought word from the company that they would take the matter up and act on it as soon as they could secure a report. They said that as soon as one of their engineers was available they would send him to Douglas to examine the improvements and make a report.

Mr. Edwards was busy all day yesterday examining into the water system in all the detail of size of pipes and connections as well as the equipment of the city fire department. He was in consultation with Mayor Adams and members of the city council last evening and on the whole his interviews were very encouraging. He said there was no doubt that the city was entitled to a reduction in the rate and that such would certainly be made on the receipt of his report, but as to what would be the extent of the reduction, he said he was unable to state and refused positively to even suggest. A great many features of the improvements were very highly complimented and those with whom he has talked have reasons to feel that Douglas will soon be listed in the class of protected cities, which will mean a great saving in the annual cost of insurance.

FOOTBALL RULES.
NEW YORK, Jan. 24.—The members of the intercollegiate football rules committee rounded up at the Murray Hill hotel today for their first meeting of the year. A preliminary conference was held today, but the real business of the meeting will not be taken up until tomorrow.

The forward pass will be the principal subject of discussion, as there has been a demand in some quarters to limit its use. The old committee of seven, representing Yale, Harvard, Princeton, Cornell, Chicago, Pennsylvania and Annapolis, will amalgamate as usual with the committee of seven named by the intercollegiate Athletic association of the United States. The only changes in the personnel of the full committee this year will be Lieutenant H. B. Hackett for Lieutenant Charles D. Daly, representing West Point, and Joshua Crane for W. T. Reid, jr., representing Harvard.

DON'T RISK

The chance of being swept financially out of existence by neglecting the matter of fire insurance.

It is a short-sighted policy. When well insured, you feel the solid rock beneath your feet. The ringing of the fire-bell does not give you nervous prostration and you can go to sleep at night feeling that the touch of a match can not spell your ruin.

I would be glad to show you some figures on insurance. Possibly you have wrong ideas on the subject of rates.

I represent a splendid line of companies.

ENGINES TO EL PASO.
Within the next few days there will be quite a noticeable exodus of Douglas engines bound for El Paso, where they have reason to believe they will find steady employment. One or two have already gone and the rest will go in a few days.

They will enter the service on the eastern division. Engineers on the eastern division are being assigned to Douglas as the western division a few days ago. Owing to the increase in the number of engines on that division since the arrival of the twenty new engines from the Baldwin Locomotive works, there is an increased demand

for engineers. The following are the ten men slated to go to El Paso for service on the eastern division: Engineers Beatty, Chillis, Bodenhammer, McDonough, Mauney, Parsons, Mitchell, Sletter, Rhea and Irwin.

This will put to work a majority of the engineers who have been idle for some time. Of the remaining, two who were recently promoted to the position of engineers have been assigned to positions as firemen, and five have been laid off until business increases sufficiently to demand their services. This list of five is composed of the hired men.—Douglas Dispatch.
