

A BALLOON FREE

With every purchase of 50c or over

TODAY

Beginning with store opening today, we will give a balloon with every purchase of 50c or over.

This applies to all the 15 departments of the Big Store and also our Lowell Branch Store. The only restriction is that the purchase must be made in some "one" department and not from several departments.

Unless the demand exceeds our highest expectations, we will be able to supply every boy and girl that comes, although the offer is not restricted to our boy and girl friends only—but any one making the necessary purchase may obtain a balloon by presenting sales check at the booth—Main Floor.

Those who came too late the other time should be on hand during the early part of the day.

See the Balloons in the Show Windows at Both our Bisbee and Lowell Stores.

Men's 75c Shirts 45c

Today we shall close out the remainder of the 25 Dozen Golf Shirts placed on sale yesterday morning. They went lively yesterday—some men purchasing two, three or a half dozen at a time, declaring that the shirts are the biggest shirt bargain they ever met with.

The range of sizes and variety is yet quite complete, but we expect to see the entire lot gone before evening.

Women's 75c Waists 50c

An extra special in the Ready to Wear Section today is a lot of about 8 dozen Waists that sell regularly at 75c, for choice 50 cents.

Plain White, check and stripe effects among the assortment. Special today and tonight.....50c

Men's suits to order at ten per cent less

Until further notice we will make Men's Suits to order at 10 per cent less than the regular prices (staple Blues and Blacks excepted). This inducement is made in order to keep our entire force of skilled tailors busy throughout the season.

Children's Duck Hats at 30c each today

Odd lines of Children's Duck Hats, White and colored, are offered in the Millinery Section today at 30c each—values range up to \$1.00 each.

Special clearance prices continue on Women's White Lingerie dresses, Tub Suits, Wool Skirts, Millinery, Lingerie Waists, White and Colored Parasols, Corsets, Muslin Underwear, etc.

PROMPT ATTENTION GIVEN ALL MAIL ORDERS

VALUABLE MINERALS IN THE LLANO REGION

Among Them Some of the Rarest Metals Found Recently in Texas.

(Special to The Review.) SAN ANTONIO, Tex., July 17.—Discovery of rare and valuable minerals in the Llano region to the northwest of San Antonio has just been made public in a bulletin by F. L. Hess issued by the United States Geological survey. The report shows an island of pre-Cambrian rocks in which is found, especially in a mound called Barringer Hill, a number of the rarest metal minerals. Among these the report mentions fergusonite, gadolinite, polynacene, yttriate and cryolite. Among the minerals found there are a number of the radio-actives which have a great and increasing practical value.

The economic value of these minerals is due to the incandescence of their oxides on being heated. This property makes them valuable for use as flowers for gas and electric lamps. Thoria, beryllia, yttria and zirconia are the most useful minerals employed for this purpose. Until the discovery of these metals in the Llano district it was very difficult to get enough of them to manufacture mantles for electric glow lamps. The discovery of the deposit here, the geographical center of Texas, now furnishes enough of these metals to meet the demand.

A large corporation manufacturing an electric lamp has lately acquired this valuable deposit which is so large that the corporation supplies its wants by working the mine a few months at a time. It is supposed that other rare minerals of a similar character will be found in the mounds near Barringer Hill, but so far they have only partially prospected. The men working these mines have a skin of their face and arms affected as if by sunburn by the radio-activity of the metals there. It is confidently expected that sooner or later valuable deposits of radium, the most costly of metals, will be found in the Llano section.

SOME LURID STORIES OF THE REVOLUTION

Furnished Country on the Recent Trouble on the Border of Mexico.

(Special to The Review.) SAN ANTONIO, July 17.—Lurid stories about the revolution in Mexico have furnished a great deal of amusement for the people in San Antonio and the border country. As a matter of fact this revolutionary movement has been brewing for three or four years, one hotbed of it being in this city where several arrests have been made and trials held. The revolution is, however, confined to a few discontented people and is not regarded seriously by those who are in a position to know the facts. The revolutionists proper have naturally attracted to their standard the bandits who more or less always infest the mountains in northern Mexico and are ever ready to join in any undertaking that promises a chance to loot; stripped of this lawless element the revolution proper is insignificant. The Mexican government seems thoroughly aroused to a necessity of hunting these brigands out of their hiding places, and if any of them drift across the Rio Grande they are likely to have a warm reception at the hands of the United States cavalry that is waiting there to receive them. It is likely that the rest of the revolution will be a mere gathering in of highway robbers who will be dealt very summary justice when caught.

RADICAL LEADER OF THE SOCIALISTS

In England Coming to the United States to Stump Country for Ticket.

NEW YORK, July 17.—The disappointment of the socialist party in the United States over its failure to secure the services of the Countess of Warwick in the presidential campaign has been lessened in no small degree by the announcement that Kier Hardie, M. P., now recognized as the leader of the radical wing of the labor group in the British house of commons is coming over to take the stump in behalf of the socialist ticket. Word has just been received by the New York section of the socialist party that Mr. Hardie will arrive here next month. Mr. Hardie visited the United States in 1895 and on that occasion he made a much more favorable impression on American workmen than had John Burns, who had been a visitor to the United States a short time previously. The reason is not far to seek. Burns is an aristocrat among working people, while Hardie is not. Burns dresses in fine clothing and looks little like a laborer. Hardie, on the other hand, dresses and acts in much the same manner as he did when he was a working miner years ago.

JUDGE STREET IS AT DEATH'S DOOR

He Was Former Chief Justice of Arizona.

With little change for better or worse in his condition, but growing steadily weaker, former Chief Justice Webster Street lies at death's door in Los Angeles, the end apparently being only a matter of time. For over two months Judge Street has showed little change either way

since he was suddenly taken with a stroke of paralysis at Bowie and removed to Phoenix in a dangerous condition. He was taken to Los Angeles in the hope that it might bring improvement. In possession of all his mental faculties, Judge Street lies in bed bodily helpless, unable to speak, because of the paralysis of the muscles of his throat. He is able to move his right arm at times, but this is the extent of his physical exertion. After a life filled with great mental and physical exertion, the condition of Judge Street is extremely pathetic to those who have seen him. For hours at a time he lies in bed and sobs helplessly over his condition. Letters from Mrs. Street indicate that there is no hope of recovery and that the former chief justice will gradually grow weaker until death relieves him. He suffers no pain, and makes his few wants known by gestures.

ANNUAL REPORT OF FOSTER FILED

He Finds the Territory in Good Shape Past Year—Praise for the Officials.

The annual report of Public Examiner W. C. Foster, for the fiscal year ending June 30, has been made public. Generally speaking the report indicates that all of the county governments in the territory are in a satisfactory condition of regularity and the records well kept.

The examiner says that as a whole the county governments have been well administered. There were many instances in which attention was called to carelessness or indifference to the letter of the law, but special reports to the governor were deemed necessary in only five instances during the year.

Continuing the report says: "In this connection it may be well to state that no county in Arizona since the passage of the law creating the office of public examiner, has suffered a loss through the embezzlement of its funds by its officials. During the first two years of the operation of the law numerous discoveries were made of county officials using public funds for personal gain. Every dollar was recovered without suit, prosecution or undue publicity. I am pleased to state that with the present system of accounting and the high character generally of the county officials of Arizona the disposition here before existing to use county funds for personal gain has been almost eliminated. But few discoveries of this class were made during the past year and in each case the amount involved was trifling."

BILL TO SAVE MEN FROM PEEK-A-BOO

Georgia Legislator Would Annul Wedding When Husband Is Trapped by Lingerie.

ATLANTA, Ga., July 17.—Woman's most cherished aids to self-beautification are threatened by a bill which has just been introduced in the state legislature by George Glenn, representative for Whitfield county, who seeks to throw around man all the safeguards against the allurements of women.

His bill, if passed, will prevent the disillusionment so common after marriage when the husband discovers that half of his wife's hair is a rat, her form made lovelier by the deft use of pads and her complexion enriched by the use of paint and powder. So long as a woman chooses to remain single she will, under the Glenn bill, have a right to use all the aids to beauty she desires and to exert her blandishments upon the more susceptible sex at will.

If she wants to get married, however, she must appear as she really is. For the measure provides that should a woman entrap a man into marriage through the use of paints, powder, cosmetics, artificial teeth, padding, drop-stitched hose, high-heeled shoes, corsets, V-cut waists, lingerie or peek-a-boo waists the marriage will be declared null and void.

The bill was referred by the speaker to the committee on ways and means, where it will receive careful consideration. It is understood that pressure is being brought to bear upon the members by their wives to amend the measure considerably.

SCAFFOLD HAS HISTORY; KEPT IN READINESS

Cochise County Gallows Innocent Looking Timber Pile.

Away back in the brick enclosure by the side of the court house at Tombstone, one can observe an innocent looking pile of framed timbers painted an unsuggestive liver color. The parts are shaped with mortise and tenon and prepared to be adjusted like Solomon's temple, without the sound of saw or axe or hammer. An innocuous pair of stairs is included in the collection, up which seven men have taken their last walk. In two hours this humble collection of planks could be prepared as a deadly engine to send human beings to eternity.

The Bisbee five and the Halderman brothers stepped from the platform of this scaffold to eternity, and it might behoove the individual who contemplates robbery and murder to remember that it is in a good state of preservation.

MINNEAPOLIS TO HAVE A GREAT BALLOON RACE

MINNEAPOLIS, Minn., July 17.—Tomorrow, if the weather and other conditions are favorable Minneapolis will have its first taste of the new sport of balloon racing. For several weeks preparations have been going forward for a balloon race to start from the state fair grounds. It is to be a long-distance endurance contest, international in its scope.

A MOVEMENT FOR RATES IS NOW ON

Proposed to Hold a Territorial Congress in Tucson at an Early Date.

TUCSON, July 17.—Within a few days a call will be issued, signed by the officers of the Tucson chamber of commerce and the Maricopa County Commercial club, addressed to the several boards of trade and chambers of commerce in Arizona asking these organizations to send one delegate each to a territorial meeting to be held in Tucson for the purpose of insuring a territorial movement for securing more equitable freight rates for Arizona points.

This was the result of a meeting of the committee on transportation of the chamber of commerce, held in the chamber of commerce rooms yesterday afternoon. Those present at the meeting were Albert Steinfield, Mose Drachman, A. Franklin, P. N. Jacobs, A. Heineman and W. B. Kelly. The action taken yesterday by the committee was the result of several communications which have passed between the committee in Tucson and the Maricopa County Commercial club, and within a week it is expected that the call will be issued and the time and place for the meeting fixed. In general it is the intention to organize a territorial association composed of representatives from the several business men's organizations all over the territory and to appoint officers to carry out the objects of the association—the securing of better freight rates in this section. At first it was the intention to confine the organization to southern Arizona, but according to the call which was published, all towns in Arizona having a board of trade or chamber of commerce will be invited to send a representative to the first meeting.

WILL INVADE TEXAS TO MAKE SPEECHES

Judge Taft Scheduled to Stump Lone Star State During This Fall.

(Special to The Review.) SAN ANTONIO, Tex., July 17.—An announcement has been made by Colonel Cecil Lyon, the head of the Republican party in Texas, that Secretary Taft has promised to make a number of speeches in Texas between now and election time in the interest of the Texas Republican ticket. It is also generally admitted that Chas. W. Ogden of San Antonio, one of the leading attorneys of the state, will be the Texas nominee for governor. There is wide spread displeasure in the state towards the Campbell administration and already a Democrat known as Bob Williams the village blacksmith is contesting with Governor Campbell the Democratic nomination for re-election. The Republicans believe that this will breed enough faction to make possible the election of a strong man like Mr. Ogden.

The gift of the pair of "pants" made from mohair arranged for Secretary Taft has aroused a lively feeling of interest in that candidate in Texas, and plans are being made for a presentation of the "pants" when he visits San Antonio. At the same time, N. R. Powell, a cattle raiser of Pettus, Tex., will have ready for presentation to the Republican candidate an enormous chair made of horns from the long horn cattle that used to be so common in Texas. This chair will be 3-2 feet tall by about five feet wide and will certainly be large enough to hold the big candidate arrayed in that pair of "pants" made from a billy goat which are unquestionably man's size.

SAN RIVAL COMPANY PROPERTIES ACTIVE

London Capitalist Who Is Interested on Inspection Trip.

SILVER KING, July 17.—A. W. Downs of London, England, is here looking over the properties of the Silver Rival Milling company, in which he is interested. Mr. Downs is more than well pleased with what he has seen and believes that with a little more time and labor his company's holdings will become one of the biggest silver and copper producing mines in Arizona.

W. F. Donald of Phoenix and Atchison, Kansas, is looking at the Silver King property in the interests of himself and his associates. He is going through the underground workings and exploring the old Chimney of the Silver King. He claims that it is one of the most mystifying ore chutes he has ever had the opportunity to explore and thinks that without a doubt there is as much if not more ore in the old mine than was ever taken out.

Harry Rain, foreman of J. H. McCabe on the old Cloudburst, has a force of men at work straightening out the workings and has discovered several ore chutes running good values in silver and gold. He has also had the old Stoeneman grade Silver King road, put in strictly first class condition from the old town of Pinal five and one-half miles. General F. N. Solawass, who yesterday passed over the road to the Silver King properties, states that he had no trouble, whatever, with his machine and found it far beyond his expectations.

The Gibson properties closed down July 1, and will remain idle until the new machinery, ordered for the McGred and Brown group, arrives. The six-horse teams of the Gibson group have been put on the road hauling oil and ore to and from the Superior properties. There are now so many freight teams on the roads of this district that they have the same appearance as in the days of the old Silver King.
