

ALLEN BLOCK SOLD TO TEXAN FOR \$75,000

Dr. G. F. Floyd May Come to Bisbee While L. R. Allen Will Probably Leave for Texas.

A realty transfer involving a consideration stated to be approximately \$75,000, whereby L. R. and C. W. Allen have disposed of the Allen building in this city to Dr. G. F. Floyd of Lone Oak, Texas, was made public yesterday, confirming rumors that have been current for several weeks concerning the deal.

Dr. Floyd was in Bisbee about a month ago and was so pleased with Bisbee's outlook, climatic conditions and people, that he immediately made plans to come here to reside. The Allen block, a handsome structure of concrete, struck his fancy and the overtures which resulted in the deal being completed yesterday were begun.

L. R. Allen, owner of the principal interest in the building, came to Bisbee in January, 1905, when the Letson block, on Main street, and the Schmid-Shattuck building, on Brewery avenue, were the only large buildings in the city. Shortly after his arrival he erected the handsome cement block structure, practically three stories high that figures in this transaction. The Allen block is centrally located and offers advantages for business locations held by few structures of the city.

In connection with the transfer it is announced that Dr. Floyd, the new owner, may conclude to reside in this part of the country in order both to enjoy its climatic advantages and also oversee the management of his property.

It is understood that the deal includes some valuable realty located east of Dallas, Texas, beside a considerable cash payment.

It is possible that L. R. Allen may go to Texas to reside for a time, but C. W. Allen will remain in this city and continue to conduct his furniture business.

Should Mr. Allen conclude to leave Bisbee for Texas, the city will lose one of its best citizens, a man who has aided greatly in promoting progress and public improvement during his residence here. Mr. Allen has served the city officially, having been a member of the city council and one of the foremost spirits of that body in promoting civic improvements of all kinds.

MAKES A FORTUNE

PHOENIX July 30.—I. O. Hibberd leaves this evening for San Francisco from where he will sail in a few days for the Philippine Islands, his home for the past eleven years. Mr. Hibberd has been in Phoenix for about a week, a guest of his uncle, A. L. Andrews. Most of his residence in the islands has been spent in prospecting and he is very enthusiastic over their future in this development.

Mr. Hibberd first went to the Philippines as a member of the army of invasion at the beginning of the Spanish war. He had prospected considerably in this country, and it was not long before he recognized the signs of gold in Baguio province. After being mustered out he continued his researches that within a few years the islands will be the greatest gold producer in the world with the possible exception of China where large deposits are also believed to await the coming of the white man. Copper and other metals are also found, but the gold predominates and several nuggets in Mr. Hibberd's possession are of the finest and purest quality. One of them is representative of the Igorote by whom most of the labor is done. This native is in the costume of his people, which costume would make a hit any summer day in Phoenix.

BREWERY AND REVIEW AVE. ABOUT CLEAR

STREET RAILWAY COMPANY HAS USE FOR ALL DEBRIS IN MAKING FILLS.

By midday tomorrow it is probable that the work of clearing Brewery avenue of earth and boulders, washed down from Brewery Gulch during the flood of Friday, July 22, will have been completed, if judgment is to be based upon the progress made to this time by the forces of the Warren-Bisbee street car company.

Removing the thousands of tons of heavy debris which promised to entail heavy expense upon the city, has been done by the street railway company for the sake of securing the material for filling in washouts on its right of way. The principal fill was on Naco Road, where for some distance the tracks were left suspended over gullies washed by the flood. Another wash, however, on Moon Canyon, required much filling to place it in the necessary state of repair.

Clearing Brewery avenue was completed early yesterday morning following day and night work since last Monday, a force save for very short periods at meal times, having been constantly at work. Brewery avenue being narrow, the work was completed by six o'clock to a point almost at the stage door of the Orpheum.

Too Much Proof.

In Judge High's court on Friday John Holland, who had been arrested for reckless riding in Tombstone canyon, during which he had run down Mrs. J. B. Frank and overturned a perambulator in which were two small children, in his efforts to prove that the horse which he was riding was a runaway, quite overdid matters. From the evidence presented by Holland's witnesses the court decided that a horse with such a record was a dangerous animal to run at large, and a menace to travelers on the streets. Holland was fined \$7.50 which was paid by his mother.

ENUMERATORS UNPAID.

GLOBE July 30.—Although it has been reported that the census enumerators of Phoenix have been paid for their work of taking the census F. F. Towle, the census supervisor of Arizona, stated last night that he had no knowledge of any of the enumerators receiving their compensation.

Mr. Towle stated that he had heard the reports, but that he would be willing to give a prize to the person who could find an enumerator in the territory who had received money due him for his work. Mr. Towle telegraphed yesterday to Ned Creighton of Phoenix, who has charge of the enumerators of that district asking for information on the subject and notifying him to wire him at once if any of the government checks arrived. The supervisor has been anxious for some time to secure the money for the agents but has so far been unable to secure the necessary vouchers. The money is expected to arrive almost any day, however and on its arrival it will be immediately given to those to whom it is due.

RUN WENDLING TO HIS

LAI IN SAN FRANCISCO

ago, again left the detectives without a scent, but it was caught again when Captain of Detectives Wall received a tip Thursday night that the fugitive was in a Third street lodging house.

The number given proved that the lodging house was one frequented by workmen. Mrs. Mary Morarity, owner of the house, declared that a man answering the description had been there but had left a few days before. The detectives were still suspicious, and after watching the house for twenty-four hours, determined to make a search. Their efforts were rewarded by the discovery of Wendling crouching beneath the sink in the wash room.
