Hotpoint

ELECTRIC IRON

Cool handle, hot point, attached stand

Better see one at least.

Why iron the old-time way. The inconvenient, expensive and uncomfortable way? You simply attach the Hotpoint to light socket and begin ironing at once. No kitchen fire, no separate stand, no hot handle. You can iron out on the porch or anywhere in the house.

Half the time you can iron with the current off. When ironing is done, expense stops. The Hotpoint soon pays for itself. It saves time, energy and money. The Hotpoint was awarded the Grand Prize at Seattle—the Grand Prize is higher than the Gold Medal. Ask about our special offer.

should not be confined to the immediate present. How they will act in the future is exceedingly important. The building materials we handle are the kind that stand the test of long service. Better buy here than experiment with materials that may make you regret their use forever afterward. The first cost is about the same.
