INSCRIPTION TELLS EARLY OCCUPATION

Records Are Made on Sandstone Rock Near Zuni Indian Village

The most interesting and perhaps the most ancient evidence of European in United States territory, is the historical landmark known as the Inscription Rock, and to the Spanish people as "El Moro." This sandstone rock is about thirty miles eastward from the Zuni village, on the old immigration route between Albuquerque on the Rio Grande del Norte, and Los Angeles, California. Prior to the breaking out of the Civil War all U. S. mail was carried over this trail. Lt. Whipple in '53 and Lt. Beale in '54, both left their names upon Inscription Rock. And in 1848 another U. S. expedition recorded its passage on the rock, but the writer has forgotten the names. But the most interesting record on this rock, on account of its great antiquity, is that of "Don Francisco Vasquez de Coronado, 1540." Coronado was governor of Culiacan, Nueva Galicia, by appointment of Vice-Roy Mendoza, and was selected by the Vice-Roy to lead what is known as the Coronado expedition, to search for the "Seven Cities of Cibola." Martin Hernandez Cortez, asked to be given command of the expedition, on the grounds that he (Cortez) was "El Gran Conquistador," but the Vice-Roy refused to place that avaricious freebooter in command. The second oldest inscription on the rock, is that of the Bishop of Durango. Here is his record in Spanish, viz: "Dia 23 de Sep. de 1737, asi llevo aqui, El Illustrissimo Senor Doctor Don Martin de Elizacochea, Obispo de Durango. Y el dia 29 paso para Zuni. Here is our translation, which in its way is nearly correct, viz: The 28th day of September, 1737, arrived here the Most Illustrissimo Mier Doctor Don Martin de Elizacochea, Bishop of Durango. And on the 29 day of September, 1731, passed on for Zuni. Members of the military expedition that took first possession of Arizona north of the Gila river in 1863—the writer being one of that expedition—left their names inscribed upon the historic rock.—A. F. BANTA, in St. Johns Observer.

Temperament No Defense.
Woman wants divorce from her husband because she caught him painting a widow's roof. Being an ordinary roof painter, he cannot plead artistic temperament as an excuse.

The Douglas Daily International is for sale at Ball & Bledsoe's Drug Store and at Coughran's Cigar stand on Brewery Gulch.

MORE PROTEST ON "VALENTINE"

"Copper State" Is Insisted on as Euphonious and Containing Meaning

WOMAN IS WRITER

A vigorous protest against calling Arizona the "Valentine State" has been received by The Review and this one comes from a woman. Says she: "Though only a woman I also vigorously protest against Arizona being called the 'Valentine State.' I am told that we have the largest copper mines in the country, the second largest in the world. Why should we not be known as the 'Copper State'?"

"Is it not quite as euphonious as 'Golden State' by which California is known? Why cannot you, through the columns of your paper make the suggestion to the public and the powers that be?"

The nick names that stick are those given inadvertently and without forethought by one's friends and it is more than likely that Arizona's nick name will be settled on by its friends outside the state, if indeed they have not already given one to "Valentine State." Newspaper paragraphs all over the United States commented on the fact that Admission Day for Arizona and Valentine day were on the same date and these paragraphs have been read by hundreds of thousands of people all over the country to whom ever afterwards Arizona will be known as the "Valentine State."

Of course, Arizonians would prefer something more high-sounding and grand-sounding than Valentine state, but unfortunately nick names seldom ever are. In the majority of cases older states are nick named after some particular trait of the inhabitants of the state, some foolish or some something or other. For instance, North Carolina is known as the Tar Heel State, and certainly there is nothing high-sounding or grand about it. But it sticks just the same. Georgia is the "Empire State of the South," but its inhabitants, especially when abroad in the land, are called "Goober Grabbers." They are not even called "Peanut Purloiners," unless it is in Boston.

A nick name is always an evidence of affection and intimacy and though we may call ourselves Utopia, our friends would still insist on something less lofty.

It would do no harm for the legislature however, in solemn session assembled, to declare that Arizona is the "Copper State" or any other name they choose, but it would also probably do no good. The name "Arizona" might be said to be what we are; our nick name will be what other people think we are.

Copper State is a good suggestion but Sunshine State has already been cooped. New Mexico beat us to it by several weeks and the newspapers of the state resent the suggestion that Arizona be called the Sunshine State.

TINY BLOT PREVENTS CLEAN COURT DOCKET

Parting Highball Gives to Courts Their Lone Case

Had not one man taken the last drink, a record would have been established in Bisbee yesterday. Had this man left the bar just before he yielded to the impulse to have "just one more" the dockets of the city court and the two justice courts of Bisbee would have been as brief as a chapter on snakes in a certain Natural History of Ireland, which is "There are no snakes in Ireland." As it was the man had "just one more," fell into the hands of the cops and spoiled the clean page of the city court docket. There was one more case in the courts in Bisbee yesterday, therefore, than there are snakes in Ireland. Snakes in Ireland, of course, means material snakes that wiggle on the ground and not in the air. This man was fined \$5.00 to cover the cost of ink and a page in the city court docket.

The city jail was as minus of prisoners yesterday as a ship of the desert is minus of wharf rats. Deputy Sheriff Jack Boon, was the guardian of only one prisoner at the branch county jail, the sole occupant of a little apartment house on O. K. Trail. It would appear from this that the millennium is down about Forest station, headed for Bisbee.

Judge Higgins heard up the number of criminal cases he had heard during his incumbency as justice in Bisbee, dating from January 1, 1909. Between that date and February 14, the date of Arizona's admission into the union, there were 2,958 criminal cases in his justice court. Of civil cases there were about 700. This is probably the record for Cochise county.

TO THE PUBLIC

TO INSIST ON CONNECTIONS

Department Will Wage a Vigorous Campaign to Make Household Use Sewers

NO MORE DELAYS

The city sanitary department is preparing to press its campaign for the improvement of sanitary conditions in the city before the beginning of the rainy season, which is the precursor of the season of flies. Notwithstanding that it has been three years since the ordinance requiring owners or occupants of premises having sinks, etc., to connect with the public sewer system the ordinance has been disregarded in some sections of the city.

The Review is requested to print parts of the ordinance covering the vast toilet nuisance. It is as follows: Section I—All persons owning or occupying any premises within the corporate limits of the city of Bisbee and having or using any water closets, cess pool, toilet, bath or sink are hereby required to connect the same with the public sewer system of the city of Bisbee within sixty days from the taking effect of this ordinance.

Section II—All water closets and cess pools within said corporate limits of said city, not connected with said public sewer system, are hereby declared a nuisance and any person owning or using the same is hereby required to fill or remove the same within sixty days from the taking effect of this ordinance.

Section III—Any persons violating the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than ten dollars nor more than one hundred dollars or by imprisonment in the city jail for not exceeding three months, or both such fine and imprisonment.

SIMS MAKES YARNELL CARPENTER-FOREMAN

Position Is Found for Douglasite Well Known in Bisbee

R. B. Sims, who was recently appointed superintendent of the state penitentiary at Florence by Governor Hunt, was at home yesterday from Florence, where he accompanied Governor Hunt on an inspection trip. He announced last night the appointment of Sam Yarnell as a guard of the institution and he will be made the carpenter foreman as soon as Mr. Sims takes charge.

In speaking about this appointment, Mr. Sims stated: "Mr. Yarnell is a capable man and understands the carpenter work thoroughly and as we have a great deal of construction work to do I do not know of a better man for the position. He will leave in a few days to assume his duties, but I shall not leave until about the first of March and Superintendent Ryning has consented to remain in charge until I get there. Three other appointments have been made in Phoenix and John Sikes, of Globe, was appointed assistant warden and he has assumed his duties and is getting familiar with the work under Captain Ryning. I have a large number of applications on hand now and received a dozen more this morning, but will not make any other appointments until I get to Florence. In making the appointments I expect to recognize each county consistent with good judgment, but my aim is to get only the very best men and those who are particularly adapted for this line of work. The buildings and the institution

RAKE OFF MADE BY PHOENICIAN

Case of Petty Graft Is Made Clear by Circular to Notaries

\$2.50 IS HIS SHARE

Bruce Perley was the first notary public in Bisbee to be appointed by Governor Hunt. He received his new commission yesterday and did a land office business making acknowledgments. Other applications from Bisbee notaries who were notaries under Governor Sloan's appointment have been in new applications to Governor Hunt and in a week or less time Bisbee will have its full quota of these minor but important officials.

Bisbee applicants are making their applications direct, however, instead of through agents of bonding companies, who have sent broadcast through the new state, notices like the following:

Important.

Phoenix, Ariz., Feb. 16, 1912. It is the prevailing opinion that Notary Commissioners issued by Territorial Governors do not hold good under the new State of Arizona.

The Maricopa County Notaries are getting new applications. I make a specialty of this work, and am sending you bond and application to the Governor herewith. If you wish me to attend to the matter, be careful that you sign the face of the bond and the Oath of Office before a Justice of the Peace or some one qualified under the new State laws; also sign the application to the Governor, and have at least two citizens in your county sign the recommendation. You will return these papers to me with a check or draft for \$2.50, and I will put the matter through promptly.

The charge it is notice is only \$2.50. The price charged for the appointment as notary by the state is \$2.50, five dollars for a surety bond and this "kind hearted individual" at Phoenix offers to furnish "the whole cheese," not including the seal at \$9.50.

SOUTHERN SOCIETY DINNER.

WASHINGTON, D. C., Feb. 21.—The Southern Society of Washington, organized a year ago by prominent lawyers, military officers and government officials who now make Washington their home, has completed elaborate arrangements for its first annual dinner to be given tomorrow night at the Hotel Raleigh. Ambassador Bryce has accepted an invitation to respond to the toast "George Washington." Other speakers and their subjects will be as follows: "Southern Women," Senator Taylor of Tennessee; "The South Today," Senator Fletcher of Florida; "Jefferson," Senator Williams of Mississippi, and "Marshall," Senator Bailey of Texas.

PENITENTIAL CURTAIN FALLS

NEW YORK, Feb. 21.—The Lenten season was ushered in today with the customary special religious service in all Catholic and Episcopal churches in observance of Ash Wednesday. The day likewise marked the end of the winter social season in the metropolis. The exodus of society leaders to the warmer climate of the South, as well as to the resorts of southern Europe, is on in earnest and for forty days at least there will be little doing in the ranks of high society.

The Douglas Daily International is for sale at Ball & Bledsoe's Drug Store and at Coughran's Cigar stand on Brewery Gulch.

in general are in the very best shape and Captain Ryning deserves credit for the splendid record which he has made for himself and the institution, which he helped to create and build.

"I shall inaugurate some changes in the policy of the institution which I believe will better conditions, but these I do not care to discuss at present."

BISBEE TEAM IN PASS CITY

Basketball Players Have to Win Laurels from Strongest Teams in Section

SHAMROCKS FOR LUCK

The Bisbee "Y" basketball team accompanied by Physical Director Robinson, will leave this afternoon for El Paso to take part in the southwestern amateur basketball tournament which begins in that city tomorrow afternoon and lasts through Saturday evening.

The local team is entered in the tournament under the name of Larry Mooney's Shamrocks, so it will have the best wishes of all the Irish, which forms a considerable portion of the population of Bisbee. The fruit of the suits of the local team is adorned by a large "Y" of maroonish red—more Irish—and in the three angles of the letter are shamrocks.

Both Coach Henry, who has prepared the team for the tournament, and Physical Director Robinson, believe that the Bisbee team has a good chance of landing the championship of Bisbee. Mr. Robinson prepared the El Paso team for the tournament last year and saw the other southwestern teams work in the tournament and he believes that the Bisbee team has it on any of those teams.

Three of the players on the Bisbee team are hold-overs of the 1910 team, which won the championship in the tournament in El Paso. The local team will be the only Arizona team entered in the tournament.

IMMIGRATION CONFERENCE

TACOMA, Wash., Feb. 21.—Under the title of the Pacific Northwest Immigration convention there was opened in this city today the first important conference that has been held to consider the effects of the opening of the Panama canal upon the future development of this section of the United States and the Pacific coast section of Canada. The conference will be in session two days and is being held under the joint auspices of the commercial bodies of Tacoma and the industrial department of the Y. M. C. A. The conference is based on the assumption that, with the completion of the canal across the isthmus, the flood of European immigration to the Pacific coast will equal the present volume at Atlantic ports. The problem of how best to take care of this prospective influx of foreign settlers with a view to the welfare of both the newcomers and the country is regarded as a serious one. Lacking the great industrial centers which in the Eastern States readily absorb the immigrants, it is believed that the best solution of the problem for the Pacific Northwest will be to devise ways and means for locating the newcomers in the agricultural communities.

MINNESOTA RETAIL MERCHANTS

DULUTH, Minn., Feb. 21.—Governor Eberhart of Minnesota, President Louis W. Hill of the Great Northern Railway, and President John W. Lutz of the National Grocers' association head the list of scheduled speakers at the annual convention of the Minnesota Retail Grocers and General Merchants' association, which assembled in this city today for a two days session. Several hundred merchants are in attendance from all over the state. Garnishment laws and the peddler evil are two of the important subjects slated for discussion.

ALPHA DELTA PHI MEETING.

SPRINGFIELD, Mass., Feb. 21.—The Alpha Delta Phi fraternity, founded at Hamilton College in 1852, began its eightieth annual convention here today as the guest of the Amherst chapter. The meeting will last three days and will have as speakers President Benjamin Ide Wheeler of the University of California, President Harris of Amherst College, and Charles S. Whitman, district attorney of New York city.

Like Magic

K C Baking Powder works like magic. Recipes formerly considered difficult to bake now come out of the oven light, dainty and delicious. It fairly makes you hungry to look at them.

KC BAKING POWDER

Is the housewife's best friend, lightening her burdens as well as the food. Wherever K C is used you will find healthy, happy families and a contented housewife. Complies with all pure food laws, both State and National.

Brief Local Items

Oliver Funeral.
The funeral of Frank W. Oliver took place yesterday afternoon at 3 o'clock from the Odd Fellows hall, and interment was in the Evergreen cemetery. The Odd Fellows attended the funeral in a body, the deceased having been a member of that order.

Watkins at Tombstone.
City Marshal Bassett Watkins spent yesterday in Tombstone as a witness in the injunction suit brought by the Hoffman Bros., Loan and Trust Co., against the City of Bisbee. He returned in the afternoon. The court took the case under advisement until February 29.

Annual Meeting Soon.
The notices of the annual meeting and banquet of the Young Women's Christian Association are being sent out. It will be Thursday night, February 29 at 7 o'clock. This promises to be a most delightful affair. The members are asked to leave their names at the association by Tuesday night if they are coming to the banquet.

Play Grounds Open.
The Y. W. C. A. playgrounds on Quality hill will be opened on Thursday afternoon for use and all members and their friends are invited to visit them. Quite a number of games will be practiced such as tennis, basketball and volleyball. If the weather permits the formal opening will be Monday night at 8 o'clock instead of this afternoon as has been planned.

HAS HE? A Pair of Gold Cuff Links

This is one of many practical gifts for the gentlemen that can be found in my stock. I have made special efforts to have a complete assortment this year.
