## GREENE CANANEA IS INCREASING PROFITS

Annual Report Will Show Earnings Last Year of 48 Cents per Share

Having overcome labor troubles, which materially reduced production in February and March to around 2,500,000 lbs., the April production of the Greene-Canaan company amounted to 4,600,000 lbs. at a cost of about \$300,000. This is at the rate of nearly \$1.50 per annum and if maintained as it can and will be, should justify higher prices for the stock.

## BISHOPS ASK COADJUTOR

DALLAS, Tex., May 14.—At the annual council of the Protestant Episcopal diocese of Dallas, which met in St. Matthew's Cathedral in this city today, a formal request was presented by Bishop Alexander C. Garrett asking for the appointment of a coadjutor to assist him in the work of the diocese. Bishop Garrett is now in his eightieth year and has been the head of the church here for nearly forty years.

## MONTANA KNIGHTS COLUMBUS

GREAT FALLS, Mont., May 14.—The Montana division of the Knights of Columbus met in annual session here today with delegates in attendance representing the local councils of the order in Billings, Lewistown, Helena, Missoula and other leading cities of the state.

## CAMPAIGN IN QUEBEC

MONTEREAL, May 14.—Quebec's short but spirited campaign, resulting from the dissolution of the legislative assembly one month ago, ended today. Both sides predict victory in tomorrow's elections. The Conservative opposition has based its fight chiefly on allegations of extravagance on the part of the liberal administration. The latter's policies concerning education, colonization and good roads also have been criticized by the opposition.

## KNIGHTS OF COLUMBUS

MONTEPELIER, Vt., May 14.—The Vermont council of the Knights of Columbus met in annual session here today with delegates in attendance from St. Albans, Burlington, Rutland, Bennington and other cities. Prior to beginning the business sessions, the delegates attended a solemn high mass at St. Augustine's church.

## FIRST REFERENDUM PETITION CIRCULATES

Effort Is Made to Prevent State's Participation at San Diego

What is probably the first referendum petition to make its appearance in Arizona and is certainly the first one to be seen in Bisbee is now being circulated in this city and about the district. Its object is to cause a submission to the popular vote of the measure which provides for an appropriation for participation in the San Diego exposition by Arizona. The proponents of the petition have no objections to the participation of the state at San Francisco, indeed they favor it, but they hold strong objections to any aid being given to San Diego.

## TARIFF TO BE BIG QUESTION

(Continued from Page One.)  
Gov. Harmon and Gov. Wilson are free from local prejudices, although Gov. Wilson's views are not so clearly defined as are Gov. Harmon's. On the occasion of his recent visit here Gov. Harmon spoke of the great and growing need of real tariff revision.

"I believe that the people at large have suffered more from the exactions of the tariff than from any other single cause. The tariff taxes have been so arranged that for every dollar the government receives on imported articles, the favored manufacturers collect three dollars above the normal price of like articles from the American consumer. This really amounts to farming out the taxing power, one of the worst abuses known to history." As to the method he would pursue in revising the tariff, Gov. Harmon said: "The first step must surely be to redeem the tariff from its perverted use and restore it to its proper place as a revenue measure by gradual reduction so that all concerned may have time to prepare for the change."

A Texas congressman has just received from a constituent a letter containing an expression of Gov. Woodrow Wilson's views on prohibition. Gov. Wilson, in a letter to E. G. Grogan, of Byers, Texas, dated July 6, 1911, said with reference to the advisability of state-wide prohibition in Texas: "I believe that for some states, state-wide prohibition is possible and desirable. I have no reason to doubt from what I know of the circumstances that state-wide prohibition is both practicable and desirable in Texas."

The death of Senator Robert Taylor, "Fiddling Bob," makes Luke Lea, aged 33 years, "senior senator" from Tennessee. Newell Sanders, junior senator, is old enough to be Lea's father.

## WHOLESALE LIQUOR DEALERS

PHILADELPHIA, Pa., May 14.—Plans for a nation-wide campaign to educate the people in favor of license, regulation and control of the liquor business are to be discussed at the annual convention of the National Wholesale Liquor Dealers' association, which met in this city today for a three days' session. Prominent representatives of the trade from nearly all the large cities of the country are in attendance.

## DEMOCRATS MEET IN UTAH

SALT LAKE CITY, Utah, May 14.—Democrats of Utah assembled here in state convention today to select the delegates to the national convention at Baltimore.

Bids will be received up to Saturday, May 18 for concessions at the Red Men Eagles' picnic at Lewis Springs, June 16th. Room for Nigger Dip, Cane Board and anything in amusement line. Lunch and Ice Cream. Address bid to F. C. Penderston, Box 573, Bisbee.

## INTERVENTION QUICKEST WAY

American Writes He Finds Best Mexicans in Favor of United States Making Peace

## OTHER WAY TEDIOUS

From a well known American who has long been interested in mining in Sonora, the Review has received a letter relating to the feelings among the better classes of Mexicans in the section of Sonora where his interests are now located, remote from the more traveled portions and the sections that are more frequented by Americans. The letter needs no explanation, it speaks for itself and manifestly shows the writer to be in favor of intervention and that as soon as possible. As reflecting the sentiment of one individual and the sentiment which he states that he finds the letters is of interest especially in this section of the country where the mining interests are so closely allied to those across the border.

The letter is as follows: A bright young Mexican in one of the Sonora pueblos was asked "When will Mexico have peace?" He replied, in effect that peace will come in either one of two events. If the North comes in with its soldiers we will have peace given us soon. Should the United States not intervene, we will have peace when after many long months of revolution, counter-revolution, brigandage, destruction of life and property, the good citizens resolve all disorder must cease and they come to the front organized and armed to declare themselves for law and order. He continued, for good citizens of the first families, when they will resolve and act, equal one hundred of those who sneak around the edge of the pueblos and, almost by their very moral force alone, they can say peace must be and it will be.

By chance, the writer met, a few days later, the father of the above speaker, an old gray-haired patriarch, who discussed the political situation. He said, when the Madero revolution broke out there were in existence in my pueblo, two Communes. The first was the most numerous. It comprised all those who love the moonlight better than the sunlight, those who just barely keep within the pale of the law, who think the world owes them a living, who ride on the backs of those who sow and reap, and live in the hard but honest struggle.

These, though not organized, were bound together by a common tie of unwritten agreement, ready to loot and to claim as their own what they had seen with eyes of envy gradually accumulate in the hands of the frugal and the industrious. The second Commune was composed of a very few but was far worse. It was organized to act for just these few. It consisted of a dozen or less "ricos" who believed the poor man owed them his services and who gathered into their bins all his labor provided. They exacted road labor, ditch labor, wherever it would most benefit them and made the poor bear all the burdens of government.

These two Communes made Mexico boil over and now comes the great problem to reconstruct, so they can no longer exist. Neither has any place in a republic. The great problem is to keep the former from looting and the latter from oppressing. The middle class must grow in Mexico and must rule. Then our government will be stable.

## READY FOR BIG SHOW

CHICAGO, Ill., May 14.—Ten thousand persons will be able to see and hear what goes on in the republican national convention next month, according to Harry S. New of the sub-committee in charge of arrangements. The committee met here today to decide on the seating arrangements and other details in connection with the convention.

## BOILER MAKERS MEET

PITTSBURGH, Pa., May 14.—The annual convention of the Master Boiler Makers' association met here today with an attendance of members from many cities of the United States, Canada and Mexico.

## MICHIGAN DEMOCRATS

RAY CITY, Mich., May 14.—Many delegates met here tomorrow to select the delegates at large to the national convention at Baltimore. The Wilson forces will make every effort to have the delegates instructed for the Norman Thayer group, and Harmon and Clark followers will fight for an uninstructed delegation.

## 14 MORE FOR ROOSEVELT

ABERDEEN, Wash., May 14.—The Roosevelt managers declare that Washington's entire delegation of fourteen members is certain to be sent to Chicago with instructions to support the colonel for the presidential nomination. The state convention to select the delegates will be held here tomorrow.

## REPUBLICAN COHORTS DEPART FOR BENSON

Roosevelt Faction Claims to Have Forty-Two Votes and Control

Republican party leaders are set on the hair trigger and are wearing silencers on the eve of the big fight at Benson this evening at eight o'clock, when the county committee, numbering eighty, will meet to decide how delegates to the state convention at Tucson shall be chosen.

Both sides are claiming a majority of committees or proxies, and lead the fight over the Roosevelt faction. Yesterday the campaign for proxies was at its height, and those who had held off from giving their proxies until the last day before the meeting were courted warmly by the respective leaders of the two factions. It was reported yesterday that Roosevelt leaders have 42 pledged votes or proxies, but this was contradicted by the Taft men, who still contend that they are in the majority in the committee, and will roll the majority over the Roosevelt faction.

This confidence by each faction augurs well for an exciting meeting, as it indicates that there are plans and plans for "choking the cat" in addition to the ordinary way of choking it with butter. There are many rumors as to coups that will be pulled off in the meeting, and the indications are that there will be as pretty a fight at Benson tonight as has been seen in the Cochise arena in moons.

The Roosevelt faction is said to want to go the limit and declare for the primary method of selecting delegates to the state convention. Roosevelt is pledged to the primary system, and it is but natural that his supporters will favor that method of selecting delegates to the state convention. The Taft forces will oppose this method on the ground that a primary is too expensive a method. Another issue that divides the faction is that Roosevelt men are out and out for a delegate instructed to vote for the colonel as long as their limbs hold out, while the Taft men are advocating an uninstructed delegation.

Strange things are likely to happen at Benson this evening, though both factions are trying their wits in attempting to anticipate every possible move of the opposition. The Bisbee delegation will leave this afternoon for the meeting city. It was reported yesterday from Douglas that Ralph Cameron would attend the meeting.

## SEE END OF STRIKE

WILKES-BARRE, Pa., May 14.—A joint convention representing the mining and anthracite districts assembled here today to act on the refusal to ratify the tentative agreement by the conference committee of the mine workers, which was arranged by their sub-committee and the operators. Though the sentiment of the delegates on the question of ratifying the agreement in the face of the action of the executive boards in voting it down, appears to be divided it is believed that a majority of the delegates will vote for ratification. If on the other hand, the convention rejects the tentative agreement, it is expected by the miners that the coal fields of the anthracite region will be closed. It will be empowered to enter into another joint conference and conclude an agreement that will be subject to ratification by a referendum vote. Which ever course is pursued it is hoped to bring about a resumption of work in the anthracite field within one week or ten days. The strike already has been in force six weeks.

## HIDDEN DANGERS

Nature Gives Timely Warnings That No Bisbee Citizen Can Afford to Ignore  
DANGER SIGNAL NO. 1 comes from the kidney sections. They will warn you when the kidneys are sick. Well kidneys excrete a clear amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills have permanently cured thousands. Here is proof in the statement of a nearby resident.

Prescott, Ariz., says: "Off and on for a year I have used Doan's Kidney Pills and have been given ample proof of their worth. I have found them very effective in relieving pain in the small of my back. My experience with Doan's Kidney Pills has been so satisfactory that I can highly recommend them." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
