

# DOUBLE YOUR MONEY IN FIVE YEARS

And receive a good dividend each year while you are doing it by buying before Jan. 1st, 1913, a few shares of stock in the Occidental Fire Insurance Company, an institution owned, operated and controlled by about one thousand of the representative business and professional men and women of the Southwest and now in the twentieth month of active and successful business and profit producing career.

Not a proposed or contemplated organization, but a rapidly growing company now licensed and doing business in several states, namely, Arizona, New Mexico, Texas, Colorado, California, Oklahoma and Illinois, and free from all promoting schemes and entanglements whatever.

A block of this stock purchased now will make a most ideal Christmas present for your wife or daughter, not only for the coming Christmas but for every year that follows during the owner's life.

It is not a get-rich-quick scheme. You will not double your money in a month or a year.

It is not speculative, but a straight out and out investment based on scientific, mathematical figures that have been in practice for over a century.

Among our stockholders are included almost every well known banker and conservative investor between Bisbee and Trinidad, Colorado.

Only a few shares left, which if not sold before Jan. 1st, 1913, will be sold at a greatly advanced price, if at all.
