

## LEAD IS TAKEN BY THE ROYAL

Management Tenders Offer of Benefit for Children's Play Ground Fund, Now Being Raised

### OTHER MEANS OF AID

At 4 o'clock this afternoon the second step in the securing of a playground for the children of Bisbee will be taken. The play ground was assured when the council, last Tuesday night, voted to convert the old cemetery property into a play ground but the equally important project of raising the necessary funds to carry out the playground plans now comes up. The plans for raising the necessary funds will be made at the meeting of the playground committee this afternoon at the Commercial club.

It is anticipated that the total amount to be raised will be about \$2000. Of this sum about \$1000 will be required for the removal of the bodies and their proper re-interment in Evergreen cemetery, and the balance, \$1000, for the equipment of the playground. The equipment will include swings, parallel bars and sand boxes for the smaller children.

The first tender of assistance from any source was from the management of the Royal theatre, which has offered to stage a benefit performance, the proceeds to go to the fund. This offer is very much appreciated and will be presented by Secretary L. H. Gray of the Commercial club to the playground committee at its meeting this afternoon.

Besides equipping the playground in this city the Commercial club hopes to have sufficient funds to install a playground at the Lowell school. The plans for raising funds so far embrace the following: Placing in all stores and saloons in the district, contribution boxes, the securing of the cooperation of every club and lodge in the city and the circulation of subscription lists. Other plans for the raising of funds will be discussed at the meeting this afternoon. Since the action of the city council much favorable comment has been heard and it is believed that the fund will be liberally contributed to. The following is the personnel of the playground committee: S. K. Williams, chairman; J. M. O'Connell, J. H. Gray, C. A. Allen and William Robinson.

Dr. James Douglas and Walter Douglas left for Douglas yesterday in the private car Nacozari.

Dan Twomey is recovering from an operation for appendicitis, undergone at the Copper Queen hospital recently.

Mrs. J. H. Verfuth, is visiting friends in El Paso.

J. H. LeMontreux, a theatrical man, is on a brief visit to the city.

**Infant Swick.**  
The funeral of the infant child of Mr. and Mrs. Richard Swick, of School hill, was held yesterday. Interment was made in Evergreen cemetery.

### HOSPITAL TRAINING

St. Joseph's Hospital, Phoenix, Arizona, offers a three years' course of training. For detailed information address Superintendent of Training School.—Advertisement.

### Recovered From Severe Lung Trouble

While we all know that plenty of fresh air and good food are necessary to persons suffering from lung trouble, something more is needed to bring about full health. Eckman's Alternative is a medicine for throat and lung troubles, and so many reports have been received showing that it brought about good results in a number of cases which were declared hopeless, that all sufferers who are not less doing otherwise should, at least investigate what it has done for others. It may be the means of restoring you to health. Investigate this case.

—Gentlemen: In December, 1909, and March, 1910, I was taken with hemorrhages of the lungs, which continued several weeks each time to my bed. These left me very weak and I coughed at night and could not sleep. My appetite also failed me. My doctor advised me to go West. So, in September, 1910, I planned to go, but I had four more hemorrhages, which put me in bed for three weeks. In November I met Michael Brody, who, upon hearing of my condition, urged me to take Eckman's Alternative. After about two months, I began to feel better. I kept on taking the medicine and improved fast. In March, 1911, I returned home. I think I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 120 pounds. I now weigh 160 lbs. my normal weight. I thank God and your Alternative for my health. If I can help any other person suffering from Tuberculosis, I will gladly do so. (Signed) PAUL L. FARNACH. Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for Brody's telling of recovery, and write to Eckman Laboratory, Philadelphia, Pa. for more evidence. For sale by all leading druggists. Lowell Drug Co., in Lowell.

Salads have become an indispensable feature of a well ordered dinner. Salads would be more generally used if it were not for the trouble of making the dressing.

Fernell brand Salad Dressing is ready for immediate use and is no trouble to serve. Made of absolutely fresh eggs, finest imported olive oil, English mustard and the right seasoning in exact proportions.

Fernell brand Salad Dressing is most healthful and deliciously palatable.

## BISBEE TEAM GO ABROAD TOMORROW

Bowling and Basket Ball Games to Be Played with Strong Opponents

Tomorrow the Y. M. C. A. basketball team will leave for Tucson and the Y. M. C. A. bowling team will leave for Douglas. At both cities games will be played.

The basketball game will be played in the afternoon and will be with the University of Arizona team. The local team has been putting in hard practice and, although the University has a strong team, the Bisbee boys have every expectation of winning the game.

The bowling games will be played with a picked team from the Douglas Y. M. C. A. The game will be the first of a series of three and will be for the Bisbee-Douglas perpetual cup, which was won by Bisbee last year and is now held by them. The team here was organized on February 1 and includes the best bowlers at the Y. M. C. A. The team has been having practice each night this week and is in fine form. Two of the games of the series are to be played in Douglas and one in Bisbee, reversing the schedule of last year.

## SURVEY FINISHING WORK IN CANYON

Opening of Tracts to Public Will Follow—Bisbee Boys to Stay with Party

When the United States geographical survey, which is now engaged in surveying a tract of land located up the canyon, completes its work and moves to Colorado, two Bisbee young men will accompany the survey party. They are Ben S. Jackson and John Hughes. Arrangements have been made with Mr. Hess, head of the survey party, and the two will remain with the survey during its work along the Colorado river.

Recent reports from up the canyon indicate that the survey there will be finished in a short time. The work has been progressing for about six weeks. The first survey was of a six mile hilly tract situated mostly in the canyon. The second tract, upon which the survey work is about completed, is located to the west of the first and embraces generally level ground. Both of the tracts will be opened for entry.

## SUPERVISORS ARE CLEARED BY JURORS

Greenlee County Officers Did Not Hide Public Documents

TUCSON, Feb. 6.—The jury in the case of the state of Arizona against the former supervisors of Greenlee county, which was transferred to the superior court of Pima county on a change of venue, in which the ex-officials were charged with secreting certain documents belonging to the records of the office or the board of supervisors of that county, returned a verdict of not guilty, after being in the jury room about five minutes.

The only bit of corroborative evidence introduced yesterday to support the testimony of Road Overseer Atwalt that he saw Webster throw away the road map in question was the driver of the hack in which the supervisors were making an inspection trip, and he said only that he saw Atwalt stoop in the road and pick something up, what he did not know. Atwalt testified Monday that he saw Webster throw the map out of the back and that he picked it up and kept it for several months. J. R. Holman, the contractor who built the road and who was in the hack did not see Webster throw the alleged record away. When recalled to the stand yesterday Atwalt admitted that he had no "particular love for Webster."

The three defendants, all ex-supervisors of Greenlee county, are George Webster, J. H. T. Cooper and B. P. Billingsley. Following the verdict of the jury County Attorney Horton, of Greenlee county, who prosecuted the case, moved that similar indictments against the men be dismissed.

## OPPORTUNITY IN FINE INVESTMENT

More Cottages and Apartment Houses Needed, Due Rapid Growth of the District

### GOOD VIEW FOR 1913

Prosperity for real estate men and activity in building is increasing in Bisbee along with general business say those who are in touch with this side of the life of the district.

They add that the district is once more in line to enjoy an excellent building growth, particularly in modern cottages for rental purposes. These are now in much larger demand than present supply meets.

Steady growth in population of excellent kind during the last several months is responsible for the improved tone in realty and building, just as it is responsible for the larger trade being enjoyed by business houses. And there is every reason for the confidence that is now entertained that the district is destined to march steadily forward in its growth to the biggest things ever enjoyed by a mining district in the west.

"I expect to see more building activity in Bisbee and the entire district during 1913 than we have had in several years," said a well informed realty man yesterday. "We now need more cottages and more apartment houses. Investment in the latter is offered here with the certainty of large returns on money put in. A fifty or hundred room modern apartment house in the city at this time would be filled within forty-eight hours; while I could rent a dozen cottages of hand. There is not a rooming house in the city that is not filled to the roof and turning away applicants for accommodations every day. The situation is one that is so inviting to safe investment hunters that it is bound to be taken advantage of, and I do not entertain the slightest doubt but that the year will see a large amount of money put into new building with highly satisfactory results. The last half of 1913 should see real estate men and men in the building trades busier than they have been in the district with private enterprises in a number of years, while making another trip to Belgium in 1914. That was all, but unless the blessings of George M. Douglas or the powers of Cupid, it is firmly believed that when Mr. LeGrande next returns from Belgium he will have become a benedict."

## LEGRANDE RETURNS FROM BELGIUM VISIT

Admits He Will Go Again Next Year—Friends Say "Matrimonial Bug"

Charles LeGrande, mechanical engineer of Phelps, Dodge & company, returned to his headquarters in Douglas this week from a trip of three months which took him Belgium, the land of his birth. Mr. LeGrande states that he had a most delightful visit with relatives and friends and it is claimed by his friends here that during his stay abroad he arranged for a visit next year which will bring forth the most important event of his life, though all efforts to gain definite information from LeGrande concerning this confident expectation were futile. However, he admitted that he expected to make another trip to Belgium in 1914. That was all, but unless the blessings of George M. Douglas or the powers of Cupid, it is firmly believed that when Mr. LeGrande next returns from Belgium he will have become a benedict.

### PRINCETON COPPER

Berry Baxter, president of the Princeton Copper company, located in the Huachuca mountains at the camp of Hamburg, was in the city yesterday. In company with J. J. Bowen he left by automobile to make an inspection of the property. Considerable work is being done at the mine and about twenty-five men are employed on development. Mr. Baxter is here from New York, stopping off on his way to San Francisco. New Arrival.

A baby boy was born to Mr. and Mrs. Walter Knowles, of Warren Hill, on Wednesday.

### Artificial Graveyard.

What is perhaps the most remarkable artificial graveyard in the United States adjoins the old Spanish church in the ancient Indian pueblo of Acama, N. M., and took over forty years to construct. The village is situated high in the air upon a huge, flat-topped rock many acres in extent and entirely bare of soil. In order to create the graveyard it was necessary to carry up the earth from the plain 300 feet below, a task that at a time on the backs of Indians who had to climb their heavy loads up a precipitous trail cut in the face of the cliff. The graveyard thus laboriously constructed is held in place on three sides by high retaining walls of stone.

### Youthful Critic Aroused.

A very young gentleman, after bearing some vigorous language from his father, called up his grandmother on the telephone and warned her: "You better come down to our house and see about the words your son has been using."

## THROGGED TO HEAR SEAMUS M'MANUS

Brilliant Lecturer Drew and Entertained Great Crowd Despite Bad Weather

Brimming with wit and humor Seamus McManus' lecture, "A Merry Ramble Around Ireland," pleased a crowded house at the Knights of Columbus Hall last night when the widely known author and lecturer appeared under the auspices of the order. Every seat was taken and many crowded outside the door, it only to be in hearing distance of the speaker. A quiet, delightful humor pervaded the evening, but the audience frequently burst into hearty applause.

As described in the title, Mr. Manus' lecture was not intended for students of the economic conditions in Ireland, but was merely a merry ramble, with an enthusiastic traveler well acquainted with the history of the country, full of wit and understanding, knowing well the weaknesses of the people but ever looking for the picturesque and the novel. The lecture was well illustrated with many colored slides of the most famous and picturesque spots of the "old sod."

**NOTICE OF POSTPONED ANNUAL MEETING OF ARIZONA AUTOMATIC AIR ASSOCIATION.**  
The meeting postponed from Monday night, Jan. 27, will be held Monday night, Feb. 10th at 7:30 p. m., at J. S. Williams' office in Allen Block. All stockholders requested to be present.

### COUNTY JUDGES AT FT. WORTH

FORT WORTH, Texas, Feb. 6.—Proposed measures calling for important reform and changes in the management of methods of procedure in the county courts are to be recommended by the Texas association of County Judges and Commissioners, which assembled here today for its semi-annual session. Judge R. E. Bratton of Tarrant county, presided at the opening of the meeting.

Henry A. Morganthau, prominent banker and financier of New York City, is regarded as the probable choice of the President-elect Woodrow Wilson for the post of secretary of the treasury. Mr. Morganthau took an active part in the financial matters of the recent democratic presidential campaign.

**DARROW TRIAL.**  
LOS ANGELES, Cal., Feb. 5.—John R. Harrington, Chicago attorney, appeared here today to testify for the prosecution in the bribery trial of Clarence Darrow. Harrington's presence indicated that the trial will be prolonged as he will reiterate his former testimony, bearing only on collateral matters. Bert Franklin, Darrow's accuser, is still undergoing cross examination.

**TOOK NELSON'S PUNCH.**  
RACINE, Mich., Feb. 5.—Battling Nelson did his utmost in ten rounds tonight to knockout Jack Sorenson, a lightweight. Nelson scored three knockdowns but could not put his opponent out.

**Change in Doll Industry.**  
The doll industry in Germany is now commencing to make the "character doll" in restricted numbers. The model is made by an artist, and the molds are then copied from this model. The painting of these dolls is done with special care, and consequently, their price is considerably higher than that of the common type of doll.
