HUERTA SAID ON WAY TO EL PASO BY VILLA AND CARRANZA

Villa and Carranza Agencies Agree for First Time on Record That Huerta Movement Is Pending.

CARRANZA SAYS THAT ANGELES IS PART

Many Former Military Men With Huerta and Other Friends Are Said to Be on Way to El Paso for Conference.

EL PASO, June 26.—Victorio no Huerta passed through Tucuman, New Mexico, tonight on an El Paso & Southwestern train bound for El Paso, according to advices from Tucuman. The train is due here at six-thirty Sunday morning.

WASHINGTON, June 26.—The official news of a severe defeat to the Carranza forces is overshadowed by the announcement from both the Carranza and Villa agencies that a large party of Huerta's adherents, former military commanders and legislators, are in El Paso, presumably with the intention of starting a new military movement.

The Villa agency announcement, communicated to the State Department, said they were not, however, positive that Huerta was among the party. Huerta's secretary in New York denied the former dictator was on his way to the border. Huerta left New York for the west Wednesday, reported to be bound for San Francisco. The statement of the Carranza agency said that Angeles, Villa's chief lieutenant, and now in the United States, came to set the new movement afoot.

Carranza and Villa agencies have agreed in public announcements as probably they never before have since they were established. The fact that both agreed that a new movement is afoot in Mexican affairs, is regarded more than usually significant.

Enrique Lorente, confidential agent in Washington of Villa, issued the following: "A confidential agency received the most authentic information that on the train early this morning, enroute from Kansas City to El Paso, there passed through San Antonio Generals Bravo, Casas, Calles, Robles, Victor Huerta and Coronista, and several military chiefs with former congressmen and senators of the Huerta administration. It is also reported though not positively, that Victoriano Huerta was with the party. The agency advised that the purpose of the visit of these former Huertistas to El Paso was to organize expeditions against Juarez and Ojinaga, with mercenaries recruited along the border. The confidential agency advised that a Carranza army under Obregon was reported at Penasco, south of Aguas Calientes."

The Carranza statement differed little in reporting the Huerta activities, except to claim it was initiated by Angeles.

MAY ELIMINATE VILLA

SAN ANTONIO, June 26.—The elimination of Villa, the abolition of Villa's chief lieutenant, Angeles, and the location of Vasquez Tagle as provisional president for the rest of the year in Mexico of a party headed by Huerta, is the outcome of a new program in Mexican politics which may be adopted at a conference of the elements antagonistic to the other revolutionary leaders, now gathering in El Paso. The statement was made here by Eduardo Herrerez, a former Villa commander, in connection with the incidents which attracted widespread attention from followers of the Mexican situation.

Victor Huerta, nephew of Huerta, and a number of former leaders under Huerta's administration, including Generals Bravo and Robles and C. M. Casas, left here for El Paso, where it is rumored they will be joined by Huerta next week.

Santos Chocoma is accepted here as the official spokesman for Angeles. He has been here three weeks and held many conferences with Huerta adherents. He refused to discuss the reported new movement except to say that Angeles would not be at any conference in El Paso.

The El Paso conference is to decide how Villa can be gotten out of Mexico and Tagle elevated to the presidency," said Herrerez. It is intimated the other details of the campaign have partly been settled already.

EL PASO, June 25.—There is unwhipped activity in Mexican cities

MILITARY FOR SAFETY OF SLATON

Home of Ex-Governor Slaton, of Georgia, Is Guarded by Militia to Prevent Possible Riots There.

ATLANTA, June 26.—Artillery, cavalry and infantry militia stood guard tonight at the home of John Slaton, the retired governor, today, while he was surrendering the office to Nat Harris. During the day 26 men were arrested by the militia near the Slaton home and are still held in jail tonight. Firearms and explosives are alleged to have been taken from them. There is no indication of renewed demonstrations tonight, because of the Slaton action in commencing the sentence of Leo Frank. A guard on the Slaton home will be maintained until the adjutant general is satisfied all danger is past.

The former governor spent the night at home with his family. He plans to leave with Mrs. Slaton next week on a vacation trip to California. They planned to depart tonight but Slaton determined not to leave under fire. "Honest people may disagree with me," he said, "I realize we must be measured by our conscience. Two thousand years ago another governor washed his hands of a case and turned a Jew over to a mob. For two thousand years that governor's name has been accused. Today if another Jew is lying in his grave because he failed to do my duty, I would, through life, find his blood on my hands. I would consider myself an assassin through cowardice."

During the inaugural ceremonies at the capitol there were several tense moments. When Governor Slaton approached the new governor to deliver the state seal a few hisses were heard. President Parsons of the state senate, warned the spectators that unless there was order the galleries would be cleared. Instantly there was a tumult of applause. On leaving the capitol the crowd surged on the former governor. It had to be held in check by the militia. Hisses and shouts greeted his ears. Slaton hurried to his automobile. On the impression that he was on his way to the terminal station, the crowd hurried there where the police had to disperse them.

here, accompanied by an air of mystery. The possibility of important developments is impending. Leaders of the various Mexican factions are cloaked with their adherents. Not a word is permitted to leak out regarding the nature of the conversation.

The whereabouts, and probable destination of Huerta are widely discussed. Scarcely of less interest was displayed in the published report in private advices from Washington that stated the Eleven and U. S. Cavalry and eight troops of the Twelfth Cavalry would be ordered to Fort Bliss in the next two months.

Miguel Lombardo, foreign secretary in the Villa cabinet, spent a busy day in conference with supporters of Villa. He issued no statement subsequent to the one of the forenoon which said the relations of Villa and Angeles were most cordial. He said the question of whether he (Lombardo) would go to Washington was undecided.

The report that Huerta is traveling west, ostensibly to the Panama Exposition, occasioned widespread speculation as the possibility of his coming here. Numerous reasons are advanced against the possibility of Huerta visiting El Paso. The recent activity of the Mexicans along the border east of here, and the recent discovery of fourteen machine guns and five hundred rifles in a local warehouse owned by parties known to be connected with the old Cientifico party, and the reported appearance of General Salazar with a small band of men in western Chihuahua are discussed in connection with the destination of Huerta.

Observers professed to find significance in the reported presence of General Orozco here. Advices reaching here stated that several Mexicans, former adherents of Huerta, were enroute here from San Antonio.

BRYAN OPENS PEACE CAMPAIGN; SCORES NEW YORK PAPERS, ROOSEVELT, TAFT AND FOREIGN POLICY OF PRESIDENT

Left to right: Joseph C. Cannon, Congressman Meyer London, Congressman DeChampan, William J. Bryan and Max Lryan.

William J. Bryan started his peace campaign in New York a few evenings ago by addressing an anti-war labor meeting. In the course of his address Bryan scored New York newspapers for their alleged sympathy with the allies; he scored former President Roosevelt for advocating a larger and more efficient naval establishment; he scored former President Taft for his connection with the League to Enforce Peace, and he attacked the foreign policy of President Wilson. The other important figures at the meeting were Meyer London of New York, the Socialist congressman, and Joseph D. Cannon, organizer of the Western Federation of Labor.

EARLY MORNING MURDER

Following the echos of several shots, at about two thirty this morning, investigation disclosed that an unknown man had been mercilessly beaten to death with boulders. The murder occurred at or very near the bridge across the subway, from the Holbrook to the Southwestern tracks. Pending the arrival of the Coroner, George W. Totman, the body was not touched and no identification could be had. It would appear that the man was an Italian or Slavonian. One of the automobile men, who stands at the Orpheum corner, saw a man coming up the tracks, in the direction of the station, several minutes after the shot was fired. He declares he can identify the man and says he was a Mexican. Though the body was found about fifty feet west of the bridge, there were blood spots on the rocks of the subway further down. Under the bridge was found a canteen, containing a considerable quantity of mescol. All of the local officers are busy on the case and the surrounding country has been notified to be on the lookout for suspicious characters.

Fourteen Tire of Dilatory Legislature and Leave

WILLCOX RILED OVER ARREST PARKS

Arrest of Prominent Willcox Man Brings Much Censure on the Sheriff and His Whiskey "Detectives."

WILLCOX, June 26 (Special)—Never in the history of this town has the general public been so universally wrought up over anything as they have been during the past week when it became known that J. H. Parks, one of the most prominent citizens of the city has been arrested on a charge of bootlegging, on information furnished by the two hired "Stool Pigeons" of the Sheriff's Office.

Parks was notified that there was a warrant out for him in Tombstone and he went over there to answer the charge. When he arrived there he was met with the bootlegging charge and confronted by Thompson and Campbell, who testified that they had purchased two bottles of whiskey from him at the pool hall here. Parks was released on a \$250 bond, pending the action of the Superior Court.

When he returned here and made known what he had been arrested for, there was anything but pleasant remarks made about the hired "detectives" of the Sheriff's office and threats of all kinds where made against them, should they ever make another appearance in this city. Sheriff Wheeler, who has always had hundreds of supporters here has lost many of his friends by the employment of such men and there was talk for several days of holding a meeting in regard to taking some action in the matter of having the alleged "detectives" arrested for perjury and to appeal to Sheriff Wheeler to take some action in getting rid of his hired men.

Messrs Hayes and Page went over to the County seat as representatives of the citizens here and conferred with the County Attorney and Sheriff Wheeler in regard to the matter, but

SENATORS TAKE THE BIT INTO THEIR HANDS TO FORCE EARLY ADJOURNMENT

Only Five Senators Remain; House Can Do Nothing But Act on Legislation Which Has Come From the Senate.

PHOENIX, June 26.—Unable to get the House to agree to an adjournment, a motion by Goldwater excused from further attendance at sessions of the Senate fourteen members of that body today, leaving unexcused only Senators Chase, Colter, Munds, Garvin, and Sims.

The other members tonight departed for their homes and, while sine die adjournment has not been taken, the only additional legislation which can be enacted will be the measures which have passed the senate and sent to the House, which are Colter's irrigation bill and Campbell's amendment to the land provision of the state constitution.

It is probable neither will be passed as the House objects to their enactment without the amendment which now cannot be concurred in by the senate. This forecasts final adjournment Monday. As two House members put it, there were two remaining days "we could draw pay and the majority seemed to oppose overlooking the opportunity."

By a vote of thirteen to fourteen, the House finally killed the Senate bill regulating the sales of liquor which disposes of all pending legislation and leaves the constitutional amendment stand without statutory modification. The Senate, prior to adjournment, voted to indefinitely postpone the members' hospital and labor commissioner bill. It being apparent that neither of the measures would be satisfactory to the labor interests over the state and it being their expressed desire to initiate a law they prefer.

INSPECTION OF TOVREA MEAT MADE HERE

Dr. H. T. Doak, Bureau of Animal Industry, Will Locate Here to Inspect Meats of Tovrea Abattoir.

With the new slaughter house, which is now in the course of construction for E. A. Tovrea and Company near the old one at Don Luis, Bisbee can boast of having the only government inspected abattoir in either of two states, New Mexico or Arizona.

Dr. H. T. Doak, a veterinary inspector for the Bureau of Animal Industry, formerly with headquarters in Los Angeles, is on the ground and superintending the construction of the new slaughter house for the Tovrea Company. After its completion, or in fact from Monday on the people of Bisbee, the Warren District and the entire Southwestern part of the state, will be able to secure meat which has been government inspected right here in Arizona and in Bisbee.

The number of the local abattoir will be 994. After this time no meat that is slaughtered in the Tovrea place of business will go out without the government inspection mark which is the O. K. of the department of Animal Industry. E. A. Tovrea and Company has recently adopted to its well-known prestige by going to Douglas and in close competition with other meat dealers of the Southwest being awarded the contract for furnishing the meat for the soldiers who are now on the Arizona border between Nogales and Columbus, New Mexico. In the latter two towns Tovrea hasn't the contract owing to the difficulty of shipping meat to those points during the heat.

In speaking of the new inspection here Mr. Tovrea said last evening: "Osborn, as acting governor, Hunt having failed to make connections and not getting into the state until this evening, this afternoon signed and approved the land code. Five appli-

DNEISTER ARMIES SWAY TO AND FRO ALONG BIG RIVER

FOURTH EVENTS TENTATIVELY ARRANGED

Contributed Funds Aggregate Nearly \$1700; Boys and Girls Will Feature Parade; Many Juvenile Sports.

A tentative program for the Fourth of July celebration was drawn up at yesterday's meeting of the committee in charge of that part of the preparations for the big observance. Recognizing that conditions which cannot yet be definitely forecasted are certain to arise, the committee wish it to be understood that the program, as printed below, will be subjected to numerous changes. However, the general plan of events may be comprehensively understood by a study of the outline of activities as published.

As much interest has been expressed concerning the scheduled ball game between the Grays and Boosters at Warren Park, on the afternoon of the Fourth, it may be stated that it has been decided to make the contest a regular paid admission exhibition. The executive committee will award a prize of \$50 to the winning combination. As the rivalry between the Boosters and Grays is well recognized the sport loving public will be assured that a battle royal will be staged. C. A. states that a varied and novel program of juvenile sports will be offered. The ball game will be staged at the new diamond on the Clearing property. The races will be run off on Brewery Gulch.

Funds already contributed aggregate \$1759.50, according to the detailed report printed herewith, as submitted by the finance committee.

Table listing names and amounts contributed to the Fourth of July celebration fund, including Copper Queen Cons. Min. Co., C. & A. Copper Co., Shattuck-Arizona Copper Co., etc.

Russians and Austro-Germans Sway Back and Forth Without Any Apparent Result on Either Side of Fence.

GERMAN SOCIALISTS TALK PEACE THERE

Von Linsington's Army Is Badly Cut When Russians Drive Them Back Across the Dneister; West News Slight.

LONDON, June 26.—The battle of the Dneister, which may decide the fate of the left Russian army in Galicia, sways back and forth along the banks of the river, without decisive results. The Russians have thrown considerable reinforcements into this area. Whether they are planning a serious offensive or merely fighting stubbornly is uncertain.

Both lost heavily. General Von Linsington's right flank and center had been badly cut when the Russians threw the Austro-Germans back across the river. The Russians have been fortifying their lines from the river to the Russian frontier.

German socialists are active in the cause of peace, according to advices from Germany. The prominent paper, Vorwarts, was suspended indefinitely for publishing peace proposals. With the Austro-German lines of communication in Galicia, strengthening daily, the task of forcing the Russians eastward becomes more formidable. Although Berlin claims the Teutonic allies have been forging ahead between the Dneister and the district which was occupied east of Lemberg, the advance lacks characteristic impetus of a rush, noticeable in the former stages of the Galician campaign.

The French and German announcements relative to the fighting in the western theatre is so contradictory that it affords the industrious of the situation. Recruitment in England is forgotten amid the high tension campaign of munition workers.

VILLISTAS SEIZE FLOUR OUTPUT

DOUGLAS, June 26.—All flour mill owners of Sonora have been notified by the Villa authorities not to sell flour to civilians under any circumstances as it is needed for the army, according to reports brought here. Grain crops in many districts are going to ruin because of lack of labor to gather the harvest.

CLEVER AUSTRIAN RUSE

LONDON, June 26.—A correspondent writing from the frontier says that at Monte Negro, a bridge across the Isonzo river, the Italian troops could not discover where frequent shots came into a certain point in their line. Two guns would fire, then nothing more would be heard from that particular point. A short time afterwards from another point would come similar shots. Firing from both points was silenced after it was found the Austrians had laid tracks in the tunnels so their guns could be rushed from point to point. On other places were found dummy batteries placed with men of straw behind the cannon. Small mines were lighted to produce smoke and facilitate the deception of the Italians.

STARVATION IN SALTILLO.

SAN ANTONIO, June 26.—Many persons have starved to death in the Saltillo district during the last two weeks. 12,000 natives there are in urgent need of food, was the report from the American Red Cross agents received here tonight by Brigadier General Devel, general manager of that society.

INJURED IN CAR WRECK.

SEATTLE, June 26.—Three men were seriously hurt and a dozen women suffered minor injuries when a street car left the track and overturned at the corner of Sixth avenue Northwest and West Forty-second street.
