## ZEPPELINS IN TAX MATTERS MISUNDERSTOOD ANOTHER BIG RAID ALONG COAST

German Air Craft Pay Second Visit to Eastern Counties of England in Two Days; Late Advices do not Give Casualties

### SEVERE FIGHTING IS HAID ALONG THE EASTERN FRONT

Artillery Duels Continue in West and Between Austrians and Italians; German Center, Alone, Makes Progress.

LONDON, (Thursday) Sept. 9.—The hostile air raids on eastern counties of England and the London district continued Wednesday night. The air craft dropped a number of bombs. Casualties and fires resulted. There are no details as yet.

The official statement respecting the raid issued by the press bureau says: "Hostile air craft visited the eastern coast counties and London district Wednesday night and dropped incendiary and explosive bombs. At midnight some casualties were reported and some fires which were then well under control. The number of casualties will be announced through the press in the course of the day."

LONDON, Sept. 8.—Almost simultaneously with the announcement that the Emperor has personally replaced Grand Duke Nicholas as commander of the Russian forces fighting along the eastern frontier despite the beginning of autumn rains, has resumed with intensity which has characterized it throughout the summer on both wings and in Courland, in north Volhynia, Podolia and in the east Galicia. In the south the Russians are making determined efforts to regain the initiative while the center of the Teutons continues to increase their advance.

On other fronts there is little change. The Zeppelin raid in England last night resulted in the death of thirteen, of whom ten were women and children; and the wounding of forty-three, of whom thirty were women and children. This brings the grand total of casualties by Zeppelins up to one hundred and two killed and 700, hundred and three injured.

Field Marshal von Hindenburg and his commanders in Courland are still being denied their objective, the Dvina River, while Field Marshal von Mackensen and the Austrian generals at the other end of the line, are engaged in opposing the Russian offensive. In the center, on the other hand, Lieutenant-General von Eichhorn and Prince Leopold of Bavaria, are pushing forward, according to Berlin reports, and have occupied Wolkowysk, an important railway junction immediately east of Bialystok. It is for these railways the Germans are now fighting, as when the autumn rains turn a great part of the country into an impassable morass, they will need every line of railway to keep the armies supplied with provisions and munitions.

Another day of artillery engagements is recorded on the western front, where there also was a series of air raids as well as a bombardment of the German coast batteries by the British fleet. The Italians claim to have captured several Austrian positions on the Cadore frontier, while on the rest of the Austro-Italian front only artillery actions have occurred. This long distance fighting appears also to be a feature of the operations in the Dardanelles where, according to accounts from Constantinople, the Turks successfully bombarded the Allies' positions at Anafarta and Soudai Bah.

### Mrs. Armour Will Not Prosecute Case

CHICAGO, Sept. 8.—The two suspects were held by the authorities tonight, while detectives visited the police stations in an effort to apprehend, among the prisoners, the two men who, on Monday night, entered the home of Mrs. J. Ogden Armour, the wife of the millionaire, and escaped with currency and jewelry valued at more than three thou-

Andent the tax situation, both city and county, James Allison, yesterday stated that a considerable number of people in Bisbee were laboring under a misapprehension in the matter.

The city taxes will not be due until sometime in October, as the tax rate has not been set as yet and will not be until after the budget is formerly adopted by the council. Allison expects to have the tax notices out by October 5. The taxes do not become delinquent, as far as the city is concerned, until the second Monday in December.

On the other hand the county taxes become delinquent on November 1. It should be stated that this applies only to those taxes due the first half of the year as they are now payable semi-annually. The notices are now being prepared in the office of the county treasurer and will, no doubt, be issued within a few days.

### Bureau of Mines Car Leaves Warren District With Best Wishes for People

Nearly one hundred first aid government certificates were issued by the officers of Mine Rescue Car, Number 2, while it has remained in the Warren District. Under the direction of J. C. Roberts, engineer in charge of the bureau of mines' station, at Denver, the work was continued through until last evening. The car leaves this morning for Los Angeles where it will be put in the car shop for repairs, rendered necessary by a jar received when a box car ran off the track Tuesday noon and bumped the mine car on the siding near the Southwestern depot.

It was the plan of Dr. Roberts to send the car, which is the only one devoted to the interests of metal miners, to Globe, yesterday morning. In order that the car appear at San Francisco by September 15, for the meeting of several mining engineering societies and later for the first aid contests, it was necessary to change the itinerary. The car, later, will be sent into Arizona and make a

call at the various metal camps in the state.

Dr. Roberts, with his assistants, J. H. East, foreman of the rescue car, and K. H. Chisholm, first aid miner, have much to say in regard to the general first aid and rescue work in the Warren District. The first named also took occasion to commend the conditions of the properties in the Warren District as being far along in the matter of the prevention of accidents to the men.

Dr. Roberts is one of the ablest men in the bureau of mines and has been connected with the department since its establishment. His experiences, at fires, accidents, contests and meetings, mark him as one of the most experienced men in Safety First work, in the entire world. The miners of the Warren District, who have been fortunate enough to come into close contact with either Dr. Roberts or his assistants can not have failed to aid to their general knowledge and usefulness by reason of the fact.

## BUMPER CROPS ARE ASSURED THIS YEAR

September Predictions of Department of Agriculture Raise Estimates of All Principal Crops, Especially Wheat.

WASHINGTON, Sept. 8.—Bumper crops this year with half a dozen new production records, now seem assured. Basing predictions on the canvass made September 1 by its thousands of agents throughout the United States, the Department of Agriculture issued forecasts showing the prospects in practically all principal farm products, except potatoes and rice, had improved during August. The wheat crop was placed at 981,000,000 bushels, 90,000,000 more than last year's record crop.

The wet weather damaged the winter wheat, and delayed the threshing. In Kansas not more than the crop has been threshed. Additional inquiries by crop reporters this month resulted in the crop reporting board making no change in its August prediction of 659,000,000 bushels of winter wheat.

Conditions for a spring wheat crop have been ideal lately, and threshing discloses yields above the average, and of excellent quality. As a result of favorable conditions the spring wheat production forecast was increased 15,000,000 bushels to a total of 320,000,000. When the final canvass is made the entire wheat production will probably reach a billion bushels.

### GAMBLING HOUSE RAIDED

About eleven o'clock last night Deputy Sheriff J. S. Gannon and Constable Bert Polley, aided by city officers, arrested Jack Jaspovich for gambling. Six other men were arrested with him.

The room raided was located behind the old Butte saloon stand on Brewery Gulch. All furnished bail for appearance today.

## ENCOURAGING IS STATEMENT OF BANKER

President Law of American Bankers Association Says Unemployment is Decreasing and Production Increasing.

SEATTLE, Wash., Sept. 8.—"As a whole, production is irrefragably increasing; unemployment is slowly and steadily decreasing; and distribution is quietly broadening," according to the presidential address of William A. Law of the American Bankers Association, which was delivered at today's session of the bankers' convention.

President Law, who is the head of the First National Bank of Philadelphia, viewed the world's economic situation from several angles. In part he said:

"We are meeting in the midst of strange and stirring days, saturated with the romance of world changes. In Europe war has continued its progress with increasing military ferocity, economic devastation and the loss of human life. In America the situation has served to reveal the marvelous material resources of the United States.

"During the year you have been sterling exchange rate to its maximum price for two generations, and sunk to its minimum. You have been interested rates uncomfortably high and again discouragingly low; you have seen wide fluctuations in the values of our staple products; you have seen economy practiced till, as a consequence, retail trade suffered severely.

"Manufacturers in many branches have not been able simultaneously to meet the combined effects of tariff changes, the unusually shifting of prices of both raw materials and products under war conditions, and recently the demoralizing competition for skilled labor by the contractors for war supplies. As soon as business is resumed on a large scale we are going to face most unusual labor conditions. Practically no immigrants are coming in at the present time; our normal movement averages about 100,000 per month.

"Those industries concerned in the production and distribution of food stuffs have been least injured. Leather has been strong and active; the automobile industry has been surprisingly stimulated, due in great measure to the war. On the other hand, textiles have been irregular and difficult. Construction and all products purchasable by the railroads have been slow and dull. Our coal tonnage exceeds the combined tonnage of the products of agriculture, forests, manufactures and animals. The success of many of our railroads, therefore, depends upon manufacturing activity. The railroad
