

BALANCE HELD IN BALKAN TRIANGLE STILL

Greece Orders Mobilization and Hence Every Balkan State Not at War, Is Ready for Any Emergency That May Arise

RUSSIANS HAVE GOOD SUCCESS IN THE SOUTH

It Is Apparent That Bulgaria, Heretofore Sworn Enemy of Turkey, Has Composed Her Differences With That Nation.

LONDON, Sept. 24.—As a measure of momentary prudence, Greece has ordered the mobilization of her naval and military forces. Thus the action of Bulgaria to maintain her military preparations has brought the last regiment and battalion of the state to arms, for Rumania, while not fully mobilized, has had troops ready for any emergency. What chance Bulgaria has in mind and what Greece and Rumania will do when the plans mature is still a matter of speculation. One thing seems clear, that Turkey and Bulgaria, for some years sworn enemies, have composed their differences.

The success General Ivanoff has been having in Galicia and Volynia may still have influence in more than one way in the Balkans. Ivanoff was so successful that the German Field Marshal Mackensen, fighting north of the Pripet marshes and east of Irshevsk, according to the official German report, was compelled to withdraw the line somewhat, as he was in danger of being encircled, while the Austrians were driven back across Styria, according to one account, and have evacuated the fortress at Lutsk in the Volynian triangle of fortresses which were captured.

A continuation of furious artillery struggles marks the west. According to the Berlin official the British attacks south of the Lubasse canal broke down under the German fire. After a fortnight of comparative inactivity, German submarines again are on the move off the Irish coast. Since Tuesday they have sunk five British steamers.

BULGARIA'S EXCUSE.

WASHINGTON, Sept. 24.—A statement cable to the Bulgarian legation by Premier Radoslavoff announced that Bulgaria does not intend any aggressive action against any of her neighbors, and that her mobilization should not be construed as an indication she is about to enter the war.

ELEMENTARY PRUDENCE.

LONDON, Sept. 24.—Greek, Rumanian and Serbian ministers, successively, visited Sir Edward Grey at the Foreign Office this afternoon. The Greek minister formally communicated a telegram from his government that in view of the mobilization of the Bulgarian army the Hellenic government considers it a measure of elementary prudence to order a general mobilization of the Hellenic naval and military forces. It estimated, in addition to the Greek navy, 350,000 Hellenic troops will be mobilized within a few days.

The delivery at Bremen is impossible, however, unless some modification of the British orders-in-council or contraband orders can be secured.

ANGLO-FRENCH LOAN MAY BE CUT MORE

First Talk Is Heard That Loan to Allies May Be Under Half Billion; Bonds Will Return Over 5 Per Cent to Investors.

NEW YORK, Sept. 24.—The negotiations for the proposed credit for Great Britain and France continued without noteworthy developments. For first time talk that the loan might not be as much as half a billion was heard.

The loan will not be more than half a billion and will not set the interest rate at more than five per cent, said one banker who has seen the commission daily. His assertion is interpreted as meaning the five year notes to be issued by Great Britain and France will bear interest at five per cent and will be offered the public below par. So far the members of the commission are reported to have refused to entertain the proposal that the interest rate be greater than five per cent.

EVACUATION OF CANANEA STARTS

Nogales Reports Calles as Leaving Cananea and Before Doing so Executing a Considerable Number of Civilians.

NACO AND NEARBY BORDER VERY QUIET

Cananea Women and Children Have Exciting Trip From Camp to Border: Are Held up By Calles Sentry Near Naco.

NOGALLES, Sept. 24.—Carranza troops, commanded by Calles, began the evacuation of Cananea, Sonora, last night, according to reports here. Thirty prominent Mexican civilians, including the chief of police, were executed by the retreating raiders, it is said.

Governor Maytorena, the Villa chief-tain of Sonora, announced tonight he expected to occupy Cananea with his forces Sunday night. The Cananea mines are still operating, but all the American women left today in automobiles for Naco, Arizona. Maytorena is reported to have withdrawn troops from the Yagui Valley to Guaymas, where they are being concentrated to resist the landing of Carranza soldiers expected to arrive there soon.

QUIET ON BORDER.

A significant quiet reigns at Naco. It would appear as though Naco were either being prepared for an exodus of Calles troops and civilian guards or that the port was being placed in readiness for a defense against the inroads of Yaquis. Plans to place on the immediate border comes any information as to fighting in Sonora.

With the Calles outposts still at Villa Verde and Maytorena's scouts harrying the former forces it is thought that Calles is preparing for a further retreat into Agua Prieta.

Nine women and children had a most exciting trip from Cananea to the border early yesterday morning. Mrs. Evans and her three children, Mrs. George Wiswall and two children, and Mrs. J. B. Breathitt, made the trip from the mining town to the border arriving in Bisbee shortly after one yesterday morning.

The party made the trip in a Ford. Just after leaving Cananea the lights of the machine went bad. The party pushed on and found themselves between two camps of Calles soldiers. They were afraid to go on without lights, and yet were afraid to remain still. The women and children got out of the machine and went into an arroyo where they stayed about two hours.

Presently a freight wagon passed by and the driver informed them that he thought they could get to the Calles camp without difficulty and without being shot at. They got back into the machine and made the balance of the trip safely, until they reached a point near Naco.

Here a sentry or scout from the Naco garrison held them up and demanded they give him everything they had in the line of money and valuables. They told the soldier they were refugees and had nothing of any value. He declared he was going to search the passengers but after some persuasion allowed them to proceed after scrutinizing their passports.

MALDONADO GOES TO THE COUNTY SEAT

Accomplice in Murder of Walter Brooks Taken to Tombstone; Blithesome Evidence Unearthed By the "Sleuth".

Leandro Maldonado, the "ugly tempered brute", the "powerful fellow", and the "most brutal" murderer of Walter Brooks, suffered himself to be given a seat in an automobile, yesterday morning, and to be taken to Tombstone.

New evidence has been found by the sleuths of Review alley. It pertains to the alleged fact that Ramirez and Maldonado were armed to the teeth that they came from Mexico, loaded with mesquite, toquilla and artillery, as well as the ordinary accoutrements of the criminal Mexican—long, blood-hungry, crescent shaped, but sharp, knives.

The self-commissioned, prosecuting officers have also determined that Maldonado has been in no end of brawls, fights, arguments, mesquite parties and what not. It is quite remarkable that so much evidence in the Brooks case has been brought to light through such an extraneous source. It will be doubt prove startling to the accredited, prosecuting officers of the county when the two men are placed on trial. And, moreover, it will, undoubtedly, be the testimony on which Maldonado and Ramirez will suffer their heads to jerk at one end of a rope.

Detail is essential, even in murder cases. The local officers know of but \$200 in reward. Some of them wish that it were \$1,000. At the time of the commission of the crime the county offered a reward of \$200. Several days later the Copper Queen offered \$500, as a similar inducement.

A part of the reward, undoubtedly, will go to the American who was responsible for the connecting link between Ramirez, who was under arrest and suspected of the crime, and Leandro Maldonado. At the present time his name has not been made public and, in all probability, will not be unless his evidence is necessary to corroborate that of the "special" sleuths, who have worked, "hard", on the case, in each instance, after the first, and undented, version appeared to print.

Sheriff Wheeler is, no doubt, still sorry that he did not allow Maldonado to remain in Cananea, where, according to the information unscrubbed by "sleuths" he was alleged to have been on the verge of leaving for the state of Arizona at any time.

The facts still remain that Maldonado, to the best knowledge and belief of the officers who have worked every clue in the case and who are acquainted with his angles, has told a straight story. As far as his being a "powerful fellow" is concerned, it might be recalled that the murdered officer was far from being a well man, physically, at the time of the crime, as he had, shortly before, recovered from a very serious illness.

Maldonado's story fits with the circumstantial evidence and with that of the only witnesses to the crime, a woman and her small boy, who heard the shots and the cries from the south bank of the subway. That Maldonado and Ramirez used Brooks' own gun and rocks to kill the officer is proof positive, in the quill minds of many that they carried Rock Island arsenals on their persons, in addition to fortifications (Continued on Page Two.)

GREATEST LOAN IN HISTORY IS MADE

German Official Declares That Recent German Loan Was the Greatest in the History of the World's Finance.

BERLIN, Sept. 24.—The German war loan, raised September 21, was the largest financial operation in the world's history, said Doctor Karl Helfferich, Secretary of the Imperial Treasury, to the Associated Press. With a total of twelve billion marks, three billion dollars, and some small sums not reported, it exceeds Great Britain's last loan, which attracted the attention of all the world, as an unprecedented piece of financing.

The present loan enables the government to liquidate the treasury bills taken over by the Reichsbank and other banks; it provides Germany with the money for the winter campaign, and renders unnecessary the raising of another loan before March. It is asserted Germany is able financially to continue the war indefinitely. The people are earning more, and saving more than in peace times. The country is supplying its own needs.

RAIDERS LOOT BURN AND KILL ON BORDER

Protected By Fire From South Side of Rio Grande, Seventy of Eighty Mexican Raiders Escape to Their Own Country.

ONE CAVALRYMAN IS SHOT IN THE FIGHT

Raiders Loot and Burn Store in Progresso; Texas; Twelve Soldiers Chase Them to the River, Killing and Wounding Many

BROWNSVILLE, Sept. 24.—The firing of arms by several hundred Mexicans on the Mexican side of the Rio Grande to cover the retreat of seventy or eighty Mexicans who looted and set fire to a store in Progresso, Texas, was reported officially to Major Anderson of the Twelfth cavalry. Private Henry Stubbled of Brighton Gap, Va., was killed and Captain Anderson wounded in the arm by Mexicans at Progresso. Two Mexicans were killed. Tonight three detachments of troops from the Twelfth were stationed in the vicinity.

Two thousand shots are said to have been fired by Mexicans on the south side of the river while the others were escaping on the American side. About one thousand shots were fired by the Americans at the Mexicans as they crossed the Rio Grande which resulted in killing two Mexicans in a bust. Others are reported hit.

A Mexican band of seventy or eighty first attacked and looted a store at Progresso. The operations were in progress a detachment of Troop C, Twelfth cavalry, numbering twelve men, came to Progresso from the bank of the river where they spent the night.

Stubbled stepped on the porch of the store. As he did so two shots were fired from the interior of the building, both striking Stubbled in the body, killing him instantly. The soldiers were unaware of the presence of the Mexicans. The Mexicans immediately fled, leaving their loot.

They turned toward the river, the cavalrymen in pursuit. Both sides keeping up a steady fire. Four of the Americans' horses were shot from under them. Reinforcements were hurried from Donna Mercedes and Santa Maria. The Americans continued the pursuit until the Mexicans succeeded in crossing the river under the protection of fire from the southern side of the Rio Grande.

There was no further fighting during the day, according to a Fort Brown report. Hidalgo County authorities, including the Rangers and civil officers, hurried to Progresso from nearby towns and at noon called on Sheriff Vann of Brownsville for assistance. The Mexicans before leaving set fire to the store. This the soldiers extinguished.

An early report from General Finston, quoting Colonel Ballard at Hidalgo, said the "officers described the Mexican raiders as Carranza soldiers." Major Anderson's report only said some of the Mexicans were uniformed, but the territory across the river from Progresso is completely under Carranza control.
