

COUNTY AND STATE NEWS

REHEARING IS DENIED BY SUPREME COURT IN MURDER CASES

Full Hearing to Be Had in Callaghan Case; Drugged to Death By Heifer; Arrested for Not Obeying Order of Inspector.

PHOENIX—The supreme court has denied the motion for rehearing of the appeals of William Patton, Leonard and Tomlin, sentenced to hang for murder. Patton was sentenced for the murder of Carl Peterson here two years ago. Leonard and Tomlin killed Marshal Peterson of Mesa in November 1911. All three are to hang Nov. 26 at the state prison.

PHOENIX—The supreme court has continued the motion of the attorney general to dismiss the appeal of Auditor Callaghan in the appropriation case, and will hear the case in its merits. The court has asked both sides to file their briefs promptly, but it may be sixty days before the papers are filed and the case is heard.

MIAMI—To raise funds for the new Catholic Church to be built in Miami, a home talent musical and musical comedy entertainment will be given by local Catholics during Thanksgiving week. Elaborate plans are being made for the entertainment.

KINGMAN—For failure to comply with the order of State Mining Inspector Dolin that the door between the mines of the Tom Reed and United Eastern mines be unblocked, S. S. Jones, superintendent of the Tom Reed mine, has been held over to the superior court. The inspector ordered a lock taken off a door connecting the two properties underground workings. The company contends the inspector has no authority to make such an order.

PRESCOTT—Alleging that the company bought property interests in the Copper Chief mining claim to harass and annoy him and cast a cloud on his life, George W. Hall has filed suit in the superior court here against the United Verde Extension company. He asks that the defendants be barred from asserting any rights to the claim.

PRESCOTT—Thomas Fryer, 47, an old time resident of Yavapai county, was blown to atoms by an explosion of giant powder while working on the Larson claim near the Copper Chief. Parts of the body and the cabin in which he had been living were found by searching parties sent from here.

PHOENIX—In spite of the fact that last Saturday was "dry prevention day" there have been more fires in the state in the past two days than in any similar period in the state's history. Since Sunday morning there have been seven fires in Phoenix, three of them of serious proportions, while at Prescott a new record of three fires in two hours was set yesterday. Conflagrations at Globe, Casa Grande and Mascot and minor blazes at other points have been reported.

PHOENIX—John W. Vaughn, father of County Recorder Vaughn, was drugged to death at his ranch near here yesterday afternoon while attempting to rope an unruly heifer. The body was found in the corral badly mutilated some hours after his disappearance. It is believed that in trying to put a rope on the animal, one of the horns was caught in his clothes. He was 74 years old.

THATCHER—"FORAGE POISONING" in the opinion of Dr. W. E. Stern, state veterinarian, caused the death of eight of the nine horses owned by Myron Alfred near here. The disease which results in paralysis of the animals, and often causes death, occurs on forage after rain or heavy dews. Numerous cases are reported in other parts of the state.

SHORT STATE ITEMS FROM VARIOUS PLACES

Many mining locations are being filed in Yuma county.

The Normal school at Flagstaff has an enrollment of 247.

Tucson is to have a "Made-in-Tucson" city directory.

The Yuma section is organizing a winter baseball league.

A postoffice is to be established at Thomaville, Coconino county.

The Popular cafe at Globe has been destroyed by fire.

A baby show will be one of the big attractions at the northern Arizona fair.

A five-mile road is to be constructed from Flagstaff to Oak Creek canyon.

The price of milk in Tucson has been raised to twelve and a half cents per quart.

A large lion crossed the border from Mexico and killed two horses in the Gadsden district.

Tucson contractors insist that Tucson improvements of a municipal nature be made by Tucson citizens.

Spanish-American war veterans will organize a camp at Tucson.

George Martin is serving a twenty-day sentence in the Tucson jail for taking steel "knicks."

Fruit trees are in bloom in the Snowflake section and cabbage plants are advertised for sale in Yuma.

The ranch home of George Black, Jr., was destroyed by fire at Mill Park, Coconino county.

Meat slaughters in Tucson will be rigidly inspected by a representative from the city health department.

The drilling rig of the Salome company, operating in the Tonto basin, is in position and all ready to operate.

This week will go down in Tucson history as "dress-up and fashion week." Men as well as women "observed" the "order."

The contract has been let for the interstate bridge at Needles. It will connect the Old Trails route.

A new postoffice to be called Magna will be established at the station of Webster on the line of the Arizona Eastern out of Phoenix.

Judge Sawtelle has ordered that 800 sacks of wormy California beans, held in transit to the east, be burned.

Wellton and Yuma will join in a big celebration commemorating the completion of the Antelope bridge on Oct. 24. Senator Ashurst or Congressman Hayden will speak.

Tucson slogan committee is getting down to brass tacks. It has now reduced the long list submitted to those who "You can't come to Tucson too soon," and "For busted wealth, for busted health, Tucson."

The Winslow Mail's tip that Governor Hunt will run for congress to succeed Carl Hayden is not well founded. If Hunt is not "forced" to again run for governor, it can safely be concluded that he will try for Ashurst's seat in the senate.

A Globe man, bringing into the state a little peach brandy from El Paso for his personal consumption, was so badly frustrated when he saw an officer at the depot that he carefully placed his suitcase on the depot platform and hid behind the tall timber. He has not as yet been apprehended.

SUPREME COURT SETS DATES FOR HEARING OF APPEAL CASES

Cochise County Cases Are Set Down for Hearing; Brown Two Per Cent Case to Be Heard on October 16.

TOMBSTONE, Oct. 13.—Advices have been received here from Phoenix that at the calling of the calendar of the supreme court the following cases from Cochise county were set for trial:

O. Gibson vs. J. F. Duncan, set for Oct. 27. This case involves the question of title to lots in this city.

M. H. Merrill vs. Harry C. Wheeler, sheriff of Cochise county. An action for damages arising from the death of a horse that was seized by the sheriff's office in an action for debt. The horse died while in the possession of the sheriff. Case set for trial on Oct. 20th.

H. A. Morgan vs. James Barrett, involving the question of title to several mining claims in the Dragoon mountains, set for trial on Oct. 21st.

E. L. Slaughter vs. J. H. Slaughter, action for debt and foreclosure of mortgage, and H. L. Slaughter vs. the Bank of Bisbee, same action. Set for trial Nov. 4th. These actions were filed in the superior court of Cochise county by J. H. Slaughter and the Bank of Bisbee against H. L. Slaughter for debt and foreclosure, and in both actions the plaintiff secured judgment and the defendant appealed.

The only criminal appeal case set was that of the state vs. L. A. Brown, charged with a violation of the prohibition amendment. Brown, who conducted the Hermitage saloon in Bisbee after the law went into effect, sold a bottle of what was called "22 percent" and was arrested and tried in Tombstone and convicted and sentenced to pay a fine of \$25 and to serve a term of ten days in jail. The case will be heard by the supreme court on October 13th.

Papers Sent Up. Clerk of the Court Ed James has sent to the clerk of the supreme court the papers in the case of the state vs. James Hamilton, who was convicted of selling "Golden Ribbon," which was held by Judge McAllister to be a beer. The case will reach the question whether or not that beverage is an intoxicating beverage or not.

On Lookout for Mexican. The sheriff's office here has been advised to be on the watch for a Mexican named Pantaleon Garcia, who is alleged to have shot his wife in Miami. He is described as being 24 years old, five feet five inches in height, weighs 150 lbs., is a good dresser, and works as a hattermaker.

Trying Divorce Case. The attention of Judge Lockwood was taken up in the superior court today in the trial of the divorce case of Louis Rosatti vs. Marie Rosatti, both parties being residents of Douglas. The case is a contested one and involves considerable property. The testimony on both sides, and as there are a number of witnesses to be examined, the trial will no doubt not be concluded before tomorrow evening.

Over From Bisbee. Attorney S. K. Williams came over late this evening from Bisbee by auto in order to get out some attachment papers in the superior court. The nature of the attachment was not given out, but it is said to involve property in the Warren district. The law prevents the publication of suits for attachment until after the return has been made by the sheriff.

Here on Bank Business. Attorney Lyman Hayes and Lin Orme, of Phoenix, were in the city this evening on business connected with the reopening of the Spring Valley Bank of Wilcox, which was closed by State Bank Treasurer Callaghan a few months since.

Working Silver Mine. The Phelps-Dodge people have started work on the Silver Pinnacle mine, which is in the country where great hopes have been expressed that copper would sooner or later be found but the Phelps-Dodge people are working the property in the usual course of their systematic development of the camp. Work is now being prosecuted at the Oregon, where they are taking out fine manganese ore which is in feverish demand nowadays by the smelters. The new assay office is nearly completed. Work is going on satisfactorily all over the district and Tombstone today is on a stable working basis for the first time in years.

PUBLIC UTILITY EXPENSES. SAN FRANCISCO, Oct. 13.—The report to Gov. Johnson by the State Railroad Commission records as authorized by the commission in the last three and a half years' new construction of improvements and public utility expenditures of \$24,000,000. Altogether the value of stocks, bonds, notes and securities authorized by the commission aggregates \$468,000,000. The railroads had with an expenditure of \$102,000,000.

DOUGLAS LOOKS FOR BATTLE SOON ACROSS LINE IN AGUA PRIETA

Opposing Forces Getting Nearer; Shriners Are Bound Over to Superior Court.

DOUGLAS, Oct. 13.—It begins to look as though Douglas will have a chance to witness another battle between the opposing forces in Mexico within the next few days or the early part of next week. The Villa forces which yesterday were reported as having passed south of Columbus, New Mexico, were today south of Laguna Ranch in New Mexico, which is about fifty miles east of here. There are said to be about two thousand troops in this body composed principally of cavalry with a few small pieces of artillery and some machine guns. The road between here and Laguna Ranch is rather rough and it will take the troops two or three days to get within striking distance of Agua Prieta. Callas has a number of outposts in the vicinity of the Animas valley and the San Bernardino ranch and they will have to be driven back before the Villa troops can reach the city. Callas is calling in all of his men from the surrounding country and is preparing to make a determined defense in Agua Prieta. He now has nearly eight thousand troops within a radius of a few miles of the border.

21 Births. The report of Dr. W. A. Greene, city health officer, for September shows 21 births and 18 deaths. Health conditions were excellent in spite of the crowded condition of the city and influx of Mexican refugees. There were very few cases of dysentery and four cases of typhoid during the month.

On Warpath. Gottlieb Zoller will ask the city council at its next meeting to give him \$125, rental which he claims he lost because the city closed a house owned by him for 50 months. The building was closed when there was a case of smallpox in it, the rent being \$2 a month. Zoller threatens to sue unless the city officials show an inclination to meet him half way.

Brother Promoted. Col. John Hill, D. S. O., has been appointed by Lord Kitchener to command one of the new brigades at the Jordanias, being promoted to general. The information is contained in a letter received from him by his brother, Dr. W. P. Hill, veterinarian of the Sixth field artillery. Gen. Hill has been on the Flanders front and has been twice mentioned in dispatches for bravery in action.

Godsday Marries. Raymond Ingham, formerly a corporal in the Twenty-second infantry band, and now musical director of the James P. Lee Musical Comedy company, was married October 6 to Margaret Collins of this city, the ceremony taking place at Nogales. The couple will leave here for Tucson to spend their honeymoon and renew acquaintances there.

Boy Is Deported. Ramon Manzo, the 15-year-old Mexican boy who stole a bicycle from W. F. Goodsell last week, has been deported to Mexico. His case was put in the hands of Mrs. G. H. Hirst, deputy county probation officer, who made a thorough investigation and found the lad was in this country unlawfully. He was turned over to the immigration authorities for deportation. Officers say there is an organized band of boys who steal bicycles and exchange parts so as to avoid identification by the former owners. They are gradually breaking up the band.

Morrey Not Arrested. Although Mrs. Fred Morrey reiterated today her firm belief that her husband was responsible for the attempt to burn her dwelling and destroy her and her three children, police officers did not consider she had sufficient evidence to warrant an arrest.

Foster Bound Over. Lorenzo T. Yeckley, charged with assault with intent to commit murder on Captain Harry H. Berk, waived his preliminary examination yesterday before Justice of the Peace R. S. MacLay. He was bound over, with bond fixed at \$500. He has not furnished the bond and it is probable that he will be taken to Tombstone in the morning to await trial.

Ready for Shriners. All arrangements are completed for grand ceremonial of El Zartian Temple, Nobles of the Mystic Shrine, at Douglas October 18 and 19. The Hotel Gadsden will be the headquarters of the Shrine during the season. There will be sight-seeing tours on Sunday, Monday and Tuesday, leaving Douglas, the military camp, Agua Prieta and other points of interest. The ladies of the Copper City have arranged for special entertainment of the ladies accompanying the visiting Shriners. A Shrine hall to be given at the Gadsden on Tuesday evening will be the event of the evening from a social standpoint. A business session will be held on Monday at 3 o'clock and there will be a grand parade starting at 4:30 o'clock the same afternoon. The attractions planned are unprintable, hence they are not mentioned in the handsome pamphlet announcing the ceremonial.

Miners Worried. The embargo order will stop the shipment of dynamite and blasting powder into Sonora, it is believed, and consequently if it lasts long enough the big American mines in Sonora will be obliged to close for want of such material. Mining men believe, however, that the embargo is only temporary and that it will be lifted from Carranza territory as soon as Carranza is recognized.

SAFFORD—The Graham county chamber of commerce, an organization having for its object the finding of markets for the products of the upper Gila valley, has been organized here. George A. Foote is president of the organization and Joe Sullivan secretary.

SECRETARY M'ADOO OUTLINES THE USE FOR AUXILIARIES

In Speech Before Business Men He Tells of Plan of the Use for Naval Auxiliaries in Time of Peace.

INDIANAPOLIS, Ind., Oct. 13.—Outlines of the new administration shipping bill providing that United States naval auxiliaries for war be used in upbuilding foreign trade in times of peace, were made public in Secretary McAdoo's speech to business men here today. The plan which probably will be presented to congress at the coming session, proposes an appropriation of \$5,000,000 to be expended by the shipping board composed of the secretaries of the navy and commerce and three members to be selected by the president. This board will have power to incorporate and subscribe stock in the whole or part, and authority to vote stock belonging to the United States in the election of directors. The board will have authority to establish steamship lines where American trade needs accommodation.

BUT FOUR JURORS REMAIN IN BOX IN SCHMIDT TRIAL

Both Sides Exercise Preemptory Challenges and Eight Jurors Are Taken From the Panel; Call Made for More Jurors.

LOS ANGELES, Oct. 13.—The four jurors already sworn in were all that remained in the box at the adjournment today of the trial of Matthew Schmidt, charged with murder in connection with the dynamiting of the Times building. Eight others who were passed temporarily, were removed in the exercise of five preemptory challenges by the defense, and three by the prosecution. Judge Willis ordered eleven names drawn from another department of the superior court. Judge Futral for the defense demanded the records showing the manner of drawing the venire to be produced tomorrow.

James Noel, secretary of the superior court, was called to testify to the manner of drawing the venire. He said it was composed of names submitted by the judges of the various departments. During the morning session Futral protested on what he termed undue haste by the judge in excluding the name who said he was a day laborer, and expressed a positive opinion that a gas explosion destroyed the building. The defense pressed him but the prosecution challenged him. The defense had nine preemptory challenges and the prosecution six.

MANY IN BISBEE USE FAMOUS COMPOUND. The famous mixture of buckthorn bark, glycerine, etc., known as Adler-Lax, is much used here in Bisbee. This is the most complete bowel cleanser ever sold, being even used successfully in appendicitis. Just ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after Adler-Lax is taken the gasses rumble and pass out—THE INSTANT action is surprising. J. M. Ball, druggist.

The Lowell Drug Co., at Lowell, reports great success there. —Adv.

Secretary of Tax Payers Association IS MAKING REPORT

Examination of the Reports and Accounts of City Officials for the Past Year Being Made for Tax Payers' Association.

J. H. Galnes, secretary of the Coping County Taxpayers' Association, is at work making an examination of the reports and accounts of the various officers of the city of Bisbee with a view of making a report on the same to that body. The amount of the revenue received and the sources from which it was derived, together with the expenditures for the past year he arranged in tabulated form for the association and the amount of its assessed valuation and the rate and collection of taxes will also be given into. Mr. Galnes expects to send considerable time here in gathering the data that he deems necessary to make his report on.

Secretary of Tax Payers Association IS MAKING REPORT

Examination of the Reports and Accounts of City Officials for the Past Year Being Made for Tax Payers' Association.

J. H. Galnes, secretary of the Coping County Taxpayers' Association, is at work making an examination of the reports and accounts of the various officers of the city of Bisbee with a view of making a report on the same to that body. The amount of the revenue received and the sources from which it was derived, together with the expenditures for the past year he arranged in tabulated form for the association and the amount of its assessed valuation and the rate and collection of taxes will also be given into. Mr. Galnes expects to send considerable time here in gathering the data that he deems necessary to make his report on.

The association does not believe that there has been anything wrong with the city administration, but some of the members of the association desired that an examination be made of the city's affairs and a report made to that body, so that it could be placed on file with the other records of that institution.

Convicted to gambling in Globe, J. B. Cresswell and Carl Mohler were fined \$150 each and sentenced to serve thirty days in jail.

Hot Water

WHY CARRY IT?

Why not draw your hot water supply from the faucet direct, just as you do the cold?

A Gas Water Heater Makes This Possible

Gas water heaters are made in two styles; one which automatically turns on the gas and lights it, the other which must be hand lighted. The latter works on the same principle as the water back in a coal range. Both are connected in our stock room and can be shown in operation.
