INDIAN SCOUTS FROM ARIZONA TO BE ADDED TO PERSHING'S MEN

Apache Indians, Who Were Followed by American General Years Ago in Mexico, Now Lead His Columns.

(By Review Leased Wire) WASHINGTON, March 28.—A dozen Indian chiefs from Arizona are to be enlisted as guides and scouts for the American columns in Mexico. Maj. General Funston has asked for the services of the warriors and Maj. General Scott, chief of staff, today authorized their employment. The Indian chiefs are familiar with the Mexican country through which the American troops are pursuing Villa.

SAN FRANCISCO, March 28.—Gen. Pershing, as a young lieutenant just out of West Point, fought against the very men who are now to lead him over the same trails he pursued them at that time. It was in campaigning against Geronimo's band that General Pershing first learned the ways of Indians and guerrilla warfare. He was assigned in 1886, a few months after his graduation from West Point, as a second lieutenant in the Sixth Cavalry, then engaged in the Indian campaign in the southwest. He was there for several years and saw evidence of the distinction to come later when he applied the lessons he learned fighting the Indians to his tasks in the Philippines.

SELECTING SCOUTS. SAN ANTONIO, March 28.—Twenty Apache Indians, scouts for service with Gen. Pershing's forces in Mexico will be selected by Captain Hazzard, commander at Fort Apache, in Northern Arizona. General Funston sent to him tonight instructions to choose those willing to volunteer and to prepare them for immediate dispatch to Gen. Pershing's headquarters. General Pershing suggested using the Indians and requested that he be sent twenty.

TIGER RECRUITS LOSE. CORSIKANA, Tex., March 28.—Houston defeated the Detroit American recruits, sprinkled with regulars. Score Houston 3, Detroit 2.

G. O. P. CHAIRMAN EITHER KNOX OR HARDING, BELIEF

Philander C. Knox (top) and Warren G. Harding.

Although the G. O. P. convention subcommittee adjourned at Chicago a few days ago without making announcement of the composer of the keynote for the 1916 campaign, a persistent rumor is in circulation that the temporary chairman is to be either Senator Warren G. Harding, of Ohio, or Philander C. Knox, of Pennsylvania.

BURNS HOUSE WISHING TO ESCAPE TROUBLE

Cleveland Waitress Resorts to Arson in Order to Escape Being Made a Victim of White Slavers.

CLEVELAND, March 28.—As a result of the statement of Beale Reimers, 19, a waitress, that driven by fear she would be forced into white slavery, she set fire to the Foster apartments, this morning, causing the death of two persons and injury to 18, the girl was arrested today on the charge of manslaughter and arson.

George Hanson, a waiter, and Geo. Bauman, were also arrested on the charge of being implicated persons, pending a further investigation.

In her signed confession the girl said she was driven by desperation by Hanson and his associates, who she said wanted her to become a white slave. Fear of a police raid on the Foster apartments last week, in which she was innocently involved, she lost her position as waitress and in her confusion she declared she sought death as a means of evading Hanson and his temptations.

The girl admitted that in an effort to commit suicide she leaped on two men jets without hitting them, bound her ankles and gazed herself and then waited for death. A small stove was lighted and this ignited the gas and started the fatal fire she says.

ENGLAND IS VISITED BY TERRIBLE STORMS

(By Review Leased Wire) LONDON, March 28.—Great Britain during the past forty-eight hours has experienced the worst hurricane and blizzard in the recollection of the present generation.

Details of devastation and destruction are coming in from London from various sources but communication is too disrupted to permit of any exact knowledge of conditions outside. Trains have been held up for hours in the drifted snow; houses have been unroofed and trees and telegraph poles blown down—this is the oft repeated story from many corners of the country, particularly the northern counties and Wales.

The greatest fury of the blizzard appears to have visited the midlands. The most remarkable feature of the weather in London was the rapidity of its changes—brilliant sunshine, bitter cold winds from various quarters and blizzards of hail and snow which were followed almost immediately by a pelting rain. London this morning is covered with the worst slush in many years.

At about the Wales colliers has been heavily snowed.

Lord Mansfield Viscount French, commander in chief of the army in the United Kingdom, on his way to review the troops at Doncaster, became snowed out and had to stop at a country village for a day.

London and Birmingham experienced more severe weather than elsewhere. Birmingham was cut off from communication with fifty nearby towns. The casualties reported thus far consist of only two deaths and a score of persons seriously injured.

BET SUGAR PEOPLE NEED LARGE TARIFF

(By Review Leased Wire) WASHINGTON, March 28.—Tariff protection is necessary to enable about half of the best sugar producers of the United States to compete with Cuban cane sugar in the opinion of the federal trade commission, which now will issue a report on its investigation of the beet sugar industry. The other half of the commission will say, needs no tariff aid.

The commission's investigation has been a study of actual physical and financial conditions of the industry. Beet growers so hampered by natural conditions that they cannot compete with Cuban producers without tariff protection can do so, the report will say under a tariff of one-third of one half a cent a pound. The present rate on sugar is one cent which under the tariff law will be taken off May 31, 1916. House sponsors have voted to extend the tariff and the question is now before the Senate.

BRITISH GOVERNMENT ATTACKED IN COMMONS

(By Review Leased Wire) LONDON, March 28.—The government was again attacked in the House of Commons tonight on the inefficiency of the British aircraft and defense forces. Speaking by Noel Pemberton-Billing, recently elected a member on the committee of progress and defense and other members who accused the ministers of parsimony and neglect of duty.

Harold J. Tennant, secretary of the War Office, made conciliatory answers to these charges and assured Mr. Pemberton-Billing that he was wholly misinformed as to the charges of ignorance and intrigue and with respect to acts attributed to faulty machines. He promised that a small technical body would be appointed to investigate and report to Parliament.

Mr. Tennant admitted that at present a majority of the German aircraft planes were probably better than a majority of the British. The War Office, he said, had not abandoned hope of dealing successfully with Zeppelin raids, in fact, their hope was higher than ever before.

TRIANGLE-KEYSTONE FEATURED AT ROYAL

Raymond Hitchcock and Mabel Normand Introduce a Wonderful Comedy to Bisbee.

A juddulous mingling of the ridiculous and the serious was the order of things at the Royal Theatre yesterday. The comic element was supplied by Raymond Hitchcock and Mabel Normand in "My Valet", which may be described as a strenuous program, while the serious side of life was to be seen in full measure in the eighth chapter of "The Girl and the Flame" with Helen Holmes as the center of interest. From yesterday's bill and that of the day before it is clear that the success of the Triangle company's films are assured, and Manager Rocco states that all the films for which he has contracted with this celebrated film release will be of the same remarkable kind, the Triangle company desires in feature events only, and knowing no such word as second-rate.

Today's program at the Royal is another ten-strike as no less a favorite than Marmaduke Clarke is to be seen in the play of which so much has lately been heard, "Still Waters". A pretty love story is woven onto this photoplay, one which will give the charming little actress who fills the chief role ample opportunity of displaying her many talents. In addition to this the play deals largely with stress life, and lovers of animals will enjoy intimate glimpses into the lives of denizens of field and forest. On Thursday another Triangle film will be shown at the Royal, when Dustin and Enid Markey will be seen in "The Iron Strain".

BRITISH STEAMER SUNK. LONDON, March 28.—The British steamer Eagle Point has been sunk, according to Lloyd's. The crew was saved. The Eagle Point was a vessel of 5,222 tons gross.
