BATTLE TIDE TURNS AT LAST TO ALLIES

David Lloyd-George Avers:
"We Have Crossed The
Watershed And Victory Is
Beginning To Flow"

ALLIES EQUIPMENT GROWS ENORMOUSLY

Output Will Be Trebled In
Near Future, However.
Russian, French And Brit-
ish Munitions Men Confer

(By Review Leased Wire.)
LONDON, July 13.—David Lloyd-George, British minister of war, presiding today at an Entente allied conference on equipment, declared that the combined offensive of the allies had wrenched the initiative from the Germans, never, he trusted, to return.

"We have crossed the watershed," he said, "and now victory is beginning to flow in our direction. This change is due to the improvement in our equipment."

The conference was held at the war office and was participated in by the French minister of munitions, General Bellefleur, assistant minister of war of Russia, General A. Raif'olo, member of the Italian ministry of war and the new British minister of munitions, Edwin S. Montague.

"Since our last conference," said Mr. Lloyd-George, "there has been a considerable change in the fortunes of the allies. On the date the Great Champagne offensive on the west had just failed to attain its objective and the French and British armies had sustained heavy losses without the achievement of any particular success. In the east the enemy had pressed the gallant armies of Russia back some miles, and the Balkans had been over run by the Central Powers."

"The overwhelming victories won by the valiant soldiers of Russia struck terror into the heart of our foes and those, coupled with the defense by our French comrades, and the brave resistance of the Italians against overwhelming odds in the southern Alps have changed the whole complexion of the landscape."

"Now, the combined offensive in the east and west has wrenched the initiative out of the hands of the enemy—never, I trust, to return to his grasp. We have crossed the watershed and now victory is beginning to flow in our direction."

Equipment Responsible.
"Why have our prospects improved? The answer is, the equipment of our armies has improved enormously and is continuing to improve the British navy until recently has observed more than half the metal workers of the country. The task of building new ships and repairing the old ones for the gigantic navy and fitting and equipping them, occupied the energies of a million men. Most of our new factories now are complete, most of the machinery has been set up. Hundreds of thousands of men and women, hitherto unaccustomed to metal and chemical work have been trained for munitions making."

Output to Treble.
"Every month we are turning out hundreds of guns and howitzers, light, medium and heavy. Our heavy guns are rolling in at a great rate and we are turning out nearly twice as many munitions in a single week and nearly three times as many heavy shells as we first did. The new factories and works we set up have not yet attained one third their full capacity but their output is now increasing with great rapidity. Our main difficulty in organization, construction, equipment, labor supply and readjustment have been solved. If employers and workers keep at it with the same zeal and assiduity as they have hitherto employed our supplies will soon be overwhelming."

"I cannot help thinking that the improvement in the Russian ammunition has been one of the greatest and most unpleasant surprises the enemy has sustained. Still our task is but half accomplished. Every great battle furnishes additional proof that this is a war of equipment. More ammunition means more victories and fewer casualties."

BLISS ON BORDER.

SAN ANTONIO, July 13.—General Tasker H. Bliss, assistant chief of staff, arrived here tonight. He was met by General Funston and taken to his quarters where the two conferred until late regarding troop dispositions and the state of the national guard.

General Bliss will make a careful inspection of the camps where guardsmen are concentrated, going to Brownsville in a few days. He was accompanied here by Lieutenant Colonel McNair who has been made a brigadier general of the New York national guard, and Major Dennis Noland.

General Bliss denied that he would superintend the organization of tactical units, adding "that all belongs to General Funston."

MATERIAL THINGS PRONOUNCED DROSS

Chief Executive Gives Uplifters
Of Aliens Advice On
Turning Out Finished Amer-
ican Product

(By Review Leased Wire.)
WASHINGTON, July 13.—President Wilson in an address here today again denounced as disloyal and added a warning to notice apart in spirit and organization to seek some special object of their "It takes a great deal more steady Americans that they can not be good citizens unless they themselves are imbued with the principles of Americanism."

The president spoke before a meeting of those interested in the education of aliens, being held under the auspices of the naturalization bureau. He dwelt at length on the problem of instructing new citizens, but declared that after all the prime necessity in such instruction was a realization of the significance of the Americanism of the instructors.

"Unless we are true Americans," he said, "we cannot infect them with the spirit of Americanism! unless we ourselves illustrate the ideas of justice and freedom we can teach nothing to those who come to us."

"No foreign nation was mentioned specifically by the president. He declared the process of Americanization must be such a process as will instill a steadfastness to principle and a willingness to represent ideal things rather than material things.

"It takes a great deal more steadfastness to represent ideal things than to represent anything else," he continued. "It is easy to lose your temper and hard to keep it. It is easy to strike and sometimes very difficult to refrain from striking."

The government particularly, he said should be so maintained that immigrants could look at it with closest scrutiny and not find it wanting in any particular.

GOVERNMENT WITHDRAWS 40 MILLION DOLLARS

(By Review Leased Wire.)
WASHINGTON, July 13.—Withdrawal of \$40,000,000 of the treasury deposits in the federal reserve banks was ordered today by Secretary McAdoo. Treasury officials said the action was in the usual course of business, the enormous total of the withdrawal being due to the fact that heavy deposits made by internal revenue collectors in the closing days of the fiscal year had brought the treasury's balance in the banks to well above \$100,000,000. Part of the \$40,000,000 will be taken from each of the 12 banks.

FRENCH FRONT QUIET.

PARIS, July 13.—The official communication issued by the war office tonight reads:

"Except for a somewhat spirited bombardment in the sector of Souville on the right bank of the Meuse, there is no event of importance to report on the front."

KOVEL AND LEMBERG IMMEDIATE OBJECTIVES OF RUSS DRIVE

Arrows indicate present position and direction of movement of Russian armies.

The Russians report great victories against the Austrians in Galicia and the Germans in Russia. The immediate objectives of the present Russian drive are the cities of Lemberg, in Galicia, and Kovel in Russia.

FIVE KILLED IN MEXICANS STOP EXPLOSION IN NEW JERSEY

Scores Injured When Nitro-
glycerine "Goes Up" At
Haskell Plant Of Dupont
Powder Company

(By Review Leased Wire.)
HASKELL, N. J., July 13.—Four men were killed, one is missing and more than a score others were more or less seriously injured by an explosion of 600 pounds of nitroglycerine in the mixing house of the Dupont Powder Plant here about noon today. None of the injured is expected to die.

The explosion in the mixing room was followed by another in a building nearby which was used for drying smokeless powder. Many of the men hurt were working in the drying room.

NEW YORK, July 13.—Five bodies had been recovered from the ruins tonight and it was believed by the searchers that the death list will not be increased.

KENT HEADS WILSON CLUB.

(By Review Leased Wire.)
NEW YORK, July 13.—Representative Kent, California independent, was elected chairman of the Woodrow Wilson Independent League at a meeting of the organization committee here today. Norman Haggood was chosen vice chairman. It was announced that enrollments have been obtained in 32 states from various political parties and that the league will work in harmony with other organizations throughout the country.

Sharks Terrorize Bathing Multitudes Along Atlantic; Hardships of War Drive Man-Eaters off Path, is Claim

(By Review Leased Wire.)
NEW YORK, July 13.—Armed shark hunters in motor boats patrolled the New York and New Jersey coasts today while others lined the beaches in a concerted effort to exterminate the man-eaters which have moved north from their customary haunts, apparently in large numbers. The village authorities of Matawan, N. J., offered a reward of \$100 for every shark brought in dead or alive.

The belief that a single shark was responsible for the killing of four swimmers in New Jersey waters within the last two weeks, two of them yesterday in Matawan Creek, a shallow inlet 16 miles from the open sea, has been dispelled by persons who actually have seen a half dozen or more of the monsters. One theory is that sharks which formerly fed on

and other New Jersey resorts wire for the war began, now have become nervous. Even those not ordinarily classed as man-eaters, it is said, probably have been driven by starvation to lurk in the waters of the Atlantic coast, warm at this season, and attack human beings.

Three of the huge fishes were seen today in Matawan Creek and now are believed to be bottled up there. Nets have been stretched under a bridge about a mile and a half from the mouth of the inlet to prevent egress into Raritan Bay. A British steamer from Bermuda was reported today to have killed a score of sharks during the voyage, one of them off the New Jersey coast.

Terror has seized the multitudes who have bathed at beaches along the New York and New Jersey coast and comparatively few persons now venture into the water. At Ashbury Park

LEAVES NURSE HANDSOME DOWRY

DOUGLAS, July 13.—Grateful for the care given her husband during his last illness, several years ago, by Miss Eunice Wingo, a trained nurse, now a resident of Phoenix, Mrs. Harry E. Kirk made the nurse a beneficiary under her will to the extent of fifty thousand dollars and possibly more. The will was read last week a few days after Mrs. Kirk's death, but its terms did not become known until today.

Miss Wingo is heir to part of the widow's estate, the other passing to a brother-in-law, J. W. Kirk, who lives near Los Angeles. Mrs. Kirk's sisters will receive a few personal effects as mementos.

TITANIC CLASH RAGING ON EASTERN FRONT

Great Masses Of Reinforce-
ments Hurling Into Death
Struggle Along Whole Line
By Both Sides

RUSSIANS REPORTED CHECKED AT STOKOD

Austrian Line However, Pen-
etrated At Several Points
And 2000 Prisoners Are
Reported Captured

(By Review Leased Wire.)
LONDON, July 13.—The most violent fighting in the great entente allied offensive is on the eastern front where General Brussiloff's tremendous blows are being continued without apparent lull or hesitation. Temporarily at least the Austro-Germans appear to have halted the Russian advance along the Stokhod. Both sides are reported to be hurrying huge reinforcements of men and guns into this titanic struggle, the prize of which is the immensely important strategic town of Kovel.

Austrian Line Cut.
Further to the south a battle of almost equal intensity is raging on the lower Stripa where the Russians are striking north in an effort to crush von Bothmer and flank the entire Austro-German line. The Austrians admit that the Russians penetrated von Bothmer's front at some points but assert they were driven out against counter attacks. The Russians claim to have taken 2,000 prisoners but make no mention of a gain in territory.

The British have held their gains on their portion of the Somme front and the usual period of construction and the pushing forward of the big artillery is presumed to be taking place. A similar situation exists on the French line and a remarkably brief French official statement tonight simply records the continuance of the bombardment at Port Souville in the Verdun region.

Allies' Munitions Ample.
Premier Asquith speaking in the House of Commons declared that British supplies of munitions was ample and that the Franco-British offensive was merely at its beginning.

BANDITS ABSENT FROM SAN SIMON.

(By Review Leased Wire.)
COLUMBUS, N. M., July 13.—Detachments of cavalry patrolling the border in the San Simon district near the Arizona-New Mexico border reported tonight that they had been unable to verify reports that Mexican bandits are operating just south of the frontier in that district. However troops from both the Arizona and New Mexico border patrols are being maintained in the district.

BRITISH BLOCKED NEAR KUT EL AMARA.

(By Review Leased Wire.)
LONDON, July 13.—The British expedition in Mesopotamia is still at Fannayyat, about 15 miles below Kut-el-Amara on the Tigris, according to an official statement issued today. The statement says that the British forces have been subjected to an ineffectual artillery attack.

MANY AIRSHIP FREIGHTERS BUILDING

Thousands Admire Undersea
Craft At Baltimore. Am-
bassador Bernstorff Raves
Over Invention

(By Review Leased Wire.)
BALTIMORE, July 13.—Officials of this city after a visit to the German submarine Deutschland today quipped its commander as saying that Zeppelin airship freighters are being built in Germany for Trans Atlantic service. "To you" Captain Koenig was quoted as saying, "the trip of the Deutschland is a great achievement. You must not be too enthusiastic over it, for a bigger surprise is coming. A great Zeppelin airship, maybe several are building in Germany. In the not far distant future one or more of them sail toward the United States. Just as sure as the Deutschland came to America so will the Zeppelins come."

BALTIMORE, July 13.—Count von Bernstorff, the German ambassador spent an hour aboard the German submarine merchantman Deutschland today. He inspected the vessel from stem to stern had the intricate machinery and instruments aboard explained to him personally congratulated Captain Koenig upon bringing his vessel safely to America through waters infested with hostile warcraft.

Two attaches of the German embassy, the German and Austrian consuls in Baltimore and Mayor Preston accompanied the ambassador on his visit to the submarine. The intense heat inside the hull of the vessel, generated by sun-rays beating on the deck and sides, prevented the party from remaining aboard longer than an hour.

Private Papers Sent Back.
The ambassador informed Captain Koenig that he would send to him before the Deutschland starts on her return voyage several packets of official papers which he desires to have delivered intact to the Berlin foreign office. Some of these documents embassy officials have been reluctant to trust in the regular mails because it was considered likely they would fall into the hands of British censors. The ambassador was enthusiastic as he emerged from the conning tower of the Deutschland.

Says It's Wonderful.
"It is a wonderful boat and with as courageous crew as ever sailed the sea, has made a wonderful voyage," said he. "I climbed up and down every hatchway, looked into every compartment and had my first experience with a periscope."

"Captain Koenig did not tell me just when he expects to leave for Germany but I presume it will be soon after he has his return cargo aboard. He is in complete charge of the vessel. His craft is a private one; just as much so as any North German Lloyd liner. My visit was entirely unofficial."

Koenig Toasted.
The ambassador arrived in Baltimore this afternoon from New York. Prior to visiting the submarine he attended a luncheon at the Germania Club, given in honor of Captain Koenig. Tonight he was present at a dinner given by Mayor Preston to the commander of the submarine. He made reservations on a late train for New York.

Reload With Rubber.
The Deutschland having discharged her cargo, is undergoing some minor repairs, which are being made by members of the crew. A barge has been moored alongside the vessel and on it a miniature machine shop has been set up. Three machinists from the Deutschland work all day. Their task seemed to have been completed tonight and the work of load-

(Continued on Page Two.)
