STUDEBAKER LEADS IN COMMERCIAL CAR OUTPUT FOR SEASON

Bisbee Auto Company Makes Public Some Figures Showing the Production of Big Plant in Detroit, Michigan.

According to official figures showing the production of commercial cars during the first six months of 1916, the Studebaker Corporation led all manufacturers.

The record established by the Studebaker Corporation is all the more noteworthy in view of the comparatively short time the corporation has been engaged in the commercial car industry. It is only within the past two years that this concern has built commercial cars on a quantity production basis.

Up to eight months ago, the Studebaker line of trucks was limited to half-ton models. Since then a line of one-ton models was added. At present the various types of Studebakers range from \$850 to \$1400 in price. The styles of bodies for the half-ton cars include the open express, the panel delivery, and the station and business wagon. The one-ton trucks include the open express, the stake body, and the 16-passenger bus type.

"In selling Studebaker commercial cars, we have found that the market is by no means restricted to a few large cities," says Henry T. Myers, commercial car sales manager. "The smaller cities and towns, those of 25,000 population and less, offer possibilities which are just beginning to be fully realized. There is a great field on such centers."

One of the features of the present Studebaker models is that they are equipped with electric starter, electric lights, speedometer and other features. All the models are noted for their attractive lines and high quality body finish. Attention has been paid, also, to the comfort and convenience of the driver, everything necessary for the operation of the trucks being within easy reach of the operator and arranged in simple fashion.

UP FROM DOUGLAS.

Dr. F. C. Bledsoe, of the Ford agency in Bisbee and Douglas, was a visitor from Douglas yesterday for a short business visit. He says that the sale of Fords is not worrying him because he has many applications for cars which he cannot fill because his shipment of cars from the factory has been delayed.

BABY SON DIES.

Cecil, the eleven months old son of John and Mrs. Trevasik, of Laundry Hill, died yesterday evening. The baby's funeral will be held from the residence of the parents at 2:30 o'clock this afternoon. The Rev. Dr. Harshman of the Methodist church will have charge of the services.

90 DAY FLOATER.

May and Anna Johnson were arraigned before Police Judge Frank Thomas yesterday, charged with vagrancy and given a \$90 fine with six hours to go out and get it.

RHEUMATISM CLAIMS VICTIM.

John Edwin, the twelve year old son of J. H. and Mrs. King of Don Luis, died yesterday evening at 7:25 o'clock of rheumatism. The family came here three and one half years ago and made their home in Don Luis. The arrangements for the funeral have not yet been completed.

WANT WARNING BELL.

The Warren District Commercial Club has taken up with officials of the El Paso & Southwestern the matter of placing a warning bell at the crossing of the road at Don Luis. Several near accidents have occurred at the crossing of late and it is hoped that the actions of the club will meet with an immediate response by the railroad officials.
