Styleplus \$17 Clothes

"The same price the world over."

NEW FALL STYLES

No Matter What Happens, the price always is \$17.

Since the European war started, prices have been on the rampage. You can count on your hand the necessities whose prices you know to be the same today as two years ago.

Styleplus Clothes \$17 are an American institution and they are true to their trust.

The makers made a pledge to the American public—namely, to make clothes whose style and quality would be a revelation—and the price was to be \$17 the nation over.

The war came on. But the popularity of Styleplus had grown so fast that their lower manufacturing cost, as a result of the volume, has enabled the makers to put out these guaranteed clothes at the same old price, \$17.
