This marvel of convenience has places for 400 articles, all within arm's reach. But it's more than a centralized store-house. The Hoosier is an automatic servant with 40 labor-saving inventions—each like a helping hand! Some cabinets have copied a few of them, but 17 of these Hoosier features can't be found in all other cabinets combined. Into the Hoosier are built the pick of the ways for saving work that the leading Domestic Science Experts have discovered.

— The picture above shows the section of your cabinet that is most important—the part that makes it a real helper. Storage space is above and below; the articles most often used are placed where they are easiest reached. There is plenty of unhampered room above and around the aluminum (or porcelain) work-table.

There are no useless little partitions to chop up the space and leave no room for work. Your cabinet must have big table space to work on. The Hoosier gives it.

— And regardless of the room in your kitchen, there's a special Hoosier model to fit, at a price you can easily afford.
