COERCION OF VOTERS IN OHIO IS EXPOSED

Federal Agent Warns Employers Against Intimidating Workmen—Conspiracy To Affect Thousands of Laborers.

INDIANA AND ILLINOIS EMPLOYERS ALSO IN IT

Indiana Factory Boss Attempts to Drive Workers Into Repugnant Political Club—Several Such Cases Aired.

(By Review Leased Wire.) INDIANAPOLIS, Nov. 1.—Frank C. Dalley, special assistant U. S. Attorney, appointed to prosecute alleged election law violations in Ohio, Illinois and Indiana, issued a warning to men "who have engaged in arrangements to threaten and intimidate employees in the matter of voting for federal officers without knowledge that their acts constitute a violation of the federal laws."

The statement in part follows: "Bosses Bully Voters Numerous reports have been made of conspiracies to threaten and intimidate employees into voting as the employer wishes. It is claimed that, for the purpose of intimidating a certain factory in Indiana has caused letters to be written to employees notifying them to join a particular political club and to sign their names as members thereof; in another instance that certain employees will refuse to permit men who wish to vote for a particular candidate to have the privilege of a few hours off to vote, but if they wish to vote the employer's choice, they may have the time."

"It is further reported that one plant in northern Indiana has informed employees that, if selected on election boards by a certain party, they shall have the privilege of serving, but if selected by another party they are forbidden."

Criminal Offense "Without attempting to state what facts do or do not constitute threats and intimidation, the law is plain that if men conspire to prevent an employee from exercising the free privilege of voting for whom he pleases for federal officers, it is a direct violation of the criminal code."

Other Graft Suspected The investigation is confined to threats and intimidations, but extends to all violations of which the United States takes cognizance. Agents have been assigned to investigate reports of fraudulent registration, colonization of voters, the use of money and the corruption of election boards.

COMMUNICATION TO CHIHUAHUA CITY AGAIN RESTORED

EL PASO, Nov. 1.—Telegraphic communication between Juarez and Chihuahua City was resumed late today after being suspended since yesterday General Francisco Gonzales announced in Juarez after receiving a brief message from the state capital Chihuahua City had been completely isolated since yesterday by the cutting of the railroad and telegraph company lines south, west and north of that city by bandits supposed to be operating under the direction of Francisco Villa. Two bridges were burned yesterday by the bandits between Gallego, 123 miles south of the border, and Lagunas, 20 miles south of Gallego.

These bridges had not been repaired when the message was sent from Chihuahua City to General Gonzales, but train service is expected to be resumed tomorrow between the border and the state capital.

FORD'S SON MARRIES

DETROIT, Nov. 1.—Edzel Ford, only son of Henry Ford, was married here tonight to Miss Eleanor Clay, a niece of the late Jos. L. Hudson, millionaire dry goods merchant. The marriage took place at the home of the bride.

U. S. Not Afraid To Fight President Tells Buffalo; Says Courts Must Change

(By Review Leased Wire) BUFFALO, N. Y., Nov. 1.—President Wilson in his first appearance in New York state since the campaign opened, declared tonight that the United States is not afraid to fight and is not disciplined to fight for the objects for which it was founded. He opposed sectionalism and said the desirability of peace and war should not be used for partisan advantage. The Adanson law he said was one of the greatest pieces of legislation.

A political demonstration was staged tonight during the President's ride from his hotel to the hall. In the automobile he proceeded along streets lighted by flaring red lights. A band played martial music. The sidewalks were lined with people. The hall was packed. As the President arrived at the hall the people stood waving flags and cheering.

"I want to discuss some of the permanent interests of the nation," began the President. "While we talk of the things of today we must think of the things of tomorrow and of the day after tomorrow. One thing that worries thoughtful citizens is the tendencies toward class feeling."

People in the galleries cheered. "It is not characteristic of this nation that the people should divide themselves into classes," he went on. "We all have the same hearts under our jackets."

"This is one of the most composite nations of the world. We are drawn from every stock. Therefore there is no nation better called to see that there is no division in the mass of humanity."

"You have got to bind a nation together by feeling—by heart beats. It is by the intricate interweaving of strings of the heart that a nation is to be bound together."

"The one thing I don't want men to do is to abate their love for America. It is remarkable how grateful the skilled workers of this country are when you do them mere justice," the President said.

Hughes Says Adanson Bill Is a Gold Brick to Labor

(By Review Leased Wire) TERRE HAUTE, Ind., Nov. 1.—Charles E. Hughes, speaking before an audience that crowded every available foot of the big wigwam tent here tonight, declared while he understood that union labor had been told officially to vote against him, he knew that nobody could direct or control the labor vote and that it would be cast according to its sober judgment.

TERRE HAUTE, Ind., Nov. 1.—Charles E. Hughes wound up his campaign in the middle west with a speech here tonight and left shortly afterward for points in New York, the last state in which he will appear before election.

Mr. Hughes made five speeches today in which he outlined policies he intends to follow if elected. He attacked the administration for the enactment of the Underwood tariff and the Adanson law, and expressed the belief that he would win. He spoke tonight before an audience after reviewing a torch light parade. Just before his departure the nominee issued the following statement:

"I am leaving Indiana after what is perhaps the most wonderful reception ever given a candidate for the presidency. This splendid tribute was not to me personally but as the representative of the great united Republican party moving forward to victory and to service for the nation. Men of Indiana have organized the people's victory and I want to thank the leaders of the reunited Republican party for their effective work."

Prophesies Soup Houses "We had soup houses and bread lines twenty months ago," he told his audience at Linton, "and we will have them again if we do not protect American industry and if we attempt to carry on the business of this country on the policy indicated in the Underwood bill."

In his speech here tonight Mr. Hughes discussed the Adanson bill at length.

Adamson Law Treacherous "I am informed that the general chairman has advised the local chairman of the Brotherhood of Locomotive Engineers and Firemen, of the

JUNCTION MACHINE MAN SHOT; DISGRUNTLED HELPER FLEES

While the officers of the Warren District and county are searching in every nook and corner for one Beo Jelo, John Mahan is in a serious condition at the Calumet & Arizona hospital, as a result of a shot through the hip, early yesterday morning, which is supposed to have penetrated the bladder, fired by the hunted man.

Jelo, who is either a Slavonian or a Finn, was mucking for Mahan in the Junction. Both were on night shift and Mahan, for some reason, censured Jelo while at work. Mahan was operating a machine. According to Mahan, he noticed that Jelo was following him when he started home.

When he reached a point near the Branson Block, in Johnson Addition, Jelo opened fire at Mahan, one or more of the bullets from what is supposed to have been an automatic revolver, taking effect. Jelo fled.

When the officers were acquainted with the case the object of their search had entirely disappeared. At a late hour last night, in spite of all efforts the rooming house of the man had not been determined. An accurate description has been obtained, however, and this has been sent broadcast. It is currently thought that he is in hiding at some point in the District. Every outgoing train is being watched and close tab is being kept on the automobiles coming into and going out of the community.

MARINA WAS ARMED WHEN SUNK BY "SUB"

Many Complicated Issues Rise Out of Sinking of British Merchantman With Loss of Six Americans.

REPORTED TO HAVE 4-INCH GUN ABOARD

Also Reported Engaged in Admiralty Work Recently—Lansing Says U. S. Will Hold Germany to Promises.

(By Review Leased Wire) WASHINGTON, Nov. 1.—So many conflicting elements have appeared in the destruction of the British ship Marina by a German submarine, with the loss of American lives, that the incident threatens to fall into a technical discussion rather than a clean-cut issue of whether Germany has violated her pledges to the United States.

Details Lacking It became apparent today, both from the attitude of the state department and from foreign dispatches, that much which is essential to a determination of responsibility remains undisclosed, if indeed, the United States, Germany or Great Britain is in possession of the full facts.

Want German Version It appeared certain no movement would be made by the United States until the German version of the affair as well as that of the destruction of the British ship Rowanmore by shell fire with endangering of Americans, has been obtained.

Bernstorff Asks Details The only positive developments today were the action of Count von Bernstorff, the German ambassador, in asking his government to forward full details by wireless and the issuance of a statement by Secretary Lansing that the investigation would be in no wise delayed because there is a political campaign in progress. This was Mr. Lansing's statement.

Case Will Be Rushed "The fact that a political campaign is in progress will in no way effect the practice of the department in negotiating and in making full investigation of cases of this sort. We shall do it as we always have with as much celerity as possible."

U. S. To Stand Pat "I wish also to make another statement on a matter which has been brought to my attention. The question has been raised as to whether the policy of the President or the department in regard to submarine warfare since the Sussex was sunk had been changed. I wish to state emphatically that there has been no change in any particular."

Ship Reported Armed While they await full details, two outstanding facts attracted the attention of officials. One was the announcement that the Marina was armed with a 4-inch gun mounted astern; the other was a news dispatch from London, the language of which was regarded as significant. It said: "It is regarded here as quite probable that the American state department will make still further inquiries with the object of determining definitely the status of the Marina. While it was said that she was under private charter when she was torpedoed it appears that the vessel may have been engaged in admiralty work not long before."

This was generally construed to be a reflection of some indication of doubt in London over whether the ship was entitled to the immunities of a peaceful merchantman.

The United States government, however, never has altered its policy of regarding merchant ships, temporarily in admiralty service, as merchantmen, still, unless they have been actually taken over by a belligerent nation and manned with a naval crew.

Guns Again Issue The question of the Marina's armament, however, is likely to become (Continued on Page Five.)

World's Champion Red Sox Bought By Frazee and Ward

(By Review Leased Wire) BOSTON, Nov. 1.—The world champion Boston American baseball team was sold tonight to Harry H. Frazee of New York, and Hugh Ward of Philadelphia. Joseph J. Lannin of this city, former owner of the club, who announced the sale at a dinner given to the new owners and newspaper men, said the papers had been signed less than half an hour before. The price was not stated, both parties agreeing to keep silence on that point.

Mr. Frazee and Mr. Ward are both identified with athletics, the former being principal owner of the Cort Theatre of Chicago, and the Longacre Theatre of New York.

Wm. Carrigan, who has guided the team for the last three years, announced his retirement at the conclusion of the world's series games last month, but Mr. Frazee said he would hold the position of manager open for Carrigan and hoped he would consent to lead the team another year. The executive staff of the club will be retained intact.

Eads Locks Arms With Hunt In His Race for Congress

(Special to The Review) PHOENIX, Nov. 1.—The greatest political sensation of the campaign is expected in the morning when the Arizona Labor Journal will be off the press with a paid advertisement from Henry L. Eads, Republican candidate for congress, advocating the election of George W. P. Hunt as governor and himself as congressman.

This morning the Arizona Republican, published by Dwight B. Heard of Phoenix, printed an editorial in which it endorsed the candidacy of Carl Hayden for congress.

Close upon the heels of this, Eads, who is in Tucson tonight, sent to the Labor Journal copy for an advertisement. It is said the advertisement will allege that Heard, of the Republican, Ned Creighton, of Phoenix, and Carl Hayden and others are in a working combination to defeat Governor Hunt. Eads advises all Republicans, in his advertisement, to vote for the present Governor and himself for congress.

HOPPE RUNS 500.

ST. LOUIS, Nov. 1.—William Hoppe of New York ran 500 billiards tonight to 95 for G. Butler Sutton, of Chicago, in the third block of their fifteen hundred point 18.2 ball billiard match. The score for the match was: Hoppe, 1500; Sutton, 508. Hoppe had a high run tonight of 187 and made another of 108. Sutton's best was 51 without a miss. The play was completed in eleven innings.

MONTHLY COPPER AVERAGE

According to the quotations of the Engineering and Mining Journal of New York, the average price of copper for the month of October, was 27.193.

TUCSON MAN CHARGED WITH SMUGGLING ARMS.

TUCSON, Nov. 1. Dr. G. R. Servin, a neutralized American, was arrested here today charged with conspiracy to export arms to revolutionists in Mexico. Warrants also were issued for a number of other persons. Arms and ammunition were seized by the authorities. Dr. Servin denied any complicity in the alleged plot.

DEATHBED STORY OF BISBEE GIRL IMPLICATES DOCTOR

Sixteen year old Alma Erickson, step daughter of John Erickson of 66 Jiggerville, lies at the point of death in the Copper Queen Hospital as a result of peritonitis which followed an illegal operation. Dr. E. R. Walker, who has offices in the Marx building in Lowell since his arrival in Arizona from New Mexico in the month of May, is out on bond of \$2500 charged with procuring a criminal operation.

On what the staff of the Copper Queen Hospital declared to be her death bed, the little Finnish girl, yesterday afternoon, in the presence of a local clergyman, two members of the hospital staff, Judge George R. Smith, of Lowell, and an interpreter, told the story of occurrences in the last six weeks which, in every probability will result in her death.

In the dying statement, which she signed in firm handwriting, the little child, who has been still going to school, told of her downfall. She declared she was forced into it by a

JEWELS WORTH MILLIONS, BONDS EVEN RICHER, ARE IN DEUTSCHLAND CARGO

(By Review Leased Wire.) NEW LONDON, Conn., Nov. 1.—Ten million dollars worth of dyestuffs and drugs, and, it was said, "possibly stocks, bonds and precious stones," composed the cargo of the German submarine merchantman Deutschland, according to a statement tonight by Captain Paul Koenig, commander of the craft. The Deutschland is in this port after having succeeded in making a second voyage from a German port to the American coast, despite the watchfulness of British and French warships.

DIVED UNDER BRITISH WARSHIPS TO ESCAPE

Journey Is Filled with Dodging, Hampered by Terrific Seas and Fog—Captain Koenig Wears Medal from Kaiser.

The first of the undersea merchantmen by use of which Germany hopes to keep open a trade route with the United States, the Deutschland, according to her captain, is at present the "only vessel of that fleet. The Bremen, which started a voyage August 25 from the city after which she was named, he said, has been given up as lost. He thought she "must have struck a mine" but he added "she has not been seen to return to this almost blockade. I am sure of that."

America, Only Dream The Amerika, which some reports have indicated was a merchant submarine captured by the British, never existed, Captain Koenig asserted.

"I must keep up the traffic—that is, the Deutschland must," he said, in a fortnight I shall be gone. I hope to return before the end of the year."

More "Subs" Building. It was possible, the navigator stated, that other merchant submarines would be built by that time.

Dived Under Enemy. In a summary of his voyage, just completed, Captain Koenig, who returned with decorations from German royalty as marks of recognition for his pioneer voyage, said this was "a quiet trip." Recital of its incidents, however, developed matters of lively interest. The Deutschland did not lie quiet on the ocean floor this time as in the voyage which ended at Baltimore last July. The submarine instead varied the monotony of its sailing under water and on the surface with dodges between vessels identified as warships of belligerent nationality or thought to be. Seven times, Captain Koenig said, he maneuvered in this way. The last time was off Nantucket yesterday when he sighted a "four funnel steamer" and dived beneath her.

"The storms gave us more trouble than this so-called blockade," he continued. "We were beset by heavy southwest gales for days and they were with us most of the way across. Fog also riddled us. We might as well have been submerged, the weather was so thick at times."

Battered By Seas. The superstructure of the Deutschland was dented by the blows of the seas, but she suffered no severe damage, her commander said.

Leaving Bremen October 1, the Deutschland had moved only a short distance out of the harbor when she came in collision with a tug which "was so foolish as to run into us," said Captain Koenig. The Deutschland was forced to return for repairs. The venture was begun again October 10 and the engines, after being started on that day, were not stopped until the Deutschland came into the slip prepared for her here.

A heavy southwest gale was on when we went through the North Sea, crossing between Scotland and the Orkney Islands in the Fair Channel. I took the shortest course on the chart for New London. The blockading ships were many but we passed them or rather went under them. The storm followed us and we were tossed many hours."

Captain Koenig said the Deutschland was kept under way on the surface during much of the distance, but at (Continued on Page Six)

Not content, further according to the statement of the youngster, with the mere performance of the operation the doctor forced the little girl to meet his brutal desire. Later the doctor appeared at her home, while her parents were away, and again administered to her.

Tuesday afternoon the little girl was taken to the hospital in what was considered a hopeless condition. The medical staff of the institution operated on the child to avoid the baleful effects of peritonitis which had set in. The trouble, however, had gone too far and Alma was given up yesterday afternoon by the surgeons in attendance upon the case.

Dr. Walker, the defendant, has been a resident of the District since the (Continued on Page 2)
