

THE MOHAVE MINER.

KINGMAN, OCTOBER 1, 1887.

OFFICIAL PAPER OF THE COUNTY.

L. P. Fisher and E. C. Duke are authorized agents in San Francisco of the MOHAVE COUNTY MINER.

Subscribers to this paper will confer a favor by sending notice of any irregularity in its delivery to this office.

Special notices in the reading columns of the Miner will be charged at the rate of Five Cents per line for each insertion.

LOCAL BREVITIES.

Silver \$.96. Lead \$4.00. Fresh oysters at Taggart's. Quite a hot spell this week. The term of Court in Apache county is ended.

Calvin's Casino has a Notice of Forfeiture in this issue. Horseback riding seems to be all the fashion nowadays.

The Kingman school has twenty-two scholars in attendance. Judge Schneider, of Hackberry, was in the county seat on Thursday.

Mr. Rollins, of the Rural mine, Mineral Park, was in town last week. Fresh fruit, all the kinds in season, always on hand at Watkins Bros.

For sale cheap. A new Singer Sewing Machine. Inquire at this office. A full line of stationery of all kinds for sale at low prices by Watkins Bros.

Some people claim that the first days of the week were the hottest of the season. A lazy man, no matter how truthful he may be, will lie about the house a good deal.

It might pay some of our store keepers to keep a supply of standard school books on hand. J. F. Luthy and "yo editor" returned from their trip to Lost Basin on Thursday afternoon.

George Monroe, of Mineral Park, stopped over a day or two on his way to California. The new mill of the Golden Gate Mining Company at Lost Basin works like clock work.

Geo. W. Beecher is making extensive improvements about his residence on Front street. The Kingman water works have been putting on airs again this week—more air than water.

Howard Watkins, the popular Mineral Park druggist and ex-County Clerk, was in town on Saturday last. Subscribe for the Miner. The only live paper in Northern Arizona. Four dollars per year in advance.

Supervisor Nelson was in town on Thursday for a few hours, on business connected with the new hotel. Regular quarterly meeting of the Board of Supervisors on Monday next. Bills for the last quarter will be audited.

The fellow who thinks he can take the whole bakery is very often the one that doughn't do it.—Duluth Paraphraser. Messrs. John McGregor, T. Harris and J. Mulligan have gone to the Needles to work on Monaghan & Murphy's new buildings.

J. Watson Thompson, the well known cattle man of the Wallapai Valley range, will be home from Massachusetts about October 10th. Mrs. Mills, wife of the Superintendent of the Southern Western Mining Company, of El Dorado Canyon, is stopping in town for a few days.

The building in Mineral Park known as the drug store building and residence is offered for sale cheap. See advertisement in another column. Thomas A. Metcalf, a brakeman on the Atlantic & Pacific Railroad, fell from a train at Williams last Thursday and was instantly killed.

Pond's Extract cures pains and injuries, however severe. Under any temperature, in all climates, it accomplishes the same wonderful results. El. F. Thompson, Beecher & Co.'s popular manager at Mineral Park, came over on Saturday to enjoy the pleasures of a city life or a day or two.

Four car loads of horses and one car load of short Horn and Jersey cattle from Marshalltown, Iowa, passed through here last Sunday on the way to Los Angeles. President Harney and Superintendent Brother, of the Golden Gate Mining Company, will be in from Lost Basin about the end of the week, on their way to St. Louis.

J. F. Luthy will shortly commence the erection of four large store buildings on the corner of Fourth and Front streets. They will be of adobe, with iron fronts and roofs. W. J. Roe and family arrived in town during the week from Arizona, and departed for Bristol, where Mr. Roe will assist his brother in the development of the Mayflower mine.—Pischoe Record.

Watkins Bros., at the Kingman drug store, handle none but the best grades of cigars in the market. They are retailing, among many other choice brands, the well known Key West Cigars at two for twenty-five cents.

The report that the Golden Gate mill at Lost Basin has shut down is untrue. The mill will continue to run until all the ore on hand is run through, which will take a week or ten days yet. Both mine and mill will be started up again very shortly.

J. J. Lynch, the very popular young gentleman who manipulates the assay furnace for the Arizona Stamping Works, is in town from Prescott. Mr. Lynch is very popular with our miners, all of whom accept his assay certificates without question, which is a pretty high recommendation for an assayer.

A washout on the Atlantic & Pacific occurred on Sunday morning near Laguna, N. M., fifty miles west of Albuquerque. Fifty feet of trestle work were washed away, causing complete suspension of the freight traffic. Passenger trains were compelled to make transfers, causing a delay of several hours. A west-bound excursion train, carrying 200 people, was obliged to lay over at Albuquerque in preference to making the transfer. Monday's west-bound train did not arrive here until 7:30 p. m., but the break was mended and trains were running regularly Thursday.

A flagstaff dispatch of September 26th says G. W. Gorton, manager of the Watrous Cattle Company, was shot and killed last night at Winslow, A. T., by a cowboy named Lewis Brown in a fight. Eight or ten shots were fired, and W. F. Thompson, a saloon-keeper, looking on, was accidentally shot through the hand. Brown escaped on horseback. Officers are after him. Both parties were quarrelsome, and there was an old grudge of long standing.

Workmen have been engaged during the week in tearing down the building formerly used by Taggart & Co. as a store room. This was the first building erected in the town, and was put up by Conrad Shenfield as a Commissary Department when he was engaged in building the railroad. We are pleased to know that its place will be occupied by handsome fire-proof stores, to be erected by Mr. J. F. Luthy.

Kingman is getting to be quite a city, and is usual the ladies are in the lead in social if not in other matters. They now have their regular days to receive callers, and our reporter has caught on to the following: Sunday—Mrs. Frost; Monday—Mrs. Watkins; Tuesday—Mrs. Williams; Wednesday—Mrs. Hyde; Thursday—Mrs. Luthy; Friday—Mrs. Taggart. Who wants Saturday?

\$250 in cash; 3 Worcester's and 3 Webster's Dictionaries, worth \$80, and 4 Dictionary Holders, worth \$15.00, given as prizes for best essays answering the question "Why should I use a Dictionary Holder?" For full particulars send to La Verne W. Noyes, 99 & 101 W. Monroe St., Chicago, the maker of Dictionary Holders. Or inquire at your bookstore.

When old Chowder was running for Justice of the Peace his wife, in anticipation of the honors in store for her, said: "My dear, when you get to be Justice of the Peace, what will I be?" "You," said Sam, "why, you'll be the same old fool you always was."

Mr. and Mrs. F. W. Sperr came over from Mineral Park last Wednesday, the latter leaving for Los Angeles on the next train.

Col. Kinzer, of the Flores Mining Co., came in Friday evening. He says the mill will start up in a short time.

Dr. Burgess, a competent Los Angeles dentist, will be here for two or three weeks in November.

English pickles, preserves, jams, jellies and marmalades at Taggart & Co.'s. The west-bound passenger train was three hours late this morning.

The man with his little bill has been making the rounds this morning. Inapointments are the order of the day in Kingman.

Good name for a saloon—the Cask-and-House. There are 120 convicts in the Yuma prison. Trade at Taggart's. Steamer day.

Quick Sabe?

NEEDLES, Cal., Sept. 30, '87. EDITOR MINER: The enclosed was received by me to-day, and though I am somewhat at a loss to divine just exactly what "A Citizen" desires to know, I will at all events endeavor to comply with his request.

A FALSE REPORT. It has been reported by untruthful parties that I have been discharged as Surgeon for the A. & P. R. R. and that some Doctor at the Needles has superseded me. Such reports are false.

D. S. LIVINGSTON, M. D., Surgeon for A. & P. Railroad. "Dr. Booth: Enclosed slip from the Miner, last issue. We hope this is not true, and if so the people here would like to see the matter shown up in its proper light. With greatest respect, A CITIZEN."

There is no practicing physician at the Needles except myself, and the "Some Doctor" must of necessity refer to me. I have no personal knowledge of Dr. Livingston's employment or discharge by the A. & P. R. R. Co., nor have I ever heard anything of either, except from the Doctor himself. My appointment came direct from Chief Surgeon Aubright, and I was appointed to supersede no one.

I have been too long in the harness to permit idle reports either of myself or others to interfere with my business, and scarcely ever lose any great amount of sleep over "what they say." Of one thing I am satisfied: Dr. Livingston would not claim to be a Surgeon for the A. & P. R. R. unless he actually held the position. Respectfully, JAMES P. BOOTH, M. D., Surgeon A. & P. R. R.

Give Them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them. When these are clogged or choked with matter which ought not to be there, your lungs cannot half do their work. All what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung affections, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschoe's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Corbat Letter.

CERBAT, A. T., Sept. 27, 1887. EDITOR MINER: The scene at the Flores mine is one of genuine, earnest activity. Colonel Kinzer is pushing the work in every direction night and day, and by the time sufficient water is encountered in the well every other detail will have been completed for the initial "start-up." The engine, boiler, batteries and nearly all the shafting are in place and the mill building completed, with the exception of some floors and a few minor additions. The well has been sunk on the foot-wall of the ledge where it crosses the canyon to a depth of 64 feet, a drift east has been run 39 feet, and a cross-cut from there to the hanging-wall started, and it is thought when the hanging-wall is reached there will be an abundance of water. This work is being pushed by three shifts of three men each.

The main tunnel is being widened and the bottom "picked-up" to a level. While engaged in this the apex of a fine shoot of ore was struck, which assays high, and immediately upon which a large winze was started to determine the depth of the deposit, and which seems to have escaped the eagle optic of the numerous "chloriders" who have had anything to do with this mine in years gone by. The developments made in this winze have been a steady growth of the ore body, both in width and richness, and as soon as some necessary preliminary work is completed the force will be doubled.

There is an abundance of ore in the mine that will pay the company large dividends, which would not formerly stand the heavy shipping charges. Ores ranging from three dollars can be milled at a profit by the company, as every thing is arranged on the automatic system, and the entire mill crew will consist of two men on a shift, and it is claimed by the parties erecting the batteries that their capacity will be between 24 and 30 tons daily.

The great secret is destined to remain a secret, as the World's Automatic Concentrators are to be safely housed in a tin-lined room, and no peeping Tom is to be allowed an opportunity to catch a glimpse of them. All that can be ascertained is that they require no quicksilver; that they catch all metals with a fiber, such as gold, silver, copper and lead, and that this is again separated, all or nearly all the lead being extracted. The machines themselves do not occupy much space—an ordinary trunk will contain three of them. Chemical action is the main factor.

The mine is being foremanized by Mr. John Helmsley, a man of 33 years' experience in the gold mines of California, while Superintendent Kinzer has had a long scholarship in the mines of Nevada, and between these gentlemen the Flores Consolidated Gold Mining Company will surely declare an early and thereafter regular dividend. Not Six Ds.

Apache County Affairs.

From attorneys who have just returned from attending Court in Apache county, it is learned that up to the time of their leaving on the 23d Judge Wright had passed no sentences, the telegraphic reports to the contrary notwithstanding.

Ex-Deputy Treasurer Baca had been convicted of connection with the robbery of the Treasurer's safe of the county. The penalty is from one to ten years, and Baca was offered the lightest term if he would inform on his accomplices.

Phin Clanton was convicted of grand larceny—cattle stealing. Clark, who, from all circumstances, killed a man named Mullen in cold blood, got off with a conviction of murder in the second degree.

Nathan Barth pleaded guilty of embezzlement, in trying to tamper with the jury which convicted his brother, and was fined \$500. Indictments against Nathan Barth, for perjury, county records, were permitted to stand, with the understanding that they would not be prosecuted if he leave the Territory prior to January 1st, 1888.

A civil suit against Nathan Barth, as administrator of the estate of his brother, Morris Barth, deceased, was compromised by the payment by him of \$8,000 to the present administrator of the estate.

An indictment against Gonzalez, for perjury, and one against Lambson, for embezzlement, were continued for the term. A man named Stanley, and another named Gray, were given sixty days to leave the Territory and remain away, indictments pending against them.—Journal-Miner.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Gosius, who was so helpless that he could not turn in bed or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial Bottles of this Great Discovery for Consumption free at Watkins Bros., Large Bottles \$1.00.

FOR SALE CHEAP.

Store and Residence at Mineral Park.

The property in Mineral Park known as the drug store building, comprising large store rooms and cellar, together with residence adjoining, consisting of four rooms, with lot of land 30x150 feet, fine large cistern, out-houses, etc., is offered for sale cheap. Apply to H. H. Watkins, Mineral Park, or to this office. 47-4f

Information Wanted.

The present address of Walter Leighton, a surveyor and civil engineer—was in Arivaca, A. T., five years ago—is anxiously desired by friends. Will any one who can give his present address notify the editor of the Censor, Los Angeles?

Lost, Strayed or Stolen.

Came to the ranch of the undersigned, about four months ago, one bay mare, brand on right hip, and vented. The owner will please take the animal away, pay pasturage and expenses of advertising; otherwise the animal will be taken up under the Estary Law of this Territory. 46-1m R. G. PATTERSON.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy. Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

NOTICE TO TAX-PAYERS.

OFFICE OF THE TREASURER OF MOHAVE COUNTY, ARIZONA. KINGMAN, ARIZONA, Sept. 23d, 1887. Notice is hereby given that the Duplicate Assessment Roll of the County of Mohave, Territory of Arizona, for the year 1887, is now in my possession for the collection of the Taxes levied therein, and the Taxes are now due and payable. Taxes will be delinquent on the third Monday in December next, hereafter, and unless paid on that day or prior thereto, five per cent. will be added to the amount thereof as penalty. I am ready to receive Taxes at my office in Kingman, between the hours of 9 a. m. and 1 p. m., from and after this date. DANIEL SMITH, County Treasurer and Ex-Office Tax Collector. 46-1m

KINGMAN LODGE NO. 7, I. O. O. F. Meets every Tuesday evening at 8:00 o'clock in Taggart & Co's Hall. Visiting brethren are cordially invited. JAMES J. HYDE, N. G. M. C. COPELAND, Secretary.

Notice of Forfeiture.

To JAMES KNEHR: You are hereby notified that I have expended four hundred dollars in labor and improvements upon the Mexican mining claim, situated in the Wallapai Mining District, Mohave county, Arizona Territory, and duly recorded in Book F of Mining Records, page 225, in order to hold said premises under the provisions of Section 234, Revised Statutes of the United States, being the amount required to hold the same for the years 1885, 1886, 1887 and 1888.

And you are hereby notified that the proportion of said expenditure due from you is \$40, lawful money of the United States, and if within 90 days after the publication of this notice you fail or refuse to contribute your proportion of said expenditure as co-owner, your interest in said claim will become the property of the undersigned under said Section 234. CALVIN CUSHINO, Mineral Park, A. T., Sept. 25th, 1887. 47-30d

Mining Application No. 129.

UNITED STATES LAND OFFICE, PRESCOTT, ARIZONA, May 28, 1887.

Notice is hereby given that Lamson S. Walton, of the County of Mohave, Arizona, whose postoffice address is Mineral Park, Mohave County, Arizona, has this day filed their application for a patent for fifteen hundred linear feet of the "Cordelia" mine or vein, bearing silver, gold and other precious metals with surface ground six hundred feet in width, situated in the Wallapai Mining District, County of Mohave, Territory of Arizona, and designated by the field notes and official plat on file in this office as Lot No. 40 in sections 7 and 12, township 22 N., range 12 W., G. 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E. corner of claim, from which a shaft 80 feet deep, on upper side of lode, bears N 77 degrees 13 minutes W 30 1/2 feet: thence from said post and monument N 18 degrees 30 minutes W 1200 feet to a post two (2) by four (4) inches, two and one-half (2 1/2) feet high marked III in mound of stones on N. E.
