

The one who originated the idea of demonizing silver was a demon in spirit if not in body. As proof thereof we call attention to the present depression of business the want of employment by millions of persons the reduction of business efforts, of market prices and the hundreds of thousands of impoverished farmers, merchants and laboring people, many of whom have been led to suicide through want and despondency, all of which are the consequences of demonization of silver. That is the reason why they call this diabolical process "demon"ization.—N. Y. Financial Record.

Whenever a mine commences to show up its richness litigation some how or other crops up with it also. This is exemplified in the case at Cherry creek the other day in which the Fetterlys and Winnie figured as defendants, L. M. Olden, being the plaintiff. The above defendants entered the mine which Mr. Olden claims he has owned for years and took out about 9 tons of gold ore which it is said yielded \$1200. The recent suit has resulted in the defendant being enjoined from working the property.—Journal Miner.

Harquahala Gold Mining Company Limited.—The following is the estimated return for the month of January: Mill worked 29 days; crushed during the month, 2,790 tons; estimated gross value of gold produced, \$15,800; miscellaneous revenue, \$16,300. The estimated total expenses were \$15,400, leaving the estimated profit for the month \$900. The developments show some improvement, and prospects are encouraging.
