

Mohave County Miner.

VOL. XXIV.

KINGMAN, ARIZONA, JANUARY 13, 1906

NO. 15

Proceedings of the Board of Supervisors.

OFFICE OF THE BOARD OF SUPERVISORS OF MOHAVE COUNTY, ARIZONA. KINGMAN, Dec. 30th, 1905.

The Board of Supervisors met in regular session according to law. Present full Board. Minutes of Dec. 22nd read and approved.

Clerk informed the Board that reports of the county officers were not all in.

Upon motion made and carried, ordered that reports of and settlement with county officers be laid over to January 2nd, 1906, and claims against the county for 4th quarter 1905 be taken up and considered.

Upon motion the following claims were allowed and warrants ordered drawn in payment of same.

Charles Metcalfe, Probate Judge 4th quarter 1905 \$100 00

Ross H. Blakely, Clerk District Court 4th quarter 1905 87 50

Foster S. Dennis, Treasurer 4th quarter 1905 312 50

Wm. G. Blakely, District Atty. 4th quarter 1905 312 50

Thos. McNeely, Recorder, 4th quarter 1905 312 50

Mrs. Thos. McNeely, Dpty. Recorder 4th quarter 1905 180 00

Walter Brown, Sheriff, Jailor, Janitor, etc., 4th quarter 1905 900 00

John S. Kolar, Supervisor 4th quarter 1905 175 00

John Mulligan, Supervisor 4th quarter 1905 175 00

Wm. B. Stephens, Supervisor 4th quarter 1905 175 00

W. S. Norviel, Court Reporter 4th quarter 1905 60 00

Walter Brown, Sheriff's Fees and money paid out in criminal cases 380 97

Chas. C. Bradley, material and labor repairing Chloride jail 12 00

C. E. Sherman, witness fees 10 50

Henry Lefler, witness fees 6 15

Thompson W. Grace, medical attendance on county prisoner, C. C. Leigh 15 00

Robert E. Kier, work on county road between Little Meadows, Kingman and Coyote Hole Springs 60 00

W. S. Norviel, transcript of records in case Territory of Arizona vs. C. C. Leigh 15 95

Ross H. Blakely, Clerk Dist. Court fees for 4th quarter 1905 225 40

Cadogan Hatcher Mfg. Co. record book and supplies 28 00

John S. Kolar, blacksmithing, county roads 20 75

J. W. Ward, work on county road Dist. 3 136 75

Wm. G. Blakely, traveling expenses for attendance on Supreme Court 27 00

Foster S. Dennis, Treas., Jurors Certificates 578 40

Henry Strangeman, Constable Fees, Acme precinct 32 25

Geo. D. Barnard, record books and supplies presented for

\$80 00 allowed for..... 76 45

Fred W. Morrison, Atty. fees for assisting Dist. Atty. Blakely in case Moffat & Root vs. Mohave Co. 25 00

Edward Thompson Co. law books 21 00

Yuen Hing Wo, meals for jurors and witnesses 10 55

Lovin & Withers, coal and supplies Court House and jail 170 98

Lovin & Withers, supplies for Jno. Hartman and Geo. E. Jennings, indigent 115 99

Lovin & Withers, supplies for work on county road 5 78

Lovin & Withers, supplies for Geo. Hanson while searching for lost prospector 4 80

Noli Brothers, supplies for Francisco Valenzuela and Jose Garcia, indigent 81 00

Lovin & Withers, supplies for Acme jail 3 08

House rent to James Stanton, indigent 6 00

J. W. Emerson, lumber for county road Dist. 3 18 28

Henry Strangeman, Sanitary officer, Acme 52 00

Geo. B. Ayers, Sanitary officer, Kingman 52 00

Murrie Carrow, bounty on two coyote and one wild cat hide 3 00

Mrs. Mary Sweeney, meals to county prisoners 152 00

Thos. H. Brobant, work on Court House wind-mill 9 60

H. H. Watkins, supplies for Court House and jail 12 50

Wm. Grant, house rent to J. W. Munn, indigent 10 00

Walter Brown, Sheriff's fees in coroners cases 6 30

The H. H. McNeil Co. record books and legal blanks 70 50

Smith & Sawyer, warrant, license, school and road tax books and stationery 144 12

A. H. Smith, Justice and Coroners fees, Kingman 84 50

Lovin & Withers, supplies for County Hospital 41 35

J. W. Emerson, burial of A. M. Dodds, indigent 30 60

A. E. Ealy, County Health officer 75 00

A. M. Cowie, board, lodging, etc., County Hospital 519 80

A. M. Cowie, drugs for County Hospital and other indigent 83 80

A. M. Cowie, medical attendance and nursing County Hospital 185 00

Smith & Sawyer, publication tax sale in case Territory of Arizona vs. Koshland 42 75

Walter Brown, typewriter, desk and letter press 90 00

Kean St Charles, county printing and stationery 249 50

Kayser & Ridenour, supplies for J. W. Mann, indigent 44 96

Lovin & Withers, supplies for John Hartman, indigent 9 30

I. M. George, meat to Geo. E. Jennings, indigent 6 70

W. P. Eshom, work on county road between Eshom's ranch and Yucca 75 00

Kean St Charles, publication of tax sale 39 00

Thos. McNeely, Supervisors contingent fund 75 00

Joe Contrerez, supplies for John Estrado, indigent 30 00

L. Abplanalp, reporter in Justice court 9 20

Upon motion Board adjourns to January 2nd, 1906, at 10 o'clock a. m.

JOHN S. KOLAR, Chairman.

Attest THOS. MCNEELY, Clerk.

Copper While You Wait.

Frank E. Sharp, superintendent of the Kelvin Reduction company, is in the city accompanied by Mrs. Sharpe. They are attending the Territorial Fair and Mr. Sharpe is at the same time looking after matters in connection with the company. He said that since the opening of the Phoenix & Eastern road there has been steady growth of activity in mining in that part of the territory.

He was asked about the operations of his company. He said that its new leaching plant had been put in operation lately and that the results had gone beyond his expectation. He said that just before starting to Phenix a run of copper had been made so quickly that he did not like to give the time for it would not be believed by any one who had not timed it. But he finally said that in 28 minutes from the time the pulp was put into the solution the pure copper appeared.

The company is using the McIntosh process, which accomplishes in minutes what the older processes accomplish in hours. The process is partly a secret, a single ingredient being added to the sulphuric acid. It is probable, though, that Mr. McIntosh will shortly disclose the secret when all his plants, which are now nearing completion, have been perfected.

The plant of the Kelvin Reduction company has a capacity of 35 tons daily, but it can be easily increased by the addition of other rolls. Only two are employed now. Only carbonated ores are now treated by the process, but the sulphides can be treated after a thorough roasting. The company will soon put in a large roasting plant. —Phenix Republican.

Troy-Manhattan Co. Bonds 40 Claims.

The Troy-Manhattan Copper Mining company has bonded forty claims owned by J. B. Newman adjoining their Manhattan property and extending to the Dripping Springs wash. The consideration named was 170,000\$. On the Newman claims is an iron lead 300 feet wide which carries 2 per cent in copper, 4\$ per ton in gold and 65 per cent of hematite iron.

The Troy-Manhattan company has developed its properties extensively and large bodies of siliceous ores have been blocked out. Among other developments 500,000 tons of sulphide ore assaying 6 per cent copper is now in

sight at the Manhattan mine. The ore also runs high in sulphur. The ores of these properties provide material for a splendid converter proposition, the lacking element heretofore being the iron which the Newman claims will furnish for fluxing purposes. A large reduction works is planned by a company and it is reported that the branch standard gauge railroad will be built, either by the Santa Fe company or the Troy-Manhattan people, from a junction with the Phenix & Eastern up Dripping Springs wash to the Troy-Manhattan company's mines. —Globe Silver Belt.

The price of the best grade of lead ore last week in the Joplin district was 78\$, an advance of 2\$ over the highest price paid during the preceding week. Three weeks ago it was predicted that the price of lead ore would advance to 80\$ before the end of the present year, and it now appears that the prediction will be fulfilled. The buyers of lead ore throughout the district were anxious for the ore at the prevailing price at the close of the week, and the belief is that there will be another advance in the price this week. While the highest grades brought 78\$ the average price was 77\$. There was a slight decline in the price of zinc ore for the week, the highest price paid being 54.50\$, a decline of 50 cents on the ton. During the 50 weeks of 1905 just closed this district has produced and marketed 12,813,970\$ in lead and zinc ore. The average price for both ores has been higher during 1905 than in any year in the history of the Missouri-Kansas mining district. —Mining World.

The Bunker Hill & Sullivan Mining company, at Kellogg, Idaho, announced a December dividend of 300,000\$, bringing the total dividends to date up to 5,525,000\$. The Bunker Hill started production of ore 19 years ago and has this year broken all previous records of output. Since January the company has paid its stockholders in dividends the sum of 3,255,000\$. The two-mile Kellogg tunnel, put in by this company, has developed ore bodies which place the Bunker Hill as the largest lead mine in the world. Much of the ore now being produced is sent to the smelters in the crude state, and where in former years car loads of this class of ore were sent out from the deeper workings. The stock of the company is largely held by the D. O. Mills interests of New York City. —Mining World.

Cured Lumbago.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with Lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former sufferers." 25c, 50c and 1\$. Sold by Watkins' drugstore.

More Gas.

A contract was closed Wednesday between the Globe Electric Light and Power company and the Western Gas Construction company, of Fort Wayne, Indiana, for a gas plant capable of making 150,000 cubic feet of illuminating gas every 24 hours. The plant will be of the most modern construction and the capacity should be adequate for Globe's necessities for some years to come. Shipments of machinery are to commence within 30 days and not a day will be lost in completing the works. The quality of gas to be manufactured will be full standard, or what is known as 22 candle power, and be furnished to consumers at 2\$ per 1000 feet. —Globe Silver Belt.

The Cananea plant was shut down temporarily last week for lack of coal and coke. All of the big plants have been having trouble to keep up their supply of coal and coke. Oil would prove a solution to the problem, and it will be found cheaper in the end. —Copper Era.

Do it To-day.

The time-worn injunction, "Never put off 'till tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today —and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottle, 25c.; regular size, 75c. At all drug stores.
