

Mines of the County

John Barry, owner of mining property at Chloride and Cerbat, was in Kingman several days this week attending to business matters.

Be sure and send in your ore specimens at once, as the exhibit for the territorial fair will be shipped from Kingman about the 28th of this month.

James Carter, who has been successfully operating a cyanide plant on the seepage water from the tailings pit at the big mill, at Goldroad, departed Wednesday evening to Los Angeles. Later he will go up north, where he is interested in mining.

T. R. Garnier is in Los Angeles making arrangements for the starting up of work on the property newly acquired at Cerbat. It is understood that a new company will be formed to take over and develop the mines and that within a few weeks work will be under way.

Ore specimens for exhibit at Phenix are coming in slowly. Mine owners should take an interest in this exhibit, as the ores will be on exhibition a week, where thousands of people will view them. The benefit to be derived by Mohave county on account of a good exhibit of ores will be incalculable.

W. B. Campbell, one of the old time residents of Cerbat, this week disposed of part of his mining interests to the Gold Star mining company. This company is erecting a mill on the Golden Gem mine and it is expected that the ore from the Campbell property will be handled through this plant. Mr. Campbell's many friends are pleased with his good fortune.

J. N. Cohenour, manager of the Champion mine, at Cerbat, was in Kingman a few days this week. He reports that the mine is showing up big bodies of high grade silver-lead ore. Shipments are being made to the smelter at Needles. The Champion is one of the big mines of the Cerbat section and it will be but a short time until it reaches its old producing form.

At the Banner mines of the Arizona-Mexican M. & S. company, at Stockton Hill, a body of ore four feet wide has been encountered that is said to be the richest ore ever taken from the property. The ore is solid from wall to wall and carries ruby and native silver in quantity, besides running better than forty per cent lead. The mine is looking fine, ore being found in practically every opening.

F. A. Parr, of Birmingham, Alabama, passed through Kingman yesterday on his way to Chloride, where he will look over his interests in the Arizona-Birmingham leasing company. This company is driving a large tunnel under the mountain to tap the Lucky Boy vein on the Samoan ground. At last accounts the tunnel was within fifty feet of the vein and it might be struck any day. Water was coming from the tunnel breast, which was an indication of closeness to a vein. The company has been doing good work and everybody hopes they will be well rewarded for their faith in the mines.

A nice body of ore has been encountered in the shaft on the Golden Rule mine, in Gold Basin. An adit drift had been run in on the mine to get below the old ore body, but a break in the vein was encountered and it was thought that the best way to get at the ore would be to sink a shaft. This shaft is now down over 50 feet and ore already has been encountered that will pay well in a mill. As soon as the level of the tunnel is reached a drift will be run off to connect and the ore will be mined through this outlet. The vein is a large one and ought to become a large producer.

W. H. Cushing came down from Stockton Hill Thursday last. He reports the mill at the Cupel mine complete and will be put in commission about the first of November. The big pump has been working smoothly and the tanks have been filled preparatory to starting up the mill. At the De la Fontaine mine the big hoister is working and the shaft is being straightened out and timbered. Bins for ore have been erected at the mine and everything possible done to make the handling of the ore automatic. Two big teams have been ordered to haul ore from the mine to the mill and as soon as these arrive the reduction of ore will be put under way.

District Court Proceedings.

Court met Monday morning, Judge R. E. Sloan presiding.

The Arizona Central Bank, a corporation, plaintiff, vs. Henry Roberts and Joe Valenzuelo, defendants. Promissory note. Judgment for plaintiff.

John W. Gerritt, plaintiff, vs. W. W. White, administrator of the estate of John Lazell, deceased, William P. Lazell, — Lazell, whose Christian name is unknown, and the unknown heirs of John Lazell, deceased, defendants. Quiet Title. Passed.

Ivan L. Neal, plaintiff, vs. William L. Kayser, defendant. Quiet title. Tried and taken under advisement, with leave to submit briefs.

Territory of Arizona, at the relation and to the use of Foster S. Dennis, Treasurer and Ex-officio Tax Collector of the County of Mohave, Territory of Arizona, plaintiff, vs. Mohave Gold Mining Company of Arizona, a corporation, defendant. Delinquent taxes. Judgment for plaintiff.

P. E. Collings, plaintiff, vs. Lon. H. Wells, defendant. Quiet title. Judgment for plaintiff.

J. H. Riley, plaintiff, vs. E. M. Carson, A. Ver Mehr and John Lynch, defendants. Foreclosure lien. Dismissed and costs assessed to plaintiff.

John Barry, plaintiff, vs. Foster S. Dennis and Isabel S. Dennis, his wife, defendants. Foreclosure of real estate mortgage. Judgment for plaintiff.

Tarr & McComb, a corporation, plaintiff, vs. Mohave County Consolidated Mines and Development Company, a corporation, and Foster S. Dennis, W. E. Sauls and W. W. Clack, defendants. Foreclosure of Material lien. Settled and dismissed.

W. B. Major, plaintiff, vs. Mary Ann Major, defendant. Divorce. Judgment for plaintiff.

Margaret Ann MacKenzie, by her Guardian, H. H. Watkins, plaintiff, vs. W. F. Grounds, defendant. Foreclosure of mortgage. Judgment for plaintiff for 2,060.50\$.

Fred Cima, plaintiff, vs. Frank Meredith, defendant. Damages. Dismissed.

Chloride Store Company, a corporation, plaintiff, vs. Union Smelting and Refining Company, a corporation, defendant. Attachment. Judgment for plaintiff.

D. H. Moffat, appellant, vs. Mohave county, respondent. Appeal from raise by Board of Equalization. This was an appeal suit from raise of county board of equalization on account of raise made by territorial board of equalization. Judgment against county, but raise made by territory to stand.

O. A. Vickrey, plaintiff, vs. William Grant and W. B. Ridenour, defendants. Promissory note. Settled and dismissed.

William Epperson, plaintiff, vs. John W. Crozier, defendant. Contract. Defendant moved for dismissal and court took same under advisement with leave to defendant to present testimony should motion be overruled.

W. C. Murshet, plaintiff, vs. Mohave & Milltown R. R. Co., defendant. Receivership proceedings. Defendant tenders 3,500\$ in full for all labor claims and proposition accepted.

Territory of Arizona, plaintiff, vs. C. C. Leigh, defendant. Murder. Sentenced to be hanged December 14, 1906.

Territory of Arizona, plaintiff, vs. Roy C. Shelborn, defendant. Burglary. Convicted by jury and sentenced to two years in the penitentiary.

Territory of Arizona, plaintiff, vs. Epitacio Reyes, defendant. Burglary. Tried and found not guilty.

Territory of Arizona, plaintiff, vs. "Bill," a Wallapai Indian, defendant. Arson. Not guilty.

Territory of Arizona, plaintiff, vs. Antonio Jurango, defendant. Burglary. Plead guilty and sentenced to two years in the Territorial Industrial school at Benson.

Many cases on the civil calendar were passed on account of service not being complete, while other cases were in process of settlement between litigants.

Recorder McNeely informs us that there are now 840 names on the great register of this county, with some of the small outlying precincts to hear from. It is likely that there will be 900 names on the roll. This is the largest registration the county has ever had and show that our population is growing steadily. At the ratio of four and one-half to one, which is considered the correct one in Arizona, the county now shows a population of over 4000.

Mrs. Alice Perkins Dead.

Mrs. Alice Bonelli Perkins, sister of our fellow townsman George A. Bonelli, died at her home in Overton, Nevada, last Tuesday morning, the cause of death being pneumonia. Mrs. Perkins had been ill for some time with colds, which had gradually drifted into pneumonia. Deceased was well known in Kingman and among her host of friends her death is greatly regretted. Mr. Bonelli was called to Overton by his sister's illness, but she died before he reached her bedside. Her aged mother was with her at the time of death.

Report comes to Kingman that Patsy Collins, democratic candidate for the legislative council, was found very ill in his cabin at the mines near Silver Creek, late last week. It is understood that he was taken to Needles, where he was placed in charge of a physician. His illness seems to have been caused by a severe attack of rheumatism, which developed into a complication of disorders. It is to be hoped that his recovery will be speedy. Mr. Collins has been a resident of Mohave county since 1872 and has a world of friends in all parts of the territory.

The management of the Elk's Opera House ought to take some action to prevent the hoodlum actions of the small boys attending shows or other public functions. Boys that cannot behave properly should have their money refunded and sent home. Adults go to public functions to enjoy themselves and not be annoyed with the sometimes disgraceful actions of the children who have no appreciation of the purpose of the performance or other purposes of the assemblage.

C. C. Leigh, for the murder of Mrs. Jennie Batters, was resented by Judge Sloan, last Wednesday morning, to be hung on the 14th day of December next. When sentence was passed upon him Leigh showed less concern than any man in the courtroom. He appears to care very little what becomes of him. The man appears to be a degenerate.

Theodore Hendren, section foreman in Kingman for several years past, has gone to Bakersfield, where he has been promoted to a better position. Mr. and Mrs. Hendren will carry with them to their new home the good wishes of their many friends in Kingman.

Charles J. Hutchison, of the Extension Gold Mining company, is in Los Angeles looking, after business matters. The Extension mines are said to be among the richest in the Union Pass section and the company is opening them out in good shape.

Mrs. J. N. Cohenour is very ill at Los Angeles and Monday last Mr. Cohenour was wired that her condition was serious. A later report was received that the sick lady was improving and it is thought she is now out of danger.

Hobos are drifting southward since cold weather set in in the north. Kingman has been visited with a number of the gentry this week, but the officers are keeping them on the move and if this is not successful a chain gang will be invoked.

Kingman hotels and lodging houses were inadequate to the demands for lodgings this week. Every room that could be pressed into service was used, cots being placed in parlors and hallways to provide temporary sleeping quarters.

The Music Mountain company is operating its mines with a small force of men. The property is composed of the mines formerly owned by the Gold Mines company and W. F. Grounds.

John H. Page, Territorial Auditor, was a pleasant caller at the MINER office yesterday. Mr. Page is a pleasant gentleman and is also on the right side of the statehood question.

Mrs. Esther Starkey and daughter Miss Vina, came in from Grass Springs ranch a few days ago and will leave this evening for Los Angeles, where they will remain a few months.

Mrs. A. Parker, of Chloride, came to Kingman yesterday to attend to important business.

Leave your orders at the Kingman Meat Market for Ground Bone for chickens, 3 cents a pound.

Now is the time to pick out a nice fall suit of clothes. Ed. V. Price's line can be seen at the Emporium.

The tax case of David H. Moffat, on appeal from the decision of the county board of equalization, was tried and decided by the court at this session of the court in favor of the plaintiff. On the stand the appellee proved that the entire landed holdings of the company in White Hills was not worth 5,000\$. What a farce is this statement. The holdings of the company in White Hills could not be touched for less than 500,000\$. Time after time men have requested a lease of the ground, but the owners have refused to let any part of its holdings. We hope the board of supervisors will next year put the matter of collection of tax against this property in such shape that these tax dodgers cannot get away from the payment of their just proportion of tax.

John Boyle came in from the Vanderbilt mine this morning. South of the mine preparation is being made for the erection of the new mill. Houses are being erected and everything made ready for active work on all the mines owned by the Cerbat Mountain mining company.

Thomas McMahon is getting splendid ore from the Little Chief mine, at Stockton Hill. The shaft has reached a superficial depth and drifting shows the ore body to be fully eighteen inches wide, carrying values as high as 1,000\$ to the ton.

I. M. George and wife returned Tuesday from Los Angeles. They were accompanied by Miss Marie Miller. The young lady is much improved in health, although not entirely recovered from her recent severe illness.

Work is to be prosecuted on a large scale by the Heck Gold mining company this winter. The company's property is situated near Vivian and is said to have splendid prospects of developing into a dividend payer.

Sam R. Rhea and wife, of Chloride, were in Kingman this week. Mr. Rhea informs us that the Tennessee mine, which he and others has under bond, is opening up a big body of lead ore on the 600 level.

E. J. McNulty, superintendent of the Aztec Turquoise company, came in from Los Angeles to attend the session of the district court as a witness in the Shelborn burglary case.

Work on the Gem mill is progressing rapidly and it is expected that it will be put in commission soon. The mill is designed to handle about forty tons of ore daily.

Carl G. Krook, democratic candidate for the legislature, is in Kingman getting acquainted with his constituency.

Charles H. Burlock and R. Fenton, of San Diego, are looking at M. Burlock's mines in San Francisco district.

J. O. Boyle and wife, of St. Louis, is visiting with Mr. Boyle's brother at the Vanderbilt mine.

The Yuma Sentinel states that it is in favor of joint statehood, but that it is no bolter and therefore will support Cooper for delegate to congress. It says that every man claiming to be a republican and supporting Ainsworth for delegate to congress is a bolter. Apache county republicans, of the joint state craze, want it understood that they are republicans and not bolters. From this it would appear that the men who support Ainsworth are bolters from the party and that hereafter they will have to take a back seat when party business is being transacted.

The tax levy in Bernalillo county, New Mexico, is six dollars on the one hundred dollars. The city of Albuquerque also has a tax rate of two dollars on the one hundred, making the total rate for that city of eight dollars on the one hundred. How would Mohave county people like to share in this tax rate?

The jointure people claim that the corporations are opposed to joint statehood, but when it is reported that a corporation is favoring the jointure cause every supporter of the Ainsworth class screams with joy.

LOST—Somewhere between Yucca and the molybdenite mines, near Cedar, pair gold mounted toric lenze spectacles. Finder will be suitably rewarded by sending same to the MINER office.

If you are in need of a pair of men's shoes, go to The Emporium and look at their line of 3.50\$ and 4\$ shoes which they are selling at 2.70\$.

Republican Ticket.

- For Delegate to Congress—
Wm. F. Cooper
of Pima County
- For Delegate to the Constitutional Con-
ventional—
W. H. TAGGART
- For Legislative Council—
HENRY ROBERTS
- For House Representatives—
THEO. P. WILSON
- For Sheriff—

- For District Attorney—
Wm. G. BLAKELY
- For Treasurer—
J. N. COHENOUR
- For Recorder—
W. H. ROGERS
- For Probate Judge—
JOHN HAMILTON
- For Supervisor—
GEORGE A. BONELLI

Second Garden of the Gods.

Not only is the "Sandy" Harris camp, some three miles south of the Techaticup mine at Eldorado Canyon, becoming famous as a producer of high-grade ore, but it is also fast becoming renowned as the location of a natural garden, similar to that found near Colorado Springs.

This "Garden of the Gods" is not large, but what there is of it is very fantastic. Great oddly shaped pillars of rock rise to a height of from one to two hundred feet. One pillar, known as the "Balancing Rock," is capped with a huge block of stone of different formation, which is fully ten feet square.—Nevada Searchlight.

Henry Roberts has been placed on the republican ticket, vice W. B. Ridenour, resigned. Mr. Roberts is well known in this county, having had large cattle interests in the Colorado river section. At present he is a resident of Goldroads.

George H. Sullivan has gone to Los Angeles, where his wife is quite ill.

Armour Star hams at Kingman Meat Market. Best hams in the American market.
