Entered at the Kingman Postoffice as Second Class Mail.

Henry Lovin and daughter Fannie returned from Los Angeles yesterday.

There was born to the wife of Frank H. Imus, last Monday afternoon, a baby boy.

Joe Morgan, jr., left yesterday for Turlock, Cal., where he will try his hand at farming.

Mrs. J. R. Livingston and Miss Inez Strains departed yesterday for their old home in Indiana.

J. W. Porter and wife have gone to the Wallapai mountains for a short camping trip.

I. M. George and the boys joined Mrs. George at the seashore last Saturday evening.

Mr. and Mrs. Ora Gruninger and the baby have returned from their outing at the seashore.

John Boyle, jr., returned from Long Beach Wednesday last where he had been visiting with his family.

Mrs. B. Glasgow and boys have returned from a trip to the old home in Southern California.

C. W. Herndon, County Attorney, has returned from the coast, where he spent the past several weeks with his mother.

Mrs. Frank Graham, of Wenden, daughter-in-law of Mr. and Mrs. J. P. Gideon, arrived in Kingman Tuesday last for a ten days' visit.

F. W. Freeman, a prominent banker of Topeka, Kansas, is in Kingman today in the interest of the Stockton Hill Mining company.

J. D. Jordan has returned from the Murietta Springs where he took the mud baths. He is glad to report that he is greatly improved.

Miss Lena Tast departed last evening to Los Angeles, where she will join her sister, Mrs. John Boyle, who is sojourning on the coast.

J. W. Thompson this week brought in sixty head of beef cattle from his Cooro Springs range, which were disposed of to the Kingman market.

Mrs. J. C. Chambers and children and Mrs. Joe Steed have returned from a two months outing. While gone they visited the Yellowstone Park and friends and relatives in several eastern states.

Walter Starkey has purchased some water holes north of Kingman and is building a ranch house and preparing to enter the stock business on a large scale. The young man has been interested with his mother in the business since childhood.

W. W. Gates and a number of Santa Fe employes have entered into an agreement for the sinking of a well to test the field southwest of Needles for oil. The country looks good and it is more than probable that oil exists in that section, as well as along the Colorado river.

The Misses Beuna Hilty, Gladys St Charles, Mable VanMarter, and Olive Fancher and Johnnie Mulligan and Clifford Brooks, departed Sunday last for Flagstaff, where they will enter the Northern Normal school. Miss Josie Ayers came over from Goldroad Monday and departed to the same place.

Carr W. Taylor, a well known lawyer of Topeka, Kansas, was a visitor in Kingman yesterday, having come here to look after an important case that is to come up in the Federal court of Kansas. The cause grew out of the death of engineer C. E. Denvers in a boiler explosion at Franconia two years ago.

C. C. Welsh's big grading outfit will be at Chloride Monday to commence the grading for the extension of the Tennessee and Rainbow mines. It is understood that the work will be completed and trains running to the mines within sixty days. With the completion of the line the Tennessee and Rainbow mines will begin the shipping of a big tonnage of ore.

Making Trip Down Colorado.

This week Frank Culbertson shipped a rowboat from Kingman to Pierce's Ferry, where it was launched on the waters of the Colorado river, to be used in making a trip through Iceberg, Boulder and Black Canyons, finally ending the voyage at Needles. Mr. Culbertson, accompanied by M. W. Musgrove and M. G. Wagner, made the trip to the river in Wagner's automobile, the two latter gentlemen returning to Kingman Thursday last. Mr. Culbertson was to make the trip with one companion for the purpose of making a thorough examination of various points for power purposes and to get a general idea of the possibilities of the river as a power generator. The trip by auto to the river was over some very bad road, but returning only a little over seven hours was consumed, one hour having been put in working the road, the distance being about 85 miles.

Conical Mill for Southwestern Copper.

This week the new auto truck of the Arizona Southwestern Copper company brought in from the Frisco mill a conical ball mill, which was shipped to Yucca, whence it is to be hauled out to the mines at Copperville. The mill weighed a little over five tons and was hauled over the heavy grade at Union Pass and Coyote Hill without trouble. It is the impression that the new truck will be found the proper thing for the haulage between the railroad and the mines.

Socialists Select Candidates.

At a meeting of the executive committee of the socialist party of Arizona, held in Phenix last Sunday, A. Charles Smith, of Douglas, was selected to make the race for congress. Ed. Simonton, of Globe; J. L. Brooks, of Bisbee; and Paul E. White, of Chloride, were selected as presidential electors. Smith was the socialist candidate at the last election for congressional honors.

The boy locally known as Johnnie Powse, who was shot by a companion nearly a month ago, is getting along nicely at the Indian School, at Valentine, where he was taken the day after the shooting. The little fellow had been shot through the head, the bullet entering on the right side, above the ear, and passing, so it is thought, through the brain and lodging in the left side of the skull. The right arm is paralyzed and the right leg is partly paralyzed. The boy is able to sit up and recognizes everybody, but appears to be unable to talk. It is the intention to take him to Los Angeles and have an X-Ray examination made of the head to ascertain the feasibility of removing the bullet and possibly restore him to normal health. The government defrays the expense of treatment, the lad being a student at the school.

A few days ago at Seligman Pedro Garcia plunged a dagger into the neck of Francisco Valesco, severing the jugular vein and causing instant death. The two men were intoxicated and became involved in a quarrel over some money, when without warning Garcia drew his knife and made a lunge at Valesco, who threw up his hand to protect himself and the blade passed through the hand pinning it to his neck. The poor victim fell to the ground and expired. Garcia is in jail at Prescott. Seligman is getting an unenviable reputation from the many murders and assaults that have been committed there the past few years, and the big double tracking gangs of Mexicans are not improving the tone of the place.

J. T. Wallace met with a peculiar accident last Saturday, at Antares, while unloading machinery. He was using a lever to pry up a heavy casting, standing close to the edge of the car, when the bar slipped and he fell heavily to the ground, striking one leg on a nail protruding from a piece of wood used as a chock. The nail passed entirely through the fleshy part of the leg above the knee and was removed with effort. Mr. Wallace came to Kingman and was treated by Dr. Tilton. He suffered but slight pain and expects no unpleasant results, the nail having been perfectly clean.

Mrs. O. B. Elliott, of Little Meadows, was a Kingman visitor this week.

Registration is not rapid in this county, only 153 names having gone upon the great register for Kingman. This is not nearly one half of the actual number that are entitled to vote at the primaries. In the county the vote ought to be about one thousand, which will be increased at the general election in November.

Judge Carl G. Krook and Dr. W. H. Bucher departed to Los Angeles last Monday morning on the flyer and will remain about ten days. Judge Krook has been appointed one of the delegates to the session of the American Bar Association, which meets at Milwaukee, Gov. Hunt also naming E. E. Ellinwood and Judge Frank Duffy as the other members of the delegation.

It is reported in Kingman that Mrs. C. M. Farlee is quite ill at her home in Peach Springs. Dr. Tilton and Mrs. M. E. Cohenour went up to Peach Springs last night to give her medical attention and care. Mrs. Farlee has lived at Peach Springs about a quarter of a century, having been engaged in the cattle business during most of that time. She is an aunt of Gov. Curry, of New Mexico, who was one of the Rough Riders under Roosevelt.

Moving Towns to Make Way for Lake Superior Mines.

One of the richest country districts in the world is the township of Stuntz, Mesabi range. It is approximately 12 miles square, and includes all of the big mines in the Hibbing field. The value of the township is more than 100,000,000\$. It has been reported that because of mining necessities the U. S. Steel Corporation contemplates the removal of the village of Hibbing to a new site.

It may be stated that while this wholesale transfer of the metropolis of the range will eventually take place, it is not likely that plans for undertaking will be taken up for more than a decade to come. Excepting in a very small area, the mining activities of the Steel Corporation will not seriously encroach upon the improved portions of the town for the next 15 years, and possibly longer, notwithstanding that some streets even now front upon yawning pits. It is well known that Hibbing is underlaid with ore, controlled by the Steel Corporation, and that some day the village will have to give way to the onslaughts of the miner. The only incentive to an early removal, perhaps, could be that the town is growing, and the job will be larger and more expensive with the lapse of time.

The transfer of Hibbing to a new location would not be without precedent on the Mesabi. A goodly portion of Eveleth was shifted to make room for the development of Steel Corporation's Spruce mine, while the site of the former village of Sparta is now an open pit in which steam shovels are at work. The removal of Hibbing will be a tremendous task, for while a village in name, the community is a busy little city with 10,000 people, hundreds of residences, scores of fine business blocks and up-to-date public conveniences.—Los Angeles Mining Review.

Dr. Paul McIntosh will return from his vacation in the latter part of the week of the 19th.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

Advertised Letters

The following letters remain unclaimed for in the Postoffice at Kingman, Ariz., for the week ending August 17, 1912. If not called for within two weeks will be sent to the Dead Letter office, Washington, D. C.

The Aracy Engineering Co. 2, Jas. Aubrey, Miss Ruth Dye, Chas. Hoyott 5, Mrs. Walkers Lakers Hant, Geo. Hillmans, Samuel Homer, Geo. Klingner, Chas. Kibby, J. E. Lindholm, E. L. Murray, Mrs. George B. McLain, Aug. Rudolf, Mrs. B. J. Scott, Mrs. Arthur Smith, Berlee Wray, Chas. Warren, Charley Weaver, A. E. Whitlock 2, Raymen Rodriguez, Juan Aiala, Lizardo Padillo, Perancio Sendejas, Ramon Sendejas, Ernest Rorke, Frank P. Lee, Clarence E. Lacey, Oscar Lond.

Parties calling for letters please say advertised.
J. N. COHENOUR,
Postmaster.

WHEN YOU'RE SICK

You go to the best physician you can find—or you OUGHT to. When you get a prescription from your physician, you take it to the druggist who's most competent to fill it—or you OUGHT to. You should be just as careful in selecting your Druggist as you are in selecting your Physician.

WE KNOW HOW TO FILL PRESCRIPTIONS---

Years of experience in drug stores where hundreds of prescriptions are filled daily ought to make us Competent.

J. E. Perry has gone to Los Angeles, where he will join his family.

The big derrick for the railroad well at Kingman has been completed and the work of spudding in will be commenced the first of the week. This well is to be cased and the hole driven to the granite, where it is the general belief a flow of water may be obtained, or at least that the water will rise almost to the surface. Practically all the wells in town have struck a rise as soon as the water was struck and the pressure above released.

Mr. W. S. Gonsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.
