STRIKE NEWS.

(Continued from Page One.)

industry is owned by the coal barons of other states. This will necessitate the subservient federal courts showing that the mine owners had conspired against themselves.

Every step taken by the mine owners continues to create greater unity of action among the workers, politically and industrially. During the truce that has now prevailed since the visit here of the socialist party investigating committee, consisting of Eugene V. Debs, Victor L. Berger and Adolph Germer, considerable attention has been given to the reorganization of the socialist party forces. Meetings have been held, new locals organized and disorganized locals re-established.

This work has been more definitely planned and a program for the future arranged with the arrival in the state of George H. Goebel of New Jersey, executive committeeman of the socialist party.

"Circumstances have put the mine owners and miners at each others' throats," says Goebel. "The capitalist wants more profits and the miner wants more wages.

"The capitalist cannot increase his profits without decreasing wages, and the worker cannot get better wages without cutting the profits of the capitalists. The present struggle is teaching the miners that the only solution of the present trouble is a change of system."

G. F. Parsons, of Hansford, one of the miners who went to prison during the struggle and was only recently released, has been secured by the national organization to tour the trouble zone, address meetings and organize locals. The Kanawha county socialist party will hold a reorganization meeting on July 1 when more definite plans for carrying on the sixteen months' campaign for the capture of this congressional district in the fall of 1914 will be made.

If blinded plutocracy ever carried on a more consistent campaign to bring about its own downfall than is the case at the present time in West Virginia, that instance has not yet been heard of. The United Mine Workers and the socialist party are daily getting into a better position to take advantage of this blindness. It cannot result otherwise than the complete winning of the entire state ticket for the working class in the very near future.

DALLAS, TEX., WAITERS SCORE BIG VICTORY

DALLAS, Tex., June 26.—The greatest labor victory won in recent years in Dallas was consummated when the 200 striking waiters returned to work after a ten days' strike with their main demand granted.

When the strike was called the waiters had twenty-eight union houses in the city, and the cards were taken out of twenty-two of these. Now that the association houses have signed up there are thirty-five union restaurants in the city. The membership has been raised from about 20 0 to 300.

The men will work only six days per week where they formerly worked seven, and they will draw the same pay.

AKRON OFFICIALS SERVE CAPITALISTS

AKRON, O., June 19.—The police pension board unanimously voted to accept the \$2,000 offered by the Goodrich company in appreciation of the work of the police during the rubber strike. Mayor Rockwell, who received the check about a month ago, had accepted the money, but it was hoped that when the pension board came to pass on the question it would be returned, reports The People, of Akron, O.

CHARLESTON, W. Va., July 1.—Several hundred miners joined the strikers today, according to reports from Paint and Cabin Creek districts. A strike of 15,000 miners in the New River field was averted last night by an agreement which covers a period of two years and provides a nine-hour day, the right to purchase supplies where the miners please, and a semi-monthly pay day.

SPECIAL TO THE CALL.

PERTH AMBOY, N. J., June 24.—More than 2,000 men employed in the terra cotta industry in this city walked out today, demanding an increase in wages, better working conditions and recognition of the union.

DETROIT, Mich., June 21.—The unexpected has happened. Detroit, the city of "homes," "contentment" and "prosperity" has awakened from its slumbers and the slaves in the great automobile industry are in revolt. For the past two months, Fellow Workers Matilda Rabinowitz and Jack Walsh have been carrying on continuous agitation in front of the various automobile plants of the city, and the workers were taught the slogan, "An injury to one is the concern of all."

The Paterson silk workers' strike is now in its nineteenth week. The bosses maintain that the strike was instigated by irresponsible people and kept up by unscrupulous agitators; that wages are all that could be desired, and that the demands so far as wages are concerned are wholly unjustified. The owners refuse to deal with the workers while they remain members of revolutionary I. W. W., which seems to them an outlaw organization.

Below is a portion of the New Jersey thirty-fifth annual report of the Bureau of Statistics of Labor and Industries for 1913, which furnish the basis for the strike. Number of employes, 29,347, 3.2 per cent of which were children under 16 years of age.

One-fifth of the men engaged in the board and silk industry earn less than \$445 yearly; the earnings of almost half of the men are below \$600; one-quarter of the men receive from \$600 to \$750, and only one-third of the men receive more than \$741 yearly.

These figures obviously show that more than one-third of the women 16 years and over earn less than \$346 a year; the yearly earnings of nearly two-thirds fall below \$440; the earnings of almost one-fifth of all women employed in the industry are between \$440 and \$593, and only a little more than one-fifth of the women earn more than \$593 yearly.

From all reliable investigations carried on throughout the country this wage is insufficient to maintain a normal physical existence.

Report of the Intercollegiate Socialist society.

The report of the work of the Intercollegiate Socialist society for the college season, 1912-13, just compiled by Harry W. Laidler, the organizing secretary, indicates a splendid progress in all lines of activity. The number of undergraduate chapters for the study of socialism in the colleges increased during the year from 49 to 64, and alumni chapters from 6 to 11, while most of the already existing chapters were greatly strengthened. While the net increase of college chapters was 15, some 23 college chapters were formed all told.

Thirteen, or more than one-half of those added, were in the Middle West. Three were formed among the Ohio colleges, and three in Indiana. Four were added in the Middle Atlantic states, three in the New England states, two in the South and one on the Pacific coast. The colleges organized since last November are: Massachusetts Institute of Technology, Simmons and the American International College in New England, Adelphi, Cooper Union, Pennsylvania State and Washington-Jefferson in the Middle Atlantic states; University of Indiana, Valparaiso, Purdue, Miami, Cincinnati, Denison, University of Illinois, Colorado, Hamline, Kansas State Agricultural in the Middle West; George Washington and the University of North Carolina in the South and Southern California Law School on the Pacific coast.

The total number of chapters now in existence are distributed as follows: Middle West, 23; Middle Atlantic states, 21; New England states, 13; Pacific coast, 3; South, 3; Canada, 1. New alumni chapters sprang up in Chicago, Cleveland, Columbus, Los Angeles, Missoula, Pittsburg and St. Louis.

The society published for the first time its own magazine, the Intercollegiate Socialist, which gives promise of being of splendid assistance to the movement in the colleges and elsewhere, it distributed some 50,000 pamphlets on socialism to interested collegians, and it arranged directly and indirectly some hundreds of lectures on socialism in our colleges. The organizing secretary alone visited more than thirty colleges and spoke before some 4,000 students in college halls.

Ex-Congressman Victor L. Berger conducted a tour of the colleges in New England, and addressed many hundreds of attentive students and members of the faculty wherever he went. Alexander Irvine and Bouck White made similar tours, while many other well-known men and women in the socialist movement, including Mrs. Florence Kelley, Emil Seidel, Dr. Algonon Crapsey, Prof. Ellen Hayes, Prof. Thos. C. Hall, George R. Kirkpatrick, Dr. John C. Kennedy, James Maurer, Wm. English Walling, Dr. Pessie W. Hagan, Max Hayes, Rose Pastor Stokes and a host of others; spoke before the graduate and undergraduate chapters.

A more intimate relation than ever before was established between the University socialists in this country and those of Great Britain, and further efforts to co-ordinate the work of the society in the colleges of the various European countries are being made.

A most encouraging feature of the year's work has been the assistance given by the economic professors in many of the colleges, and by student organizations. On the other hand the National Association of Manufacturers has expressed no slight degree of alarm at the growth of the movement. In order more effectively to reach

the colleges in every part of the country an auxiliary committee of the society has already been formed in the New England states, and others will probably follow in the Middle West and on the Pacific coast. It is hoped that these local committees may be able ultimately to send out organizers, arrange sectional conventions, and assist in the work of raising funds for the society.

Much publicity both to the society and to the general movement has also been received as a result of the work of the year. The society will be glad to hear from all interested in its work. The headquarters is at 105 West 40th St., New York City.

Its recently elected officers and members of the executive committee are: President, J. G. Phelps Stokes; first vice-president, Mrs. Florence Kelley, second vice-president, Ernest Poole; treasurer, Morris Hillquit; secretary, Leroy Scott; organizing secretary, Harry W. Laidler, Miss M. G. Batchelder, Prof. Frank C. Doan, Miss Jessie W. Hughan, Ellis O. Jones, Nicholas Kelley, Paul Kennaday, Miss Mary R. Sanford, H. D. Sedgwick, Upton Sinclair, Miss Helen Phelps Stokes, Wm. English Walling and Buock White.

GIRL ARRESTED

San Francisco, June 26.—Sixteen-year-old Alleen Shaw of Eureka, who was arrested yesterday for masquerading in male attire, was led today from her cell in the city prison to the marriage altar by Joseph Strgel, the suitor whose search for a wife led to her arrest.

There is no disposition on the part of the police or anybody else to press the charges against her.

The reason the girl gave for wearing men's clothes was that as a girl she could not earn a living in San Francisco and be free from insult.

From Pittsburg comes the story of two young girls who committed suicide after spending a night with two detectives, who enticed the young girls from a dance hall. The detectives had been detailed to the dance hall to prevent indulgence in immoral dances. This is how America's womanhood and virtue is protected in our cities.
