Lux E Tenecris. "Nearer to thee," with dying lips he spoke.

The sacred words of Christian hope and cheer, As toward the Valley of the Shadow passed.

His calm, heroic soul that knew not fear.

"Thy will be done," the anxious watchers heard. The faint, lowwhisper in the silent room;

Earth's darkness merging fast into the dawn, Eternal Day for Night of sombre gloom.

"It is God's will," as he had lived he died— Statesman and soldier, fearing not to hear.

Fate's heavy cross; while swift from sea to sea Rolled the deep accents of a nation's prayer.

"Dust to dust;" in solemn state he lies Who bowed to Death, yet won a deathless name,

And wears in triumph on his marble brow The martyr's crown, the hero's wreath of fame.

Czolgosz will soon feel badly shocked for his awful crime.

"Tacoma coming to the front."— Ledger. Yes, and the present century is coming to an end, but it is coming awfully slow.

Schley is not making much headway in vindicating himself and the chances are that his presidential boomlet will die a bornir'.

Blind pigs continue to run at large in and about the parks of Lake Washington. Breaking the law seems to come perfectly natural to some people.

Seattle may be yearning for the moon, as is charged by the Tacoma Ledger, but be that as it will or may, Seattle is not yearning for Tacoma's peculiar kind of prosperity.

Americanism has completely knocked the wind out of the yellow fever in Cuba, for in the month of July there were but four cases reported in Havana, which has a population of 256,777, which is unprecedented in the history of the city.

Theodore Roosevelt is not the twenty-sixth president of the United States, as has been erroneously published, both in this and other papers of the state, but instead is the twenty-fifth president of the United States.

The Socialist, a paper published in this city representing a doctrine which has been frequently classed as a second cousin to anarchism, put on a peculiar kind of mourning when President McKinley died, a kind of mourning that impressed one as being a good deal more mockery than mourning.

If other judges would propound the same questions to foreigners who desired to become citizens of the United States as did Judge Tallman one day this week, when he demanded to know of the three would-be citizens what their feelings as to anarchy were, there would be fewer anarchists in this country. The question may not be strictly in the bounds of the law, but it is strictly in the bounds of American citizenship, and if there is no law covering this question then until there is a law made to do so judges will be highly commended by the citizens of this country for acting as though there was a law prohibiting an anarchist from becoming a citizen of this country.

ROOSEVELT PROVERBS. Greatness has certainly come to President Roosevelt from an official standpoint, but the man seems naturally great, and the following paragraphs taken from speeches that have been made by him in the past will serve as a most excellent verification of this assertion:

"If we are to be a really great people we must strive in good faith to play a great part in the world. All that we can determine for ourselves is whether we shall meet them well or ill."

"The army and the navy are the sword and shield which this nation must carry if she is to do her duty among the nations of the earth—if she is not to stand merely as the China of the western hemisphere."

The Domestic and Bedding Store Has Better News Than Ever

The linens, domestic and made-up bedding are naturally a goodly portion of the Buyer's Sale. Yet we have been surprised ourselves to see how rapidly the public absorb the immense lots of merchandise of this department. We no sooner get a big purchase of linens, domestics and bedding here than the report comes to the buyer that the goods are nearly exhausted and more must be quickly had.

All this goes to show that the people appreciate our domestic and bedding store and patronize it very freely.

- Comforts: Covered with Oriental prints and lined with turkey red calico, worth 75c, each \$1.00. Full size Comforts, worth 90c, each \$1.25. Full size, extra heavy, covered with fast colored prints, worth 1.25, each \$1.75.

DRESS GOODS—Many Important Purchases Included in this List of Prices

Our dress goods buyer, during his trip to New York and the East, made some very important purchases of fall dress goods, outside of buying for regular stock. This enables us to quote under prices at the beginning of the season and at the same time make a fair profit on our dress fabrics. So if you find these quotations a great deal lower than usual you will know it is some maker's loss or wholesaler's, and not ours, that causes the difference to you.

- COLORED DRESS FABRICS: 38-inch All Wool Covert Dress Goods, gray, brown green, garnet and blue, 50c quality \$3.90. 44-inch All Wool Fine Granite Dress Goods, in ten colors, \$1.00 quality \$1.50.

ALL CARS TRANSFER TO THE BONMARCHÉ MAIL ORDER FILLED

"We shall do all in our power to destroy anything that upholds monopoly; that artificially lowers wages; that artificially increases prices or puts it in the hands of one man, or one set of men, to become absolute in any branch of business."

"As for those in our own country who encourage the foe we can afford contemptuously to disregard them; but it must be remembered that their utterances are saved from being treasonable merely from the fact that they are despicable."

"I have scant patience with those who fear to undertake the task of governing the Philippines and who openly avow that they do fear to undertake it. But I have scant patience with those who make a pretense of humanitarianism to hide and cover their timidity and who cant about 'liberty' and the 'consent of the governed' in order to excuse themselves for their unwillingness to play the part of men."

"It is worse than idle to say that we have no duty to perform and can leave to their fates the islands we have conquered. Such a course would be the course of infamy. It would be followed at once by the utter chaos in the wretched islands themselves. Some stronger, manlier power would have to step in and do the work, and we would have shown ourselves weaklings unable to carry to successful completion the labors that great and high spiritual nations are eager to undertake."

"Read the Congressional Record. Find out the senators and congressmen who opposed the grants for building the new war ships, who opposed the purchase of armor, without which the ships were worthless, who opposed any adequate maintenance for the navy department and strove to cut down the number of men necessary to man our fleets. The men who did these things were one and all working to bring disaster on the country."

ITEMS OF INTERETS: More poems have been written about the river Decein Scotland than any other stream in the world. Japan is furnishing the Canadian pulp makers with wood for that purpose.

The value of the portraits in the national gallery of London is about \$6,250,000. At Delhi in India is to be found the largest wrought iron pillar in the world; it is 60 feet high and weighs seventeen tons.

The population of Philadelphia according to the last census is 1,293,691 and the voting population of the same city is 337,625. During the year 1900 there were \$30,000,000 worth of diamonds imported into this country and the outlook for the present year promises an increase over this amount.

The following five cities in this country each have a population of more than 100,000 and less than 100,000; St. Joseph, Omaha, Los Angeles, Memphis and Scranton. In order to maintain a supremacy over the Island of Sumatra it has cost the government of Holland since 1880, \$200,000,000. The citizens of the island are struggling for absolute freedom.

The United States treasury department destroys annually about \$5,000,000 worth of paper money. This money is reduced to pulp from which wheels of railroad trains are manufactured. If eighty-five men would work continuously from now until 1947, it would require every minute of their time, so it has been estimated, to unearth the entire ruins of the ancient city of Pompeii.

During the last century the population of London, England, multiplied six fold. Her population is now 6,250,000 and is compressed within a space of 130,000 acres, or about 2,000 square miles. In Hawaii there are 23,273 Protestants, 26,863 Catholics, 4,868 Mormons (polygamy is forbidden), 44,306 of Eastern creeds and 20,192 who declined to state their faith or possessed none.

It is estimated that the total number of copies of newspapers printed throughout the world is 12,000,000,000. To print these it is said to require 781,260 tons of paper. The oldest newspaper of the world is said to be the Kin-Pau, in Peking, which has been published continuously for over 1,000 years.

Diamond Ice is the best—lasts the longest. Telephone Main 1059. Diamond Ice and Storage Co. Corner Western avenue and Union Street.

Dry wood and kindling delivered to your home. Lloyd & Phillips, 137 Seventh avenue, Telephone Green 1346.
