The Fortune Brewing Company has added to its large plant a magnificent bottling establishment. The new works adjoin the brewery on Van Buren street, west of Desplains, and are fitted up with the latest and most improved machinery. Their capacity is very great, and the quality of the goods turned out of the very best. One of the features of the plant is the arrangement for cooling the beer. Not only has the latest cooling machinery been introduced, but the building in which the bottling is done is adjoined by another building in which freezing apparatus is placed. This keeps the temperature of the very walls at freezing point all the time. The Fortune Brewery produces a beer which is famous the world over. Now that its bottling works are completed, no residence should be without it. Telephone "Monroe 40."

Count Ademar says that Count Boni is not "the real thing" in the way of a Castellane. Can it be that Miss Anna Gould was "buncoed" not only as to the worth of her husband, but as to the degree of his alleged nobility? "What is the price of Dobbin's Electric Soap?" "Five cents a bar, full size, just reduced from ten, and your choice of 27 25-cent books sent free, for each 3 wrappers and FIVE CENTS FOR POSTAGE. Hasn't been less than ten cents for 33 years." "Why, that's the price of common brown soap I can't afford to buy any other soap after this. Send me a box of Dobbin's Electric."
