BRIDGEPORT STENCHES

Why Does the Chicago Health Department Overlook "Infernal" Soap and Rendering Works on the South Side That Are Said to Create Stinks?

The Chicago Eagle is in receipt of complaints from south side people about the awful smell said to come from some alleged soap factories and rendering works in Bridgeport, whose influence is said to be so great with the health and sanitary departments that they can stink as much as they please. Property owners complain that these stenches pollute the air, lower property values and, what is of more consequence, endanger health. Are not the lives of people in Bridgeport and vicinity worthy of official notice? Summer is here and the breezes waft these smells to all parts of the city. Making this kind of perfumery is unlawful. Why is the law not enforced? The time was when Chicago stood for the Bridgeport zephyrs with patient suffering. That time is past and a reckoning awaits the officials who tolerate such a nuisance now at the hands of outraged public opinion and injured public nostrils.

STUCKART NOT TO BLAME

High Taxes Are Work of Assessors and Not of County Treasurer. Henry Stuckart, county treasurer, objects to being blamed for the increase in taxes. He announced that he is going to tack signs on the wall in his office so that citizens who visit the county treasurer's office to pay their taxes will know that the members of the board of assessors are to blame for the increased taxes and not the county treasurer. Charles Hasterlik, the well known brewer and president of the Best Brewing Company, has a host of friends in the business world. Julius Oswald, the well known barber at 154 West Randolph street, is very popular with the city hall boys.

CIVIL SERVICE BUNK

How Many Examinations in Chicago Are Framed Up for Favorites to Shut Out Ordinary Citizens?

The People of Chicago demand a thorough investigation of the Civil Service Commission's department of the city government. They demand an investigation that will go back for years and unearth the treacherous and illegal treatment accorded to honest citizens for the benefit of a chosen few. They demand an investigation into all of the examinations that have been held in order that the public may be informed as to how many, if any, of them were on the square. They demand an investigation of the numerous examinations held for the benefit of particular persons, where questions were asked which could only be answered by the persons whose appointment in the civil service was evidently arranged for in advance. The people are paying \$100,000 a year for the administration of the civil service law in the city government. They are paying \$100,000 a year for a roosting place for men to make out "psychological" examination papers. In a recent examination for stenographers the easiest word handed out for them to typewrite quickly was "elemosynary." Is any one foolish enough to suppose that this examination was on the square and that these hard words were not asked to keep out people who were not of the favored class? New departments, entirely unnecessary, have been created in the civil service for pet faddists and high-brow loafers. The taxpayers who pay the freight would not be permitted to pass an examination for dog catcher. Poor men, devoid of education, and with starving families, who are looking for work with a pick and shovel as day laborers, have to go through a civil service examination that would shock the Sultan of Turkey. A daily newspaper printed the following about the absurd questions asked of these poor laboring men by these high-brow reformers who control the aristocracy of office holders in Chicago: "Ten thousand men who want jobs in the streets, sewers and small parks are being put through an examination by the labor bureau of the Civil Service Commission. Here are some questions that apply: "How much more does a wheelbarrow of dirt weigh in Jackson Park than on the moon? "What amount of street sweepings can be put into a curb box three feet long, two feet wide and fifteen inches deep? "What is the superficial area of Madison street from State street to the river? "How long would it take a gang of 200 men to shovel a ten-inch snowfall off it? How much could the time be increased? "If a hod of brick be dropped from the top of a building 200 feet high with what velocity will it strike a street sweeper in the alley? "But the jobs that have been created for intellectual giants are the ones that take the cake. You can search all of the dictionaries and encyclopedias in vain for words and titles that can beat for utter obsolescence some of the productions of the Chicago Civil Service Commission. The Official Bulletin of the Chicago Civil Service Commission for April 6, 1915, contained the following under the head of "Examinations ordered." Read it carefully and you will learn the duties of an "Industrial Psychologist", for which you will have to pay out \$2,100 every year out of your hard earned money: "Industrial Psychologist, Class H, Grade IV, \$1,740-2,100, April 7. "Subjects of Examination: Special arithmetic 1, 2, experience 3, report 1. "Duties: Makes thorough mental examination and partial physical examination of individuals, using modern experimental material; makes inspection of the subject's capacity as to memory, imagination, retention, association and their psychological attributes; organizes intensive system of experimental research to determine value of these tests; makes analyses of mental and physical units and processes involved in manufacture of certain articles in the institution; aids in placing inmates in most suitable industries; co-operates with outside industries for placing of ex-convicts, and checks up on work they do after leaving the institution; assists superintendent in formation and abolition of industries." If this doesn't take the cake, our ignorance is more profound than we thought it was.

SOME OF THE JOBS TO BE FILLED

Table with 3 columns: Office, No. of Jobs, Annual Salaries. Includes Sanitary district (648 jobs, \$1,056,500), Board of assessors (79 jobs, 203,000), Board of review (36 jobs, 112,000), Recorder (223 jobs, 395,250), Clerk of Circuit Court (62 jobs, 95,900), Clerk of Superior Ct. (44 jobs, 71,660), Coroner (38 jobs, 81,029), State's attorney (91 jobs, 245,600). Total: 1,221 jobs, \$2,261,359.

Oscar E. Hewitt writes as follows in the Chicago Herald of September 13: A large part of the fierce fighting today relates to jobs. It is the plums that attract the interest of the large and small politicians to most of the county offices. The practical politician knows what he is working for. But for the layman, it may be news to know that the county offices involved in the primaries today control 1,221 regular jobs and spend annually on extra jobs about \$197,000. The county offices, for which candidates will be selected today, have an annual pay roll of \$2,261,300. This sum is distributed among the various offices in the tabulation below, which also shows the number of regular monthly jobs in each as follows: [Table content]

PROTECT THE CHILDREN

More children have been killed in eighteen months in the districts where factories, homes and shops are all jumbled up than in all other parts of Chicago together. This fact appears in a statement presented to a committee composed of Aldermen McCormick, Buck, Walker and Werner by Ald. Merriam showing why the city council should be authorized by the legislature to create building districts or zones, as provided in a bill he introduced last May for recommendation by the council to the next general assembly. "Many streets in the congested neighborhoods of our city are used as playgrounds for the children," says Ald. Merriam's statement. "This is especially true in the immediate vicinity of a public school. The coming of business establishments and factories into such neighborhoods invariably brings more and heavier vehicles and increases the danger to the children from accidents. "The number of children killed while playing on Chicago streets is appalling. If we are to make our streets safe for our children and reduce the number of little ones who meet death on the public thoroughfares of Chicago, we must segregate our factories and our shops and our stores and keep them away from our homes. Business and industrial neighborhoods must be kept separate from residential districts. "In addition to a much desired reduction in deaths and injuries to children and grown people, the creation of business, factory and home zones would bring about other important benefits. It will protect against depreciation of property values both the home owner and the investor. It would materially lessen fire hazards and bring smaller insurance rates. It would add to the enjoyment of our home life by ridding the places where we live of the nuisances of clouds of smoke belching from factories next door, accompanied by the rattling and clanking of machinery and the befouling of the air by foul gases. With a general improvement of home conditions will come also a more economical and orderly industrial development of Chicago."

ANDREW J. RYAN, Leading Member of the Bar, Progressive Citizen and Former City Attorney.

"PULLS" RUN COURTS

Poor Man or Litigant Without Gang Influence Has No Chance for Justice in Chicago. "An honest litigant comes into court by the front door." This legend is printed on a large placard which occupies a conspicuous place in the chambers of Judge John Stelek in the garnishment and replevin branch of the Municipal Court. "I had that sign made and placed it there because I got weary of receiving many persons who call on me every day just before court convenes, offering various reasons for taking some action in cases which were to appear before me," said Judge Stelek. "For a time it seemed as though every case that came up was brought to my attention in that form. I tried to be diplomatic, but it didn't work, so I have put the sign there where all who come may see it. "I am trying to devise some way of conveying the same message to persons who insist on calling me over the telephone under the same circumstances. It would save me the trouble of telling people who ought to know better than to call me that a judge with conscience and self-respect tries all his cases in open court." Tom N. Donnelly would make a good Mayor. He is popular with everybody. Frank J. Hogan has made a great record as attorney for the Fire Department. He is always looking after the interest of the people. When you need envelopes phone Heco, Superior 7100. You can't fail to be satisfied. William E. Dever has made a splendid record on the Superior bench and has the confidence and respect of the people. Louis Jolissaint, of 1255 Wells street, has built up a great business with his Jersey Brand Cheese. The cheese is so good that it recommends itself wherever tried. Connie Hayes, the well known manager of the Atlas Laundry, at 1032 Wrightwood avenue, is a very popular Democrat, who is often talked of for public office by his friends. Thomas F. Keeley is in the front rank of every movement for the betterment of Chicago and the brightening of its future. G. A. Schillinger, the popular head of the Elks' building committee, is doing great work in paving the way for a grand new Elks' building on Washington street. For fine beer, bottled or draught, call up the Home Brewery. Telephone Humboldt 9310.—Adv.

J. J. Sheehan, of 1239 North State street, would make a good alderman for the 21st ward in the opinion of his many friends. The American Taxi & Auto Co.'s phones are Lincoln 4008 and Calumet 2798. Call them up if you want good service. Business men who phone Heco, Superior 7100, for envelopes, always get what they want. Robert E. McKee, president of the Atlas Linen Supply Company, 2537 Sheffield avenue, is one of the most popular men in Chicago among all classes of business men. The big concern of which he is the head is noted for its thorough and good work. S. Carl Whisler, the popular secretary of the Akron Tire & Vulcanizing Company, at 932 W. Jackson boulevard, reports a steady demand and increasing business for this great tire company. The "Mohawk Quality" tires, sold by this concern, have a high reputation and have given great and genuine satisfaction to all who have used them. They are open all night, at 932 Jackson boulevard, and guarantee quick service. Patrick Nolan, the veteran engineer, rendered services to the public schools which will be long remembered. William Cullen Burns is making a great success at the Bar.
