The enemies of the people are already reaching out to control the coming constitutional convention. This settles the new constitution. The people will not stand for Trust Domination of the basic law of the land.

The trust barons absolutely controlled the legislature at its late session. They were bold. They passed laws permitting the Butter Trust, Potato Trust, Vegetable Trust and Garden Trust.

To raise prices on the public and form any sort of a trust that they liked without any danger of prosecution. Talk about high handed measures! How is that for high? The public generally is indignant, but as one of the bosses said: What are you going to do about it? The new Constitution is going to be framed by the Trust Gang. And don't you forget it. They are making preparations now to do the job.

If the Aldermen would investigate the Department of Public Service they might discover one cause for the very high tax rate.
