BRUNDAGE WINS

Popular Attorney General Is Re-Nominated by a Majority of Nearly Twenty Five Thousand in Whole State

He Ran Far Ahead of His Ticket in Cook County Which Proves His Great Popularity

Attorney General Edward J. Brundage was re-nominated by a majority of 23,967 over Richard J. Barr. He was far ahead of all others on his ticket in Cook county.

Mr. Barr received a majority in Cook county of 37,773—the smallest majority of any candidate on the Thompson ticket.

Mr. Brundage received a majority of 61,740 in the state outside of Cook county.

Which gives Mr. Brundage the nomination by the handsome majority of 23,967.

Brundage made a wonderful run in Cook county—a great tribute to his popularity.

The Cook County Canvassing Board finished its labors on Monday and gave out the figures on the results.

The Republican primary was the hottest and the official figures in detail for all the offices voted for in Cook county follow:

MULLANEY ISSUE

Judicial Election Next Year May Hinge on Appointment of Gas Company Publicity Man as Jury Commissioner

Matter Will Be Thrashed Out at the Primary and Perhaps at the Polls If Necessary

Bernard J. Mullaney is President of the Jury Commissioners of Cook county.

Bernard J. Mullaney is also Publicity Manager for the Peoples Gas Light & Coke Company.

This simple coincidence it is said, threatens to be a factor in next June's Judicial election, according to City

telephone receiver to their ear. They blame it on poor service.

BRUNDAGE GIVES TENANTS HOPE OF NEW RENT LAWS

Action in behalf of tenants suffering from the high rent situation is possible at the next session of the legislature in January, according to an opinion given by Attorney General Brundage. Leaders of tenants' organizations at once prepared to open a campaign with members of the law-making body of the state.

"The general assembly might be able to pass some valid measure in mitigation of evils arising from what is commonly known as rent profiteering," said Mr. Brundage. "The effect of the anti-rent profiteering act of Wisconsin is practically to make the renting of property a public utility and to regulate and control it accordingly. No court so far as I can find, has passed upon this as yet."

A number of additional ouster proceedings were filed against tenants by landlords. Preparations to fight the cases were made by practically all of the defendants.

BLOATED BONDHOLDERS

No Wonder Telephone Employees Seem Careless and Sometimes Overbearing.

The Chicago Telephone Company on October 1, 1920, inclosed a statement with the telephone bills sent out on that date which reads as follows:

Practically every stockholder in the Bell System is either an employee or a subscriber. Over 24,000 Bell System employees already own stock in the American Telephone and Telegraph Company and over 46,000 employees are buying on easy payments an aggregate of over \$19,000,000 of stock.

CHICAGOANS KICK ON TELEPHONE TOLLS IN CHICAGO'S OUTLYING DISTRICTS

In the matter of telephone service Chicago is very provincial.

Provincial with a vengeance.

The Chicago Telephone Company serves a million of Chicago people who do not live within the municipal limits of Chicago.

They live in the provinces.

Forty thousand of them live in the province of Oak Park, which is only a third the distance from the main Chicago telephone exchange than a majority of the residents of Hyde Park and Lake (within the city limits) are.

Forty thousand more live in the province of Evanston.

950,000 more live in provinces like LaGrange, Riverside, Berwyn, Forest Park, Melrose Park, Maywood, Broadview, Bellwood, Harvey, West Hammond, Chicago Heights, Chicago Ridge, Oak Lawn, Evergreen Park, Mount Greenwood, Homewood, River Forest, Burr Oak, Riverdale, Cicero, Winnetka, Wilmette, Kenilworth, Hubbard Woods, Glen Ellyn and so on ad infinitum.

These provinces pay exchange rates to the Chicago Telephone Company, in addition to which they pay toll.

Now 95 per cent of the calls sent or received in the above named provinces and others not named are to or from Chicago.

And the toll bills mount up as everybody who has experienced them knows.

Everything in the provinces is

charged for—and such charges.

For instance, a party in Oak Park desired to talk to Garfield 8283. By mistake the party calling gave the wrong exchange and was given Kedzie 8283. The party at Kedzie 8283 promptly answered and told the party calling that they had the wrong exchange. Only a minutes time consumed.

Then the right exchange—Garfield 8283—was called for and the right number, strange to say, came to the phone at the first tap of the bell.

The Oak Park party received the following toll bill on October 1:

Kedzie 8283, toll 55 cents, war tax 10 cents.

Garfield 8283, toll 10 cents.

This is a plain, truthful sample of the kind of toll expenses Chicago people in the provinces pay to the Chicago Telephone Company.

All tolls for telephone within twenty miles of the Chicago City Hall, should be abolished.

There are progressive and intelligent men at the head of the Chicago Telephone Company and they can easily see that the abolition of tolls will popularize their service and greatly increase their receipts.

RE-ELECT CONGRESSMAN JAMES M'ANDREWS

No member of congress has done more work for the good of his constituents than Congressman James McAndrews of the Sixth Chicago district. He is able, affable and industrious and never overlooks the needs of his district. A great number of public spirited citizens and businessmen, headed by Former President Thomas A. Smyth of the Sanitary District of Chicago are working hard for McAndrews' re-election in the interest of the whole city.

23RD WARD DEMOCRATS RATIFY

A rousing meeting of the Democrats of the Twenty-third ward was held Monday night at Limits Hall under the auspices of the regular ward organization, at which the whole Democratic ticket was ratified.

Speeches were made by Judge Frank Johnston, Jr., John McGillen, Michael L. Igoe, candidate for state's attorney, Frank X. Busch and others.

FOR JUST TAXES

Property Owners Outside of the Loop Resent What They Call a Very Unjust Discrimination.

Home owners and owners of realty outside of the loop are loud in their protest against what they consider unfair taxation.

They are raised over 31 per cent on their valuation while the loop district escapes as usual with the same percentage as the little fellow.

All business is driven to the loop by every bit of city legislation.

Rents in the loop have been raised exorbitantly. The loop taxes on income property should be raised accordingly.

Several of the aldermen are feeding class hatred by abusing property owners.
