

CHAFFEE ORDERED OUT.

The American Army Must Withdraw From China's Capital.

A LEGATION GUARD TO REMAIN.

Meantime Alarming Reports Have Reached Berlin From Count Waldere, and It is Believed in London He Will Declare War on China.

Washington, Sept. 26.—The United States government yesterday took the first step toward the redemption of its pledge made to the Russian government Aug. 23 last, by cablegram instruction to Gen. Chaffee to reduce the American forces in China to the proportions of a legation guard. Nearly a month ago the Russian government was told through M. De Wollant, its charge here, that if the Russian forces and military were withdrawn from Pekin, "we shall give instructions to the commander of the American forces in China to withdraw our forces from Pekin, after due conference with the other commanders as to the time and manner of withdrawal." That time has now come, and yesterday's action marks the beginning of the disappearance of the American army from China, for, although some military force is to remain, it will not be of the character of an army, but will be rather of the nature of a civil guard. A small force will not be included in any military operations which may be conducted by the allied armies, and so will not fall subject to the direction of Field Marshal Count Von Waldere, the commander-in-chief.

Much thought has been given to the proper number of troops to be retained for this purpose, and it is believed that the 1,400 men selected will be quite sufficient to protect the American legation against any force that could be brought against it. It is noteworthy, too, that the most complete arrangements have been ordered for the maintenance of the army, while care has been taken that the shells not be a shortage of ammunition, as there was in the British legation during the siege. It is estimated that about a week will be required to bring the 3,500 soldiers away from Pekin, but as the work will be made immediately it will be at least about the end of the first week in October before the movement can be completed.

ALARMING REPORTS FROM CHINA.

Count Von Waldere Finds the Situation Very Dangerous.

Berlin, Sept. 26.—Alarming reports from China have reached the German government, but they will not be published now, as Germany intends to use them during the conferences in Pekin.

Field Marshal Count Von Waldere direct that he has found the general situation much more dangerous than he had expected, as it has grown worse during the last fortnight, and the consuls in central and northern China are expecting a general uprising.

The German foreign office has received official information of the appointment of Prince Tuan as grand secretary. In reply to an inquiry as to whether this indicated a serious turn of affairs a high official of the foreign office said:

"It undoubtedly it does for those powers who want to begin peace negotiations. The appointment of Prince Tuan is now at the helm and shows that lengths the Chinese government will go in defying the powers."

GERMANY MAY DECLARE WAR.

And in This, It is Said, France Will Support Her.

London, Sept. 26.—The news from China indicates that events are rapidly drifting in the direction of war between China and Germany. "There is the best of reason for believing," says the Shanghai correspondent of the Morning Post, "that Count Von Waldere, on arriving at Taku, will present an ultimatum demanding the surrender of five leaders of the anti-foreign uprising. After a few hours' grace he will formally declare war, and, taking advantage of Germany's position as a belligerent, he will proceed to seize everything available with the German forces and fleet. It is expected that Germany will take the Wu Sung forts and the Kiangnan arsenal, thus dominating Shanghai. It is also believed that she will attack the Kiang Win forts and endeavor to seize the Chinese fleet. The French will support Germany. This is not rumor, but reliable information. Prompt action is necessary to prevent a coup which will constitute a serious menace to British interests."

Texas Floods Not Alarming.

Houston, Tex., Sept. 26.—The flood presents no alarming features. The rise in the Colorado has done no great damage save to crops and bridges. There are no reports of a further rise coming down. The bulk of the water has passed Austin, and the worst of it is past Bastrop. The reports sent out from Austin of the washing away of the towns of Marble Falls and San Saba prove to be without foundation. The first Trinity river rise is now getting into the lower Colorado, but as the people had been warned there is no loss of life reported. The Brazos is still swelling, but the water has not reached the overflow stage.

It is generally believed that the jury is hopelessly hung up and that a verdict will be found, as it is supposed the jurors are divided on the question as to Howard's guilt of innocence, and not as to the degree of punishment.

Newport News, Sept. 24.—A white man named F. Henberg, aged 60 years of age, is in jail here on the serious charge of criminally assaulting the 10-year-old daughter of John Lenz, a well known merchant. On the way to the jail the frenzied father attacked the man, and it took several men to keep him away from the prisoner. The girl at first denied that anything improper transpired, but later admitted the truth of the charge to her mother.

Buena Vista, Va., Sept. 24.—The police of Buena Vista were notified today to arrest Lovering Nappier and Archer Coleman, two young white men from Amherst county, for the murder of George Campbell on Saturday night. The information is that these men chased Campbell into the house of Robert Vints, who lives just beyond the mountain, and near Alwood, in Amherst county, and stabbed him through the heart, killing him instantly. The accused men have not yet been arrested in this city and were sometimes resisted by the fire works and Wolf mill. All parties are of respectable families.

Louisville, Sept. 25.—Dr. Hugh M. McCullough, coroner of Jefferson county, last night shot and killed George Owen, 21 years old, at the latter's home. Coroner McCullough was arrested and denied bail. The trouble that led to the shooting started about two weeks ago between the McCullough and the Owen families, which are neighbors, and came to a head yesterday over a peafowl, which escaped from the yard of Mr. Owen's house. The fowl had been given by Mrs. McCullough to Mrs. Owen, mother of the man who was killed. Mrs. Owen says Mrs. McCullough fired seven times at her with a revolver, none of the bullets hitting her.

Lexington, Va., Sept. 23.—Revenue officers have returned from a raid on Irish creek and reported the destroying of two copper stills with all appurtenances, eight or ten gallons of new brandy confiscated and 700 gallons of apple pumice destroyed. From a private tip Division Deputy Collector E. McCulloch, of Botetourt, and Raiding Deputy J. M. Coffman, of Rockingham, went to J. A. Campbell's and surrounded the house after dark. "Jack" Campbell, as he is known, was at supper, and, with four others, was held up at the muzzle of revolvers. The four men were not implicated. While the revenue men were engaged in the work of destruction "Jack" made good his escape, and has not been heard of since. He has been in business under license for many years, and the government has several times seized his plant and destroyed it for "extras."

1,000 REWARD. Gives the names of dead and living friends, tell who and when you will make a business journey, lawsuits, absent friends health or anything you know, no matter what it is. He can call up your spirit friends and show them to you. Can make them rap at around the room. He asks questions don't ask you to write names for him. Don't try to pump you in any way but tells you right on. He is thoroughly endorsed by leading spiritualists everywhere received from them a gold medal and special license to practice his wonderful powers. Credentials no one else can show, can give thousands of references to both white and colored patrons. Twenty-five years practice—seven in Brooklyn—will show you that he can do all that he can tell of. Can tell what will speedily marry with the one you love. How to be successful in all your doings if short what is to do. He succeeds where all others fail. "Positive satisfaction or no pay. Call and see. You will find it lucky to consult this Christian gentleman. He has medicine that will cure drunkenness, can be broken patient not knowing it. Thousands through him are now RICH, HAPPY AND SUCCESSFUL." with all their undertakings, while those who neglect his advice still laboring against poverty. Through his perfect and chemistry, he can impart to you a secret that will enrich the colored people and bring your friends. His aid and advice has often been solicited; the result has always been the securing of speedy and happy marriages and all your wishes. In love affairs he never fails. He has the secret of winning the affections of the opposite sex. It is the cure of spiritualism that in all large cities there are a class of persons who claim to be the girls, credentials not references. Surely the colored people are not waiting in sense as to throw their time and money on a man who claims to be a fortune teller. William D. Moore, chief and business manager of the Brooklyn, N. Y. office, writes: "I have known Dr. Shea for the past seven years. He gives a free test of his power to all. The doctor has reduced five years in New Orleans, St. Louis, Memphis and Louisville, understood thoroughly the diseases, spells or influence the race is subject to, and is now and always had a large patronage from them."
